

All Students are responsible for reading the Nassau Community College catalog and for knowing the rules and regulations of the College. Failure to read the catalog does not excuse the student from the academic and financial responsibilities and liabilities described herein.

Nassau Community College is a member of the State University of New York and is accredited by the Middle States Association of Colleges and Schools. Nassau Community is a comprehensive full opportunity College, open to all qualified applicants. Nassau Community College does not discriminate on the basis of race, religion, sex, sexual orientation, color, national origin, age, disability, marital status, physically challenged status or status as a disabled or Vietnam-era veteran in admissions, employment and treatment of students and employees.

Email: Students' Official College Notification

Nassau Community College uses email as an official means of communication with students. The College can convey relevant application, testing, advisement, registration, academic and administrative information to targeted student populations using their NCC Student email account. Students are responsible for checking their email account regularly so as not to miss important, time-sensitive, College communications.

All applicants receive an NCC Student Email account when they apply, and it is retained for one year after their last active registration.

Any questions concerning this policy or allegations regarding compliance should be directed to:

Associate Vice President for Equity Inclusion, Affirmative Action ADA/504 Officer
Nassau Community College
One Education Drive, Garden City, NY 11530-6793

This catalog is current as of August 1, 2023. Nassau Community College reserves the right to make changes in programs, policies and regulations, as conditions change and such revisions are needed, subsequent to publication.

Any questions concerning changes should be directed to:

Office of the Vice President of Academic Affairs
Nassau Community College
One Education Drive, Garden City, NY 11530-6793

About NCC

One of every five college-bound high school graduates in Nassau County makes Nassau Community College his/her college of first choice. For most, NCC is the start of an experience that will lead to four or more years of advanced learning. For others, earning the two-year Associate Degree will lead to employment in the regional job market.

Sharing the classrooms are a growing number of more mature students. Some are attending college for the first time, others returning for specialized training that often leads to career change or advancement. More than a quarter of today's student population is over the age of 27. The College serves these "non-traditional" students with special adult orientation and advice from enrolled adult students.

NCC: PAST, PRESENT AND FUTURE

Nassau Community College was created as part of the State University of New York by the Nassau County Board of Supervisors on February 9, 1959. When the College opened in a wing of the County Court House in Mineola on February 1, 1960, it had only 632 students.

Enrollment increased dramatically after 1962, when classes were moved to spacious facilities at the former U.S. Air Force base at Mitchel Field. It reached over 23,000 students in 1982, following the completion in 1978 of two new academic wings, a modern library, physical education complex, and administrative tower. Despite fewer high school graduates today, 23,404 students were enrolled in the Fall of 2014.

In January 1997, a new Social Sciences and Visual Arts Building opened, and in September of the same year the new 85,000-square-foot College Center became operational.

Having opened for classes in fall 2012, the 72,000 square foot Life Sciences Building, which houses the Chemistry and Nursing programs as well as common use classrooms, is the recipient of the LEED Gold certification by the US Green Building Council. The Life Sciences Building includes state-of-the-art organic and inorganic chemistry laboratories as well as advanced simulation laboratories modeled after modern hospital rooms for our nursing students. Every classroom is equipped with the latest digital audio visual resources to facilitate active learning.

In the fall of 2016, the new Student Service Center opened. It is a 30,000 square foot facility which houses all major student enrollment services – Admissions, Advisement, Placement Testing, Registrar, Bursar, Financial Aid, Student Financial Affairs, ID Card issuing, Information Services and the Educational Opportunity Program (EOP) for NCC. The facility features a fully automated queuing system speeding up student registration and drastically reduce wait time. The Center includes information kiosks, self-service stations, and television monitors to keep student up to date on important college news.

As the needs of a maturing Nassau County change, the College, too, is evolving and developing. Among recent initiatives is a college-wide retention committee that is committed to finding ways of increasing the College's retention rate. The committee is represented and administration.

To help students expand their opportunities for easy transfer, the College engages in a cooperative effort with its SUNY/Long Island neighbors and the private colleges and universities that comprise the Long Island Regional Advisory Council on Higher Education. In addition, NCC recently updated its degree audit program to the very popular DegreeWorks program as part of a SUNY wide initiative which enables students to stay aware of degree requirements, perform what-if scenarios, and eventually be to see how credits will transfer for students staying in the SUNY system.

ACADEMICS

Nassau Community College, the largest single campus community college of SUNY's 30 community colleges, enjoys a nationwide reputation for academic excellence and ease of transferability to four-year schools. Nassau's faculty is one of the best in New York State, having a higher than average number of Ph.D.'s and Ed.Ds and one of the lowest teacher/student ratios. The modern campus includes a library with sophisticated audio-visual facilities, as well as classroom/laboratory wings equipped with personal computers and state-of-the-art apparatus for instruction in over 70 different fields of study in business, fine and performing arts, health-related sciences, liberal arts and sciences, mathematics/computer processing, natural sciences, engineering technologies and social sciences. Weekend, evening and Distance Education courses are available as well.

CAMPUS LIFE

At Nassau, the hours spent outside the classroom are as important as those spent in study. Students may join a club or create one, run a newspaper or run for office, book a band or play in it, deejay or dance, act or interact, work or play. The extensive campus life at Nassau Community College offers students the opportunity to sample their career choices or explore recreational areas of interest. Nassau campus life offers over 100 clubs to join and numerous recreational and social events to attend. Spring, summer, winter or fall, Nassau Community College offers students an outstanding array of activities for relaxation and personal growth.

ATHLETICS

Expert coaching in the finest indoor and outdoor athletic facilities has made the men's and women's varsity teams at Nassau a dominant force in the National Junior College Athletic Association. Individual athletes have gone on to prominence at senior colleges and universities, as well as in professional sports and as coaches and physical education teachers.

ACCREDITATION

The College is accredited by the Middle States Commission on Higher Education
3624 Market Street, 2nd Floor West, Philadelphia, PA 19104
Telephone: 267.284.5000

E-mail: info@msche.org **Spanish:** espanolinfo@msche.org

The College is authorized by the New York State Board of Regents and by the New York State Department of Education to award two-year Associate Degrees in Arts (A.A.), Science (A.S.), Applied Science (A.A.S.) and Associates of Occupational Studies (A.O.S.), and is also authorized to award Certificates for programs of study of less than two years. Specific academic programs are also accredited separately by appropriate professional organizations, including the following:

- ACEN - Accreditation Commission for Education in Nursing, Inc. (Phone: 404.975.5000, Fax: 404.975.5020);
- Accreditation Review Council on Education in Surgical Technology and Surgical Assisting;
- American Bar Association, Standing Committee on Paralegal Approval Commission;
- American Board of Funeral Service Education, Mortuary Science AAS;
- American Health Information Management Association;
- American Registry of Radiologic Technologists
- American Physical Therapy Association, Commission on Accreditation in Physical Therapy Education;
- Commission on Accreditation for Health Informatics and Information Management
- Commission on Accreditation of Allied Health Education Programs
- Commission on Accreditation for Respiratory Care;
- Engineering Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.;
- Joint Review Committee on Education in Radiologic Technology, New York State Department of Health;
- National Accrediting Agency for Clinical Laboratory Science, Commission on Accreditation.

STUDENT LIFE

EXPECT A GREAT COMMUNITY: After all, community is our middle name. The NCC campus practically spills over with activities and events. And we understand that you're busy. It's why we work hard to bring fascinating people to the campus, free or low-cost events, and programs that you'll find worthwhile. Because although we can't add extra hours to your daily life, we can add life to your hours.

CONTINUING EDUCATION

Ever notice how the most energetic and happy people tend to be the ones who also love to keep learning new things? We have. In fact, we see at least 15,000 of them every year in Nassau Community College's Continuing Education classes. They take advantage of our more than 300 Lifelong Learning courses to sharpen their skills, gain professional competencies or just indulge in a hobby they've always wanted to try.

PROGRAMS TO ADVANCE YOU

So, here's a question: Where do you want to go? Whether your ultimate goal is a new career, a promotion, transfer to a four-year college, or getting more enjoyment out of life, the way to get there is Nassau Community College. NCC offers three different degrees, plus special certificate programs. Course schedules are flexible enough to work around your busy life.

Begin with excellent programs in more than 70 fields of study. You'll learn from faculty who are all about making connections in their fields and in their classrooms. You'll get experience in first-class facilities using the cutting-edge equipment and technology that you can expect to find in your career. And you'll have opportunities for internships, practica, and study abroad, all at a remarkable value. Talk about advanced!

AFTER NASSAU

Nassau Community College students exceed the national average of transfer to four-year colleges and universities. Our students arrive at their four-year institutions as juniors, fully prepared for the next leg of their educational journey. Plus, they've saved a bundle on tuition while at NCC. Get the straight story on how easy NCC can make your transferability.

AWARD-WINNING SCHOLARS. DEDICATED MENTORS.

Our full-time faculty rank at the top. They're first among the community colleges in New York State for the number of faculty members who receive the SUNY Chancellor's Award for Excellence in Teaching. They hold doctorates at twice the national average for community colleges. And they're in your classrooms every day, every night and every weekend. Talk about dedication!

Mission

Nassau Community College offers students high-quality, flexible, and equitable educational opportunities, combined with co-curricular learning experiences, continuing education, and professional development opportunities. Distinguished faculty and dedicated staff provide students with a solid foundation for future success and prepare them to enrich our community, economy, and society. We are committed to diversity, equity, and inclusion in all that we do for all whom we serve.

OUR GOALS

- Goal 1: Equitable Student Opportunities
- Goal 2: Academic Excellence and Student Support
- Goal 3: Student Persistence and Post-Completion Success
- Goal 4: High School, Community, Business, and Industry Partnerships

OUR VALUES

- **ACADEMIC EXCELLENCE:** We strive for quality and distinction
- **COMMUNITY:** We build and nurture community, business, and industry partnerships
- **DIVERSITY, EQUITY, & INCLUSION:** We respect and celebrate the differences among us and support social justice
- **INTEGRITY:** We value fairness and honesty

GOVERNANCE AND AUTHORITY

It is the Academic Senate of Nassau Community College that shall provide the College community with a voice in general educational goals and policies as well as other matters of concern to the College community. The Academic Senate shall have responsibilities and powers in the following areas unless otherwise restricted by law and the provisions of the Collective Bargaining Agreement:

- a. To examine, approve and recommend curriculum for examination by the President and the Board of Trustees;
- b. To recommend requirements for admissions, degrees and graduation;
- c. To formulate and propose academic College policies including policies on class size, academic advisement, educational TV and academic calendar for the consideration of the President and the Board of Trustees;
- d. To provide a forum for the consideration of academic matters of interest to the College community;
- e. To formulate and propose policies in those aspects of student life which relate to the educational process.

The ultimate authority for College operation is vested in the Board of Trustees, five of whom are appointed by the Nassau County Executive and four by the governor of New York. A tenth member is elected annually by the student body.

President's Message

Welcome to Nassau Community College, a unit of the State University of New York (SUNY). As the largest single-campus community college within SUNY, Nassau offers a comprehensive range of academic programs and career development opportunities. Here at NCC, you will find an experienced and knowledgeable faculty and staff who will guide you on your path to achieving your academic and personal goals. To this end, Nassau has graduated over 160,000 individuals who are now part of the economic workforce engine that drives not only Nassau County but New York State. Their careers are shining examples of what a degree from Nassau can hold for you upon graduation.

Whether you study full-time, part-time, day, evening, or on weekends, I encourage you to take advantage of the many curricular and co-curricular programs the College has to offer. Our College Catalog reflects the College's dedication to fulfilling its mission of transforming lives and assisting every County resident in reaching their personal goals. We stand by our commitment to offer an affordable, accessible, high-quality education to the communities that we serve.

As a proud graduate, I hope that your experiences at NCC provide you with the same exciting opportunities as they presented to me.

Sincerely,

Maria P. Conzatti, Ed.D.

Chief Administrative Officer

THE NCC CAMPUS

Location and Resources

The 225-acre campus is located in central Nassau County and is easily reached from the Meadowbrook Parkway (Exits M3 and M4) or from entrances on Stewart Avenue and Hempstead Turnpike.

Students attend classes in modern classroom wings and in picturesque older buildings once used by the U.S. Army and Air Force. Students have access to the latest available equipment for teaching health sciences, engineering technologies, marketing and business, computer technology, liberal and fine arts, mathematics and sciences, and the performing arts.

Central to the campus is a plaza which connects a 12-story Administrative Tower containing many campus offices, including Admissions, Registrar, Bursar, Financial Aid and others; an extensive Library (described under "Learning Resources"); and a 192,000 square-foot Physical Education Complex, which is one of the finest in the Northeast, and includes swimming and diving pools, a gymnasium, a fieldhouse, saunas, and specialized rooms for wrestling, dance, gymnastics and indoor ball games.

The Social Sciences and Visual Arts Building (Building G), which opened in January 1997, is where 9,000-10,000 students attend class. The departments of Art, Criminal Justice, Economics, History/Geography/Political Science, Psychology and Sociology hold their classes in this space. The Social Sciences and Visual Arts Building has 37 classrooms and two state-of-the-art lecture halls.

In September 1997, the new 85,000 square-foot College Center (CCB) opened. The Center accommodates student activities, student government, the Faculty-Student Association, various student clubs, and conference facilities. The central meeting area is a multi-purpose room designed to accommodate banquets, theatrical productions, film and video, dances, and large meetings. Several study lounges and two conference rooms are located on the second and third floor, along with a dark-room and computer area for the student newspaper. Still planned for future construction are a Theatre and Performing Arts complex, and improved public spaces and walkways.

Information Services Center

The Information Services Center, located on the plaza level of the Administrative Tower, is open five days a week to answer questions about the College and to direct visitors and students. The Information Center can be reached by phone at 516.572.7501, TTY: 516.572.9882, or fax: 516.572.3557.

Smoking Prohibited

Nassau Community College has been designated a smoke-free facility the Nassau County Commissioner of Health. The College asks that no one smoke in any campus building, a request made to protect the health of smokers and nonsmokers alike.

Bus Service

Public transportation to the College is available. Route and schedule information may be obtained seven days a week by calling the Bus Information Center at 516.228.4000.

Public Safety Department

The Public Safety Department is located at the East end of the parking lot West 4B and is staffed 24-hours a day, 7 days a week. Public Safety provides foot and motor patrols of the campus around the clock and responds to emergency situations such as accidents, fires and medical emergencies, as well as reports of criminal activity.

Information regarding campus crime statistics as reported to the United States Department of Education will be provided upon request by contacting Public Safety at 516.572.7100, the Office of the Vice President for Academic/Student Services at 516.572.7600, or accessing this information directly at <https://ope.ed.gov/campusafety>.

We are committed to the safety and security of all members of the campus community. In an effort to make ourselves more available to the needs of the campus, bicycle patrols have been added.

Other services offered by Public Safety are:

- Issuance of College identification cards
- Issuance of faculty/staff parking permits
- Lost and Found Service
- Investigation of complaints, criminal activity and safety issues

You can contact Public Safety at:

- Emergency: 516.572.7111
- General Calls: 516.572.7100
- Or pick up any of the emergency telephones located throughout campus for assistance.

A. Holly Patterson Library

The **A. Holly Patterson Library** supports students in an active learning environment, providing research assistance and access to information in multiple formats produced worldwide. Group and individual study spaces, anatomy and physiology models, reserve copies of current textbooks, over 200 computers for student use, and information literacy instruction conducted in electronic classrooms round out the Library's offerings.

When classes are in session, the Library is open over 70 hours per week with night and Saturday coverage. Over 483,000 persons visited the library last year. They borrowed books and non-print items; used periodicals and reference works in print and online formats, as well as reserve copies of textbooks and other required materials; accessed the Internet; and used the library's facilities for group and individual study. Over 4 million database searches were conducted, resulting in almost 388,000 document downloads. In addition, our participation in the interlibrary loan network allowed us to acquire needed items from other libraries while we supplied their patrons with requested items.

The physical collection now numbers over 210,000 books and non-print items and over 100 print periodical titles. Electronic database subscriptions, accessible from any computer through the Library's webpage, allow for ready access to information published in thousands of newspapers, journals and reference works in full-text, audio and video online formats.

By taking advantage of several resource sharing projects, Nassau offers access to a wide array of electronic information sources. The New York State Library's Novel project provides library users with a wealth of full-text journal and newspaper articles. Nassau Community College belongs to the State University of New York's SUNYConnect program that provides seamless access to a worldwide virtual library of information to any SUNY student, at any computer, anywhere. Additional resources are also made available through Nassau's membership in the local library consortium, the Long Island Library Resources Council.

The Library's Reference Unit is pleased to offer several online services through the Library's website. By clicking on our "**Ask a Librarian**" link, members of the College community may chat with a librarian whenever the Library is open or post an e-mail reference question and receive a response within 24 hours. Our "**Interlibrary Loan**" link allows faculty, staff and students to submit Interlibrary Loan requests for books or periodical articles. Furthermore, our "**Book a Class**" link allows faculty to make online requests for Information Literacy instruction sessions.

A principal part of the Library's mission is instruction. Library faculty provide individual information service in all public service areas throughout the year. Our Information Commons currently houses over 200 public access computers used by students for research. In addition, students may use the wireless internet network with their own laptops, tablets, and other electronic devices. The Library also offers individually designed lectures on library research to college classes, typically serving students by teaching 400-500 scheduled sessions per year. Classes are typically taught in a lab-style lecture room featuring 30 student computers for hands-on instruction. In addition, librarians teach several sections of the three-credit course, "*Introduction to Library Research*" and the one-credit course, "*Essential Research for College Success*," each semester.

The Library is housed in a four-story building located between Clusters A-D and E-F.

Academic Support Centers

Available to All Students

Academic Advisement Center

516.572.7118 - Bldg. U

Offers academic advisement for General Liberal Arts majors. Specific program majors go to department of major for advisement.

Student Personnel Services

516.572.7506 - Nassau Hall Rm. 11

SPS offers a variety of counseling services and programs designed to support student academic achievement and personal growth. Call, stop by, or view SPS Department Home Page on the College website for more information about these services.

Adult Resource Center

516.572.7103/07 - Bldg. M 14

516.572.7696/97 - Bldg. M 14

Center for Students with Disabilities

516.572.7241/42

(TTY for hearing impaired) 516.572.7617 - Bldg. U

Educational Counseling

516.572.7141 - Bldg. M 19

Student Professional Development and Employer Services

516.572.7132 - Bldg. M 39

Psychological Counseling

516.572.7698 - Bldg. M 9

Student Activities

516.572.7148 - CCB 150

Transfer Counseling

516.572.7127/28 - Bldg. M 4A

Women's Resource Center

516.572.7698 - Bldg. M 9

Learning Centers/Help Centers

Nassau Community College provides a variety of designated Learning or Help Centers to assist students in all curricula when extra or supplementary course work is needed or required. The activities in these Learning/Help Centers include services for students in virtually all credit and non-credit programs. The following Learning and Help Centers are available: Accounting; Administrative Business Technology; Allied Health Science (Physical Therapy, Radiologic Technology, Respiratory Therapy, Surgical Technology); Fashion Design; Art; Biology; Chemistry; Communications (ESL); Economics; Engineering; English (Writing Center); Foreign Language Learning Center; Hospitality Business; Interior Design; Legal Studies; Marketing/Retailing; Math/Computer Science/Information Technology; Music Learning Center; Nursing Laboratory and Resource Center; Reading Learning Center; Reinforcement Learning Center and, for Critical Reading and Academic Advancement students, a reading, writing and mathematics learning center.

Reinforcement Learning Center: The Reinforcement Learning Center, (Cluster A, Room 115), is open Monday through Saturday and is staffed by technical assistants who offer reinforcement for all subjects taught in the Administrative Business Technology/Health Information Technology Department. Students in need of assistance in various software programs or who wish to reinforce skills are encouraged to use the Reinforcement Learning Center. For more information, call 516.572.7288 ext. 26290. For advisement, email the Administrative Business Technology/Health Information Technology (ABT/HIT) Department at Admin.Bus.Tech@ncc.edu.

Information Commons: The Information Commons, (Library, 1st floor), provides computers with Internet access and Microsoft Office applications (Word, Excel, Power Point, and Access) for all students to use. For more information, call 516.572.7620

Academic Computer Center - Social Sciences: Located in Builign G, room G145, the Academic Computer Center provides computers with Internet access, Microsoft Office applications (Word, Excel, Power Point, and Access), and program-specific applications. Primarily, students taking social science courses use the center. For more information, call 516.572.9662.

Writing Center: The English Department's Writing Center offers individualized and group instruction to all students at basic to advanced levels in expository and creative writing, research and documentation, as well as grammar and usage. Drop-in sessions, appointments, and online e-mail tutoring are available.

516.572.7195 – Bldg. Y (Bradley Hall)

516.572.3595 – Library L233

Learning Centers by Program

Accounting, Business and Legal Studies Learning Center

516.572.7479 - Building A 307

Provides tutoring for accounting and business courses and computers with Internet access and accounting and business related software.

Administrative Business Technology/Health Information Technology

516.572.7288 ext. 26290 -Building A 115

Provides reinforcement for Administrative Business Technology/Health Information Technology students in Microsoft Office applications (Word, Excel, Access, Power Point), keyboarding, transcription, desktop publishing and applications used in the HIT program and medical office.

Allied Health Sciences Anatomy and Physiology

56.572.7550 -Building E 2225 and Library 102

Offers extra help by faculty and use of Anatomy and Physiology labs for students in anatomy and physiology courses.

Physical Therapist Assistant

516.572.7556 -Building E 211 A

Offers tutoring and program specific computer learning software for physical therapist assistant students.

Radiologic Technology

516.572.7559 -Building E 120

Provides tutoring and program specific computer learning software for radiologic technology students.

Respiratory Care

516.572.7560 -Building E 218

Provides tutoring and program specific computer learning software for respiratory care students.

Surgical Technology

516.572.7299 -Building E 312

Offers tutoring, practice labs, and program specific computer learning software for surgical technology students.

Art

Ceramics

516.572.8040 - Building G 178

Offers hours for students in ceramic and sculpture courses to work on their projects.

Computer Graphics

516.572.8068 - Building G C55/45/50

Offers hours for students in computer graphics and other art courses to work on their projects.

Photography

516.572.7166 - Building G C20/23

Offers hours for students in photography courses to work on their projects.

Printmaking

516.572.9653 - Building G 272

Offers hours for students in printmaking, and students developing art portfolios to work on their projects.

Biology

516.572.7839/8078 - Building F 107

Provides tutoring and supplemental assistance for students in biology courses.

Chemistry

516.572.7015 - Building LS124

Offers tutorial services, textbooks and solution manuals, self-help worksheets, computers (must bring flash drive) for students currently enrolled in chemistry courses. Staff is not permitted to help with laboratory assignments.

Communications

516.572.9671 - Building F 117

Offers computer-assisted instruction for students in advanced ESL communications courses, tutoring for students in American Sign Language courses and audio/video supplementary materials and software programs for communications classes.

Engineering/Physics/Technology

516.572.7272 - Building D 218

Offers tutoring to students enrolled in courses in the department. Day and evening hours are available; call department for times.

The Language Center of Lifelong Learning

516.572.7062 - Building F 307

Offers individual and small group tutorial sessions to students enrolled in The Language Center of Lifelong Learning.

Foreign Languages

516.572.7416 - Building M 15

Offers tutoring, audio, video, computer-assisted foreign language learning materials, and access to the Internet for students enrolled in any foreign language course.

Hospitality Business

516.572.7344 - Building K 5

Offers hours for students to work on their projects.

Interior Design

516.572.7587 - Building A 207

Offers hours for students to work on their projects.

Legal Studies

516.572.7774 - Building A 107

Offers tutoring as well as other learning aids for students enrolled in Law courses. Access to Lexis Advance. Day, evening and weekend hours; call department for times.

CSD Computer Access Lab

516.572.7670 - Library 214A

Provides adoptive computer systems for students registered with the Center for Students with Disabilities. For more information, contact the Center for Students with Disabilities at 516.572.7241/42.

Marketing/Retailing/Fashion

516.572.7588 - Building A 213

Offers tutoring in Marketing 101 and Retailing 111.

Fashion Design

516.572.7588 - Building A 217

Lab hours available

Mathematics/Computer Science/ Information Technology**Computer Learning Centers**

For students enrolled in computer courses.

51.572.7379 - Building B 225

Provides walk-in help with assignments, tutoring by appointment only, help classes in fall and spring semesters, computers with program specific applications and review sessions for students enrolled in Math Department computer courses.

Math Center

For students enrolled in math courses.

516.572.7394 - Building B 130

Offers brief walk-in individual help, topical help classes (fall and spring semesters only), thirty-minute tutoring sessions by appointment only, text answer books, self-help worksheets, and videotapes for specific courses for students enrolled in mathematics courses.

Math Success Center

For students enrolled in MAT 001, MAT 002 or MAT 003

516.572.6878 – Building B 116

Offers walk-in individual help

Math Anxiety Center

For students who have a fear of mathematics or are anxious of their math ability

516.572.6873 – Building B 126

Offers individual help by appointment for students enrolled in mathematics courses

Music

516.572.7446 ext. 25898 - Building V Provides pianos for practice for students in piano courses.

Tutorial Center 516.572.7446 ext. 25898 - Building V Offers tutorial help for students in music classes. Hours by appointment only; call Lab.

Sound Recording Lab 516.572.7446 x 25892 Building V 202 Provides tutorial help for students in Studio Recording Technology courses. Hours are by appointment only; call Lab.

Nursing

516.572.9630 - Life Sciences Building

Nursing Learning Center - Life Sciences Building 323

Provides students with opportunity to enhance skills.

Computer Learning Center - Life Sciences Building 324

Offers web-based computer assisted programs.

Physical Sciences

For students enrolled in Physical Sciences (SCI) courses.

516.572.7010/7278 – Building C 216

Offers tutorial assistance with Physical Sciences lecture and lab topics. Hours for the fall/spring semesters will be posted outside the door of room C 216.

Reading/Basic Education

516.572.8979

Basic Education Reading/Writing Learning Center

Building V 110

Offers tutoring in reading and writing, computer assisted learning programs word processing and Internet access for students enrolled in Basic Education Program reading and writing courses.

Basic Education Math Center

516.572.8046 - Building V 112

Provides tutoring and computer assisted math learning programs for students enrolled in Basic Education Program math courses.

Basic Education Center for Students with Disabilities

516.572.8975 - Building V 111

Provides tutoring accommodations and assistive technology for students with disabilities enrolled in Basic Education Program courses.

Reading Help Center

516.572.7464 - ext. 25359 (Building M 207), ext. 25360 (Bldg M 209)

Offers tutoring and computer reading programs for students enrolled in Reading 001, 002 and ESL Reading courses.

Contact the particular Learning Center for Summer and Winterim session hours Centers are closed on holidays and holiday weekends. Centers are available to current NCC students alumni, and senior observers enrolled in courses.

Organizations & Affiliations

Alumni Association of Nassau Community College, LTD

The Alumni Association of Nassau Community College, Ltd., a not-for-profit corporation, was founded in 1985 to create and maintain, among the College's graduates, an abiding sense of personal commitment to the life and growth of Nassau Community College.

The Alumni Association is a self-sustaining organization whose officers, directors, and membership is composed of dues-paying graduates of Nassau Community College.

Membership is open to all degree and certificate recipients of Nassau Community College. Lifetime membership dues are \$50.00. Membership dues are primarily used to fund the Association's scholarship program.

The scholarship program provides funds for students attending the College. The Association strives to increase the number of scholarships each year. The present goal is to award a scholarship to a student from every high school in the County who plans to enroll at Nassau Community College.

Nassau Community College Foundation, Inc.

The Nassau Community College Foundation is an eleemosynary corporation formed to promote the interests of the College. The Foundation is structured to meet the ever-increasing demands of the future by providing an independent avenue to receive philanthropic aid, which assists in the continuing development of the College and its varied programs. The Foundation may accept, hold, invest, reinvest and administer any gifts, bequests, or trusts which benefit the College.

The Foundation disburses funds for the purposes of scholarship awards to students, faculty development programs and various activities which enrich the educational programs of the College. In some instances, the Nassau Community College Foundation functions as the fiduciary agent for the receipt of grants written by faculty and professional employees.

The primary focus of the Foundation's activities is the scholarship program. Direct support to students assists in the fulfillment of their educational goals. Through the auspices of the Foundation, scholarships are awarded to outstanding students in academic departments. Additionally, programs in faculty development, leadership and cultural activities are undertaken through the efforts of the Foundation Board.

The Foundation is governed by a Board of Directors composed of prominent members of the business and professional community, each of whom is dedicated to the goals of higher education and the success of Nassau's students.

The State University

The State University of New York (SUNY) encompasses 64 geographically dispersed campuses (both two and four-year) that bring educational opportunities to virtually all New York citizens. It comprises the nation's largest centrally managed system of higher education. Nassau Community College is the largest single campus of 30 two-year colleges operating under the system. When founded in 1948, the State University of New York system consolidated 29 Stat-operated, but unaffiliated, institutions whose varied histories of service dated as far back as 1816. SUNY has grown to a point where its impact is felt educationally, culturally, and economically the length and breadth of the state. As a comprehensive public university, SUNY provides a meaningful educational experience to the broadest spectrum of individuals. Just under 428,000 students (full and part-time) are pursuing traditional study in classrooms or are working at home, at their own pace, through such innovative institutions as Empire State College - for over two decades, a leader in non-traditional education, distance learning and assessment of prior learning.

SUNY's students are predominantly New York State residents, who represent more than 95 percent of the University's under-graduate enrollment. Approximately one-third of all New York State high school graduates continue on to a SUNY institution. Nassau Community College has the highest number of minority students among SUNY's community colleges. Approximately one-third of the total enrollment is 25 years of age or older, reflecting SUNY's services to specific constituencies, such as training for business and industry, continuing education, and a wide array of community services to promote both personal enrichment and professional growth.

The State University is governed by a Board of Trustees, appointed by the Governor, which directly determines the policies to be followed by the 34 state-supported campuses. Community colleges have their own local boards of trustees whose relationship to the SUNY board is defined by law.

The University motto is:

"TO LEARN...TO SEARCH...TO SERVE"

Student Services

The Dean of Students is located in the College Center Building Room 312 and is responsible for most student support services. Students requiring assistance with general student advocacy or special problems, should contact this office.

In addition, services are provided to students by the Office of Health Services, the Department of Student Personnel Services and the Academic Advisement Center.

Academic Advisement

The mission of the Academic Advising Program at Nassau Community College is to assist students in the development of meaningful educational plans that are compatible with their goals. Further, it is to fully inform students regarding requirements in their areas of concentration and expose students to the variety of course and degree options offered by the College. This should take the form of an ongoing discussion between advisor and student, beyond merely a consideration of selecting courses for registration.

The Office of Academic Advisement, located in the Student Services Center, is the primary academic advisement provider for liberal arts and undecided students. The Center is staffed by a core of trained professional advisors and teaching faculty. Students in programs other than Liberal Arts should contact their academic department to inquire about advisement opportunities, although general advisement information is always available during business hours.

The Center notifies new students of advisement information via their NCC email. Current and returning students are seen on a walk-in basis.

- NCC photo ID card or Government-issued photo ID is required for sign-in. Students will be advised in the order they have arrived.

Although the Office of Academic Advisement is available as a resource to all students, there are some exceptions with regard to advising procedures and locations.

Exception by Number of Developmental Courses to be completed:

- Currently attending or returning Liberal Arts students with two or three developmental courses to be completed should contact the Department of Student Personnel Services for advisement information. Call 516.572.7506 for hours, or visit Building M (Nassau Hall), Room 11.

Exception by Academic Standing:

- All Liberal Arts Students on "Academic Warning" should contact the Department of Student Personnel Services for advisement information. Call 516.572.7506 for hours, or visit Building M (Nassau Hall), Room 11.
- All students on "Academic Probation", regardless of major must see a counselor from the Center for Educational and Retention Counseling Center (CERC) for advisement, located in Building M, Room 19. Please call for hours at 516.572.7141.

Adult Resource Center

An Adult Resource Center meets the special needs of adult students (defined as those 25 years of age or older). The objective of these services is to assist adult students to evaluate their own potential and special needs through counseling, testing and advisement. Students will also be assisted in scheduling their courses to meet their individual needs. Courses are available, day, evening, weekends, online, on the air, and through independent study.

Support services are also available for financial aid, career and transfer counseling, job placement and child care. For further information call the Adult Resource Center Coordinator, Professor Robert Rubin, at 516.572.7103 or visit our center at Nassau Hall, room 19.

Career Counseling Center

The Career Counseling Center, located in Building M, Room 14, is staffed by professional career counselors who provide counseling and vocational testing for students seeking to make career decisions. The center houses a career information center which contains resource materials including videos books, magazines and an extensive pamphlet file on a variety of career fields. The center sponsors career planning workshops and special career programs throughout the year. For a detailed description of services special events and office hours, individuals are encouraged to visit the Center's website or to call us at 516.572.7696.

Center for Applied Learning (CAL)

The Center for Applied Learning seeks to reinvigorate the civic mission of higher education and instill in students a sense of social responsibility and civic awareness. It is a pedagogical tool which encourages students to learn and explore issues vital to society, inside and outside the classroom. Students learn from engaging with communities by active participation. Faculty and staff guide students through this process through structured reflection and the integration of theory and practice.

Applied Learning can take place through partnership with charities, non-governmental organizations, statutory bodies, community agencies or organizations with a focus on social responsibility.

The Center is in the Student Services Center, Suite 111, Tower Building. Call 516.572.9775 for information and office hours.

Center for Educational & Retention Counseling

Earning a college degree requires the student to make a commitment to academic achievement and to make the necessary educational decisions. Educational counselors assist all students with wide range of concerns from educational decision-making to personal, social or family problem solving.

CERC counselors offer help in the following areas:

- counsel students with low grade point averages
- educational planning
- study skills enhancement
- changing area of concentration (major)
- review of academic standing
- test anxiety and relaxation techniques
- life skills - balancing life, work and home
- clarifying goals and decision-making

The center is located in Building M, Room 19, 516.572.7141. Visit the CERC website for more information.

Center for Students With Disabilities

The College provides the following support services for students with documented physical, hearing, visual, psychiatric, and learning disabilities:

- academic, career and personal counseling removal of architectural and attitudinal barriers
- priority registration
- group tutoring in math, organizational and study skills
- appropriate classroom and testing accommodations
- sign language interpreters
- adapted computer access
- cultural program
- referrals to other campus services
- clarifying goals and decision-making

The Center is located in Building U, 516.572.7241. Call for office hours or visit the Center for Disabilities Website.

It is the responsibility of the student to identify himself or herself as disabled upon entrance to the College, by notifying the Center for Students with Disabilities. Since each type of disability varies, the documentation needed by the CSD office will also vary. Individuals needing accommodations are strongly encouraged to contact the Center for Students with Disabilities, which is located in Building U. The Center can be reached by voice telephone at 516.572.7241 or TTY at 516.572.7617.

Center for Veterans & Military Affairs

The Center for Veterans/Military Affairs assists students in obtaining the education benefits to which they are entitled to from the Department of Veterans Affairs. In addition, the Center provides information and referrals to various services designed to help veterans make a smooth and productive transition from military to college life. Services include: how to apply to the College, utilizing financial resources including Post 9/11 GI Bill®, counseling referral, and assistance with scheduling.

The Center is in the Student Services Center, Suite 111, Tower Building. Call 516.572.9775, for information and office hours.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Child Care Services

The Children's Greenhouse is a not-for-profit child care center providing quality child care to NCC students and other members of the College community since 1979. The Center enrolls children between the ages of 8 weeks and 5 years of age in six age-related groups.

The Children's Greenhouse is *licensed* by New York State Office of Children and Family Services and is staffed by professionals who provide a safe, nurturing and educational experience for the children who attend.

Fees are charged on a sliding scale based on family income and subsidies are available for eligible student parents. Families are accepted from the waiting list based on date of application, scheduling needs and the age of the child. Call 7614 for information and an application packet.

Phone Number: 516.572.7614

Hours of Operation

Fall and Spring Semesters:

Monday and Wednesday – 7:15 am to 8 pm

Tuesdays and Thursdays – 7:15 am to 8:30 pm

Summer Sessions:

Monday to Thursday – 7:15 am to 5:30 pm

Financial Aid Office

Nassau Community College Financial Aid Office is happy to offer eligible students federal and state aid to assist in paying for their college education. Visit ncc.edu/financialaid to find out more about the different grants, scholarships and loans available. The Financial Aid Office is located in the Student Services Center, lower level of the Tower building. Questions? Ask Leo, our chatbot or email financialaid@ncc.edu. For your convenience, you may schedule a zoom appointment with one of our experienced financial aid counselors.

Health Services

The Student Health Office is located next to the “U” building and the NCC Theatre. The Health Records Office is located in the Student Service Center in the lower level of the tower and is open during peak registration times. Students can submit their immunization records at the Health Records Office and the Student Health Office. The Student Health Office is staffed by registered nurses. Hours are Monday through Friday from 8:00 am to 3:45 pm. Please arrive 15 minutes prior to closing.

New York State Public Health Law requires that students born on or after January 1, 1957 and enrolled in six or more credits must file proof of immunizations against measles, mumps and rubella and complete a meningitis survey. **Failure to comply with this law will result in a student’s disenrollment from classes without a refund of tuition and fees.**

The Student Health Office provides emergency, urgent care to students. Consultations and referrals to appropriate health facilities are made for students. Over the counter medications (OTC) are available to students 18 years and older. Consent forms for students under 18 years of age are available to be notarized by a parent/guardian to receive care and OTC medications.

Health related literature and pamphlets are available. Immunizations forms, physical education waivers (gym waivers), allied health, nursing, mortuary science and all sports physical exam forms are screened by the staff nurses. Health insurance information is available at the Student Health Office. Accident claim forms are available to student athletes who have been injured while participating in an NCC sponsored activity. For additional information, please visit the Health Services website or call us at 516.572.7123.

International Student Services

The Office of International Student Services, provides services to F1 non-immigrant students attending Nassau Community College, including those enrolled in the LINCC (Language Immersion at NCC) program.

Services include F1 visa/status advisement for students in their home countries, advisement of international transfer students, change of status and reinstatement applications, and on travel/ consular issues. Advisement on work authorization and Social Security issues is also provided. In addition, the ISS Office administers the College international health insurance program.

Applicants who will require a student (F-1) visa or status in order to attend Nassau Community College should contact the ISS office at 516.572.7053 or email us at isaoff@ncc.edu in order to obtain an Admissions Guide & Application, and the application forms necessary to secure an I-20 (the document that is required before an F-1 visa can be issued). An I-20 will not be issued until a student has been accepted into a program of study at the College.

Information can be found at on our website.

Student Professional Development and Employer Services

The Student Professional Development and Employer Services, located in Nassau Hall, Room 39, is available to assist students seeking employment and internship opportunities. The staff of trained professionals provides a comprehensive service designed to ensure placement in an employment environment consistent with individual academic interest. Workshops are scheduled each semester to assist students in developing appropriate pre-job training skills. Call 516.572.7132 or visit our website.

Media, Arts & Cultural Organizations

Theatre

The Department of Theatre and Dance presents an extensive, open-to-the-public production program which includes a children's musical, a dance concert, a joint production with the Africana Studies Department, and numerous other plays and musicals. Auditions for these productions are open to students enrolled for a minimum of credits at the College, and all interested students are encouraged to audition. Audition notices are posted on the Call Board in the Theatre (Building W).

Music

The Music Department invites students to participate in various performance groups. The following are open to all students without audition: Orchestra, Concert Band, Chorus, and Jazz Ensemble. Other music ensembles are open to students by audition: Vocal Ensemble Chamber Choir, and Chamber Ensemble. Two additional groups are limited to students in the music degree program: Percussion Ensemble and Classical Guitar Ensemble. Community members and interested high school students may join some of our performing groups. For more information, call the Department at 516.572.7446.

English

The Creative Writing Project of the English Department sponsors a wide range of activities for student writers. These include the projects of the Creative Writing Club, which produces the annual student literary magazine and holds regular meetings, public readings by students and distinguished visiting writers, group or individual use of a student publication center and resource room housing computer facilities and materials, such as recordings and magazines, and publication of an annual newsletter high-lighting campus literary events and creative work by students. In addition, the Writing Workshop of the English Department hosts ESL group meetings in which topics of current interest are informally discussed by native and non-native speakers of English. These groups are sponsored jointly by the Reading, Communications, and English Departments.

College Radio Station, WHPC 90.3 FM

WHPC, "The Voice of Nassau Community College," is on the air 24-hours-a-day, seven days a week, 365 days a year. WHPC was named 2021 winner of the "Abraham and Borst Best College Radio Station" and "Best Community College Radio Station" awards from the Intercollegiate Broadcasting System, and was a finalist for the 2019 "Best College Station" Marconi Award from the National Association of Broadcasters.

Over 75 students and 60 community volunteers contribute to the shows that are broadcast, which provide more than 60 different types of programming, from rock-and-roll, to country, to today's top-40 and even polka! Local news, public-interest interviews with authors and experts as well as NCC live sports and more are what makes WHPC a winner of awards. WHPC maintains two recording studios and two editing studios and uses the latest digital state-of-the-art equipment, which can be found in many commercial radio stations.

WHPC is a 500-watt non-commercial, non-profit radio station, serving Nassau County, Eastern Queens, and Western Suffolk County communities, licensed to Garden City, NY. WHPC can also be heard world-wide online at www.NCCradio.org, and on the Amazon Echo and Google Home smart speakers (just say "Play WHPC!"), as well as the iHeartRadio and Tune-In apps. The station provides professional broadcast training to qualified Nassau Community College students, as well as members of the community.

Students in good academic standing can apply by email at whpc@ncc.edu or by stopping by the station during normal business hours (M-F 9am-4pm). Students do NOT need to be majoring in Communications to apply—all majors are encouraged and welcome. Thanks for listening!

Art

The Art Department provides a number of cultural activities to students, the College community and the public. The Art, Photography and Computer Graphics Clubs invite guest artists to speak on campus and take field trips to galleries and museums. Other Department activities include Firehouse Gallery exhibitions by nationally and internationally known artists and craftsmen all of which are open to the public. The Firehouse Gallery also sponsors annual faculty and student shows as well as open competitions. The work of both students and gallery artists is regularly featured in the display cases in Building G as well as the College Center Building. In addition, the Art Forum lecture series sponsors demonstrations, lectures, films and visiting artists throughout the academic year.

Psychological Counseling Center

The Psychological Counseling Center offers students psychological assessment, counseling, crisis intervention and referrals to off-campus resources. To make an appointment, students can call 516.572.7698 or stop by the office in Nassau Hall, Room 9. Please visit the [Psychological Counseling webpage](#).

Student Activities

The student activity program has grown from a conviction that education is not restricted to scheduled classes, that the hours outside the classroom are of major importance and that the student activities program can give a new dimension to education. These activities expand the means through which the College educates.

The activities program is planned and implemented, in large part, by students involved in clubs and organizations. These social, cultural, and recreational activities enrich the lives of those participating and give student leaders the opportunity to plan and implement programs. This responsibility helps students build character, develop greater understanding of others, learn leadership skills, and have a greater sense of their own abilities.

To be eligible to serve as a campus-wide student leader, students must comply with the College policy on "Eligibility for Student Leadership Positions."

Call the Student Activities Office at 516.572.7148 or visit their website.

Faculty-Student Association

The Faculty-Student Association, through its board of directors, sets and administers policies for the purpose of creating and implementing programs of cultural, social, educational, and recreational value to the College community. It also allocates and disburses the student fees collected by the College in support of these programs.

The Association was organized under New York State laws in accordance with State University policy. It is a non-profit, educational membership corporation. Its board of directors is comprised of five students, five faculty members and three administrative officers. The student and faculty directors are elected, while the three administrative directors serve by virtue of their positions at the College.

College Center

The College Center Building is the hub of student activities. Social and cultural programs and a variety of recreational activities take place here. Activities include lectures, concerts and social programs. Meeting rooms, student organization offices, information areas, and counselors' offices are also located in the CCB. Call 516.572.7148 for program information.

Social Programming

The Programming Board and Nassau Concerts are responsible for the major social programs on campus. The Programming Board offers a variety of social activities including dances, film festivals, comedy programs, and holiday parties. Nassau Concerts provides a concert series with both day and evening performances.

Student Government Association

Each entering student automatically becomes a member of the Nassau Community College Student Government Association (SGA). This Association, through the Student Senate, provides for student participation in the College governance process. SGA apportions the income from student activity fees among the other student organizations, makes recommendations concerning the conduct of the student body, recommends policies affecting student life, and, in all ways, represents student interests.

Student Publications

There are two campus publications: Vignette, the weekly newspaper and the annual literary magazine produced by the Creative Writing Club.

Student Athletic Programs

The Faculty-Student Association sponsors programs in women's and men's intercollegiate athletics. The College is a member of the National Junior College Athletic Association and participates in Region XV competition.

The women's intercollegiate program has gained national prominence, fielding regional championship teams in bowling, volleyball, basketball, soccer, cross country, lacrosse, softball, tennis, and track. The women's program has won two national championships, one in soccer and one in tennis.

The men's intercollegiate program takes pride in its dominance over other junior colleges in Region XV. The men's teams have captured national titles in bowling, baseball, soccer, golf, wrestling and lacrosse, along with numerous regional titles in cross country, football, basketball, tennis, and track.

In addition, the intercollegiate Athletic Department sponsors teams in women's dance, cheerleading, and coed equestrian teams.

Eligibility

All student athletes must be registered as full-time students (12 credits or more) to maintain athletic eligibility.; Student-athletes should visit the Athletic Department office for further clarification on transfer status, Grade Point Average, and other matters.

Transfer Counseling

The Transfer Counseling Office is located on the first floor of Building M, Nassau Hall and Room 4A. Students can obtain information regarding transfer opportunities to four-year colleges and universities. Information regarding scholarships can also be obtained at the Transfer Counseling Office.

The Transfer Counseling Office schedules group meetings as well as individual appointments to discuss any transfer concerns students may have.

An annual Transfer Day program (College Fair) and annual Evening Transfer Program are coordinated by the Transfer Counseling Office. Representatives from four-year colleges and universities schedule visits to our campus through the Transfer Counseling Office. Transfer information is published weekly in the student newspaper, the Vignette.

The library in the Transfer Counseling Office has a large collection of catalogs from four-year colleges and universities. Reference materials, financial aid forms for transfer students, State University (SUNY) applications, City University (CUNY) applications and applications for most local colleges and universities are also available. Call the Transfer Counseling Office at 516.572.7127/8 or visit our website.

Volunteer Service Center

The Volunteer Service Center places interested students in volunteer positions with community agencies and organizations. It helps provide our students with pre-professional experience, as well as providing agencies and organizations with qualified, motivated students eager to learn and apply their skills. Interested students may contact the Center in the Student Professional Development and Employer Services office, located in Building M. Call 516.572.7132 for office hours.

Women's Resource Center

The Women's Resource Center was founded by the Department of Student Personnel Services in the early 1970 to provide a forum for discussion of concerns to women and to bring educational programs to the campus and community.

The Women's Center faculty coordinators can be contacted at 516.572.7698 in Building M, Room 14 or visit the [Women's Resource Center](#) webpage.

Academic Information

The Office of the Vice President for Academic Affairs is responsible for the implementation, interpretation of, and compliance with all academic regulations.

The Office of the Registrar is responsible for the registration of students, evaluation of transfer credits once a student is in attendance, and maintenance of all academic records. Official certifications regarding student records are provided as required. Students should contact the Office of the Registrar for information, rather than rely on unofficial sources. The Office of the Registrar is located on the lower level of the Administrative Tower.

Academic Dishonesty & Plagiarism

Academic dishonesty, which includes plagiarism and cheating, will result in some form of disciplinary action that may lead to suspension or expulsion under the rules of the Student Code of Conduct. Cheating can take many forms including but not limited to copying from another student on an examination, using improper forms of assistance, or receiving unauthorized aid when preparing an independent item of work to be submitted for a grade, be it in written, verbal or electronic form. Anyone who assists or conspires to assist another in an act of plagiarism or any other form of academic dishonesty may also be subject to disciplinary action.

Plagiarism is a particular type of academic dishonesty that involves taking the words, phrases or ideas of another person and presenting them as one's own. This can include using whole papers and paragraphs or even sentences or phrases. Plagiarized work may also involve statistics, lab assignments, art work, graphics, photographs, computer programs and other materials. The sources of plagiarized materials include but are not limited to books, magazines, encyclopedias or journals; electronic retrieval sources such as materials on the Internet; other individuals; or paper-writing services.

A student may be judged guilty of plagiarism if the student:

- (a) Submits as one's own an assignment produced by another, in whole or in part.
- (b) Submits the exact words of another, paraphrases the words of another or presents statistics, lab assignments, art work, graphics, photographs, computer programs and other materials without attributing the work to the source, suggesting that this work is the student's own.

Allegations of student plagiarism and academic dishonesty will be dealt with by the appropriate academic department personnel. It is the policy of Nassau Community College that, at the discretion of the faculty member, serious acts will be reported in writing to the Office of the Dean of Students, where such records will be kept for a period of five years beyond the student's last semester of attendance at the College. These records will remain internal to the College and will not be used in any evaluation made for an outside individual or agency unless there is a disciplinary action determined by a formal ruling under the Student Code of Conduct, in which case only those records pertaining to the disciplinary action may apply. A student whose alleged action is reported to the Office of the Dean of Students will be notified by that office and will have the right to submit a letter of denial or explanation.

The Dean will use his/her discretion in determining whether the alleged violation(s) could warrant disciplinary action under the Student Code of Conduct. In that case the procedures governing the Code of Conduct will be initiated.

Academic Programs

The New York State Education Department has authorized Nassau Community College to award degrees and certificates in the following programs listed with HEGIS (Higher Education General Information Survey) code. Students are advised that enrollment in other than registered or otherwise approved programs may jeopardize eligibility for certain State and Federal aid awards.

Academic Standings

Academic standing is determined according to the regulations of the Academic Standing Committee and are made at the conclusion of each semester. Academic standing will only be printed at the top of each semester on your online unofficial transcript.

Decisions made at the conclusion of the spring semester will remain in effect for a minimum of one full semester during the regular school year; that is, until the conclusion of the following fall semester. Grades attained during the intervening summer sessions will be considered only in conjunction with the following fall semester grades for purposes of releasing students from academic standing decisions or limitations.

Minimum Grade Point Average Required To Maintain Good Academic Standing

The following cumulative grade point averages (GPA) are the minimums which must be attained for a student to be considered in good academic standing:

- 1.7 with 1-14 credits attempted (usually one semester)
- 1.8 with 15-29 credits attempted (usually two semesters)
- 1.9 with 30-47 credits attempted A - 2.0 with 48 or more credits attempted

A student whose cumulative average falls below these minima for the first time will remain in good academic standing but shall be limited to 14 credits (or equivalent where preparatory courses are concerned) for the next semester. If, at the end of the next semester, the student's cumulative average still falls below these minima, then the student concerned shall be placed on academic probation and shall be restricted to part-time (fewer than 12 credits) attendance.

Academic Dismissal Policy

The cumulative Grade Point Average (GPA) of students on probation will be reviewed at the end of the spring semester. Students whose cumulative average remains below the required minimum will be academically dismissed. The Office of the Dean of Students implements, interprets, and ensures compliance with this policy.

A previously dismissed student who is readmitted will not be dismissed under this policy if a GPA of 2.00 or higher is maintained in courses taken since readmission, and if satisfactory progress is demonstrated in remedial courses taken since readmission.

Students have the right to appeal their dismissal. Appeals must be submitted in writing to the Academic Standing Committee through the office of the Dean of Students no later than six weeks prior to the beginning of the semester for which they wish to be readmitted. Students who fail to appeal their dismissal within the required time limit may submit an appeal in a timely fashion for readmission to a future semester. All appeal decisions rendered by the Academic Standing Committee shall be final.

Academic Progress Requirements for Students Placed in Remedial/ESL Courses

The following conditions apply to students who require a remedial/ESL course, i.e., COM 030, ENG 001, ENG 030, MAT 001, MAT 002, MAT 003, RDG 001, RDG 002, RDG 030, WRT 001:

1. Students must enroll in required remedial/ESL courses during their first semester of attendance.
2. The only possible grades for these courses are “S” (Satisfactory), “U” (Unsatisfactory) and “UU” (Unofficial Withdrawal). For extreme situations, see number 8 below.
3. Any student who does not successfully complete a required remedial/ESL course must register again for the course the following semester.
4. Any student who earns a grade of “U” in a required remedial/ESL course will be limited to the equivalent of 14 credits in subsequent semesters until all remedial/ESL requirements are satisfactorily completed.
5. A student may repeat a single, failed remedial/ESL course only twice, and will be academically dismissed after the third failure, upon review by the Office of Placement Testing in consultation with the chair or the chair’s designated coordinator of the department that offers the remedial or ESL course.
6. MAT 003 may be taken only once. In the event of failure the student will be appropriately placed into MAT 001 or MAT 002 for what will count as a second attempt at that course.
7. A dismissed student will be considered for readmission only after being separated from the College for at least one year (fall/spring), and only if future placement tests results reveal no need for remediation in the course(s) for which the student was dismissed.
8. Students can only withdraw from the required remedial/ESL courses if they are officially withdrawing from all courses for the semester in response to extenuating circumstances, such as a medical or personal emergency. In such cases, the student must present to the office of the Dean of Students cause for withdrawal from all courses and request a W grade that would not affect academic standing.
9. Some academic departments have designated courses which students cannot take until remedial/ESL requirements have been satisfied. Students with remedial/ESL requirements cannot register for those restricted courses and may not add them through the Change of Program or Drop/Add process.

Academic Program Requirements for Students Placed into Two or Three Remedial Courses

The following additional conditions apply to students who require two or three remedial courses from among ENG 001, MAT 001, MAT 002, MAT 003, RDG 001, RDG 002, WRT 001.

In addition to fulfilling their remediation requirements specified in the previous section, these students must enroll in NCC 101 – The College Experience, during the summer or winterim session prior to their first semester of attendance, or during their first semester of attendance.

Students required to enroll in NCC 101 and who do not successfully complete the course must register again for NCC 101 until they do so.

Impact of Withdrawal Grades on Academic Standing

- A student who withdraws from more than one course per semester (i.e., two or more “W” grades in one semester) shall thereafter be placed on academic limitation — no more than 14 credits permitted.
- A student who withdraws from more than one course during a semester of academic limitation, or who has not earned the required Grade Point Average, shall be placed in the next more restrictive probation category.
- A student who earns a total of six or more “W” grades will automatically be placed in the most restrictive probation category (i.e. PART-TIME). “W” grades earned prior to September 1976 shall not apply.
- A student will be removed from academic limitation upon completion of the probationary semester’s program, provided he or she has achieved the required grade point average and has not received more than one “W” grade.
- Students who feel that extenuating circumstances warrant an exception from this policy may appeal through the Office of the Dean of Students.
- Grades attained during the summer sessions will be considered in conjunction with the following fall semester grades for the purpose of this policy.
- A student who has been placed on academic limitation is required to see a Student Personnel Services counselor.

Academic Progress for Students on Academic Probation

A student currently on academic probation is required to obtain academic counseling at the Center for Educational and Retention Counseling (CERC). A registration hold due to the student’s low cumulative grade point average (GPA) will be placed. The hold will remain on a student’s record until it is released by CERC. To have the hold removed a student must complete one of the following: 1) Attend a Retention Strategy Session or, 2) Complete the online Retention Strategy Session. The CERC is located in Nassau Hall (M Building) Room 19.

Classroom Disruption Policy

(Formerly the Classroom Management Policy)

Faculty has a right and responsibility to maintain a proper learning environment in the classroom. As integral members of this partnership, students are expected to participate actively in the learning experience and must do so in an appropriate manner.

Disruptive conduct in the classroom that interferes with the instructor's performance of his/her professional functions or that undermines the integrity of student learning will not be tolerated. Disruptive conduct includes, but is not limited to:

- Students who routinely enter class late or depart early,
- Students who repeatedly talk in class without being called upon;
- Students who continually interrupt lectures;
- Students whose cell phones repeatedly ring and/or emit an audible sound during class or students who repeatedly text during class;
- Students who intimidate or harass a professor/classmate;
- Students who threaten a professor/classmate, participate in a physical display of anger, or verbally abuse a faculty member/classmate;
- Students whose classroom behavior otherwise violates the College's Student Code of Conduct and (or) Sexual Harassment and Sexual Violence Policy.

This negative behavior will incur faculty intervention and may result in disciplinary action.

The procedures designed to ensure the right of due process for both instructor and student, as well as the College's right to impose penalties for infractions, are as follows:

- The instructor will apprise the student of the inappropriateness of the behavior and ask that the negative behavior cease.
- If negative behavior persists, the instructor may:
 - a. Refer the student to campus support services, and /or
 - b. Remove the student from class for one class meeting and inform the student to contact the instructor prior to the next scheduled class meeting.
 - c. In case of severe negative behavior, Public Safety will be called and the student will be immediately removed from class.
- If the behavior persists and the faculty member wants to remove the student from class, the instructor will inform the chair immediately and submit a signed and dated written statement of the incident to the Department Chair within two (2) academic calendar days. Within two (2) academic calendar days, the Department Chair will call a meeting(s) with the faculty member and the student to review the matter. If a unanimous resolution is not reached, the Student will have the opportunity to appeal his removal from the classroom to the Dean of Students, by Chair using the Classroom Disruption Student Appeal Form

Campus Crisis Intervention

Procedures for Campus Crisis Intervention

Dealing with an aggressive student or violent situation:

In a situation in which a faculty member is concerned about who he/she feels is an aggressive student, the faculty member should contact Public Safety 516.572.7111.

For other psychological concerns:

1. Members of the Campus Community should contact Psychological Counseling (516) 572-7698 to request services for a student who seems to be experiencing a psychological crisis situation.
2. Psychological Counseling will respond to these calls and assess the need for
 - a. If deemed an emergency, a psychological counselor will meet with the student in the office (Room 9, Nassau Hall), respond to the scene if needed or make other suitable arrangements based on the circumstances.
 - b. If a non-emergency, an appointment will be made for counseling at the earliest available opportunity.
3. In the event that none of the Psychological Counselors are immediately available, the secretary will call NCC Public Safety to request assistance.
4. If the responding professional determines that a student requires immediate psychiatric care, he/she will arrange for the student to be seen at an appropriate facility in the community.
5. **If a possible crisis occurs at a time when the Psychological Counseling Office is closed, please call Public Safety 516.572.7111 for assistance.**

Computer Resources & Electronic Communication Policy, Acceptable Use

I. Introduction

In keeping with the tradition of fostering academic freedom, Nassau Community College (hereinafter "the College" or "NCC") respects, encourages, and supports the right of any member of the college community to participate in dialogue and discourse to promote its educational mission. In support of this process, the College provides campus computing technologies, resources, and data networks.

The purpose of this policy is to outline the acceptable use of computer and information technology resources provided by NCC to students, faculty, staff, and other authorized individuals. Inappropriate use exposes the College to risks, including breach of computer security, exposure of restricted data, compromise of network systems/services, detriments to technology performance, institutional/brand damage and legal liability. NCC is committed to protecting students, faculty, staff, and the College from illegal or damaging actions by individuals, either knowingly or unknowingly.

II. Rights and Responsibilities

A. The College's Rights and Responsibilities

NCC provides computer facilities and related resources to support its educational mission. It is the responsibility of the user to abide by College guidelines as outlined below. Central to appropriate and responsible use is the stipulation that NCC data networks and computer resources shall be used in a manner consistent with the College policies; federal, state, and local laws; ADA guidelines; and contractual obligations. Computer facilities and related resources are intended for the sole use of College faculty, staff, students, and other authorized individuals. Such resources include but are not limited to host computer systems, personal/laptop computers and workstations, personal digital assistants (PDAs), data networks, software, databases, and files.

Use of NCC computing resources by unauthorized individuals is strictly prohibited. Users of Nassau Community College's institutional data networks and computer resources shall have no expectation of privacy in any data or communication transmitted, received, or stored while using these systems. In order to carry out its institutional mission and comply with its responsibilities under all applicable laws, the College reserves the right to monitor all employee usage of these systems.

The College requires compliance with applicable federal, state and local laws, including copyright, export and re-export laws, as a condition to system use. Except as expressly permitted, users shall not alter, delete or modify any attributions included within any hosted services. Users further shall not engage in any activity that interferes with or disrupts the services, servers or networks provided. Student email account users shall comply with the terms and conditions set forth by the current email service provided in connection with those email services. For more information on the civil and criminal penalties for violations of Federal copyright laws, see Section G of this Policy, as well as the relevant provisions of the United States Copyright Law, which are available at the following website: <http://www.copyright.gov/title17/92chap5.html>.

The use of the College's data networks, computer resource facilities, and services is subject to and conditioned upon compliance with: College policies Federal, state and local laws, ADA guidelines Contractual obligations

B. Faculty, Student, and Staff Rights and Responsibilities

All members of the College community have the responsibility to use data networks and computer resources in an effective, efficient, ethical, and lawful manner. The following activities are examples of unethical, unacceptable behavior, and are in violation of College policy. These may include, but are not limited to, any attempt to:

- alter system software or hardware configurations; using personal wireless routers, switches, or hubs, or unplugging cables and hardware;
- access another person's account, private files, or email without that person's permission;
- violate rules or codes set by services subscribed to by the College;
- use data networks or computer resources to threaten or harass others;
- use the College systems for commercial or personal profit-making purposes;
- not comply with computer facilities and system policies, procedures, and protocol;
- use the College facilities or resources to violate the policies of other computer systems or organizations;
- download video or music applications for non-College business.

The use of a computer or other electronic equipment that is not the property of NCC (e.g., a personally-owned computer) in conjunction with NCC resources (e.g. the College data network) shall constitute the use of NCC computer resources, shall be governed by the Acceptable Use Policy for Data Networks and Computer Resources, and shall be the legal responsibility of the individual user.

C. Web Content Creators' Rights and Responsibilities

The Official College Website

The official website of the College contains public, employee and student information about NCC's mission, programs and services. All content under the College's website www.ncc.edu is deemed official and authorized. As such, the College administration has the sole right, responsibility, and obligation to provide oversight and final editorial control of content. The official website must follow the College's branding policies and guidelines which are available through the Office of Marketing and Communications.

Due to the dynamic nature of electronic publication via the web, the following guidelines must be adhered to when creating content for websites other than the College's official website:

Department-Created Content

It is the responsibility of the supervising administrator or chairperson (or his/her designee) for all oversight of the content in Administration, Alumni, Department, Staff and Student Activities websites. This must be done a minimum of twice a year by the appropriate oversight committee or individual assigned the responsibility for such oversight. They must insure that such websites do not contain official information. This includes but is not limited to course descriptions, programs of studies, college directories, etc. All references to official information must be made through referral links to the official College website.

Faculty-Created Content

Faculty of the College community have a right and are encouraged to establish an Internet presence, provided that the purpose of the Internet presence is consistent with the College mission and adheres to the provisions defined in this policy. Faculty web pages must adhere to the Acceptable Use Policy for Data Networks and Computer Resources.

Student-Created Content

NCC does not provide access to web publishing for students, except in an instructional setting.

D. Intellectual Rights and Responsibilities

The College respects the intellectual and creative contributions made by the faculty, staff and students, and recognizes that they are vital to the academic enterprise. Furthermore, the College adheres to the principle of respect for the right of acknowledgment, and the right to determine the form, manner, and terms of publication and distribution of intellectual property.

Since electronic information is transient and may easily be reproduced, respect for the work and personal expression of others is critical. Violations of authorial integrity, including plagiarism, invasion of privacy, unauthorized access, and copyright violations, may be grounds for sanctions against members of the College community.

Images of people, places, graphics and logos on the ncc.edu web site are either the property of the College or used with permission. Unless authorized by the Office of Marketing and Communications, the use of these images by web developers or the downloading and use of these images by web users who browse the web is prohibited, except in the course of normal business operations. Unauthorized use of the images may violate copyright and privacy laws and statutes.

E. Electronic Mail Usage Policy

THE COLLEGE WILL NEVER (UNDER ANY CIRCUMSTANCES) ASK VIA AN EMAIL FOR YOUR USER NAME, PASSWORD, OR PERSONAL/FINANCIAL INFORMATION.

Faculty, staff, and other authorized users of NCC email who respond to phishing emails shall be subject to temporary or permanent loss of email privileges.

All accounts issued to individuals are intended for the sole use of those individuals and are non-transferable. Individual account holders are responsible for all usage on their assigned accounts, hold a position of trust, and must preserve the security and confidentiality of the information they use.

Based on the reliance and acceptance of electronic communications, email messages and portal announcements are considered an official means of communication with students, faculty, and staff of Nassau Community College. Employees and students are expected to comply with this policy when using NCC email and portal systems. All users are assigned an official college username and password combination for accessing email and portal systems and an official College email address for receiving and sending email messages. The college expects that students, faculty, and staff will use their official College email accounts to receive and read email messages and portal announcements on a frequent and timely basis. Students, faculty, and staff are not absolved from the responsibilities associated with the contents of electronic communications if electronic communications are not received and read on a frequent and timely basis. Students, faculty, and staff are expected to maintain their own email inboxes and manage their email disk storage usage.

Prohibited Activities

Prohibited email activities include but are not limited to the following:

- Unauthorized use of another individual's account
- Performing an act that will interfere with the normal operations of computers or networks on campus
- Creating and/or distributing chain letters
- Impersonation (misrepresenting yourself as another individual)
- Violations of official College policies and applicable laws
- Distributing classified, commercial, or political advertisements
- Distributing unsolicited and/or unauthorized mass mails (spamming) unrelated to College business, events, or announcements

F. College Intranets

The College Intranet is intended to provide the faculty and staff access to services that support the operational needs of the College community and information disseminated by means of a role-specific criteria. Access to the content is role-based and is determined by one's logon profile (e.g., as Faculty or Administrator).

G. Compliance With The Higher Education Opportunity Act

The Higher Education Opportunity Act of 2008 (HEOA) requires the College to address unauthorized distribution of copyrighted materials, including unauthorized peer-to-peer file sharing. In order to meet the College's obligations under this Act, the College shall disseminate the following statement to students, faculty and staff on a regular basis:

The College strictly prohibits the users of its networks from engaging in unauthorized distribution of copyrighted materials, including unauthorized peer-to-peer file sharing. Anyone who engages in such illegal file sharing is violating the United States Copyright law, and may be subject to criminal and civil penalties. Under federal law, a person found to have infringed upon a copyrighted work may be liable for actual damages and lost profits attributable to the infringement, and statutory damages of up to \$150,000. The copyright owner also has the right to permanently enjoin an infringer from further infringing activities, and the infringing copies and equipment used in the infringement can be impounded and destroyed. If a copyright owner elected to bring a civil lawsuit against the copyright infringer and ultimately prevailed in the claim, the infringer may also become liable to the copyright owner for their attorney's fees and court costs. Finally, criminal penalties may be assessed against the infringer and could include jail time, depending upon the severity of the violation.

Students should be aware that unauthorized or illegal use of College computers (such as engaging in illegal file sharing and distribution of copyrighted materials), is an infraction of the Student Code of Conduct and may subject them to disciplinary measures.

To explore legal alternatives to unauthorized downloading, please consult the following website: <http://www.educause.edu/legalcontent>

III. Reporting, Investigations, and Sanctions

Students, faculty, staff or other authorized individuals who use computer resources for improper purposes shall be subject to disciplinary action, up to and including discharge and/or expulsion. Any person who receives material on his/her computer which he/she believes violates a College policy should contact the Office of Marketing & Communications. Any other concerns or inquiries regarding perceived violation of the Acceptable Use Policy for Data Networks and Computer Resources should likewise be reported to the Office of Marketing & Communications (telephone: 516-572-9634; email: Marketing-Communications@ncc.edu) for appropriate action. Personnel designated by the Administration and in consultation, when necessary, with the Office of Public Safety will investigate alleged violations of the policies articulated herein. While an alleged violation is under investigation, computing privileges may be suspended. Where a confirmed violation is serious or persists, a restriction of computing privileges may be imposed, temporarily or permanently, by the College. Cases involving violations of statutory law will be turned over to the Office of Public Safety or to the appropriate authorities and may be subject to civil and/or criminal penalties.

Dean's Honor List

After the completion of each fall and spring semester, outstanding scholastic achievement is recognized through the compilation of the Dean's Honor List. This Honor is noted on the student's permanent transcript of record.

To qualify, full-time students must have completed a minimum of 12 credits per semester in residence and have attained a 3.5 semester average or higher, with no grades of Withdrawal ("W"), Unofficial Withdrawal ("WU"), Failure ("F"), Unsatisfactory ("U"), Unofficial Withdrawal for Non-Credit Remedial Courses ("UU"), Never Attended ("NA") or Incomplete ("INC"). Further, it is important to note that students must be in good academic standing and that repeated courses will not be counted as credits attempted for the purpose of compiling the Dean's Honor List.

Part-time students are also eligible for the Dean's Honor List provided they attain a Grade Point Average (GPA) of 3.5 or greater, and are otherwise in good academic standing. The GPA for part-time students is calculated upon the completion of each 12 semester credits, without respect to the number of semesters the student has been in attendance. Eligibility for the Dean's Honor List is recalculated after each 12 additional credits attempted (12 credits, 24 credits, 36 credits, 48 credits, 60 credits). It is important to note that each 12 semester hour block of credits attempted may not include grades of withdrawal ("W"), Unofficial Withdrawal ("WU"), Failure ("F"), Unsatisfactory ("U"), Unofficial Withdrawal for Non-Credit Remedial Courses ("UU"), Never Attended ("NA") or Incomplete ("INC"). Repeated courses will not be counted as credits attempted for the purpose of compiling the Dean's Honor List.

Degrees and Certificates Defined

The following descriptions of the three degree and certificate programs offered by the College are for comparative purposes only. In planning a program of study, students are to be guided by the academic programs presented in the Programs of Study section and select their courses in consultation with an advisor. View a list of Academic Programs by degree type.

Associate In Arts (AA)

This degree is primarily for transfer programs which lead to the Bachelor of Arts degree. The curriculum is composed largely of courses in the liberal arts and sciences.

Associate In Science (AS)

This degree may be used for certain occupationally-oriented curricula, but is primarily for transfer programs which lead to the Bachelor of Science degree. The curricula are composed largely of courses in their respective disciplines.

Associate In Applied Science (AAS)

This degree is primarily for occupationally oriented curricula, but may at times be appropriate as a transfer degree to certain types of specialized Baccalaureate programs.

Associate in Occupational Studies (AOS)

This degree is exclusively for occupationally oriented curricula.

Certificates

A Certificate is a credential registered by the State Education Department and issued by the College in recognition of the completion of a curriculum other than one leading to a degree. A Certificate program can be completed in a shorter time than the Associate degree program — sometimes in less than a year. Designed for those eager to enter the work force, Certificate programs at the College offer career preparation in several different areas. Another advantage of the Certificate program is that most of the credits earned may be applied to a related Associate degree program. Students attend the same classes as degree candidates and are graded on the same basis.

General Education at Nassau Community College

General Education at NCC is a set of specified categories of courses that contribute to the development of an educated person: one who thinks clearly, communicates effectively, makes informed and thoughtful judgments, distinguishes among sets of values, displays an appreciation for learning, and applies knowledge to the understanding of the human experience.

At NCC, General Education is achieved by the completion of a distribution of courses designed to enable students to:

1. Read and listen effectively;
2. Speak and write clearly and persuasively;
3. Think critically and creatively;
4. Understand scientific methodology; reason quantitatively, and function in a technological environment;
5. Develop personal, social, and aesthetic values through an understanding of culture, nature, self and society;
6. Develop an understanding of and appreciation for behaviors that promote the good health of body and mind;
7. Develop literacy and appreciation in the visual and performing arts.

The selection of General Education courses depends on the curriculum requirements for a degree. These courses are grouped within the following categories and are designated in the Course Descriptions section of this catalog with the corresponding codes. The complete list of courses is available on campus at the Academic Advisement Center and on the Advisement Center website. Each course viewed on Banner Self-Serve is also individually coded. Only those courses on the approved lists will satisfy the Nassau Community College general education requirements.

Communication Arts [COM]
 English Composition [COMP]
 Fine and Performing Arts [FAPA]
 Humanities [HUM]
 Literature [LIT]
 Mathematics [MATH]/Computer Science [CMPS]
 Natural and Physical Sciences
 Laboratory Science [LSCI]/Non-laboratory science [NSCI]
 Physical Education [PED]
 Social Science [SBS]
 Culture and Diversity which include
 Western Heritage [WESH]
 Global Awareness and Non-Western Cultures [GLNW],
 and Pluralism and Diversity [PLDI]

Interdisciplinary Courses: In recognition of the commonalities and interrelatedness among academic disciplines, general education categories contain several interdisciplinary course offerings that satisfy the requirements.

Communication Arts:

Communication Arts courses teach oral communication skills necessary to participate effectively in public and academic debates and discussions, prepare and present researched material, and formulate valid arguments, and prepare students for successful interpersonal interaction in the academic, social, and professional realms. These courses are designated with the code COM and may be selected from the courses of the Communications Department [COM 102, COM 103, COM 123, COM 202 only].

English Composition:

English Composition courses are designed to give students a critical awareness of written language. They enable students to produce clear, well-developed, well-organized grammatical writing and to interpret and analyze texts of various genres. These courses are designated with the code COMP and must be selected from the courses of the English Department [ENG 101, ENG 102, ENG 108, ENG 109 only].

Fine and Performing Arts:

Courses in Fine and Performing Arts develop aesthetic awareness by introducing students to the processes by which artists create, perform and/ or evaluate works of art. They foster self-expression, understanding, and an appreciation of the arts within an historical, cultural, theoretical and critical context. These courses are designated with the code FAPA and may be selected from the courses in several departments as denoted in the Course Descriptions section of the catalog.

Humanities:

Humanities courses teach students to analyze and interpret texts, ideas, discourse systems, and the human values, traditions, and beliefs they reflect. These courses are designated with the code HUM and must be selected from the courses of the following departments: African American Studies [AFR 130, AFR 131, AFR 152, AFR 155, AFR 170, AFR 190, AFR 197 only], Art, Communications, English, Foreign Languages, Interdisciplinary Studies [MDC 102, MDC 130 only], Library, Music, Philosophy, Reading, Theatre/Dance.

Literature:

Literature courses focus on the study of written works produced or translated into English that embody the creative use of language for artistic or stylistic purposes. They express ideas of permanent or universal significance. These courses are designated with the code LIT and may be selected from the courses in several departments as denoted in the Course Descriptions section of the catalog.

Mathematics:

Courses that satisfy this requirement use mathematical or computer science models that employ numerical, verbal, graphical and analytical tools to strengthen quantitative skills and logical reasoning and enable students to address other disciplines. These courses are designated with the code MATH and must be selected from the courses of the Mathematics/Computer Science/Information Technology Department. One computer science course with the code CSC [CSC 104, CSC 120 or CSC 130 only] may be used to satisfy the second mathematics course requirement in specified degrees.

Natural and Physical Sciences:

Natural and Physical Science courses explore how phenomena are observed, understood and theoretically synthesized through study and the application of the scientific method. They provide students with an understanding of scientific terms, concepts, and theories as well as the ability to test hypotheses in the laboratory. Study in the sciences helps students develop scientific literacy necessary to understand an increasingly complex world. One non-laboratory science course may be used to satisfy the second science course requirement in specified degrees. These courses are designated with the code LSCI (laboratory science) or NSCI (non-laboratory science) and must be selected from the courses of the following departments: Biology, Chemistry, Engineering/Physics/Technology, Physical Sciences, General Science Studies, Multidisciplinary Science, Allied Health Sciences [AHS 131, AHS 132 only].

Physical Education:

Physical Education courses develop cardiovascular and neuro- muscular skill, strength, endurance, flexibility and fitness. They emphasize improved overall conditioning as well as skills in team, individual, and leisure activities. These courses are designated with the code PED and must be selected from the courses of the following departments: Health/Physical Education/Recreation, Theatre/Dance [DAN 126 only].

In all degree programs requiring physical education activities courses, full-time day students (12 credits or more in the day session) must take 1/2 credit of physical education activities for each full-time semester of attendance, to a maximum of 2 credits. The following are exempt from this requirement:

1. Veterans
2. Students over 25 at first date of attendance
3. Students over 30 at date of graduation.

Social Science:

Social Science courses investigate behavior in social contexts through analysis of the characteristics and structure of individuals, families, groups and institutions. They provide an understanding of the concepts, methods and models that social scientists use to explore social phenomena. History courses explore institutions and developments that have shaped human experience while providing a familiarity with the historical narrative. These courses are designated with the code SBS and must be selected from the courses of the following departments: African American Studies [AFR history classes and AFR 185 only], Economics/Finance, History/Political Science/Geography, Interdisciplinary Global Studies, Psychology, Sociology/ Anthropology/Social Work .

Culture and Diversity:

This includes the three subcategories of Western Heritage, Global Awareness and Non-Western Cultures, and Pluralism and Diversity. Appropriate courses in other categories may be used to satisfy requirements in any of these three subcategories.

Western Heritage:

Western Heritage courses reflect the distinctive characteristics of western heritage presented in a broad context. They acquaint students with the evolution of western culture and values and relate them to other regions and cultures. These courses are designated with the code WESH and may be selected from the courses in several departments as denoted in the Course Descriptions section of the catalog.

Global Awareness and Non-Western Cultures:

Courses in Global Awareness and Non-Western Cultures examine and foster an appreciation of cultural traditions other than European and North American. They enhance recognition of the diversity and similarities of the ways in which people in different cultural traditions perceive and experience their lives. These courses are designated with the code GLNW and may be selected from the courses in several departments as denoted in the Course Descriptions section of the catalog.

Pluralism and Diversity:

Courses in Pluralism and Diversity expand understanding of the various influences that shape perspectives, values, and identities. They explore social divisions such as gender, ethnicity and racial formations in a pluralistic nation and world. These courses are designated with the code PLDI and may be selected from the courses in several departments as denoted in the Course Descriptions section of the catalog.

General Education for Bachelor's Degree at State University of New York (SUNY)

The SUNY General Education Framework (SUNY-GE) is required for these degree programs:

- Fall 2023 | New first-time students entering A.A., or A.S. degree programs
- Fall 2024 | New first-time students entering A.A.S. degree programs

If you enrolled in a program prior to fall 2023, please contact an advisor for guidance on how to meet the degree requirements. The SUNY General Education Requirement (SUNY-GER) will be phased out for students entering a program fall 2023 or later.

SUNY-GE Knowledge and Skills Areas, and Core Competencies

All students enrolled in programs leading to A.A. and A.S., and baccalaureate degrees are required by SUNY to complete 30 credits in the SUNY-GE Framework in a minimum of seven of 10 areas. All students enrolled in A.A.S. degrees are required to complete 20 credits of SUNY-GE in four specified areas. Students must take the following:

1. Knowledge and Skills Areas

The following four are required for all undergraduate-degree programs:

- Communication – Written and Oral
- Diversity: Equity, Inclusion, and Social Justice
- Mathematics (and Quantitative Reasoning)
- Natural Sciences (and Scientific Reasoning)

In addition, a minimum of three of the following six are required for A.A. and A.S degrees:

- Humanities
- Social Sciences
- The Arts
- U.S. History and Civic Engagement
- World History and Global Awareness
- World Languages

2. Core Competencies (infused throughout the SUNY-GE program):

- Critical Thinking and Reasoning
- Information Literacy

Grade Grievance Policy

Students who believe that there has been a violation of a specific policy or procedure as stated in either the NCC Catalog or the grieved instructor's course syllabus that adversely affected their grade in a particular course may appeal their grade, if they do so before the appropriate deadline (see the section on deadlines below).

At each step of the process described below, a student must submit a detailed written argument explaining why his/her grade grievance should be upheld.

Grievances must be pursued in the following manner until satisfaction is obtained, a grievance is dismissed, or a decision is reached. The grieved instructor may initiate a grade change at any point in the procedure.

- **Step 1:** With the grieved instructor who issued the grade.
- **Step 2:** With the grieved instructor's department chairperson (and with any members of Department Personnel and Budget [P&B] Committee that the chair wishes to include).
- **Step 3:** With the grieved instructor's department chairperson and Academic Standing Committee Chair.

If the grieved instructor's department chair (or his/her designee in the case of recusal) and the Academic Standing Committee Chair (or the next ranking member of the Committee in the case of recusal), unanimously conclude that there is no evidence of a possible violation of a specific policy or procedure as stated in either the NCC Catalog or in the grieved instructor's course syllabus that adversely affected the student's grade in a particular course, then the grievance will be dismissed without a further hearing. The student will be informed of the final decision to dismiss the grade grievance. In all other cases, the department chair and the Academic Standing Committee Chair will form an Ad Hoc Committee to hear the student's grievance.

The Ad Hoc Committee will be a joint committee consisting of three (3) members from the concerned department's P&B Committee, three (3) faculty members from the Academic Standing Committee, and one (1) student representative from the Student Government Association. There will be co-chairs of the Ad Hoc Committee, one (1) member of the P&B Committee and one (1) member of the Academic Standing Committee. After a hearing, the Ad Hoc Committee will deliberate and vote on the student's grade grievance. A student's grade grievance will be upheld if two-thirds (2/3) of the P&B Committee members and two-thirds (2/3) faculty members from the Academic Standing Committee find in favor of the student. The Ad Hoc Committee will not re-evaluate a student's work in deciding a grade grievance. The student's grade can be adjusted only if there has been a violation of a specific policy or procedure as stated in either the NCC Catalog or the grieved instructor's own course syllabus that adversely affected a student's grade. In cases where the student's grade grievance has been upheld, then the P&B members of the Ad Hoc Committee (in consultation with the other members of the Ad Hoc Committee) will decide what grade to award the student, using the grieved faculty member's grading policy for that specific class, if at all possible.

The Ad Hoc Committee's decision will be binding.

Civil Rights Violations

It is not the function of the Ad Hoc Committee to evaluate claims of civil rights violations. If the basis of a student's grade grievance is that their civil rights have been violated, the Ad Hoc Committee will not hear the grade grievance until the appropriate officials at NCC have investigated the student's allegation(s) and a finding has been offered through the College's official civil rights policy.

Deadlines

For a grade received during the Fall semester or Winter Intersession, the student must file the grievance (Step 1) before the end of the fifth week of the following Spring semester. For a grade received during the Spring semester or Summer sessions, the student must file the grievance before the end of the fifth week of the following Fall semester. Grade grievance forms may be obtained in the Office of Academic Affairs, 361 Rice Circle, or at the various academic department main offices and by downloading the form at the link below. The grieved instructor and/or chair must hold the appropriate discussion or hearing within two (2) weeks after his/her receipt of such a grievance or the grievant is permitted to proceed to the next step in the policy. Failure by students to appeal a decision to the next step of the process within one (1) week of their receipt of the grade grievance shall terminate the grievance.

Download the Grade Grievance Form

Instructor Absence

The Academic Standing Committee has established procedures for the conduct of a grade grievance in situations where the grieved instructor of record is unavailable or unreachable. Students are advised to consult the department chairperson for appropriate procedures in the event of such a circumstance.

Grading System

Percentage Equivalent	Grade	Quality of Achievement	Quality Points
90-100%	A	Excellent	4.0
85-89	B+		3.5
80-84	B	Very Good	3.0
75-79	C+		2.5
70-74	C	Average	2.0
65-69	D+		1.5
60-64	D	Minimum Passing	1.0
	F	Failure	0
	WU	Unofficial Withdrawal For Credit Courses	0
	INC	Incomplete	
	NA	Never Attended	
	NG	No-Grade Audit	
	S	Satisfactory	
	U	Unsatisfactory	
	UU	Unofficial Withdrawal For Non-Credit Courses	
	W	Withdrawal	

Grade Point Average

In compiling a student's grade point average, the following factors must also be taken into consideration:

1. When transfer credit is awarded, the transfer grade is not computed in the grade point average.
2. If a student officially changes his/her program of study, an evaluation will be made by the new department chairperson to determine whether grades and credits in courses formerly required, but not required in the new curriculum, will be computed in the grade point average. If a student has attempted fewer than 40 credits at Nassau Community College, certain courses required in the former area and not required in the new area will not be calculated in the student's average or included as credit toward the student's degree.

- When a student repeats a course, both the initial grade and the repeat grade appear on the transcript. However, only the last completion mark (A-F UW but not including "W", "WU", "INC", "S", "U", "UU" or "NA") will be **included** in the **grade point** average.

Incomplete Grades

Grades of Incomplete ("INC") may be assigned to those students who, for some valid reason, have not satisfied all academic requirements for the course but have a reasonable expectation of completing the required work. While a request for an incomplete grade should be initiated by the student, it is assigned at the discretion of the instructor. It is the student's responsibility to contact the instructor of the course to determine the nature of the work required to complete the course and thus remove the grade of Incomplete. A grade of Incomplete shall carry no immediate penalty, but grades of Incomplete not removed by the end of the following 15-week semester will automatically be changed to an "F." In extenuating circumstances, the instructor may petition the Vice President for Academic Affairs to extend the time for making up the Incomplete "INC" grade.

Withdrawal Grades

Withdrawing from a course requires faculty approval. The policy is enforced as follows:

- During fall and spring terms, beginning the fourth week and up to the end of the ninth week of classes, the instructor's approval is required. The approval indicates that the student has met with the instructor and discussed the withdrawal. The instructor may not refuse approval. If the instructor is unavailable, the department chairperson may approve the withdrawal. After the ninth week of classes, the approval is at the discretion of the instructor.
- During the Summer and Mini-Sessions, time allowed for withdrawal varies as per refund rules for the sessions. Faculty approval is still required. See the Student Tuition Liability/Refund Policy.
- Approved requests will be awarded a grade of W (withdrawal) on the transcript. Students can request Class Withdrawals in their MyNCC portal account. W grades are not calculated in the grade point average, but can impact academic standing as described in the Academic Standing section of the catalog. Students who wish to withdraw from nine or more credits will require approval by the Student Personnel Services Office.
- In case of extenuating circumstance, such as a medical or personal emergency, a student should apply to the Office of the Dean of Students to request that the W grade not affect academic standing. That application should be made at the time of the withdrawal from the course(s). See the Dean of Students medical/personal withdrawal page for more details.

Prior to withdrawing from a course(s), students should consult with an advisor or a Student Personnel Services counselor and consider the impact of the W grades on their financial aid and health insurance eligibility.

Change of Grade

Ordinarily, all letter grades are considered permanent ("INC" is not considered a letter grade). Changes of these grades will be made only upon the instructor's submission of clearly defined reason(s) or documentation which supports the justification for such an extraordinary change. "W" grades earned via the official withdrawal procedure will not be changed under any circumstances.

Changes of Incomplete ("INC") grades must be processed by the end of the next regular semester. All changes of grades (other than INC) must be processed within one year of the end of the semester involved unless demonstrated to be a result of clerical or computational error.

Changes of grade are initiated by the instructor issuing the appropriate Change of Grade form under the following conditions:

- Documented computational or clerical error in recording the grade.
- Removal of an Incomplete ("INC") upon satisfactory completion of course requirement(s), (an Incomplete must be completed by the end of the next regular semester or it will change to an "F").
- Reassessment of student performance (subjective evaluation) subsequent to grade issuance.
- Grade changes must be approved by the department chairperson before any official record adjustments can be made by the Office of the Registrar.

Graduation Procedures

Graduation With Honors

College-wide Latin Honors are conferred at graduation. A student will be graduated:

- Summa cum Laude (with the greatest praise) if the cumulative average is 3.9 or higher;
- Magna cum Laude (with great praise) if the cumulative average is 3.7 to 3.89; or
- Cum Laude (with praise) if the cumulative average is 3.5 to 3.69.

These honors will be inscribed on the diploma and noted on the official transcript of record.

Two-year Programs Often Take More Than Two Years

The sample four-semester program sequences which are described in the "Programs of Study" section are designed for students who intend to devote their full time and energy to their studies. Many students, however, must work at full or part-time jobs while in attendance and others are in need of remedial course work not shown in the sequences. Therefore, many students spend more than two years at Nassau.

In fact, approximately half the students graduating from community colleges nationwide do not follow the traditional four-semester pattern. Many students elect to attend additional semesters in order to enhance those skills necessary for a successful college career. Students expecting to spend only two years at NCC should be aware of this trend. Often, students use the Summer Sessions to accelerate studies.

Certificate of Eligibility

No student may graduate without eligibility duly certified by the Office of the Registrar. Prospective graduates must complete "Request for Graduation" forms available from the Registrar during their final semester. Deadlines must be strictly observed to provide the College with adequate lead time necessary to certify graduates, determine awards, and print degrees and certificates.

Second Degree or Certificate

A second degree (or certificate) may be undertaken either concurrently or consecutively at Nassau Community College only when a significant amount of additional course work in a very different field is completed.

Further, each second degree candidate must complete at least 24 additional credits in the "different field" (of the 24, 15 must be taken at Nassau Community College). Additionally, each second degree must also contain the minimum of 33 credits "in residence."

Finally, each candidate seeking a second degree must obtain the prior written recommendation of the second degree chair- person (or program director) and prior approval of the Office of Academic Affairs on the appropriate form provided.

Ordinarily, students who pursue a degree shall not subsequently be granted a certificate in the same field. However, nothing shall prevent a student from subsequently pursuing a degree in the same field as the one in which he has undertaken studies for a certificate.

In cases where students have already completed a degree or certificate program and wish to pursue a new certificate, 12 credits must be taken in the new program (9 of the 12 must be taken at Nassau Community College). All candidates must comply with the College's "in residence" graduation requirement. (See section on Graduation.)

Student Code of Conduct

Preamble

The College is committed to providing an atmosphere in which students have freedom to learn and engage in the search for truth, knowledge, and reason in accordance with the standards set forth by the academic community. Conduct that adversely affects a student's responsible membership in the academic community shall result in appropriate disciplinary action.

Statement of Policy

As an educational institution of higher education, Nassau Community College seeks to provide the best educational environment for its students, faculty, and staff. It is mindful that academic freedom is an essential element of college life. To carry out its goal the College requires each student to obey the rules and regulations established by the College set forth herein, as well as the rules and guidelines set out in the "Nassau Community College Return to Campus Guide for Students" relating to the COVID-19 pandemic, and all local, state, and federal laws. The College will not tolerate deliberate disruptive words, actions, violence or physical interference with the rights of any member of our College community or with any of the facilities of the College, or with any authorized functions being carried out on the College campus or at any college sponsored event. The College will also not tolerate any violations of established health-related rules and regulations which are put in place in order to safeguard the health of the College community and prevent the spread of infectious diseases including, but not limited to COVID-19. Therefore, in furthering the educational aims of the College and in compliance with the provisions of Article 129-A and 129-B of the Education Law of the State of New York, the following rules and regulations concerning conduct on the College campus or at any college sponsored event, the use of College property, the means of enforcement, and penalties for any violations thereof are hereby established.

Nothing contained herein shall be construed to limit or restrict freedom of speech or of peaceful assembly.

Download & View the Student Code of Conduct:

- https://collegecatalog.ncc.edu/_resources/pdfs/NCC_Student_Code_Of_Conduct.pdf

Student Rights & Responsibilities

The following policy, to which the College subscribes, is based on "Joint Statement of Rights and Freedoms of Students" sponsored by the American Association of University Professors:

1. A student has the right to receive a written copy or to access an electronic copy of the course syllabus by the second class meeting. The syllabus shall include information about the course policies, the content of the course, and the criteria with the weighting to be used in the academic evaluation of his/her performance. The grading system described in the College catalog will be followed. Students not present at the first or second class meeting are responsible for requesting the syllabus.
2. Students should be free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.
3. A student has the right to receive a grade based upon a fair and just academic evaluation of his/her performance in a course, as measured by the standards set by his/her instructor in the course syllabus. Such criteria as race, religion color, national origin, sex, appearance, political affiliation or activities are irrelevant to grading. At the same time, the student responsible for maintaining standards of academic

performance established for each course in which he/she is enrolled, and for following the student Code of Conduct as outlined in the College catalog.

- Information about a student's views, beliefs and political associations which professors acquire in the course of their work as instructors, advisors, and counselors should be considered confidential. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student

Alert for Student Success

Success in college means balancing work and study time effectively. College study does not end with class time. For each 1 hour of class, you will need to plan at least 2 hours for study/learning. Research shows that working 15 or more hours per week makes it difficult to successfully complete courses.

When planning your schedule, carefully consider how you will balance course load and work schedule. To obtain help with budgeting time effectively, visit or call the Educational Counseling Office in Room 19, Nassau Hall. Call 516.572.7141 for an appointment.

Classroom Expectations

You and your instructor both have responsibilities relative to the course. Your instructor's responsibility is to give you a syllabus and to organize assignments and classroom activities to assist you in learning the material and achieving the course objectives. As the course unfolds, you have responsibilities to fulfill in order to complete the course successfully.

You are expected to:

Attend all class sessions and to be punctual. (You are responsible for all work covered whenever you are absent.); Read, understand and follow instructions given in the course syllabus; Complete reading and writing assignments; take notes during class; when asked to do so, work collaboratively with other students; submit assignments on time; complete your work without cheating or committing plagiarism. Participate actively in class; evaluate your own progress continuously; meet with your instructor during assigned office hours; exhibit proper behavior in the classroom (see policy statement on classroom management).

Discrimination and Harassment is Unlawful

Nassau Community College is a broadly diversified institution, committed to recognizing diversity and pluralism of values and beliefs on campus. The College is committed toward ensuring that all students are given equal opportunity to participate in its educational programs, and all qualified employees are appointed and promoted without regard to their race, national origin, ethnic background, gender, sexual orientation, religion, disability, age, veteran status, or marital status. The College is also dedicated toward maintaining an environment where dignity and worth of all members of the institutional community are respected. To that end, the College considers sexual harassment of students or employees to be unacceptable conduct which will not be tolerated. The College also condemns bias and all other acts of bigotry, discrimination, harassment and violence.

The College's Office of Affirmative Action and Diversity is dedicated toward ensuring that the College is in compliance with all federal and state laws and regulations that prohibit discrimination and encourage equal opportunity and treatment, including, but not limited to: Title VII of the Civil Rights Act of 1964; Title IX of Educational Amendments of 1972; Age Discrimination Act in Employment of 1967; Americans with Disabilities Act; Americans with Disabilities Act Amendments of 2008; Section 504 of the Rehabilitation Act of 1973, and the New York State Human Rights Law. The Affirmative Action Office also ensures that the College community is in compliance with its internal policies on Sexual Harassment, Bias and Discrimination, as well as the Complaint Procedures for Review of Allegations of Discrimination/Harassment (all of which are available on the College website, as well as at the Affirmative Action Office), and conducts investigations into allegations of sexual harassment, bias and discrimination brought by members of the College community.

Any questions concerning the College's policies on sexual harassment, bias and discrimination, as well as any allegations of noncompliance should be directed to:

FERPA (The Family Educational Rights and Privacy Act)

CONFIDENTIALITY OF STUDENT RECORDS

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students attending post-secondary institutions certain rights with respect to their education records. An "Education Record" is defined as a record that is directly related to a student and is maintained by Nassau Community College. FERPA rights include:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.
 - A student should submit a written request to the Office of the Registrar that identifies the record(s) the student wishes to inspect. A College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the particular records are not maintained by the Office of the Registrar, the College official responding to the request shall advise the student of the correct Department and individual within the College to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
 - A student who wishes to ask the College to amend a record should write to the College official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.
 - If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and of the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when the student is notified of the right to a hearing.
3. The right to provide written consent before the College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent, as described below. Nassau Community College will not disclose information from a student's education record without the student's written consent, except in the following situations:
 - The College discloses education records without a student's prior written consent to school officials with legitimate educational interests.
 - A "school official" is a person employed by the College in an administrative, supervisory, academic, or support staff position (including Public Safety personnel and health staff); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
 - A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College.
 - Upon request, the College also discloses education records without the student's consent to officials of another school in which a student seeks or intends to enroll, as long as the disclosure is for the purposes related to the student's transfer or enrollment in such institution.
 - Disclosure to authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the U.S. Department of Education, state/local educational authorities, organizations conducting studies for or on behalf of the College, and accrediting organizations. Disclosures under this provision may be made in connection with an audit or evaluation of Federal or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements related to those programs. These entities may make further disclosures of Personally Identifiable Information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf.
 - Disclosure is in connection with a student's application for, and receipt of, financial aid, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of such aid.
 - Disclosure is to comply with a judicial order or lawfully issued subpoena.
 - Disclosure is to parents of dependent students, as defined by the Internal Revenue Code of 1986, Section 152. (While FERPA permits disclosure of records to parents of dependent students without student consent, it does not require such disclosure. The parent must provide a copy of their most recent federal income tax return establishing the student's dependency. Full rights under the Act shall be given to either parent, unless the College has been provided with evidence that there is a court order, or other legally binding document relating to such matters as divorce, separation or custody that specifically revokes those rights.)
 - Disclosure is to appropriate parties in the event of a health or safety emergency.
 - Disclosure of information the College has designated as "Directory information", as more particularly described below.
 - Disclosure is to a victim of a crime of violence or a non-forcible sex offense, when such disclosure is of the final results of any disciplinary proceedings conducted by the College against the alleged perpetrator of such crime or offense.
 - Disclosure to the general public of the final results of a disciplinary proceeding, if the College determines that the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the College's Code of Conduct with respect to the allegation made against him or her.
 - Disclosure is to the student's parent about the student's violation of any Federal, State or local law, or any policy of the College which governs the use and possession of drugs or alcohol, but only if the student is under 21 years of age.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, SW
 Washington, DC 20202

Additional information about the Family Educational Rights and Privacy Act may be obtained on the United States Department of Education website: <http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html>

DIRECTORY INFORMATION

FERPA requires that the College, with the exceptions outlined above, obtain a student's written consent prior to disclosing to a third party any **personally identifiable information about that student**. However, the College may disclose information designated as "directory information" without prior written consent of the student. Directory information is generally considered information that is not harmful or an invasion of privacy if released.

Nassau Community College has designated the following items as **directory information**:

- a student's name,
- student's ID number ("N Number")
- student's college email address
- mailing address,
- major field of study,
- enrollment status (full-time/part-time),
- dates of attendance,
- degrees being pursued
- participation in College sports and/or activities,
- photographs,
- weight and height of members of athletic teams, and
- degrees, honors and awards received.

The main purpose of designating the above information as "directory" is to permit the College to include this information in certain publications, such as: listing your name on the graduation program, submitting your awards and accomplishments for publication in a local newspaper, or printing your name in a playbill should you participate in a theater production on campus. The College does not release any directory information to commercial entities seeking to conduct solicitations or fund-raising activities.

Nassau Community College honors its duty to protect the confidentiality of student records. However, the College may disclose a student's "directory information" without obtaining student's written consent, **unless** the student has submitted a written "opt out" request, to the Office of the Registrar not to release any directory information pertaining to them. The opt-out form will be available in the Office of the Registrar and may be filled out any time. Please note that submitting an "opt-out" request will not prevent the College from requiring students to display or disclose their ID card with their N number printed on it when engaging in College-related activities and transactions.

NEGATIVE CONSEQUENCES OF OPTING OUT: Students who choose to restrict access to their Directory Information should be aware that doing so may result in unintended negative consequences. For example, organizations such as potential employers, scholarship agencies, members of the press, loan agencies, educational organizations and others will not be given access to the student's directory information, and will not be able to contact the student. Opting out of directory information classification may mean that you will miss out on valuable employment, educational, cultural and other opportunities.

Student Policy for a Drug-Free Campus

1. STANDARDS OF CONDUCT

Nassau Community College is committed to a proactive preventative approach in assuring the campus is free of alcohol and substance abuse. The College operates in compliance with the Drug-Free Workplace Act of 1988 (41 U.S.C. 81) and the Drug-Free Schools and Communities Act of 1989. To maintain an atmosphere conducive to fulfilling this mission, the College's policy for a drug-free campus is as follows:

The College expressly prohibits the unlawful use, possession, manufacture, distribution, or dispensation of controlled substances, which includes alcohol, in all Nassau Community College facilities or while attending or conducting College business off campus.

No alcohol is permitted on campus without express permission of the President or his designee. Consumption of alcohol is not permitted on campus by anyone under the age of 21. Compliance with the provisions of the College's drug and alcohol policies is a condition of attendance at the College. The College's drug and alcohol policies also apply to all student-sponsored social activities.

Violations of any rule of the Student Code of Conduct shall result in appropriate disciplinary action. Drug and Alcohol-related infractions of the Code of Conduct include the following:

- Being present on campus or at any College function, whether on or off campus, under the influence of alcoholic beverages, narcotics or drugs;
- unauthorized possession, use, and/or sale, or intent to possess, use, or sell alcoholic beverages, narcotics, drugs or drug paraphernalia, while on campus, or at any College function, whether on or off campus.

2. DISCIPLINARY SANCTIONS.

The College considers the illegal possession and/or use of drugs and alcohol to be extremely serious in nature. Such violations may constitute cause for **immediate suspension and/or ejection from the campus**. Disciplinary sanctions under the Code of Conduct for drug and alcohol-related offenses include:

- social probation,
- temporary suspension during the investigation period,

- suspension for a specific period of time,
- permanent expulsion,
- permanent transcript notation if the drug or alcohol offense includes intentional behavior which could lead to death or serious injury of another person,
- a “persona non-grata” designation prohibiting the student’s presence on campus entirely.
- a “record hold,” which would prohibit the student from making any academic, financial, or social transactions without prior approval of the Office of the Dean of Students.
- Other sanctions, including but not limited to community service, referral to counseling, mentoring, mandated enrollment in a course focused on drug and alcohol consumption, or any other sanction deemed appropriate under the circumstances by the Dean of Students and/or the Student Code of Conduct Committee.

In addition, **if you are receiving any financial aid under Title IV, HEA* program funds during your enrollment at Nassau Community College, and you are convicted under any federal or state law for possession or sale of illegal drugs, you will lose eligibility for any Title IV, HEA grant, loan, or work-study assistance.** (HEA Sec. 484(r)(1)); (20 U.S.C. 1091 (r)(1)). The period of ineligibility will be as follows:

If convicted of an offense involving the possession of a controlled substance:

Offense Number:	Ineligibility period is:
First offense	1 year
Second offense	2 years
Third offense	Indefinite

If convicted of an offense involving the sale of a controlled substance:

Offense Number:	Ineligibility period is:
First offense	2 years
Second offense	Indefinite

*The Higher Education Opportunity Act (Public Law 110-315) (HEOA) was enacted on August 14, 2008, and reauthorizes the Higher Education Act of 1965, as amended (HEA). Title IV of the HEA provides for administration of Federal student financial aid programs.

3. HEALTH RISKS ASSOCIATED WITH THE USE OF ILLEGAL DRUGS AND THE ABUSE OF ALCOHOL

Nassau Community College is committed to supporting an environment which fosters academic success and continual learning as well as the health and well-being of the members of its community. The use and/or abuse of illegal drugs and alcohol carry possible health risks to the individual user as well as the campus community and community at large. Health-related and other risks associated with drug and alcohol use may include:

- damage to major organs such as the brain, heart, lungs and liver;
- medical conditions, such as high blood pressure, cancer, heart attack, or stroke.
- unwanted pregnancy, sexually transmitted infections, unwanted sexual activity, poor academic performance or failure;
- The use of alcohol during pregnancy may cause injury to the fetus or Fetal Alcohol Syndrome.
- Users of needles for the use of drugs such as heroin or crack carry the risk of spreading HIV and Hepatitis from the sharing of those needles.
- Additional health risks exist for driving under the influence of alcohol or drugs, including those prescribed by a medical provider, and may result in driving-related injuries and even fatalities.
- physical and mental dependence or addiction. Addiction is a primary, progressive, chronic and potentially fatal disease. Common signs and symptoms of addiction may include:
 - Drinking or using substances for the relief of withdrawal symptoms
 - Increased tolerance or reverse tolerance (drug sensitization)
 - Feeling guilt, shame or remorse (as a result of behavior while under the influence of alcohol or other drugs)
 - Anxiety, depression, or other mental health diagnosis
 - Concern from family and/or friends about drinking or drug use
 - Decline in work performance or loss of interest in hobbies and daily activities
 - Inability to remember what happened when drinking (blackouts)
 - Financial difficulties including making sacrifices for the purchase of drugs
 - Having problems with the law through increasingly risky behaviors and impaired judgment
 - Denial or not being aware that a problem exists
 - Much time dedicated to the use of a substance (obsession)
 - Use that continues despite known health problems that have developed from use

- For more information on specific health risks of certain drugs and alcohol use, please review the following information from the Centers for Disease Control and Prevention (CDC) and the National Institute of Health and Human Services (NIH):
 - Health Risks of Alcohol Consumption
 - Health Effects of Marijuana Consumption
 - Health Risks of MDMA (Molly/Ecstasy)
 - Health Risks of Prescription Opioids

4. LEGAL SANCTIONS FOR UNLAWFUL POSSESSION OR DISTRIBUTION OF ILLICIT DRUGS OR ALCOHOL

Unlawful possession or distribution of illicit drugs or alcohol violate College policy, as well as local, New York State and Federal laws.

Violation of drug and alcohol-related laws will subject individuals not only to sanctions under the College's Student Code of Conduct, but also to criminal sanctions.

Note on Marijuana: On March 31, 2021, New York State legalized recreational marijuana use by adults 21 and older. However, smoking or vaping cannabis in New York remains prohibited in any place where smoking is prohibited, and is specifically prohibited at colleges and universities. As such, the Nassau Community College policy remains unchanged: **the College prohibits the possession, use, consumption, transfer, manufacturing, sale or distribution of marijuana.** Despite the State's legalization of marijuana use, the federal government regards marijuana as a Schedule I Controlled Substance (see table in **Appendix A**), and possession of marijuana remains illegal under federal law. Under the federal Drug-Free Schools and Communities Act, institutions of higher education must have a program in place to prevent unlawful possession, use and distribution of illicit drugs and alcohol by students and employees on campus, as part of a college's activities and programs, and as a condition of receiving federal funds. Marijuana is still designated as an illicit drug under federal law, and is not permitted on the College campus.

Appendices A, B and C include a detailed summary of violations of Federal and New York State drug and alcohol laws, along with related penalties and sentencing guidelines. The following information is covered:

1. Federal penalties for trafficking of Schedule I, II, III, IV, and V substances, such as cocaine, heroin, fentanyl, LSD, and methamphetamine. (See Appendix A).
2. Summary of federal marijuana laws and related penalties. (See Appendix A).
3. Summary of New York State's Alcohol and Beverage Control Law, Article 5 ("ABC Law"), focusing on procuring alcohol for those who are under 21 years of age. (See Appendix B).
4. Summary of New York State's Vehicle and Traffic Law, Article 31, focusing on operating a motor vehicle while under the influence of drugs and/or alcohol. (See Appendix B).
5. Summary of New York State's Penal Law, Article 220, focusing on criminal possession of controlled substances, excluding marijuana. (See Appendix C).
6. Summary of New York State's Penal Law, Article 222, Cannabis. (See Appendix C).

5. DRUG AND ALCOHOL PROGRAMS

- **Nassau Community College Public Safety**
Public Safety from campus – 27111
Public Safety off campus: 516.572.7111
In case of an emergency, always call 911
- **Nassau Community College Psychological Counseling Center** – Nassau Hall, Room 14. 516.572.7698. The Counseling Center offers student psychological counseling, crisis intervention and referrals. All services are provided at no cost to the student. Students are encouraged to take advantage of the Psychological Counseling Center to address a variety of challenges, including substance or alcohol abuse.
- Nassau Community College Substance Awareness Committee of the Academic Senate. The Substance Awareness Committee has an ongoing commitment to educate the campus community on preventative measures towards the use and abuse of alcohol and other substances.

SUNY Admission Policy

Nassau Community College Policy for the Admission of Persons with Disciplinary Dismissals

Nassau Community College is committed to providing an opportunity for all qualified applicants to receive a quality education. Applicants who have been dismissed from another academic institution for disciplinary reasons may be accepted to study at Nassau Community College, providing the applicant is able to successfully satisfy the evaluation process. Applications will be reviewed by the College Admissions Review Committee. The Committee will request that the applicant provide the specifics of the disciplinary dismissal, such as background, charges filed, and date(s) of occurrence. Appropriate releases may have to be executed by the applicant for receipt of educational disciplinary records. The Committee may also require a personal interview to clarify or verify the information received.

Upon reviewing the information, the Committee will determine whether the student may be admitted to the College, whether certain conditions of admissibility will be imposed (i.e., major selection, course scheduling, involvement in activities), or whether admission will be denied. NCC reserves the right to deny an applicant's request for admission to the College or to a selected program at the College if the applicant's disciplinary record would prevent the applicant from successfully completing or obtaining a required license and/or certification associated with the program, or would involve an unreasonable risk to persons or property, or to the welfare of the campus community.

Failure to disclose any disciplinary dismissals, falsification of data, or intentional misrepresentation within any area of the application process, may result in denial of admission, disciplinary action, or the immediate dismissal of any student found to be culpable.

Procedures for the Admission of Persons with any Disciplinary Dismissals

1. Complete the appropriate admissions application. Include copies of all required academic information needed for the type of admission being sought.
2. Complete a *Request for the Admissions Review Committee form* (available in the Office of Admissions) and submit completed form to the Office of Admission at least 30 days prior to the start of the semester. All areas of the form must be completed. These include:
 - a. Date(s) and location(s) of offense(s)
 - b. Summary of disciplinary actions, including any special provisions
3. The Admissions Review Committee will convene to review all materials pertaining to the applicant's admission. The Committee will have access to and will consider all available information specified above, including the applicant's past academic record(s). All pertinent information will be reviewed.
 - a. The Admissions Review Committee will consist of the following individuals:
 - i. The Dean of Admissions or his/her designee, who will chair and convene the committee,
 - ii. The Director of Public Safety or his/her designee, and
 - iii. The Dean of Students or his/her designee
4. The Admissions Review Committee submits its recommendation for review to the Vice President of Academic Student Services, or his/her designee. If the VP or designee concurs with recommendation, the student is notified of the decision. If the VP or designee requires additional documentation or review, he/she may return the application to the Admissions Review Committee for follow up.
5. Applicants who have been dismissed due to a disciplinary action, who meet the NCC admission qualifications, may be accepted with certain conditions that will be determined on a case-by-case basis.
6. If the review process finds that applicant's admission to NCC would involve unreasonable risk to property, or the safety or welfare of the campus community, the applicant will be informed that admission has been denied.

Administration of Naloxone (Narcan)

1. Rates of death from drug intoxication or a drug overdose have risen dramatically in the United States. Opioid overdose kills thousands of Americans every year. College students are a high-risk population for drug misuse and combination drug use. Opioids are present in the majority of drug overdoses. Opioids cause death by inducing fatal respiratory depression which can easily be reversed by administering an opioid such as naloxone. Naloxone is an opioid antagonist (blocker) which rapidly counteracts the effects of opioids and has saved countless lives. Naloxone is not a controlled substance.
2. The utilization and administration of naloxone by trained College employees has a goal of reducing campus fatalities from opioid-related overdoses and exposures.
3. Overdose response training is required for College employees who may be called upon to serve as overdose responders in order to ensure that they can identify common symptoms of an opioid overdose and administer Narcan nasal spray. Narcan will be administered by a trained NCC Public Safety Officer or by NCC Nursing staff when there is reasonable belief that a person is suffering from an opioid overdose.
4. The College shall develop procedures for administration of Narcan, which will be updated as needed in order to ensure that all current guidelines and health and safety practices are adhered to.

Admissions Information

Students interested in attending Nassau Community College should consult the College website for up-to-date information and program requirements.

DEGREE-SEEKING STUDENTS

New Students

Students who wish to earn a degree or certificate at NCC should apply for matriculated status by completing the College's Degree-Seeking Application for Admission (found at www.ncc.edu/apply) and providing all required documentation by the admissions completion deadline. An application fee will be charged once; if you have applied to NCC in the past and have paid an application fee, you will not be charged again. Acceptance as a matriculated student in a particular program indicates that the student has met all admissions requirements to be a degree or certificate candidate in that program. Most of the time, matriculated students attend on a full-time basis (12-17 credits per semester), although students should decide for themselves the academic load they are able to carry. It is important to note that matriculated status is required in order to receive certain kinds of financial assistance.

All degree or certificate candidates must possess a state-endorsed high school diploma or a high school equivalency certificate (HSE). There are limited options for non-high school graduates; refer to the section entitled Enrollment Options for Non-High School Graduates. Local school diplomas, such as CDOS, and annotated diplomas, school-leaving certificates, and certificates of attendance are not valid for admission, unless the school certifies that the applicant has met all diploma requirements mandated by the State Education Department of New York.

All students who have graduated from an approved high school or received a high school equivalency (HSE) document will be offered acceptance to an appropriate program of study. However, some programs have more extensive requirements for admission. The applicant's high school record and, in the case of transfer students, college record(s), are the most important factors for admission to selective programs such as Nursing and the Allied Health Sciences. The results of the Scholastic Aptitude Test (SAT) and American College Test (ACT) are not required, but along with New York State Regents English and Algebra 1 math scores may also be used to waive the applicant from one or more parts of the College's placement tests. Consequently, students are encouraged to submit test scores as part of the application process.

The Office of Admissions, in conjunction with several academic departments, holds informational workshops and/or individual sessions with prospective students, to ensure that students are aware of prerequisites for admission to selective programs.

Information on criteria for admission to all areas of study is found in the Programs Requirements Chart, which can be viewed on the same College web page as the application for admission and is included with the paper application for admission.

Because of the limited number of seats available in classrooms and laboratories, the College reserves the right to limit matriculation into specific programs of study.

Applicants with international credentials and international applicants who require a Student (F-1) Visa must submit additional application materials and must review our latest requirements online.

Students are encouraged to complete NCC's online application for admission (www.ncc.edu/apply). For questions regarding the application process, contact the Office of Admissions, Nassau Community College, One Education Drive, Garden City, NY 11530-6793, or by calling 516.572.7345, or via email at admissions@ncc.edu.

JOINT ADMISSIONS WITH FOUR-YEAR COLLEGES

Applicants who plan to continue their education at a four-year college after graduation may be better prepared for acceptance by taking advantage of Nassau's joint admissions options. Joint admissions agreements currently exist with SUNY-Stony Brook, SUNY-Old Westbury, SUNY-Albany, SUNY - Farmingdale, Hofstra University, Adelphi University, NYIT, L.I.U. Post, St. John's University and St Joseph's University.

Students can apply for joint admissions at the same time that they apply for admission to NCC. Joint admissions applicants are usually contacted by the senior institution. Acceptance to the senior institution is conditional upon receipt of the Nassau Community College transcript and may require a particular grade point average and/or additional course work to satisfy the senior college's entrance and/or graduation requirements. Students are strongly encouraged to contact the senior college of their choice for further information on the joint admissions opportunities.

Transfer Students

For admission with advanced standing from a regionally accredited college(s), students must submit an official copy of their high school credentials and official college records from EACH college previously attended to the Office of Admissions. All official academic records should be emailed by the schools previously attended to: admissions@ncc.edu. In those cases where transcripts cannot be emailed, they may sent through the mail to: Office of Admissions, Nassau Community College, One Education Drive, Garden City, NY 11530-6793. It is the student's responsibility to make sure that the College receives all official transcripts by appropriate admission completion deadline dates.

Transfer Policy and Procedure

The Office of Admissions will provide an evaluation of transfer credit for degree-seeking students when an official college transcript(s) is submitted as part of the required admissions process, once your application is complete.

Note: official transcripts from all colleges/universities attended, transcripts for college-level courses taken during high school, official Advanced Placement (AP), International Baccalaureate (IB) and CLEP scores, as well as any other college-level examination for which transfer credit is expected, must be submitted individually.

Late submission of transcripts can affect your transfer credit evaluation and your schedule for the term, as well as financial aid eligibility. Transcripts from colleges/universities not disclosed during the admissions application process can jeopardize your admissions decision, as well as your degree program acceptance. Once a student is in attendance, the Office of the Registrar oversees the maintenance of all academic records and will assist in the evaluation of transfer credits or re-evaluation, as required.

Transferring Credits

Only equivalent courses with a grade of "C-" or higher will be accepted from other regionally accredited postsecondary institutions, except in programs that require a higher course grade. Credits from institutions other than regionally accredited schools will be reviewed and may be evaluated for transfer credit on a case-by-case basis. Official transcripts received by email or official transcripts in sealed envelopes are required for evaluation. Students must complete a minimum of 33 credits in residence at NCC within a degree program, or 15 credits within a certificate program (certain academic departments at NCC may limit the number of credits transferred into their academic program). Transfer courses above the 31 credits will be initially excluded. Courses completed on a trimester or quarterly basis will be converted to semester hour credits. It is recommended that students request a re-evaluation of their transfer credits, if they change their program of study while in attendance. Students must submit a Change of Program request form in order to update their major.

Opportunities are available to students through a policy of credit allowance for "life experience" and "credit by examination." Placement into courses or credit may be granted as approved by the College based on one or more of the following methods:

1. Departmental criteria (including written examinations, interviews, evaluation of past work or study, auditions, etc.);
2. College Level Examination Program (CLEP);
3. College Proficiency Examination (CPE);
4. Advanced Placement tests (AP);
5. International Baccalaureate (IB) exams;
6. United States Armed Forces Institute Examinations (USAFI/DANTES). The departments awarding credit for advanced standing and/or "life experience" are Accounting/Business Administration, Administrative Business Technology, Allied Health, Art, Biology/Chemistry, Criminal Justice/Fire Science, Health/Physical Education/Recreation, Hospitality Business, Marketing/Fashion Buying & Merchandising/Interior Design/Retailing, Mathematics/Computer Science/Information Technology/Engineering/Physics/Physical Sciences, Music, Nursing, Psychology/Sociology/Economics, and Theatre/Dance. Students interested in advanced standing and/or "life experience" credit should contact the appropriate department;
7. Non-traditional training or online programs based on the American Council on Education's recommendations.

If you do not agree with your transfer credit evaluation, please contact the Office of Admissions before the start of classes or if classes have started, contact the Office of the Registrar. All requests must be made prior to the conclusion of the NCC Add/Drop period of the semester for which you were admitted.

Note: Transfer credit from previous institutions will not compute in the grade point average at Nassau Community College. Students must submit official high school and college records to the Office of Admissions. It is the student's responsibility to make sure that the College receives all official transcripts by appropriate admission deadline dates.

Service Members Opportunity College (SOC)

NCC offers active-duty military personnel evaluation of transfer credit. Students must submit military-based training transcripts prior to enrollment, for review of transfer credit. For further information, contact the Office of the Registrar.

Returning Students

Returning degree-seeking students who have attended another college after leaving NCC must reapply online at www.ncc.edu/apply. After acceptance, the Office of Admissions will conduct a transfer credit evaluation. Students who were academically dismissed from NCC and wish to return should review the Academic Standing section of this catalog for information on how to be re-admitted, or visit the Dean of Students website.

RE-ADMISSION

Returning Students:

1. Students who have previously attended Nassau Community College, who left in good academic standing, and who have not enrolled at the College in four (4) consecutive semesters (including fall, winterim, spring, or summer semesters) and who have not attended another college since leaving NCC are considered to be returning students for the purposes of registration. Such students must be readmitted. Returning students who have not attended another college may go to www.ncc.edu/apply and use either the Degree-Seeking (Returning) or Non-Degree application for admission. Students can also visit the Office of the Registrar for this purpose. Returning students who have attended another college after leaving NCC must reapply at www.ncc.edu/apply, using the Degree-Seeking or Non-Degree application for admission, and have official transcripts(s) from all colleges attended since leaving NCC emailed by the colleges to: admissions@ncc.edu, in order for their transfer courses to be evaluated. Students who were dismissed from NCC in the past and wish to return should review the Academic Standing section of this catalog for information on how to be re-admitted.
2. Returning students requesting a new area of study must request their new program on their admissions application and be reviewed by the Admissions/Registrar Office. Students who were once enrolled in high-demand programs, such as Nursing or one of the Allied Health Science programs, may not be permitted to re-enroll in these departments if seats are not available.
3. Returning students interested in re-entering any of these high-demand programs should contact the appropriate academic department. If readmission to the program is not possible, students will have to select another program of study, if they wish to enroll as degree-seeking students with matriculated status.
4. Returning students who have been out of attendance for more than seven (7) years will be required to re-submit all necessary documentation to be considered for readmission. Documentation shall include any high school and college transcripts, recommendations, test scores and any other documents required for consideration of matriculation.

Students may graduate under the official catalog in effect at the time they first started at the College, provided the program of study has not been revised or discontinued and five (5) years have not elapsed since it was revised or discontinued. If five (5) years have elapsed, students must meet the current requirements of the program to graduate.

COURSE CATALOG FOR ADMISSION

Students may graduate under the official catalog in effect at the time they first started at the College, provided the program of study has not been revised or discontinued and five (5) years have not elapsed since it was revised or discontinued. If five (5) years have elapsed, students must meet the current requirements of the program to graduate.

NON-DEGREE SEEKING STUDENTS

Students who do not intend to pursue a degree or certificate at Nassau, but plan to take courses for personal enrichment or professional growth, should apply as non-degree students. Non-degree students are not required to take the College's skills placement tests unless the course(s) they wish to take require minimum scores on these tests. In particular, they will be prohibited from enrolling in any credit-bearing English, reading or mathematics courses until placement test results are available. Certain exemptions are granted, as noted in the following section on Placement Tests.

Non-degree students are not eligible for state and federal financial aid programs. Additionally, non-degree students may be restricted from taking certain courses due to pre-requisites. Students in attendance who wish to change from non-degree to degree-seeking (i.e. matriculated) status must contact the Office of the Registrar. Additional requirements may have to be completed before matriculation can occur. Students should review the Degree-Seeking Student section of this catalog for matriculation requirements.

Visiting Students

Students who are matriculated at another institution may, with the permission of their home institution, study at Nassau Community College for up to two consecutive semesters, while still maintaining matriculated status at their home college. [Apply online](#) or contact the Office of the Registrar for more information.

ENROLLMENT OPTIONS FOR NON-HIGH SCHOOL GRADUATES

Early Admission

The College enables some high school students who have completed their junior year to enroll as full-time freshmen. Arrangements can be made with the high school so that successful completion of the freshman year of college entitles these students to a high school diploma. Students applying for early admission normally must meet the following minimum requirements:

1. completion of the junior year (11th grade) of high school;
2. completion of at least 16 academic units of college-prep courses in high school;
3. standardized test scores which give strong evidence of intellectual ability to do college work;
4. sufficient emotional maturity to cope with and benefit from an early college experience, as evidenced in an interview with an admissions counselor;
5. permission of the high school counselor or principal.

Applicants for the Early Admission option must complete the College's admission application. Students are also required to arrange an appointment with an admissions counselor. The following items are needed at the time of the interview:

1. a brief statement of the intended purpose of early study;
2. recommendation of a counselor or principal, including a list of specific courses that the student must complete at the College to qualify for a high school diploma (if applicable);
3. a transcript of high school courses completed and in progress;
4. all available standardized test results;
5. additional items may be requested.

High School Enrichment

The College allows some high school juniors and seniors to enroll in college courses (maximum of three courses per semester) during the regular academic year, while continuing to attend high school. Students applying for this enrichment option are expected to meet the following minimum requirements:

1. completion of the sophomore year (10th grade) of high school;
2. evidence of sufficient emotional maturity to cope with and benefit from an early college experience as evidenced in an interview with an admissions counselor;
3. acceptable general academic achievement in high school;
4. permission of high school counselor, assistant principal or principal. This approval serves as endorsement that the student meets course(s) pre-requisite(s) and hence he/she will be waived from taking the NCC placement exam(s).

Honors Connection

High school juniors and seniors who elect the High School Enrichment Option and who have consistently excelled in high school can take a class in the Honors sequence at the College. To qualify students must have at least a 90 GPA and mastery level achievement on multiple Regents Examinations. Interested students should contact the Honors Program coordinator for additional information regarding application at Honors.Program@ncc.edu.

The High School Equivalency (HSE)

Nassau Community College's Office of Admissions will consider applications from students who do not have high school diplomas and who want to earn high school equivalency diploma (HSE) through the completion of college credits. These applicants normally should meet the following minimum criteria:

- Be at least 17 years of age and your high school class must have already graduated
- Currently be a resident of New York State for at least one month

Students applying in this status must meet with a counselor from the Office of Admissions, complete the regular admissions application, supply official high school credentials, and take the basic skills placement test. Applicants who do not meet all of these criteria may present unique circumstances to request special consideration for admission.

The State University of New York, State Education Department, High School Equivalency Diploma Program provides that persons who have not earned a high school diploma may be issued a New York State High School Equivalency Diploma (HSE) if they "provide satisfactory evidence that they have successfully completed twenty-four [24] credits (semester hours) or the equivalent as a recognized candidate for a college-level degree or certificate at an approved institution." The twenty-four credits must be distributed as follows: six [6] credits in English language arts, including writing, speaking and reading (literature); three [3] credits in mathematics; three [3] credits in natural science; three [3] credits in social science; three [3] credits in humanities; and six [6] credits that fulfill college degree requirements. Students are strongly encouraged to consult with academic advisors so that, as much as possible, the courses they take will fulfill the requirements specified above for the equivalency diploma, as well as for the Nassau college degree the student wishes to obtain. Non-credit lifelong learning (continuing education) courses taken solely for personal or cultural enrichment, and not part of a specific degree or certificate program, may not be used to obtain an equivalency diploma. Students who have completed or who are nearing the completion of these requirements should go to the Office of the Registrar to obtain an application for the equivalency diploma, which they must file with the New York State Education Department. Students admitted under this program cannot be granted a degree or certificate without the equivalency diploma granted by the state.

Applicants to the College without a high school diploma begin in non-degree status based on their lack of a high school credential. Students who do not qualify for degree-seeking status may, nonetheless, follow a degree or certificate program as non-degree students in anticipation of their subsequently completing the HSE. Once students have received the HSE, they may apply for degree-seeking status. While in non-degree status, students are not eligible for financial aid.

Students Schooled at Home

Students schooled at home are encouraged to work with their school district office to obtain a letter signed by the school superintendent which verifies that they have completed the "substantial equivalent of a four-year high school program."

While Nassau Community College recognizes home schooling as a legitimate educational option, students schooled at home who are unable to present a superintendent's letter are considered to be without a high school diploma. As such, they are expected to meet the same admission requirements listed for the high school equivalency.

Home-schooled applicants may be eligible for the Early Admissions option described above. It is recommended that students keep a detailed "unofficial transcript" of courses completed with specific information such as reading lists and/or syllabi for each course. In addition, writing samples and lab reports, formal documents from correspondence schools or organizations through which courses were taken, and evaluations and/or grades received for each subject may be helpful in evaluation of students' readiness for particular programs of study. Submission of SAT and/or ACT scores, and scores for other standardized tests is highly recommended.

Students with special circumstances may speak to a representative in the Office of Admissions**GUARANTEED TRANSFER AGREEMENTS**

Because Nassau Community College is a member of the State University of New York, its students are guaranteed a full four-year degree at a SUNY institution, if they meet academic qualifications at the local campus and at the transfer school.

This guarantee may or may not be met at the SUNY senior institution of the student's choice. The College has developed many articulation agreements with 4-year institutions, both public and private, to guarantee acceptance for Nassau Community College graduates who successfully complete certain criteria while in attendance at NCC. Students are urged to take advantage of these guaranteed programs.

Contact the NCC academic department involved or the Transfer Office in Nassau Hall during the first semester of attendance to follow the correct course of study. Many of these offerings are described in the Programs of Study section of this catalog.

MMR & Meningitis Immunizations**MMR IMMUNIZATIONS REQUIREMENT**

New York State law requires that students born on or after January 1, 1957, who are enrolled for six or more chargeable credits, be immunized against measles, mumps and rubella. The law further mandates that students who fail to submit proof of immunization prior to the 30th day of the semester will be disenrolled from all classes.

It Is Necessary For Students To Submit Proof Of Immunizations During The Registration Period In Order To Comply With The New York State Public Health Law (2165).

Disenrolled students are not permitted to be physically present in class and will receive "W" grades for all enrolled classes. Disenrolled students will not be permitted to register for the next semester until all immunization requirements have been completed. Students are not entitled to any refund of tuition and fees for the semester from which they have been disenrolled.

In the event of an outbreak of measles, mumps, or rubella, the New York State Department of Health will exercise emergency procedures that require the College to ban the attendance of any student regardless of credit load who has not submitted proof of immunization to the College's Student Health Services office. For this reason, the College encourages all students in attendance born on or after January 1, 1957, to submit proof of immunization. In the event of an outbreak, students will not be permitted to use attendance restrictions imposed by the New York State Department of Health as a reason for a refund in excess of normal refund entitlements as outlined in the College's refund policy elsewhere in this publication. Submitting documentation of immunization is the responsibility of the student and will ensure uninterrupted attendance.

MENINGITIS REQUIREMENT

New York State law requires colleges to distribute information about meningococcal disease and vaccination to all students enrolled for at least six (6) semester hours or the equivalent per semester.

Colleges in New York State are required to maintain a record of the following for each student:

A response to receipt of meningococcal disease and vaccine information signed by the student or student's parent or guardian. This must include information on the availability and cost of meningococcal meningitis vaccine;

AND EITHER

Record of meningococcal meningitis immunization within the past 5 years;

OR

An acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student or student's parent or guardian.

New York State law states that no institution shall permit any student to attend the institution in excess of 30 days from the start of the semester without complying with this law. The 30-day period may be extended to 60 days if a student can show good faith effort to comply.

For more information please visit our Health Services webpage.

Placement Tests

Placement Testing Waiver Guidelines

English Placement Test Waiver and enrollment into ENG 101

Students shall be exempt from the WritePlacer portion of the Accuplacer placement test, and they shall be placed into ENG 101, the first credit-bearing composition course, if they present:

1. An overall high school grade point average of 85 or higher
or
2. A 3 or higher on the AP English Literature and Composition or English Language and Composition (college credit awarded for ENG 101 or ENG 102 depending on the test).
or
3. A 3 or higher in on the International Baccalaureate English Exam in English (standard or higher level).
or
4. A 520 or higher on the SAT Evidence Based Reading and Writing or SAT Writing Exam or a 21 or higher on the ACT English.
or
5. 21+ on the ACT English will exempt a student from the Reading and Writing Portions of the placement exam.
6. The following minimum TOEFL scores:
 - Reading Skills 22
 - Speaking Skills 18
 - Listening Skills 18
 - Writing Skills 24

English Placement Test Waiver and enrollment into ENG 100

Students shall be exempt from the WritePlacer portion of the Accuplacer placement test, and they shall be placed into ENG 100, the first enhanced credit-bearing composition course, if they present one of the following.

- An overall high school grade point average of 80-84.9 or
- NYS English Language Arts Regents Score from 80-84 taken within the last 4 years or

- Students who present an English grade of D/+/- must register for ENG 100 or a co-requisite ALP course, after consultation with an advisor

Reading Placement Test Waiver

Students shall be exempt from the Reading portion of the Accuplacer placement test, and they shall receive placement of RDG 999, if they present:

1. An overall high school grade point average of 80 or higher
or
2. An SAT Evidence Based Reading and Writing or SAT Critical Reading score of 500 or higher and,
or
3. An ACT Reading Score of 21 or higher,
or
4. A NYS English Regents Score of 79 or higher, acquired within 4 years of application to NCC.
or
5. A 3 or higher on the AP English Literature and Composition or English Language and Composition.
or
6. A 3 or higher on the International Baccalaureate English Exam in English (standard or higher level).
or
7. The following minimum TOEFL scores:
 - Reading Skills 22
 - Speaking Skills 18
 - Listening Skills 18

Math Placement Test Waiver

Students shall be exempt from the Accuplacer mathematics portion of the placement test, if they present:

1. A score of 77 or higher on the Integrated Algebra Regents Exam taken within 4 years of application to NCC
or
2. An 80 or higher on the Algebra Regents I Exam, acquired within 4 years of application to NCC.
or
3. An SAT Math score of 500 or higher.
or
4. An ACT Math score of 21 or higher.
or
5. A 3 or higher on the an Advanced Placement Calculus Exam.
or
6. A 3 or higher on the AP Statistics Exams (non-STEM).
or
7. A 3 or higher on the IB Math exam (standard or higher level).
8. Students who present a mathematics grade of D/+/- or C-, will be placed into the appropriate mathematics course, after consultation with the Mathematics department. STEM identified students transferring in a liberal arts math course with a grade of C or higher will be required to take the algebra portion of the placement exam.

Additional waivers of the Placement Tests

College credit from a regionally accredited college or university with a grade of a C or higher in math (course equivalent to MAT 109) or English (ENG 101) will also allow a student to be exempt.

Students who have successfully completed credit-bearing classes at regionally accredited colleges will not have to take the placement test in the areas in which they have already been successful. Students who present an English grade of D/+/- must register for ENG 100 or a co-requisite ALP course, after consultation with an advisor. Students who present a mathematics grade of D/+/- or C- will be placed into the appropriate mathematics course, after consultation with the Mathematics department. STEM identified students transferring in a liberal arts math course with a grade of C or higher will be required to take the algebra portion of the placement exam.

Students applying to certificate programs that do not require coursework in English, Mathematics, or Reading will not be required to take the placement tests, provided the courses do not have a remedial prerequisite.

Post-graduate and Transfer Students

Exemptions from the placement test will be given to those students who provide documentation that they possess a college degree from an accredited institution. Students who have graduated from colleges outside the United States may be required to take one or more sections of the placement test. In addition, transfer students who submit documentation that they have successfully completed a college level mathematics course equivalent to Nassau's MAT 109 (Algebra and Trigonometry) or higher shall be exempt from the mathematics portion of the placement test. Those who submit documentation that they have successfully completed (C or above) a college level course equivalent to Nassau's ENG 101 (Composition I) shall be exempt from the reading and writing portions of the placement test.

Transferring Credits

Only equivalent courses with a grade of “C-” or higher relevant to a student's degree requirements at Nassau will be accepted from other regionally accredited postsecondary institutions to apply toward a degree. Although a minimum of 31 residential credits must be completed at NCC within the degree (15 credits within a certificate), the College may transfer additional courses in case students change their program of study while in attendance. Courses above the 31 credits will be initially excluded. Students must submit a Change of Program request to change their major—at which time all transferred in courses will be reviewed once again. Courses completed on a trimester or quarterly basis will be converted to semester hour credits. Questions regarding evaluation of transfer credits should be referred to the Office of Admissions.

Special Programs

We have many outstanding special programs to meet the needs of our students.

- The Fresh Start Program
- Carol Farber Honors Program
- English as a Second Language
- Distance Education
- Weekend College
- Summer Sessions
- The College Experience
- Learning Communities, NSINCC
- International Study Programs
- Programs for Military Personnel

FRESH START

The Fresh Start Program allows a student who has not been in attendance at Nassau Community College for three years (six fall-spring semesters) to remove from the grade point average grades lower than “C” earned during his/her previous attendance.

1. In all credit bearing courses taken after re-entry and before acceptance into the program, the Fresh Start candidate must receive a grade of “C” or higher. Therefore, a candidate is urged to carefully review his/her schedule and not to overextend his/her commitments. For non-credit courses, a grade of “S” must be achieved.
2. The Fresh Start candidate may apply for Fresh Start during the semester in which he/she expects to complete twelve (12) credits after re-entry.
3. The Fresh Start candidate must successfully complete twelve (12) credits of study within two academic years after re-entry in order for his/her application to be approved.
4. Acceptance into Fresh Start will be granted only once.
5. The Fresh Start candidate will be permitted withdrawal (“W”) grades only if he/she has an extenuating circumstance such as a medical or personal emergency authorized and accepted by the Dean of Students.
6. The Fresh Start Policy does not supersede existing ESL policies and programs. A student placed in an ESL courses as a result of the College’s placement test must satisfactorily complete the program’s requirements before Fresh Start status can be considered.
7. The Fresh Start Policy does not supersede departmental admission policies.
8. The Fresh Start Policy does not supersede College dismissal policies. (See College catalog section on dismissal policy and dismissal appeal procedures.)
9. The Fresh Start policy does not prevent a student from repeating courses in order to secure a higher grade in those courses.
10. The guidelines set forth in the Fresh Start Policy cannot be waived.

Application Procedure for Fresh Start:

1. A student may apply for Fresh Start status during the semester in which he/she expects to complete the twelve credits described in parts two and three of the policy guidelines noted above. Provided that all criteria for the policy have been met, Fresh Start status will be officially granted by the Vice President for Academic Affairs or designee. The Registrar’s Office will notify the student of approval via the student’s College email account.
2. **Where to submit an Application:** The Academic Advisement Office, located in the Student Services Center. Please see our website for hours of operation.

Completed applications may also be mailed to: Fresh Start Program, Academic Advisement Center, Nassau Community College, Garden City, NY 11530-6793.

[back to top]

Carol Farber HONORS Program

Honors classes are offered for academically advanced students who are invited to participate based on their high school grades. Those completing Honors courses will have an "Honors" designation entered on their transcripts. Honors students are enrolled in a special core curriculum which features an enriched background in English, the humanities, math, sciences, social sciences and electives. Students may also elect Honors courses in certain subjects only. All Honors courses fulfill the requirements for any Associate Degree. Students in all majors will have the opportunity to meet with a special advisor to develop a plan of study which includes Honors courses and maximizes their ability to develop their full potential. To be considered for Honors at Nassau, applicants must rank in the top 20 percent of their high school graduating class and must have completed three years of Regents English, Regents mathematics, and Regents science, demonstrating consistently high grades in each. Students may also be required to meet additional criteria determined by the Coordinator of the Honors Program. To apply for Honors, check the designated box on the College's application for admission. For further information, contact the Honors office at 516.572.7194, or the Office of Admissions.

[back to top]

ENGLISH AS A SECOND LANGUAGE

The College offers a number of special courses and programs in English as a Second Language (ESL) for students interested in academic, personal, or professional growth.

For new matriculated ESL students, the College ESL Program provides separate course work in the areas of writing, reading, and speaking/listening at the advanced (030) level of instruction. Courses are given at convenient times during the daytime, in the evenings, and on weekends. For descriptions of ESL courses, consult the listings in this catalog under English (ENG), Reading (RDG) and Communications (COM).

Placement is determined by the ESL Placement Test. The test has three components: an essay exam, a reading test, and a listening exam. Students will be given an appointment to take the test.

In order to fulfill the College's ESL requirements, ESL students must pass or be placed out of English ENG 030, Reading RDG 030, and Communications COM 030. Successful completion of this course work will demonstrate that students have the skills necessary to continue with academic course work in a wide range of disciplines, and work toward a degree or certificate in a selected major, career or vocation.

[back to top]

DISTANCE EDUCATION

NCC offers a variety of distance education courses to meet the needs of students. These courses offer students flexible and convenient learning opportunities. There are two types of online courses:

- A fully online course is a class in which the course content and instruction are delivered entirely through the web using the learning management system, Blackboard.
Note: Students may be required to take proctored midterm and final examinations.
- A hybrid course combines face-to-face classroom instruction with online learning. The coursework is evenly divided between on-campus meetings and web-based activities.

The successful completion of distance education courses requires a strong commitment and the discipline to stay on-task. Interaction is an important aspect of the online classroom, and the instructor may have students participate in activities such as discussion forums, chat rooms, and group projects. Distance education is not an easier way to attend classes but it can provide students with a very rewarding and worthwhile learning experience.

For more information regarding Distance Education courses, please call the Office of Distance Education at 516.572.7883.

[back to top]

WEEKEND COLLEGE

Weekends are a prime time for learning at Nassau Community College. Weekend College offers students the opportunity to work towards degrees and certificates by taking classes on Friday evenings, on Saturdays and Sundays in the fall and spring semesters, and on Saturdays and Sundays during the summer. Any student may take Weekend College classes to customize his/her class schedule and to meet individual needs.

Weekend College, combined with on-line courses, enables students, and especially busy adults, to pursue courses in popular programs including Liberal Arts, Criminal Justice, Business, Accounting, Interior Design, Computer Repair Technology, Marketing, Retailing, and Administrative Business Technology.

Students interested in satisfying program requirements for competitive allied health degrees find weekends an ideal time to work towards goals.

Weekend College enables students to advance their studies and reach their educational and career goals in an efficient and convenient fashion. Weekend College students can enjoy the opportunities Nassau provides to all students to earn credits by taking online courses. Weekend College is a key component of NCC's educational outreach and service to the community. Students interested in Weekend College follow the same admission processes and academic policies as all students at Nassau.

[back to top]

SUMMER SESSIONS

Students currently enrolled do not have to submit an application for summer attendance. A student is considered continuing if they have enrolled anytime during the past 4 semesters. Others must complete an application with the application fee for new or visiting students or the re-admit fee for returning students.

Summer course offerings are available online. The vast range of general courses available during the fall and spring semesters is usually available in the summer. Since Nassau's continuing students can register for summer sessions during the spring, some courses will be filled before returning, new or visiting students have the opportunity to register. For this reason, visiting summer students should prepare several course alternatives.

Visiting students attending Nassau Community College for the summer session only, and who are matriculated at other colleges, may register with the written permission of their home institution.

[back to top]

FRESHMAN SEMINAR (NCC 101, The College Experience)

NCC 101, a one credit course, serves as an introduction to college life. It is designed to give students the skills and information necessary to be successful in college.

NCC 101 helps freshmen improve their study skills, become familiar with campus resources, develop positive relationships with faculty, make informed choices about classes and careers, understand the goals and expectations of higher education, and in general, make the most of their college experience. The course also introduces freshmen to a faculty member who, if students wish, will serve as their mentor in subsequent semesters.

Most sections meet once a week for 75 minutes. However, the course is offered in other formats, including hybrid online, summer, departmental, and learning communities sections.

For more information about NCC 101: The College Experience, please call 516.572.8030.

[back to top]

LEARNING COMMUNITIES, NSINCC

N SINCC, the New Student Initiative at NCC, is part of the Learning Communities offerings. It provides students opportunities to take paired courses that fulfill degree requirements and explore new interests. These courses, linked by a common theme or content, present a coherent and enriched curriculum. The instructors in the linked courses coordinate their assignments and discussions. Students work together and are encouraged to form study groups, creating a friendly and supportive environment.

For more information, contact Joyce Stern, Coordinator of the Learning Communities Program at 516.572.9885.

[back to top]

INTERNATIONAL STUDY PROGRAMS**International Student Services**

Applicants who will require a student (F-1) visa should contact the Office of International Student Services for information on applying. F-1 applicants must complete the International Admissions Application and submit the forms necessary to obtain a Form I-20, which is required to apply for an F1 visa or status. The Form I-20 will not be issued until a student has completed the application process and has been accepted for full-time study.

International Student Services also provides continuous immigration guidance and support services throughout an international student's program. Services include advisement related to F1 status maintenance, travel/consular issues, health insurance program and working on and off campus and more.

For more information, contact the Office of International Student Services at 516.572.7053, or via e-mail at isaoff@ncc.edu. Information and application materials can be found on the International Student Services webpage.

[back to top]

Study Abroad Programs for NCC Students

Our students have access to a variety of study abroad programs and courses offered through NCC, the State University of New York (SUNY), and the College Consortium for International Studies (CCIS). The College offers short-term study abroad courses during the winter and summer sessions. Departments offering study abroad courses include Biology, Criminal Justice, Hospitality Business, Legal Studies and Marketing/Retailing/Fashion. Locations of these courses include Africa, Europe, Central America, and the Pacific Rim. Semester or year-long programs can be taken while in attendance at NCC via SUNY schools or CCIS.

To be eligible to participate in short-term study abroad programs, students must have completed 15 credits, 24 credits for semester and year-long programs. All students must have a GPA of 2.5 or higher. Most study abroad courses and programs are eligible for financial aid funding if a student qualifies for State and/or Federal financial assistance. For more information on any of these programs, contact the Office of International Education at 516.572.7213.

[back to top]

PROGRAMS FOR MILITARY PERSONNEL

Reserve Officer Training

Qualified full-time Nassau Community College students may participate in the Army or Air Force Reserve Officers Training Corps program at a nearby university on a cross-enrolled basis. Students may enter the ROTC program at any time prior to completing their sophomore year. There is no obligation to complete the ROTC program until the start of the junior year.

Undergraduate participants may compete for full scholarships, which include tuition, books, fees, and a monthly stipend of \$250 (up to ten months of each school year). The basic course takes only one hour a week. For further information, contact the Professor of Military Science 516.463.5648 at Hofstra University for the Army ROTC, and Department of the Air Force 718. 862.7201 at Manhattan College for the Air Force ROTC

Service Members Opportunity College (SOC)

Sponsored by the American Association of State Colleges and Universities and the American Association of Community and Junior Colleges, Service Members Opportunity College institutions offer active-duty military personnel evaluation of transfer credit and flexible degree program requirements. The College uses the American Council on Education (ACE) guidelines to award credit for military courses, training, and experience, and awards credits for nationally recognized testing programs. For more information, contact the Office of Registrar.

Concurrent Admissions Program (CONAP)

The CONAP program was created to increase the College enrollment of Army veterans with *GI Bill*® education benefits after their separation from the service. Under this program, eligible Army enlistees will be admitted to the College concurrently with their enlistment. This deferred admissions agreement is good for up to two years after completion of two or three years active duty. For further information, contact the Office of Admissions or a local military recruitment office.

[back to top]

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

FINANCES

This section covers everything you need to know about tuition, fees, expenses and financial aid at Nassau Community College.

Items in the Finances section include:

- Residency Requirements
- Tuition, Fees and Expenses
- Student Tuition Liability and Refund Policy
- Third Party Sponsored Payments
- Scholarships

Residency Requirements

Residency Requirements for Tuition Purposes

To be eligible for the resident tuition rate, a student must have one year's legal residency in New York State and six months in the County of Nassau immediately preceding the time of registration for any period of attendance. The legal residency of unmarried students under 21 is deemed to be that of their parents.

New York State students from counties other than Nassau may have the nonresident tuition rate waived by submitting a Certificate of Residence from their home county fiscal office prior to payment of tuition and fees. The submission of a valid Certificate of Residence qualifies students who reside in counties other than Nassau for the Nassau County resident tuition rate.

Applications for a Certificate of Residence are available in the Bursar's Office, temporarily relocated to C-Cluster, 1st floor and Student Financial Affairs, Tower, 5th floor. For students commencing study in the fall semester, the certificate will cover a full year, including fall and spring semesters and summer sessions. Certificates of Residence must be renewed each year. Individuals on student visas cannot qualify for a Certificate of Residence. Questions about residency status should be directed to the Office of Student Financial Affairs, Tower 5th floor or by telephone at 516.572.7326.

Tuition, Fees and Expenses

Students who register for 12 or more credits or their equivalent during the fall and spring semesters are considered full-time students and pay full-time tuition and fees. During the summer semester the full-time rate does not apply; charges are based on credits or their equivalent. The tuition and fee schedule, effective with the fall 2023 semester, is subject to change at the discretion of the College. Registration is complete only upon full payment of tuition and fees.

TUITION New York State Resident	FULL-TIME* (12 or more credits)	PART-TIME (Per Credit)	NON-CREDIT (Per Lecture Hour)
Nassau County Resident	2900.00	242.00	242.00
¹ Out of Nassau County Resident with Certificate (Each academic year, a valid Certificate of Residence must be submitted not earlier than sixty (60) days prior to the beginning of the semester)	2900.00	242.00	242.00
Out of Nassau County Resident Without Certificate	5800.00	484.00	484.00
Out of New York State Resident	5800.00	484.00	484.00
Half (½) Credit/Lecture Hour Courses - one half of the above rates.			
² Off-Site High School Courses		80.00	
Fees			
Activity/Laboratory/Material Fees:depending upon course, not to exceed	100.00		
Applied Music Fee	400.00		
Technology Fee (Full time/Part time)	125.00	50.00	
Special Course Fee, costs to be determined by vendor contract	Costs to be determined		
Consolidated: \$2 per credit, not to exceed	30.00		
International Student Health Insurance Fee, determined by underwriter, not to exceed.	2000.00		
Extracurricular Fee			
Full-Time , including Student Accident Insurance	110.00		
Part-Time , including Student Accident Insurance (per credit)		12.00	
NON-REFUNDABLE FEES			

TUITION New York State Resident	FULL-TIME* (12 or more credits)	PART-TIME (Per Credit)	NON-CREDIT (Per Lecture Hour)
Admissions Application Processing	55.00		
³ Late Period Change of Program/Late Registration	30.00		
⁴ Late Period Tuition Payment	25.00		
Tuition Payment Plan Enrollment	40.00		
Tuition Payment Plan Late Fee (paid to Transact)	25.00		
Certificate of Immunization Document	5.00		
Diploma Replacement	15.00		
Replacement ID Card	10.00		
Returned Check Processing	20.00		
Liability Insurance required for clinical laboratory courses (Payable Once) each academic year, not to exceed	250.00		
Advanced Standing Nursing Program Evaluation	75.00		
Voluntary Alumni Association Membership	50.00		
⁵ Vehicle Registration Fee, full academic year rate	55.00		
International Internship Program Fee (per semester)	300.00		
International Student Dormitory Fee (per semester)	100.00		

TUITION/FEES ARE SUBJECT TO CHANGE AT THE DISCRETION OF THE COLLEGE.

1. Education Law, Section 6305, provides, "The chief fiscal officer of each county, as defined in Section 2.00 of the local finance law, shall, upon application and submission to him of satisfactory evidence, issue to any person desiring to enroll in a community college as a non-resident student a certificate of residence showing that said person is a resident of said county...Such person shall upon registration for each college year, file with the college such a certificate of residence issued not earlier than two months prior hereto, and such certificate of residence shall be valid for a period of one year from the date of issuance." Education law, section 6301, paragraph 4, defines: "Resident" A person who has resided in the state for a period of at least one year and in the county, city, town, intermediate school district, school district or community college region, as the case may be, for a period of at least six months, both immediately preceding the date of such person's registration in a community college or, for the purpose of section sixty-three hundred five of this article, his/her application for a certificate of residence. In the event that a person qualifies as above for the state residence but has been a resident of two or more counties in the state during the six months immediately preceding his/her application for a certificate of residence pursuant to section sixty-three hundred five of this chapter, the charges to the counties of residence shall be allocated among the several counties proportional to the number of months, or major fraction thereof, of residence in each county.
2. Subject to New York State residency requirements; high school students not meeting residency requirements will be charged \$160 per credit.
3. The Late Period is designated to be within ten (10) College Business Days before the start of each session.
4. The Late Period Tuition Payment Fee will be charged for any form of payment which is made on or after the first day of classes.

5. Academic Year charge of \$55. If purchased separately: \$30 per fall or spring semester; \$10 per winter semester; \$20 per summer semester.

* The full-time rate does not apply during the summer semester; charges are based on credits or their equivalent.

Tuition and Fee Schedule 2023-2024 SFA 05/09/2023

Student Tuition Liability and Refund Policy

Schedule Of Student Tuition Liability

A. In order to receive a refund of paid tuition and fees, all students who wish to withdraw from a course must either drop the coursethrough your MyNCC student portal account, or submit a Drop/Add form to the Registrar's Office. Once processed, Nassau Community College is authorized to calculate the student's tuition liability and applicable refund per the appropriate academic study schedule shown below:

Period of Official Withdrawal	Full Semester Liability & Refund	Mini/Summer Session (8 weeks or less) Liability & Refund
Prior to the First Day	0%/100%	0%/100%
During 1 st Week*	25%/75%	75%/25%
During 2 nd Week	50%/50%	100%/0%
During 3 rd Week	75%/25%	100%/0%
After 3 rd Week	100%/0%	100%/0%

*The first week of the semester shall be deemed to start with the first calendar day of the College semester, and shall end on the 7th calendar day of the semester.

B. The College shall grant a full refund of tuition and fees to any student:

1. Whose course has been canceled by the College or
2. Who is unable to complete any course because during the semester the student:
 - a. Returns to Federal military service, or
 - b. Enlists and is accepted into Federal military service, or
 - c. Receives a change of student status through action of the Academic Standing Committee.

C. A student who is dismissed for academic or disciplinary reasons prior to the end of an academic term shall be liable for all tuition and fees due for that term.

D. To consider a refund appeal procedure: After the above official withdrawal procedure has been completed, the student who believes an exception is justified, may submit a written appeal with supporting documentation to the President's Refund Committee, Student Financial Affairs, Nassau Community College. All refund requests must be submitted within ONE YEAR after the end of the term in question. Non-attendance in a class, informing the instructor of withdrawal, or stopping payment on a check, do not constitute official withdrawal notification. Students are liable for payment of tuition and fees due up to the date on which the application for withdrawal is officially approved within the refund period. Refunds will be calculated based upon the date of withdrawal as approved by the Registrar and verified by Student Financial Affairs.

Students with overdue tuition and fees may be referred to a collection agency and will incur additional liabilities of up to 33% to cover all associated collections costs processes.

Students should allow at least six (6) weeks beyond the Liability/Refund Period for refunds to be processed.

This policy corresponds to the Code of Rules and Regulations for Community Colleges operating under the program of the State University of New York (8, NYCRR 602.11).

Tuition and Fee Schedule 2021-2022 SFA 04/13/2021

Tuition and Fees Payment Options

Tuition and Fees Payment

The following payment options are available:

Online: Our online payment process is secure and easy to navigate. It is the most efficient way to process your payment.

Make payment of your tuition and fees by logging into your MyNCC account. Our online payment gateway accepts personal checks* and credit cards, including Visa, MasterCard, Discover and American Express.

*There is no charge for online check payments; a service fee will apply to all online credit card payments.

Mail: Payment by mail may result in delayed processing of your payment. If you pay by mail, enclose your personal check or money order, indicating your NCC student ID. Be sure to mail your payment at least seven (7) days before the due date.

Do not mail cash.

Mail payments to:

Nassau Community College
P.O. Box 418041
Boston, MA 022471-8041

In-Person: Payments may be made by cash, credit card, money order or personal check at the Bursar's Office, located in the Student Services Center, Tower, Lower Level. Please check hours of operation.

Cash payments may only be made in person.

Deferred Tuition Payment Plan

As an alternative to full payment, students may enroll in the College's three-(3) part payment plan. You may enroll in the Payment Plan when making your online payment.

The first payment of 1/3 of tuition and fees plus a \$40 participation fee is due by your payment due date. The next payment will be due approximately one month after the start of the semester; the final payment is due the following month. Late payments may result in a late fee assessed by the payment processor. Students that fail to pay in full and have an outstanding balance will have a hold placed on their account, which will prevent registration for subsequent semesters and access to some College records.

Please note: the payment plan is not offered during the winterim or summer semesters.

Third Party Sponsored Payments

Third Party Sponsored Payments

Students whose bill will be covered in whole or part by a third party sponsor (Union, Access, Veteran's Benefits, employer, etc.) must contact Student Financial Affairs to advise of such and submit appropriate voucher or other needed documents. Failure to do so prior to your scheduled payment due date may result in the cancellation of your classes. If a sponsorship remains unpaid for any reason, the student is responsible for the outstanding balance.

Scholarships

Scholarships

Scholarships are awarded that are given based on merit, need or talent and do not have to be paid back. However, certain criteria may apply in order to receive or maintain a scholarship award.

Nassau Community College Scholarships

Scholarship awarded to incoming, returning, or graduating students from funding by members of the College's faculty and staff, by campus groups, and from local donor organizations and individuals.

Nassau Community College makes scholarship monies available each year for a variety of programs through the College Foundation Office and administered by the Scholarship and Student Aid Committee of the Academic Senate. Students are urged to apply for these scholarships. For more information visit the [NCC Scholarship web page](#).

Other Scholarship Sources

It is never too late to begin your search for scholarships.

- Check your High School and/or local Library for scholarship handbooks, and for a listing of local organizations that award scholarships.
- Check national organizations such as Coca-Cola Foundation, National Merit Scholarship Program, American Legion, etc.
- Local businesses, such as your current employer.

There are many free scholarship search sites available. Listed here are a few scholarship search sites that may provide useful information:

- collegeboard.org
- fastweb.com
- finaid.org/scholarships

Disclaimer regarding scholarship search websites

Nassau Community College does not endorse or recommend any scholarship service or private scholarship websites. We encourage you to be cautious about scholarship search organizations that charge a fee.

Questions about tuition and fees should be directed to the Office of Student Financial Affairs, via email: bursar@ncc.edu or by phone 516.572.7326.

Inquiries concerning financial assistance should be directed to the Financial Aid Office, via email: financialaid@ncc.edu or by phone: 516.572.7396.

Financial Aid

Financial Aid is money that is supplied by monetary source outside the family to help pay for the cost of the student's education. It encompasses a variety of programs funded by colleges, private organizations and state and federal government. Financial aid is any grant, scholarship, loan or work-study program offered to help a student meet his or her educational expenses.

The Financial Aid Office at Nassau Community College is dedicated to assisting students and their families with options on how to finance their education.

Federal Student Aid

The first step to financing your education is to complete the Free Application for Federal Student Aid at studentaid.gov. The information is confidential and only sent to the colleges you list on the FAFSA. **Nassau's school code is 002873.** Filing the FAFSA electronically is faster and less error-prone.

A student and a parent must create a FSA ID to serve as an electronic signature and to log into certain U.S. Department of Education websites. The FSA ID will be comprised of a user-selected username and password. Visit studentaid.gov to create your user name and password.

When filling out the FAFSA, NCC strongly recommends all students and parents (if applicable) to upload the income tax information to their FAFSA using the IRS Data Retrieval tool.

- After you complete the FAFSA, you will be emailed a student aid report (SAR) from the Department of Education notifying you of your EFC (expected family contribution) and that your application was processed or if corrections are necessary.
- The college receives the results of your FAFSA and provides a financial aid award package for you. All students will be sent an email notification to view their award package by logging into the MyNCC Portal.

You may be asked to submit additional documentation to confirm the information reported on the FAFSA and complete the process. To submit the additional documentation, follow these steps:

1. Log into your MyNCC Portal.
2. In the MyFinancialAid folder click on the VerifyMyFAFSA link.
3. if this is your first time you will be asked to create an account
Important: when confirming student information, the student's name, date of birth and SSN you enter must match the information on your FAFSA exactly.
4. You will then be brought directly to the list of items the Financial Aid Office needs you to complete.

These requested documents can only be submitted through this electronic method. Printed forms will no longer be accepted at the Financial Aid Office.

A student must complete the process by the published date in the Federal Register, 34CFR668.60(c), or 120 days after the last day of the student's enrollment, whichever is earlier. If the student does not provide the necessary documents within this time, the federal aid award is forfeited.

A FAFSA must be filed in order to be considered for any type of federal aid, including loans. The information collected on the FAFSA is used to determine financial need. Financial need is defined as the cost of attendance minus the expected family contribution (EFC).

Cost of Attendance

Cost of Attendance (COA) is the estimated and reasonable cost of completing a full year (9 months) of higher education. COA is not your actual charges, but rather an estimate of all possible expenses you may incur.

Estimated full-time educational costs for the 2023-2024 academic year at Nassau Community College:

Dependent Student - Resident

- Tuition: \$5,800
- Fees: \$530
- Books and Supplies: \$2,100
- Transportation: \$2,632
- Personal/Miscellaneous: \$2,600

- Housing & Meal: \$6,750
- Total: \$20,412

Independent Student - Resident

- Tuition: \$5,800
- Fees: \$530
- Books and Supplies: \$2,100
- Transportation: \$1,680
- Personal/Miscellaneous: \$2,600
- Housing & Meal: \$17,250
- Total: \$30,912

General Eligibility Requirements

The FAFSA needs to be completed annually to determine your eligibility for the upcoming academic year. At NCC the fall semester (September - December) begins a new academic year and includes the spring semester (January – May) and summer session (June – August).

In general, to be eligible for Federal Student Aid a student must:

- be a U.S. citizen or eligible non-citizen
- be matriculated in an eligible program of study
- be making satisfactory academic progress in his or her program of study
- not be in default of any Federal loan or have received an overpayment on a Federal grant
- not have borrowed in excess of the annual or aggregate loan limit
- have a valid Social Security number
- not have been convicted of certain drug-related offenses under Federal or State law
- submit official High School transcript or prior college transcript and proof of high school graduation

Students cannot be funded with financial aid for courses that do not count toward their degree requirements. The only exception is for remedial courses that are part of the student's regular program. It is important for students to log in to [MyNCC](#) and view their degree evaluation regularly.

Certain awards are based on the availability of funding. By filing a FAFSA early you may be considered for campus based aid which includes Federal SEOG, Work-study, and Nursing Loan. All students who wish to be considered for financial aid should file their FAFSA by May 30th. The College cannot process a student's FAFSA until all requested documentation has been submitted. FAFSAs received after the student ceases to attend cannot be processed for that academic year.

Federal funds are sent directly to the College and applied to the student account. Any excess funding is then reimbursed to the student for education-related expenses after attendance has been confirmed.

Refund Policy for Federal Financial Aid Recipients

If a student totally withdraws from the College for a particular semester, the student may be entitled to receive funding based on the percentage of the payment period (semester) that the student completed.

If a student completes more than 60.01% of the period, he or she earned 100% of the aid for that period of enrollment.

If the student completes 60% or less of the period of enrollment the percentage of the period completed is the percentage of aid earned and eligible to receive. Any aid that is unearned as a result of totally withdrawing from the College at the 60% or less point of the semester must be returned to the Department of Education.

Federal Grant Programs**Federal Grant Programs****Pell Grant**

A Federal Pell Grant is an undergraduate student award which does not have to be paid back. Students that demonstrate high financial need according to the federal formula and enroll in at least one degree-bearing course are eligible to receive funds from this federal program. The maximum annual Pell Grant award is established by Congress each year.

Supplemental Educational Opportunity Grant (SEOG)

These grants are for students that demonstrate exceptional financial need. Priority is given to Federal Pell Grant recipients. Funds provided by the government for this program are limited. Individual SEOG awards may vary.

Iraq and Afghanistan Service Grant

If you are not eligible for a Pell Grant but your parent or legal guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after September, 2001, you may be eligible for this grant. To receive this grant you must be under the age of 24 and enrolled in college at least part time at the time of your parent's or guardian's death. The amount of the grant will be equal to the maximum Pell Grant for the award year, although the amount will not exceed the cost of attendance for that award year.

Federal Loan Programs

Parent PLUS Loans

PLUS loans are unsubsidized loans for the parents of dependent students enrolled at least half-time at a school that participates in the Direct Loan Program.

Applicants for this loan must be student's biological or adoptive parent. If the biological or adoptive parent has remarried at the time of completing the FAFSA, the stepparent may apply for this loan on behalf of the student.

Parent PLUS Loan borrowers cannot have an adverse credit history (a credit check will be done). In addition, parents and their dependent child must be U.S. citizens or eligible noncitizens, must not be in default on any federal education loans or owe an overpayment on a federal education grant, and must meet other general eligibility requirements for the Federal Student Aid programs.

Applications for this loan are available in the Financial Aid office. Once approved, the borrower (parent) must complete a PLUS loan promissory note at studentaid.gov.

Federal Student Aid Loan Servicers

When a student receives a Federal Student Loan, they are assigned a loan servicer. The loan servicer is the organization that handles billing for the loan(s) and can provide borrowers with information about repayment. If you, the borrower, are not sure who your loan servicer is, you can look up this information on the National Student Loan Data System at studentaid.gov.

You will need your FSA ID. This is the same username and password you used to sign your FAFSA.

Federal Work-Study Program

Federal Work-Study Program

The Federal Work-Study program is a federally funded financial aid employment program. To be eligible a student must be matriculated and enrolled in a minimum of 6 credits. Eligibility is based on need as determined by the FAFSA and the availability of funds. Recipients of this program must be making satisfactory academic progress.

Satisfactory Academic Progress

Students receiving federal Title IV aid for their educational costs are required to maintain an acceptable cumulative GPA, while at the same time completing a specified percentage of the credits for which they register within a certain time frame. The maximum time frame may not exceed 150% of the published length of the educational program measured in credit hours attempted.

Excessive withdrawals, incomplete or F grades can be the cause of not meeting the pursuit of progress requirement. It is important that you successfully complete all the classes you register for. Note: Remedial coursework is not considered in the calculation that determines eligibility for federal student aid.

Federal Title IV student aid funds include: Federal PELL, Federal SEOG, Federal Work Study, Federal Perkins Loan, and Direct Stafford Loans.

Satisfactory Academic Progress standards for [New York State TAP recipients](#) follows a different structure than that of the federal requirements.

A review of federal aid eligibility will be completed at the end of the spring semester to determine eligibility for the new aid year. Students will be notified via their NCC email if they did not meet the federal requirements for academic progress. A student may appeal this decision if they can document the extenuating circumstances that caused the poor academic performance. Appeals are for unforeseen, extenuating circumstances and are not for ongoing issues. Students with approved appeals will be given a probationary semester in which they will be granted federal aid for one semester. At the end of the probationary semester their progress will be reviewed to determine if they are eligible for federal aid in the next semester. If it is determined that the student is still not making academic progress, no aid will be issued for the following semester and no additional appeal will be accepted.

Steps to appeal:

- Students **MUST** have a FAFSA on file for the academic year they are appealing to receive Federal aid funds.
- Log into your MyNCC Portal and select the Verify My FAFSA tile. If this is your first time logging into Student Forms, you will be asked to create an account. Important, when confirming student information, the student's name, date of birth and SSN you enter must match the information on your FAFSA exactly.
- Complete the tasks: the appeal form, personal statement and upload any supporting documentation which can justify why your academic progress suffered and how you plan to remedy it for future semesters.
- Students must also complete the online, SUNY Smart Track Financial Literacy course: College & Money, and upload it with any supporting documents.
- Deadline to submit appeals is July 15.
- The appeal decision is based on the information you provide. Notification will be sent to your NCC email.

To continue to receive federal financial aid, students must maintain the standards of satisfactory progress.

Qualitative Component: Cumulative Grade Point Average (GPA)

Degree Credit Hours Attempted:	1-14	15-29	30-47	48+
Minimum Cumulative GPA required:	1.7	1.8	1.9	2.0

Quantitative component: Pace (attempted credits vs. earned credits)

Students must earn with a passing grade, at least 67% of all cumulative attempted credit hours. For example, if a student attempted a cumulative total of 30 degree credits, the student must have earned at least 20 of those credits toward their degree or certificate program of study.

Time Frame

Students may attempt a maximum of 150% of the published required credit hours for the Associate's Degree or Certificate program the student is pursuing. For example, if the program of study requires 64 credits to complete, the student may attempt a maximum of 96 credits.

Grades

- Calculated in Attempted: 'A','B','B+','C','C+','D','D+', 'F', 'UW', 'W', 'WU', 'GNS', 'INC' & Transfer Credits (TR)
- Calculated in Earned credits: 'A','B','B+','C','C+','D','D+' & Transfer Credits (TR)
- Calculated in GPA: 'A','B','B+','C','C+','D','D+', 'F', 'UW'

Remedial Courses

A maximum of 30 credits of remedial coursework will be used to determine eligibility for financial aid. After a student has attempted 30 credit hours of remedial coursework, the student cannot receive federal financial aid for any additional remedial coursework.

Remedial coursework is not counted in Pace or GPA. However, a student with **only** remedial coursework will be evaluated under the qualitative measure. If at least one remedial course is successfully completed within the academic year, the student will be determined eligible for federal aid.

Appeals Process for Mitigating Circumstances

A student may appeal the loss of federal aid eligibility if they can document that extenuating circumstances caused the poor academic performance. Appeals are for unforeseen, extenuating circumstances and are not for ongoing medical issues or patterns of poor performance. Student may only submit one appeal in an academic year.

Students with approved appeals will be given a probationary semester in which they will be granted federal aid for one semester. At the end of the probationary period, their progress is reviewed to determine if they are eligible for federal aid in the next semester.

If the student does not meet SAP or fails to meet the Academic Plan* requirements after the probationary period, the student will be ineligible for federal financial aid until student meets SAP.

Reestablishing aid eligibility

A student regains eligibility for federal financial aid by taking action that brings the student into compliance with SAP criteria.

***Academic Plan Requirements**

Students in a probationary semester may be considered for an Academic Plan if the following requirements are met:

1. Student successfully completes all courses in the probationary semester.
2. Probationary semester GPA is at least a 2.0.

Students placed on an Academic Plan must meet these requirements each semester until they are back in compliance with SAP standards. Failure to do so will result in the loss of Federal Title IV aid at NCC.

How does a student obtain an Academic Plan?

The Financial Aid Office will refer the student to the Center for Educational & Retention Counseling (CERC) via email notification to the student's NCC email. The student should make an appointment to meet with a CERC counselor at 516.572.7141 or CERC@ncc.edu. The CERC counselor will develop an academic plan with the student and submit a copy to the Financial Aid Office on the student's behalf.

State Aid**State Aid**

Many states provide generous merit and need-based grants. Students applying for funding from New York State must be a legal resident of New York State. Residency during college attendance is not sufficient to meet New York State residency regulations. A student must be enrolled and making academic progress in an eligible program of study to receive state aid. New York residents may apply at hesc.ny.gov or tapweb.org. Students will receive an award notification directly from NYS Higher Education Service Corp., (HESC).

The Senator Jose Peralta New York State DREAM ACT gives undocumented and other students access to New York State-administered grants and scholarships. To determine eligibility and apply, visit [HESC.ny.gov/dream](https://hesc.ny.gov/dream).

Tuition Assistance Program (TAP)

New York State Grant Programs – Tuition Assistance Program (TAP)

The New York State Tuition Assistance Program (TAP) helps eligible New York residents attending in-state post-secondary institutions pay for tuition. TAP grants are based on the applicant's and his or her family's New York State taxable income.

The TAP Grant is administered by the Higher Education Services Corporation (H.E.S.C.)

The applicant can apply by using the Express TAP application link on the FAFSA, or directly at hesc.ny.gov. The [Senator Jose Peralta New York State DREAM ACT](#) gives undocumented access to NY State-administered grants and scholarships. Apply at hesc.ny.gov/dream

To be eligible for TAP, you must:

- Be a United States citizen or eligible noncitizen
- Be a legal resident of New York State
- Study at an approved post-secondary institution in New York State (NYS)
- Have graduated from high school in the United States, earned a GED, or passed a federally approved "Ability to Benefit" test as defined by the Commissioner of the State Education Department
- Be enrolled as a full-time student taking 12 or more credits (applicable toward your degree program) per semester
- Be matriculated in an approved program
- Meet good academic standing requirements
- Be charged at least \$200 tuition per year
- Not be in default on any state or federal student loan or on any repayment of state awards
- Meet income eligibility limitations
- File a FAFSA for the same academic year as the TAP application

Satisfactory Academic Progress for New York State TAP Recipients

Students must also meet standards of satisfactory academic progress and pursuit for state aid programs. There are three elements of satisfactory academic progress that all financial aid recipients must achieve in order to receive financial aid from the New York State sponsored Tuition Assistance Program (TAP):

Based on the number of TAP payments the student received;

1. must complete a designated number of credits in the prior semester they received TAP,
2. must earn a specific number of overall credits
3. must achieve a minimum grade point average

NYS TAP standards for all students first receiving TAP in 2010 and beyond:

TAP Payments received	Completed credits in prior semester	Overall credits earned	GPA
1 st payment	0	0	0
2 nd payment	6	6	1.3
3 rd payment	6	15	1.5
4 th payment	9	27	1.8
5 th payment	9	39	2
6 th payment	12	51	2

NYS TAP standards for students first receiving TAP and taking at least six (6) remedial credits or first receiving TAP between 2007 & 2009:

TAP Payments received	Completed credits in prior semester	Overall credits earned	GPA
1 st payment	0	0	0
2 nd payment	6	3	.5
3 rd payment	6	9	.75
4 th payment	9	18	1.3
5 th payment	9	30	2
6 th payment	12	45	2

TAP Satisfactory Academic Standing Waiver

After the end of each semester, TAP recipients who fall below the satisfactory academic progress standards can apply for a waiver. Such a waiver can only be granted once during the student's undergraduate career. Appeals are a one-time option for unforeseen, extenuating circumstances beyond the student's control and not chronic circumstances that cannot be remedied such as, but not limited to, ongoing medical issues.

- Complete and submit an NCC New York State TAP Waiver Form.
- Forms must be received by the Financial Aid Office prior to the end of the current semester the student is enrolled in.
- Supporting documentation must be submitted with the waiver form and the student's NCC ID must be on all pages.
- Since the waiver is neither automatic nor an entitlement, the decision will be final.
- Students will receive the decision via their NCC email.

Part-Time TAP

Part-time TAP helps a first-time New York resident freshman in the 2006-07 academic year or thereafter that has earned 12 credits or more in each of the two consecutive semesters, for a minimum total of 24 credits earned and maintained a minimum of a "C" average. Part-time TAP is not the same as the Aid for Part-time Study Program.

To be eligible for Part-Time TAP, you must:

- Be a United States citizen or eligible non-citizen
- Be a legal resident of New York State
- Have graduated from high school in the United States, or earned a GED, or passed a federally approved "Ability to Benefit" test as defined by the Commissioner of the State Education Department
- Be matriculated in an approved program of study and be in good academic standing
- Be charged at least \$200 tuition per year
- Be taking at least 6 but fewer than 12 credits per semester
- Not be in default on a State or federal student loan or on any repayment of state awards. Meet income eligibility limitations
- File a FAFSA for the same academic year as the TAP application

Aid for Part Time Study (APTS)

Part-time students enrolled in 3 to 11.5 credits are eligible to apply for this award. APTS is subject to allocations from New York State. To receive APTS, you must complete both the Free Application for Student Aid (FAFSA) and the Aid for Part-Time Study applications. The APTS application is available on the Financial Aid forms page; or in the Financial Aid Office. To remain eligible for APTS, students must maintain academic progress as defined by New York State. Check the Financial Aid Office for filing deadlines and additional eligibility criteria.

Graduates of High Schools Outside the United States

Graduates of High Schools Outside of the United States and Home Schooled Graduates

Students receiving state aid who were home schooled or do not have a certificate of graduation from a recognized school within the United States providing secondary education (a high school diploma or recognized equivalent), must obtain a "passing score on a federally approved ability-to-benefit (ATB) test that has been independently administered and evaluated as defined by the Commissioner of the State Education Department" in order to receive New York State funded grants or scholarships. The ATB test must be taken prior to the end of the College's add/drop period to be considered for NY State aid for that semester. To schedule the Ability to Benefit test contact the Placement Testing Office at 516.572.9604 or placementtesting@ncc.edu.

New York State Scholarship Programs

New York State Scholarship Programs

New York State students may be eligible for a variety of State scholarship and award programs to help pay for college. Listed below are just a few scholarships available. To learn more about each one, including eligibility requirements and application information, visit hesc.ny.gov. The [Senator Jose Peralta New York State DREAM ACT](#) gives undocumented and other students access to NY State-administered grants and scholarships. Apply at hesc.ny.gov/dream

NYS Excelsior Scholarship

Undergraduates may apply each year for the Excelsior Scholarship for the fall and spring semesters. A recipient of an Excelsior Scholarship is eligible to receive award payments for not more than two years of full-time undergraduate study in a program leading to an associate's degree.

- The Excelsior Scholarship is available to New York state residents who have a combined federal adjusted gross income of \$125,000 or less.
- In order to maintain eligibility, students are required to be enrolled in 12 degree-bearing credits per term and complete at least 30 credits applicable to their degree program each year. (Remedial course credits do not count in the required credit load)
- Students and families are strongly encouraged to read and understand all of the regulations associated with the Excelsior Scholarship eligibility requirements. To review all eligibility requirements, visit the HESC Excelsior Scholarship webpage
- To determine the amount of the Excelsior Scholarship, schools must deduct all aid the recipient has or will receive for the semester from tuition rate.

NYS Memorial Scholarship provides financial aid for student in New York State to children, spouses and financial dependents of deceased firefighters, volunteer firefighters, police officers, peace officers, and emergency medical service workers who have died as the result of injuries sustained in the line of duty in service to the State of New York.

NYS World Trade Center Memorial Scholarship program guarantees access to a college education to the families and financial dependents of the victims who died or were severely and permanently disabled in the Sept. 11, 2001 terrorist attacks and the resulting rescue and recovery efforts.

Flight 587 Memorial Scholarships guarantee access to a college education for the families and financial dependents of victims of the crash of American Airlines Flight 587 on November 12, 2001.

Flight 3407 Memorial Scholarships provide financial aid to children, spouses and financial dependents of individuals killed as a direct result of the crash of Continental Airlines Flight 3407 on February 12, 2009.

Military Service Recognition Scholarship provides financial aid for study in New York State to children, spouses and financial dependents of members of the armed forces of the United States or of a state organized militia who, at any time on or after Aug. 2, 1990, while a New York State resident, died or became severely and permanently disabled while engaged in hostilities or training for hostilities.

Scholarships for Academic Excellence are awarded to outstanding graduates from registered New York State high schools. Awards are based on student grades in certain Regents exams. For up to five years of undergraduate study in New York State.

Veterans Benefits

Veterans Benefits

Upon completion of the admissions process and registration, students should meet with a VA Certifying Official in the Office of the Registrar. The enrollment certification process **must be repeated every term** after registration is completed. All Veteran/Service members and dependent students will receive assistance with registration, if needed. Note: Veteran/Service members can also request a military transcript at <https://jst.doded.mil/jst/> and have it forwarded to the Office of the Registrar for possible college credit. Following certification, students should contact Student Financial Affairs (studentfinancialaffairs@ncc.edu) regarding any financial questions.

It is recommended that all students file a FAFSA, as many may be eligible for federal aid funds in addition to their VA benefit. Questions regarding the FAFSA should be directed to Financial Aid (financialaid@ncc.edu).

Post 9/11 GI Bill® (Chapter 33)

A copy of the student's Certificate of Eligibility along with a copy of the DD-214 should be emailed to Veterans@ncc.edu or brought in to a VA Certifying Official in the Office of the Registrar for certification. The tuition and fees are sent directly to the school; the Basic Allowance for Housing (BAH) and book stipend are sent directly to the student from the Department of Veterans Affairs.

Veteran's Montgomery GI Bill® (Chapter 30)

A copy of the completed VA application and a copy of the student's DD-214 should be emailed to Veterans@ncc.edu or brought in to a VA Certifying Official in the Office of the Registrar for certification. Apply at www.vets.gov.

Survivors & Dependents Educational Assistance (Chapter 35)

Eligible spouses and children of Veterans who have died or are partially or totally disabled as a result of their service, may complete a VA Form #5490 and email it to Veterans@ncc.edu or bring it in to a VA Certifying Official in the Office of the Registrar for certification. Apply at www.vets.gov.

VR&E – Veteran Readiness and Employment (formerly Vocational Rehabilitation) (Chapter 31)

A VR&E Counselor should be contacted. An authorization email from them is needed to be sent to the VA Certifying Official in the Office of the Registrar. The student will then need to come in to see the VA Certifying Official or contact them at veterans@ncc.edu for certification. For more information, visit www.vets.gov.

Reservists/National Guard (Chapter 1606)

A Notice of Basic Eligibility (NOBE) should be obtained from the student's unit and emailed to Veterans@ncc.edu or brought in to a VA Certifying Official in the Office of the Registrar for certification.

For active military personnel or their spouse, please contact studentfinancialaffairs@ncc.edu **if using tuition assistance.**

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Study Abroad

NCC students that participate in an approved study abroad program may be eligible for federal financial aid. The criteria for a student to be considered for federal aid include, but not limited to:

- The student must be enrolled as a matriculated student in a degree-granting program at NCC
- The student must be taking courses at the Host school which are transferable to the student's degree at NCC
- The student must have a fully processed FAFSA on file with the Financial Aid Office
- The student must submit a completed and signed Financial Aid Consortium Agreement

Note: Only under certain circumstances may a student be eligible for a New York State award when studying in another country.

Rights and Responsibilities

1. Complete the Free Application for Federal Student Aid (FAFSA) every academic year: FAFSA.gov. A student aid report (SAR) will be emailed to you from the Department of Education notifying you of your EFC (Expected Family Contribution). This information will also be sent to Nassau Community College if you enter our school code, 002873, on the FAFSA. The College will then determine and notify you of your financial aid award.
2. You must be a matriculated student in an approved degree or certificate program at Nassau Community College to be eligible for financial aid. Classes taken for audit are not eligible for financial assistance. It is the student's responsibility to inform the Office of Financial Aid if he/she enrolls in a class for an audit grade.
3. Your financial assistance is awarded based on calculated need as determined from the information you provided on your FAFSA. Financial aid awards are subject to adjustments or cancellations due to changes in laws, regulations, appropriations, changes in your financial situation, verification, discovery of data errors, changes in your enrollment status, or changes in your residency status amongst other reasons.
4. You must maintain satisfactory academic progress. Students receiving federal aid for their educational costs are required to maintain an acceptable cumulative GPA, while at the same time completing a specified percentage of the credits for which they registered within a certain time frame.
5. Student must file a FAFSA to be considered for Federal student loans.
 - Perkins Loan-a low interest loan (5% fixed) is awarded based on financial need. Interest begins nine months after the student is no longer enrolled for at least 6 credits.
 - Federal Direct Stafford loans – A subsidized loan is a need-based loan. An unsubsidized loan is NOT based on financial need. You are responsible for the interest that begins to accrue on this loan once it is disbursed. You must be enrolled at least half-time (six degree-bearing credits minimum) to be eligible for the Federal Direct Loan(s) in a given semester. Repayment of these loans begins after you stop pursuing your degree or you are registered for less than 6 credits. You will then be required to complete an online, Exit Counseling session at studentloans.gov.
6. Students who have been previously incarcerated or are currently incarcerated or who might be incarcerated during their current term of attendance must identify themselves to the financial aid office to determine their financial aid eligibility.
7. If you receive any financial assistance from an outside source (e.g., a private scholarship or grant) you must inform the Financial Aid office.
8. You will be responsible for repaying any funds you receive that exceed your financial need, or if for any reason, you become ineligible for the financial aid. Changes in your actual enrollment status, such as non-attendance, course withdrawals or if you stop attending classes without officially withdrawing (unofficial withdrawal), could reduce or cancel your award and repayment may be required. Please contact the Office of Financial Aid prior to dropping or withdrawing from the College. It may impact your current or future aid eligibility and you will be responsible for any balance on your student account.
9. Students should be aware that withdrawal from one or more courses may affect some, or possibly all, financial aid awards. Therefore, it is prudent to understand the consequences of the withdrawal before formally submitting the paperwork. Financial aid awards will be revoked upon withdrawal should the withdrawal affect the eligible enrollment status.

10. If requested, you must provide documents to verify the accuracy of information reported on the FAFSA before financial aid can be awarded or disbursed to your student account. The requested documentation must be submitted prior to your last date of enrollment. If not, you may lose aid eligibility and be responsible for your tuition and fee semester bill.
11. Federal Work-Study (FWS) is determined by the results of your FAFSA. Although the FWS amount is shown on your Award Letter, FWS funds are not applied to your NCC student account. You receive a pay check every two weeks. Job placement is based on availability.
12. Students who have completed their degree or certificate program will not be eligible for financial aid in subsequent semesters unless they are enrolled in another degree program. Bachelor's degree: if you already have this degree, you are ineligible for Federal Pell and Federal SEOG.
13. If you are having problems with your Direct Loan that your school cannot resolve, contact the U.S. Dept. of Education's Office of Loan Ombudsman at 1.877.557.2575 or visit their web site.
14. If it is determined that you have provided or purposely given false or misleading information, you may be fined up to \$20,000, sent to prison, or both.
15. Repeat courses: NY State Aid—Courses in which the student has already received a passing grade cannot be included in meeting full-time study requirements for State sponsored financial aid. Repeat courses may be counted toward full-time study if a failed course is repeated or when a student has received a passing grade at the college but is unacceptable in a particular curriculum or area of concentration. Federal Aid—A student may receive federal aid to retake a previously passed course once.
16. For students in remediation classes: First time TAP (Tuition Assistance Program) recipients must be registered for non-remedial courses equal to at least 6 credits to be considered for the 2006/2007 state academic progress chart. The remaining classes must be degree-bearing so the total enrollment equals full-time status which is 12 or more credits.
17. Ability to Benefit: Students that have received their high school diploma from a foreign school must take an approved "Ability to Benefit" test and attain a passing score prior to the end of the college's add/drop period to be considered for state aid. Contact the Placement Testing Center at placementtesting@ncc.edu, or call 516.572.9604.
18. Aid for part-time study (APTS) grant recipients must be enrolled for 3 to 11.5 credits. Students carrying a part-time course load that includes non-credit remedial courses must be registered for at least 3 degree-bearing credits.
19. Winter Session is considered as part of the spring semester for federal financial aid purposes. This means that if a student is registered for three credits during winter session, and nine credits during spring, they would be considered a full-time student and their Federal financial aid would be packaged as such. All students are responsible to pay their winterim tuition bill by the assigned due date. All winter session and spring semester financial aid will be disbursed together as spring aid and will be disbursed in the spring semester only. Courses not completed in the winter session will not be eligible or included in the spring disbursement. Please note: New York State aid such as TAP and Aid for Part Time Study, is not available for winter session. Please be aware that all awards are contingent upon funding and your remaining aid eligibility.
20. To be eligible for the Bookstore Voucher, a Financial Aid application must be accurate and in our database. In addition, any missing documents needed to fully process your application must be error free and submitted to our office. An email will be sent to the student's NCC email making them aware they are eligible and to accept the terms and conditions of the bookstore credit. The Campus Bookstore will then email the student with instructions on how to obtain their books and supplies with the bookstore credit. Book voucher amounts are determined based on the fact that the student's Federal TIV aid exceed the semester's bill by at least \$100.00.
21. Read your NCC emails, letters, postcards, announcements and other notifications that you receive from the College. Check the NCC website for deadlines.
22. You can view your financial aid awards by logging in to you MyNCC Portal. Determine and complete required forms from your phone, tablet or computer and upload requested documents securely from any device, 24/7 at studentforms.com.

You may contact the appropriate office with any questions:

- Admissions: admissions@ncc.edu, 516.572.7345
- Financial Aid: financialaid@ncc.edu, 516.572.7396
- Bursar/Student Financial Affairs: bursar@ncc.edu, 516.572.7326
- Registrar: registrar@ncc.edu, 516.572.7355

Records & Registration

Registration is conducted in a credit priority system for currently enrolled students. A student is considered continuing if they have enrolled anytime during the past 4 semesters. Currently enrolled students with the highest number of credits completed will be given the opportunity to register first. Students are strongly urged to comply with their credit priority to ensure optimum advisement and choice of courses. Normally, students who take advantage of their first opportunity to register are able to secure the courses and schedule they desire.

MyNCC Online System

MyNCC is the online Nassau Community College information and registration system. All students can view available information and perform some functions. Self-service registration is available to many students but may be limited for new students attending NCC or students in certain remediation.

For additional information about MyNCC, see the College's website at www.ncc.edu/myncc.

Attendance Regulation

No student shall be awarded academic credit for any course unless properly enrolled (appropriate forms and payment of tuition and fees) on or before the last date for the filing of drop/add forms for the semester in question (first week of fall or spring classes or second day of summer semester).

Entering freshman students will be enrolled for a maximum of 16 semester hours of credits. Academic advisors may, however, recommend a 17 or 18-credit load if the student's high school record indicates an overall average of 85% or higher or for other extenuating circumstances. Written approval of the area department chairperson is required. Continuing and returning students may enroll in no more than 17 credits per semester. In special circumstances, written approval to enroll for 18 credits may be granted by either the department chairperson of the student's area of study or the Director of Academic Advisement or designee. Certain degree programs call for a student to enroll in 18 or more credits as part of his/her recommended progress toward a degree. In these instances a student must obtain the written approval of the department chairperson of the student's area of study. All other students requesting more than 18 credits for a semester must obtain the written approval of the Director of Academic Advisement or the appropriate Academic Affairs Area Dean.

Admission to Class

Once a semester has begun, and within the drop/add period, students will be admitted to a course only upon the presentation of either a paid, validated receipt from the Bursar's office, or a valid Senior Citizen permit.

Class Attendance

Students are expected to attend all classes. Absences due to illness or for other serious reasons may be excused at the discretion of the instructor. Students are advised that excessive absences may have a negative impact on their academic performance and/or outcome. Some departments may have additional attendance guidelines and related grading policies. The instructor shall detail the specific attendance policy for his/her class. Students are responsible for all course work missed. Students receiving Veterans Administration educational benefits are reminded of their legal obligation to withdraw officially and to notify the VA Certifying Officials in the Office of the Registrar if there are any changes in enrollment.

Online and Hybrid Class Attendance

To demonstrate attendance in a distance education class, students must meet one more of the following criteria including but not limited to: physically attending a class where there is an opportunity for direct interaction between the instructor and students; submitting an academic assignment; taking an exam, an interactive tutorial or computer-assisted instruction; attending a study group that is assigned by the institution; participating in an online discussion about academic matters; and initiating contact with a faculty member to ask a question about the academic subject studied in the course.

Auditing of Classes

Auditors may be permitted in classes under the following conditions:

1. Regular course fees are paid;
2. Section enrollment limits are not exceeded;
3. Auditors are clearly identified to the instructor;
4. Auditors do not preempt seats desired by credit students (i.e. auditors are not admitted until after the drop/add period is completed);
5. No more than five auditors may be permitted in any one section;
6. A grade cannot be subsequently or retroactively awarded. Nassau County residents aged 60 years or older, please see catalog section on Senior Observer.

Religious Absences

The laws of the State of New York, Section 224 A of the Education Law, provide that:

1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he/ she is unable, because of his/her religious beliefs, to register or attend classes or to participate in any examination, study or work requirements on a particular day or days.
2. Any student in an institution of higher education who is unable, because of his/her religious beliefs, to attend classes on a particular day or days, shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.
3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his/her religious beliefs, an equivalent opportunity to register for classes or make up any examination, study or work requirements which he/she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.
4. If registration, classes, examinations, study or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study or work requirements or opportunity to register shall be made available on other days, where it is possible and practical to do so. No special fees shall be charged to the student for these classes, examinations, study or work requirements or registration held on other days.
5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his/her availing himself or herself of the provisions of this section.

6. Any student, who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the Supreme Court of the county in which such institution of higher education is located for the enforcement of his/her rights under this section.
 - **6a.** It shall be the responsibility of the administrative officials of each institution of higher education to give written notice to students of their rights under this section, informing them that each student who is absent from school, because of his/ her religious beliefs, must be given an equivalent opportunity to register for classes or make up any examination, study or work requirements which he/she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to such student such equivalent opportunity.
7. As used in this section, the term "institution of higher education" shall mean any institution of higher education, recognized and approved by the Regents of the University of the State of New York, which provides a course of study leading to the granting of a post-secondary degree or diploma. Such term shall not include any institution which is operated, supervised or controlled by a church or by a religious or denominational organization whose educational programs are principally designed for the purpose of training ministers or other religious functionaries or for the purpose of propagating religious doctrines. As used in this section, the term "religious belief" shall mean beliefs associated with any corporation organized and operated exclusively for religious purposes, which is not disqualified for tax exemption under section 501 of the United States Code.

Graduation

A minimum cumulative grade point average of 2.0 is required for graduation from both degree and certificate programs. Students are required to complete at least 33 credit hours in residence (i.e. completed at NCC) within the degree programs and 15 credit hours in residence within the certificate programs. If a student believes that all requirements for a degree or certificate will be completed by the end of the fall, spring, or summer semester, he or she must apply for graduation via their MyNCC portal. Students who were admitted under the GED program must apply for the equivalency diploma through the New York State Education Department in order to be subsequently awarded a degree or certificate. The Office of the Registrar can provide the application to apply for the equivalency diploma. The Application for Graduation will be available online until the following deadline dates:

Fall Semester Graduates – Last Monday in October

Spring Semester Graduates – Last Monday in February

Summer Semester Graduates – Last Monday in June

A student who is no longer attending Nassau who has transferred to another higher education institution and who now desires to complete a Nassau Community College degree or certificate program may transfer back no more than 9 credits to complete the degree or 6 credits to complete the certificate. An official transcript from the transferring institution must be submitted to the Registrar before applying for graduation. Only equivalent courses with a grade of "C" or higher relevant to a student's degree or certificate requirements at Nassau Community College will be accepted from other colleges. Under extenuating circumstances, the Office of Academic Affairs may grant permission, in writing, for a student to transfer back more than 9 credits required to complete a Nassau Community College degree or more than 6 credits to complete a certificate program. Transferring back credits does not alter the minimum credits required in residence for degree and certificate programs.

Residency Requirements, NY State

Residency Requirements for Tuition Purposes

To be eligible for the resident tuition rate, a student must have one year's legal residency in New York State and six months in the County of Nassau immediately preceding the time of registration for any period of attendance. The legal residency of unmarried students under 21 is deemed to be that of their parents.

New York State students from counties other than Nassau may have the nonresident tuition rate waived by submitting a Certificate of Residence from their home county fiscal office prior to payment of tuition and fees. The submission of a valid Certificate of Residence qualifies students who reside in counties other than Nassau for the Nassau County resident tuition rate. The Certificate of Residence should be dated no more than 60 days prior to the start of the semester and no later than 30 days after the semester begins.

Information regarding residency requirements and links to the fiscal offices for all counties in New York State may be found at, <https://ncc.edu/payingforcollege/residency.shtml>, or contact your home county fiscal office directly. For students commencing study in the fall semester, the certificate will cover a full year, including fall and spring semesters and summer sessions. Certificates of Residence must be renewed each year. Individuals on student visas cannot qualify for a Certificate of Residence. Questions about residency status should be directed to Student Financial Affairs via email: bursar@ncc.edu; by phone: 516.572.7326 or in-person: Student Services Center, Tower lower level.

Continuing students applying for a change to in-state or in-county residency status must furnish all evidence that the student wishes NCC to consider to the Registrar's Office, using the Student Information Change Form, found at <https://ncc.edu/registrar/forms.shtml>. Documentation should be submitted prior to the start of the respective semester. Retroactive requests will be considered only if submitted within the academic year in question. The College reserves the right to request additional documentation, if needed, to determine residency.

Schedule Changes

Drop/Add Course Changes

Students are expected to exercise discretion and forethought in the selection of courses and in scheduling their class hours each semester. Changes of schedule will not be permitted after the first week of classes in a regular semester or the second day of classes in a summer semester.

Straight withdrawals, however, may be made at any time in accordance with "Withdrawal Grades" described in a later section of the catalog.

A fee will be charged for all Drop/Adds during "Late Period" except "necessary" changes and straight withdrawals (see "Fee Schedule"). Drop/Add may be performed online or, if in person, the form must be submitted to the Office of the Registrar.

Change of Approved Program

A student wishing to change his/her program should first obtain a Change of Program form at the Registrar's Office or the office of the academic department the student wishes to enter. The form lists the procedures to be followed. See "Grade Point Average" section in this catalog for possible effect on grades.

Students not meeting the initial admission requirement to the new area of study will not be given approval for such a change until they have satisfactorily completed at least 15 credits at the College. The College, reserves the right to refuse matriculation or change of program into specific departments because the number of qualified students often exceeds the number of spaces available.

Transcripts

An unofficial or end of semester grade report is available through MYNCC in using www.ncc.edu/MyNCC. Go to Student Records and click on the desired link. Official transcript requests are available using MyNCC.

Nassau Community College reserves the right to deny copies of official and unofficial transcripts if the student has unpaid financial obligations to the College.

Veteran Certification

Veterans who have registered for classes should meet with one of the VA Certifying Officials in the Office of the Registrar for VA enrollment certification. Veteran students must bring a copy of their schedule and a print-out of their bill. The NCC VA Certifying Officials are available Monday-Thursday, 8:00 a.m.–4:30 p.m. and Friday 10:00 a.m.–4:30 p.m. These hours are subject to change during the Registration periods. For evening hours, please refer to the Service Hours webpage. The enrollment certification process must be repeated every term.

The College offers numerous curricula leading to the Associate in Arts (A.A.), Associate in Science (A.S.), and Associate in Applied Science (A.A.S.) degrees, as well as special Certificate programs, the requirements for which are listed in this section.

Programmatic requirements vary according to specific curricula. In planning a course of study, students should be guided by specific program requirements listed in this section.

LIBERAL ARTS AND SCIENCES

The College offers two degrees in Liberal Arts and Sciences which provide flexibility in planning a two-year academic program. The degrees are differentiated by the proportion of Liberal Arts and Sciences as mandated by law.

The Associate in Arts degree in Liberal Arts and Sciences Humanities and Social Science devotes three-quarters of the coursework to the liberal arts and sciences.

Students pursuing an Associate in Arts degree may prepare for transfer to upper-division study in subject areas such as:

- Anthropology
- Economics
- English
- Finance
- Foreign Languages
- Geography
- History
- Philosophy
- Physical/Health Education
- Political Science
- Psychology
- Sociology

The Associate in Science degree in Liberal Arts and Science Mathematics and Science devotes one-half of the coursework to the Liberal Arts and Sciences.

Students pursuing this degree may prepare for transfer to upper-division study in subject areas such as:

- Biology
- Chemistry
- Engineering
- Mathematics
- Pharmacy
- Physical Sciences
- Physical Therapy
- Physics
- Toxicology

**Associate in Arts Program, Liberal Arts and Sciences:
Humanities and Social Science**

A.A. Program

Hegis Code: 5649

Total Credits Required: 64

Course Requirements	Credits
Communication Arts (COM)(1)	3
English Composition (COMP)	6
Humanities (HUM)	9
Please note that students must take nine credits of Humanities (HUM) of which at least three credits must be Fine and Performing Arts (FAPA). The HUM and FAPA courses must be selected from at least two different humanities disciplines(2). Students may not take more than one course in English or more than one course in Communications to satisfy this requirement.	
Literature (LIT)	3
Mathematics (MATH)/ Computer Science (CMPS)	6
Science (LSCI/NSCI)	7
Please note that students must take at least one Laboratory Science (LSCI) to satisfy this requirement.	
Physical Education (PED)	2
History (HISD/SBS)	3
Social Science	9
Please note that students must take courses from two different disciplines(3) to satisfy this requirement. HISD does not satisfy the two disciplines' requirement.	
Culture and Diversity	6
Please note that students must take courses from two of the three following attributes: Western Heritage (WESH), Global Awareness & Non-Western Cultures (GLNW), Pluralism and Diversity (PLDI). If students have already satisfied these attributes through their Humanities and Social Science requirements, then	

these credits will be applied to the general electives category.	
General Electives(4)	7-16
Please note that students must take at least one course bearing the SUNY GE Diversity, Equity, Inclusion and Social Justice (SDES) attribute if they have not already satisfied this requirement.	
TOTAL	64

RECOMMENDED SEMESTER 1	
NCC GEN ED English Composition 1 (w/ SUNY GE Communications Attribute)	3

NCC GEN ED Laboratory or Non-Laboratory Science	3
NCC GEN ED General Elective	3
NCC GEN ED General Elective(9)	3
NCC GEN ED General Elective(10)	3
NCC GEN ED General Elective(11)	4
Total Semester Credits	16
TOTAL CREDITS	64

- Students who select 3 credit math courses and a non-lab science will take a minimum of 10 elective credits.
- Between the 9 credits of NCC GEN ED Humanities, students must complete 3 credits in Fine and Performing Arts and select courses from at least two different humanities disciplines: Africana Studies, Art, Communications, English, Interdisciplinary Studies, Library, Music, Philosophy, Reading, Theatre/Dance, or World Languages. Students may not take more than three credits in English or Communications to satisfy this requirement.
- Between the 12 credits of NCC GEN ED History and the Social Sciences, students must complete 3 credits in History and select courses from at least three different social science disciplines: Africana Studies, Economics/Finance, History/Political Science/Geography, Interdisciplinary Global Studies, Education/Psychology, or Sociology/Anthropology.
- Students must select a course from: History, Political Science, Geography or Latin American Studies.
- Students must select a course from: WESH, GLNW or PLDI. This course must have a different attribute from the history course they selected in the second semester.
- Students who have not satisfied two of the three Culture and Diversity attributes, WESH, GLNW or PLDI, must select a course with one of those attributes which is different than the course selected in the third semester.
- If students have not satisfied the Diversity, Equity, Inclusion and Social Justice attribute (SDES), then they must select a course with the SDES attribute.
- Students who take 4 credit math or two laboratory science classes will require fewer general elective credits.

- From left to right, the chart is read as follows: "To satisfy the NCC GEN ED COM attribute, students must take three credits bearing the NCC GEN ED COM attribute of which three credits must also bear the SUNY GE COMMUNICATIONS attribute or the SUNY GE HUMANITIES attribute."
- The disciplines are Africana Studies, Art, Communications, English, Interdisciplinary Studies, Library, Music, Philosophy, Reading, Theatre or Dance and World Languages.
- The disciplines are Africana Studies, Economics/Finance, Interdisciplinary Global Studies, Education/Psychology, and Sociology/Anthropology/Social Work.

- bearing the NCC GEN ED COMP attribute, of which three credits must also bear the SUNY GE COMMUNICATIONS or the SUNY GE HUMANITIES attribute.”
- Students must select a course from one of the following disciplines: Africana Studies, Art, Communications, English, Interdisciplinary Studies, Library, Music, Philosophy, Reading, Theatre/Dance, or World Languages.
 - For each course that satisfies either a NCC GEN ED HUM or SBS attribute, the number of unique attribute types that those courses collectively satisfy from the list below will correspond to the number of Liberal Arts Electives that count as a General Elective. Attribute list: Fine and Performing Arts (FAPA), Literature (LIT), Communication Arts (COM), Western Heritage (WESH), Global Awareness and Non-Western Cultures (GLNW), or Pluralism and Diversity (PLDI).
 - Students must select a course from one of the following disciplines: Africana Studies, Economics/Finance, History/Political Science/Geography, Interdisciplinary Global Studies, Education/Psychology, or Sociology/Anthropology.
 - If a 4-credit elective is taken here, the extra 1-credit will be applied to the General Elective in the 4th semester.
 - Students must select a Liberal Arts course with one of the following SUNY GE attributes: The Arts, World Languages, US History and Civic Engagement, or World History and Global Awareness. This requirement applies even if the Liberal Arts course counts as a General Elective. However, students who have already taken a course with one of these SUNY GE attributes in semester 1 or 2 have satisfied this requirement.
 - Students must select a liberal arts course with one of the following NCC attributes: FAPA, LIT, COM, WESH, GLNW, or PLDI. The attribute must be different from the ones that their other liberal arts courses satisfy.
 - If a 4-credit elective is taken here, the extra credit will be applied to the General Elective in the 4th semester.
 - If students have not satisfied the SUNY GE SDES attribute, this course must have the SUNY GE SDES attribute.

- From left to right, the chart is read as follows: “To satisfy the NCC GEN ED COMP attribute, students must take six credits

OFFICE: Cluster A, Room 3020, 516.572.7544

CHAIRPERSON: John DeSpagna, John.DeSpagna@ncc.edu

FACULTY: C. Falconetti, S. Levine, C. Marchese, J. Caruso, S. Feder, A. Harrison, D. Holzmann, V. Masterson, K. PetryE. Salvi, P. Sherman

DIRECTOR, PARALEGAL PROGRAM: A. Motel

TECHNICAL ASSISTANT: R. D'Anna, R Dioguardi

COURSES OFFERED: Accounting (ACC), Business (BUS), Sports Law, Business Law, Paralegal Studies, The Nature and Functions of Law, Introduction to Current Law, International Legal Institutions, and Immigration Law

The following curricula are offered by this Department:

Accounting (A.S.) - This curriculum prepares students for transfer to four-year institutions where they may complete the requirements for a Bachelor's degree with a major in accounting. The program enables the student to partially fulfill the educational requirements for the New York State Certified Public Accounting examination.

Business Administration (A.S.) - This program prepares students for transfer to four-year institutions to continue their education in general business areas. Such a program would be suitable for those with career objectives in business management, administration, investments, finance, marketing, or any other position in the business world.

Business Administration (Cert.) - This program provides students with the necessary skills for immediate entry into today's business world. Most courses in the program can be applied toward the A.S. degree in Business Administration or the A.A.S. degree in Marketing.

Paralegal (A.A.S.) - The paralegal program, approved by the American Bar Association, is designed to give the graduate a broad understanding of the law, practical skills, and experience in a legal setting. Employment opportunities for paralegals exist in law offices, banks, insurance companies, private industry, title companies, and government. The paralegal works under the supervision of an attorney and can assist in all phases of practice except giving legal advice, appearing in court, and setting fees. The program will accept a maximum of 9 credits of paralegal specialty transfer credits. Paralegals are required to complete a minimum of 9 credits in a traditional or remote format at NCC.

Paralegal Studies (Cert.) - The American Bar Association approved Certificate program in Paralegal Studies is designed to meet the needs of the college graduate seeking a career as a paralegal. In order to be eligible for admission, a student must have either an Associate or Baccalaureate degree. Students with an Associate degree must meet the minimum general education requirements set by the American Bar Association. The program will accept a maximum of 9 credits of paralegal specialty transfer credits. Paralegals are required to complete a minimum of 9 credits in a traditional or remote format at NCC.

Departmental Requirements and Guidelines for Paralegal Students:

The department is strongly committed to the concept of legal education within the framework of practical paralegal skills. The following guidelines have been established:

1. A minimum grade of "C" is required in each law class in the Paralegal curriculum.
2. Professional attitude, regular class attendance, punctuality and appropriate professional demeanor are required of Paralegal students.

These criteria have been established in order to uphold the standards of the paralegal profession and legal community, as a whole. Interested students wishing to obtain further information, and a copy of the Departmental Requirements and Guidelines, may contact the Paralegal Program at 516.572.7774.

Business-Accounting (A.S.) – This curriculum prepares students for transfer to four-year institutions where they may complete the requirements for a Bachelor's degree with a major in accounting. The program enables the student to partially fulfill the educational requirements for the New York Certified Accounting examination.

Gainful Employment Disclosure Information

Paralegal (A.A.S.) - The paralegal program, approved by the American Bar Association, is designed to give the graduate a broad understanding of the law, practical skills, and experience in a legal setting. Employment opportunities for paralegals exist in law offices, banks, insurance companies, private industry, title companies, and government. The paralegal works under the supervision of an attorney and can assist in all phases of practice except giving legal advice, appearing in court, and setting fees.

The program will accept a maximum of 9 credits of paralegal specialty transfer credits. Paralegals are required to complete a minimum of 9 credits in a traditional or remote format at NCC.

Students who have an Associate or Baccalaureate degree should see information about the Paralegal Studies Certificate Program in this catalog. Because of the complexity of the program, students must be advised by the Paralegal Department. A minimum grade of "C" is required in all LAW courses.

Total Semester Credits	12

A student must have either an Associate or baccalaureate degree to be eligible for admission to the Certificate program.

Students with an Associate degree must meet the minimum general education requirements set by the American Bar Association. All other students should request information about the A.A.S. degree program. This curriculum is the recommended sequence for fulltime day students. It can be completed in one and a half semesters of full time study.

The sequence can be modified for evening and part-time students. Because of the complexity of the program, all advisement must be obtained from the Paralegal Program Department. A minimum grade of "C" is required in all Law courses.

Gainful Employment Disclosure Information

OFFICE: Cluster A, Room 2023, 516.572.7288 ext. 0

- HIT 175 Study of Disease for HIM Professionals
- MAP 130 Medical Assistant Administrative Office Procedures

CHAIRPERSON: Lynn Bergin Lynn.Bergin@ncc.edu

FACULTY: L. Bergin, M. Curry, S. Goldson, M. Haque, N. Lowey, K. Tamburello

COURSES OFFERED: Administrative Business Technology (ABT), Healthcare Administration (HCA), and Health Information Technology (HIT), Medical Assistant (MAP)

The Administrative Business Technology/Health Information Technology Department provides students with the opportunity to acquire the skills and competencies necessary to use computers for professional and personal use and to obtain employment in an administrative support technology, legal, or medical office environment.

Using state-of-the-art computers and various software applications, students develop expertise in word processing, desktop publishing, web page formatting, and business presentations. Emphasis is placed on administrative support technology, legal, and medical office procedures. In addition, students who wish to continue their education are able to transfer some or all of their credits to four-year institutions. Courses in Health Information Technology (HIT) train workers to become qualified medical coders and health information management professionals. Medical coding (or clinical coding) specialists review and analyze health records to identify relevant diagnoses and procedures.

Each semester students meet on an individual basis with a faculty advisor. This advisement process allows students to become familiar with the specific requirements of their chosen program of study and provides them with an opportunity to review their academic progress and career options.

Along with the career-specific programs listed below, the Administrative Business Technology/Health Information Technology Department offers the following courses to the general public:

- ABT 100 Fundamentals of Keyboarding
- ABT 102 College Keyboarding
- ABT 109 Word Processing Applications
- ABT 110 Integrated Software I
- ABT 116 Database Basics
- ABT 119 Integrated Software II
- ABT 120 Desktop Publishing
- ABT 127 Legal Office Procedures I
- ABT 128 Legal Office Procedures II
- ABT 129 Medical Malpractice Office Procedures
- ABT 230 Web Page Formatting
- ABT 244 Business Writing
- ABT 245 Administrative Management
- ABT 253 Medical Scribe
- ABT 254 Medical Workshop
- HCA 180 Introduction to Healthcare Administration
- HCA 182 Healthcare Resource Management and Strategic Planning
- HCA 184 Healthcare Revenue Cycle
- HCA 187 Topics in Public Health
- HCA 280 Medicolegal Aspects of Healthcare Administration
- HIT 101 Introduction to Health Information Technology
- HIT 151 Medical Terminology
- HIT 154 Computer Software Applications in Healthcare
- HIT 160 Introduction to Healthcare Data Analytics
- HIT 161 Excel and Data Management for Healthcare Data Analytics

The following curricula are offered by this Department:

Administrative Business Technology - Admin Support (A.A.S.)

Administrative Business Technology - Admin Support (Cert.)

This curriculum provides students with a broad conceptual framework in office automation and information systems combined with a strong learning experience in communication skills, keyboarding, management, and computer applications. This program includes an up-to-date curriculum that incorporates word processing, spreadsheets, database applications, desktop publishing, and web page formatting. During the final semester, all students participate in an internship program. Depending on their major, administrative business technology students intern at local hospitals, medical offices, urgent care centers, law firms, the Nassau County District Attorney's office, and in general offices.

Administrative Business Technology - Legal (A.A.S.)

Administrative Business Technology - Legal (Cert.)

The legal option offers students the opportunity to learn skills in keyboarding, word processing, and legal office procedures. The legal curriculum concentrates in the areas of civil litigation, medical malpractice office procedures and documents, contracts, wills and probates, and real estate. In addition, students will learn about the Federal and New York Court Systems. Graduates are qualified to work in law firms, which are engaged in general or specialized practice in legal departments of large corporations, civil service, insurance companies, law publishers, and the courts. During the final semester, all students participate in a legal internship program. Students intern in law firms, in a legal area in a hospital or business, the Nassau County District Attorney's office, or in the Nassau County court system.

Administrative Business Technology - Medical (A.A.S.)

Administrative Business Technology - Medical (Cert.)

The medical curriculum offers students the opportunity to acquire the skills necessary to seek employment in doctors' offices, hospitals, research institutions, insurance and pharmaceutical companies, and other healthcare facilities. Students take courses in medical terminology, medical transcription, medical coding, medical billing, and medical office procedures. During the final semester, all students participate in a medical internship program. They intern in doctors' offices, hospitals, research institutions, insurance and pharmaceutical companies, and other healthcare facilities.

Health Information Technology (A.A.S.) The AAS Degree in HIT is designed to prepare students, through coursework and internships, for employment as health information technicians. Health information technicians organize and manage health information data. They ensure the quality of medical records by verifying their completeness, accuracy, and proper entry into computer systems. They use various computer applications to assemble, analyze, and categorize patient information for insurance reimbursement purposes, for databases and registries, and to maintain patients' medical and treatment records.

The Health Information Management accreditor of Nassau Community College is the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The College's accreditation for the Associates of Applied Science degree in Health Information Management has been reaffirmed through the 2027-2028 accreditation cycle.

All inquiries about the program's accreditation status should be directed by mail to:

CAHIIM
200 East Randolph Street
Suite 5100
Chicago, IL 60601

Program Mission

The mission of the Health Information Technology program is to provide students with foundational knowledge to develop skills required for entry-level positions in the field of health information management. The students are provided a comprehensive learning experience through structured classroom lecture as well as hands-on clinical experience. The curriculum focuses on skills required for employment including health record administration, coding, revenue cycle management, quality assurance, electronic records management, and patient information privacy and security. Coursework provides knowledge and the skill-based competencies necessary for successful completion of the national health information technician and coding credentialing exams. The HIT program curriculum prepares students for employment directly upon completion of their education, as well as provides transfer paths for those who wish to continue their education at a four-year institution.

Healthcare Administration (A.S.)

The Associate of Science (A.S.) degree in **Healthcare Administration** at Nassau Community College prepares students to transfer to a four-year Healthcare Administration/Management Program.

This program provides students entering the healthcare administration/management field with an introduction to the organization and delivery of healthcare. Managers in this field plan, direct, and coordinate medical and health services. They work in a large variety of facilities including hospitals, nursing homes, pharmaceutical companies, insurance companies, and group medical practices.

Employment of medical and health services managers, also called healthcare executives or healthcare administrators, is projected to grow 32 percent from 2020-2030, much faster than the average for all occupations. The annual mean average wage for medical and health service managers in New York is \$156,000.*

*US Bureau of Labor Statistics <https://www.bls.gov/ooh/management/medical-and-health-services-managers.htm> and https://www.bls.gov/oes/current/oes_ny.htm

Healthcare Data Analytics (Cert.)

Given the overwhelming amount and availability of healthcare data, and the high-demand of data analytic job roles, data analytic skills are increasingly sought after from all industries, especially healthcare.

To meet this demand, Nassau Community College Health Information Technology Program offers a specialized Healthcare Data Analytics Certificate focusing on data management, data integrity, data analytics, and data visualization.

This 37-credit certificate in Healthcare Data Analytics provides the foundation needed for the emerging roles in Healthcare Data Analytics. The Healthcare Data Analytics Certificate provides hands-on experience with data manipulation and data visualization using clinical, financial, and operational healthcare data. Students completing this certificate will support the current focus on population health management and value-based healthcare by learning how to manage, review, and report healthcare-related data by turning data into meaningful information to assist in clinical decision-making, better patient outcomes, and operational outcomes.

- Students meeting the eligibility as outlined by the American Health Information Management Association (AHIMA) will be prepared to sit for the Certified Healthcare Data Analyst (CHDA) national certification exam.
- Students who successfully complete the Health Information Technology AAS Degree and earn the RHIT credential along

To Our Veterans: This Program is pending approval by the Veterans Administration.

Medical Assistant (A.A.S.)

The Associate in Applied Science (A.A.S.) degree in **Medical Assistant** at Nassau Community College prepares healthcare students for full-time employment upon completion of the program.

Medical Office Assistants are multi-skilled practitioners who perform administrative and clinical duties. Graduates may work in physicians' offices, clinics, or other ambulatory care facilities, such as freestanding emergency centers and hospitals. A medical assistant takes vital signs, prepares patients for and assists physicians during examinations, collects and prepares laboratory specimens, performs basic laboratory tests on the premises, schedules appointments, bills patients, fills out insurance forms, and much more.

Application Requirements:

- An interview is required as part of the application process.
- Students must be available to complete an administrative internship and a clinical practicum during normal business hours Monday through Friday 8 am to 5 pm.
 - To be eligible to participate in the administrative internship or the clinical practicum, students need to submit to the administrative and clinical sites proof of immunization and may need to complete a background check, physical, and/or drug testing (completed at the cost of the student).
- Students are required to supply their own transportation to the internship and clinical sites and must supply their own required uniforms.
- A minimum grade of C is required in all Medical Assistant courses.

Medical Assistant (Cert.)

The Medical Assistant Certificate will prepare students for full-time employment upon completion of the program. Medical Office Assistants are multi-skilled practitioners who perform administrative and clinical duties. Graduates may work in physician's offices, clinics, HMOs, or other ambulatory care facilities, such as freestanding emergency centers and hospitals. A medical assistant takes vital signs, prepares patients for and assists physicians during examinations, collects and prepares laboratory specimens, performs basic laboratory tests on the premises, schedules appointments, bills patients, fills out insurance forms, and much more.

An interview is required as part of the application process. Students must be able to observe all aspects of patient care through the use of vision, hearing, touch, and smell. Students must be available to complete a clinical practicum during normal business hours Monday through Friday 8am to 5pm. To be eligible to participate in the clinical practicum, students need to submit proof of immunization and may need to complete a background check, physical, and/or drug testing (completed at the cost of the student) to the clinical site. Students are required to supply their own transportation to the clinical site and must supply their own required uniforms. A minimum grade of C is required in all Medical Assistant courses. All courses in the Medical Assistant Certificate are applicable to the Medical Assistant AAS.

A minimum grade of C is required in all Medical Assistant courses.

Reinforcement Learning Center

The Reinforcement Learning Center (Cluster A, Room 115) facility is open Monday through Saturday and is staffed by technical assistants who offer reinforcement for all subjects taught in the Administrative Business Technology/Health Information Technology Department. Students in need of assistance in various software programs or who wish to reinforce skills are encouraged to use the Reinforcement Learning Center.

For advisement, email the Administrative Business Technology/
Health Information Technology (ABT/HIT) Department at
Admin.Bus.Tech@ncc.edu.

Medical Coding & Reimbursement (Cert.)

Administrative Business Technology–Admin Support (A.A.S.)

This curriculum provides students with a broad conceptual framework in office automation and information systems combined with a strong learning experience in communication skills, management, keyboarding, and computer applications. This program includes an up-to-date curriculum that incorporates word processing, spreadsheets, database applications, desktop publishing, and web page formatting. During the final semester, all students participate in an internship program. Healthcare Administration (A.S.)

The Associate of Science (A.S.) degree in **Healthcare Administration** at Nassau Community College prepares students to transfer to a four-year Healthcare Administration/Management Program.

This program provides students entering the healthcare administration/management field with an introduction to the organization and delivery of healthcare. Managers in this field plan, direct, and coordinate medical and health services. They work in a large variety of facilities including hospitals, nursing homes, pharmaceutical companies, insurance companies, and group medical practices.

Employment of medical and health services managers, also called healthcare executives or healthcare administrators, is projected to grow 32 percent from 2020-2030, much faster than the average for all occupations. The annual mean average wage for medical and health service managers in New York is \$156,000.*

2. Choose from:
SUNY GE World Language
SUNY GE The Arts
3. Choose from:
SUNY GE US History & Civic Engagement
SUNY GE World History & Global Awareness (Make sure to choose a social science elective that also satisfies DEISJ)

Note: Students are required to satisfy both the Critical Thinking & Reasoning and the Information Literacy core competencies by choosing appropriate classes that also satisfy the degree requirements.

Health Information Technology (A.A.S.)

The AAS Degree in HIT is designed to prepare students, through coursework and internships, for employment as health information technicians. Health information technicians organize and manage health information data. They ensure the quality of medical records by verifying their completeness, accuracy, and proper entry into computer systems. They use various computer applications to assemble, analyze, and categorize patient information for insurance reimbursement purposes, for databases and registries, and to maintain patients' medical and treatment records.

The Health Information Management accreditor of Nassau Community College is the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The College's accreditation for the Associates of Applied Science degree in Health Information Management has been reaffirmed through the 2027-2028 accreditation cycle.

All inquiries about the program's accreditation status should be directed by mail to:

CAHIIM
200 East Randolph Street
Suite 5100
Chicago, IL 60601

or by phone at 312.235.3255
or by email at info@cahiim.org

Program Mission

The mission of the Health Information Technology program is to provide students with foundational knowledge to develop skills required for entry-level positions in the field of health information management. The students are provided a comprehensive learning experience through structured classroom lecture as well as hands-on clinical experience. The curriculum focuses on skills required for employment including health record administration, coding, revenue cycle management, quality assurance, electronic records management, and patient information privacy and security. Coursework provides knowledge and the skill-based competencies necessary for successful completion of the national health information technician and coding credentialing exams. The HIT program curriculum prepares students for employment directly upon completion of their education, as well as provides transfer paths for those who wish to continue their education at a four-year institution.

Healthcare Data Analytics (Cert.)

Given the overwhelming amount and availability of healthcare data, and the high-demand of data analytic job roles, data analytic skills are increasingly sought after from all industries, especially healthcare.

To meet this demand, Nassau Community College Health Information Technology Program offers a specialized Healthcare Data Analytics Certificate focusing on data management, data integrity, data analytics, and data visualization.

This 37-credit certificate in Healthcare Data Analytics provides the foundation needed for the emerging roles in Healthcare Data Analytics. The Healthcare Data Analytics Certificate provides hands-on experience with data manipulation and data visualization using clinical, financial, and operational healthcare data. Students completing this certificate will support the current focus on population health management and value-based healthcare by learning how to manage, review, and report healthcare-related data by turning data into meaningful information to assist in clinical decision-making, better patient outcomes, and operational outcomes.

- Students meeting the eligibility as outlined by the American Health Information Management Association (AHIMA) will be prepared to sit for the Certified Healthcare Data Analyst (CHDA) national certification exam.
- Students who successfully complete the Health Information Technology AAS Degree and earn the RHIT credential along with completing this certificate will be prepared to sit for the CHDA exam.

To Our Veterans: This Program is pending approval by the Veterans Administration.

Medical Assistant (A.A.S.)

The Associate in Applied Science (A.A.S.) degree in **Medical Assistant** at Nassau Community College prepares healthcare students for full-time employment upon completion of the program.

Medical Office Assistants are multi-skilled practitioners who perform administrative and clinical duties. Graduates may work in physicians' offices, clinics, or other ambulatory care facilities, such as freestanding emergency centers and hospitals. A medical assistant takes vital signs, prepares patients for and assists physicians during examinations, collects and prepares laboratory specimens, performs basic laboratory tests on the premises, schedules appointments, bills patients, fills out insurance forms, and much more.

Application Requirements:

- An interview is required as part of the application process.
- Students must be available to complete an administrative internship and a clinical practicum during normal business hours Monday through Friday 8 am to 5 pm.
 - To be eligible to participate in the administrative internship or the clinical practicum, students need to submit to the administrative and clinical sites proof of immunization and may need to complete a background check, physical, and/or drug testing (completed at the cost of the student).
- Students are required to supply their own transportation to the internship and clinical sites and must supply their own required uniforms.

A minimum grade of C is required in all Medical Assistant courses.

CLINICAL INSTRUCTORS: S. Azmi, G. Hoerning, C. Lamb, D. Miller, D. Palmer, M. Ruane, J. Taylor

TECHNICAL ASSISTANTS: R. Chin, A. Donor, M. Dunlop, P. Galvin, A. Ginsburg, P. Goodwin, C. Ripley, J. Slattery

COURSES OFFERED: Allied Health Sciences (AHS)

The Department of Allied Health Sciences (AHS) offers six specialized allied health science career programs as well as core courses in anatomy and physiology, medical microbiology and introduction to allied health sciences. AHS career programs are independently accredited by nationally recognized and specialized accrediting bodies and are subject to their respective accreditation requirements and ongoing oversight. Required clinical experience in affiliating institutions is correlated with classroom and laboratory work, and is closely supervised by professional personnel.

Departmental Requirements and Guidelines:

1. Applicants to AHS career programs are subject to the admission and re-admission requirements, deadlines, policies and procedures established by their respective academic departments.
2. If the NCC placement examination indicates a need for remediation in English, mathematics, or reading, remediation must be completed before entering AHS career programs.
3. AHS career program students must meet the technical standards of their respective programs, be of good moral character, and may be subject to criminal background checks and random drug screening.
4. AHS career program students must comply with all health requirements of the NCC Department of Student Health Services, the respective AHS career program, and the program's clinical affiliates including those related to training in, and adherence to, Bloodborne Universal Precautions, The Health Insurance Portability and Accountability Act of 1996 (HIPAA) and New York State vaccination requirements.
5. AHS career program students are subject to all administrative, academic, cognitive, technical, behavioral, and professional appearance and dress code standards and requirements published by their respective programs. These include adherence to professional standards of appearance, conduct and behavior in all classroom, laboratory and clinical settings. In accord with the established procedures of their respective program, AHS career program students are subject to disciplinary action or program dismissal for violations of these requirements.
6. Unless a higher minimum grade is established by an individual AHS career program, a minimum grade of "C" is required in all AHS courses to qualify for programmatic advancement
7. AHS career program students are required to supply their own transportation to clinical settings.
8. AHS career program students may be subject to additional fees associated with required: background and/or drug testing; access to clinical record documentation systems; access to

- credential and/or licensure examination review and self-assessment programs; site-imposed fees associated with attendance at clinical affiliates and/or additional medical exams/clearances needed to satisfy clinical site requirements.
9. AHS career program students must supply their own required uniforms and any required accessories and equipment.
 10. No courses in the Department of Allied Health Sciences may be audited with the exception of AHS 131- AHS 132 if approved by the Chairperson.

The following curricula are offered by this Department:

Medical Laboratory Technician (A.A.S.)—The Medical Laboratory Technician program is a two-year (plus two summer sessions) course of study leading to an Associate in Applied Science degree. The program provides educational course requirements and clinical training for a career as a medical laboratory technician. Students learn the theory and principles of routine laboratory procedures and their role in detection, diagnosis and treatment of disease. They perform tests using contemporary, automated and computerized instrumentation in all sections of the laboratory. The curriculum includes courses in liberal arts and the basic sciences as well as specialized course offerings in the major areas of clinical laboratory science. Students complete a clinical internship in the fourth semester and final summer session at one of several affiliated hospital laboratories. Students who wish to pursue Bachelor Degree programs may do so but should seek advisement. To be eligible for admission to the Medical Laboratory Technician Program, candidates must meet academic requirements, be legally eligible for employment and licensure in the United States at the time of application, and be of "good moral character" as defined by the New York State Department of Health applicable to the profession of Medical Laboratory Technology. Students are admitted in the fall only and must be available for full-time study in the last spring and summer semesters.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Science (NAACLS), 5600 N. River Road, Suite 720, Rosemont IL, 60018, 773.714.8880. Graduating students are eligible to take all examinations offered for certification and licensure.

Physical Therapist Assistant (A.A.S.)—The Physical Therapist Assistant (PTA) is a member of the health care team who provides Physical Therapy under the direction and supervision of a Physical Therapist. The PTA uses a variety of physical therapy interventions to provide treatments to improve the human experience across the lifespan. Interventions may include therapeutic exercises, functional training, manual therapy, and pain relieving modalities. PTA's can work in a variety of settings including sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care, athletic teams and health service agencies.

Upon successful completion, the student will receive the Associate in Applied Science (A.A.S) degree, and will be eligible to take the national licensing exam which will lead to certification by the State of New York as a Physical Therapist Assistant. When applying for certification as a PTA, the graduate will be required to show evidence of his or her current name and any previous names used, any criminal records and citizenship or legal status in the United States.

The program is affiliated with more than eighty clinical education sites in Nassau and Suffolk, the five boroughs, and upstate New York. The campus has two laboratories fully equipped with machinery and accessories found in a variety of physical therapy settings.

The PTA courses are offered during the day only. Students are admitted in the fall only and must be available for full-time study in the last semester. The P.T.A. Program has been designed as a career program leading to employment at the end of two years of study. However, after completing additional credits and a bachelor's degree, students will be eligible to apply for competitive transfer into a doctoral level physical therapy program.

The program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association (APTA), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703.706.3245; email: accreditation@apta.org; website: www.capteonline.org.

Radiation Therapy Technology (A.A.S.)—Radiologic Tech: Radiation Therapy Technology (A.A.S.) - The Radiation Therapy program is a two-year (four semesters and three summer sessions) program leading to the Associate in Applied Science degree. Radiation Therapy courses are only offered during the day and students are admitted to the program during the Fall semester only. Graduates are eligible to take the American Registry of Radiologic Technologists examination to become Registered Radiation Therapists and obtain New York State Licensure. Radiation Therapists primarily treat cancer patients by applying ionizing radiation according to a radiation oncologist's prescription, using a variety of complex treatment techniques and equipment. The Radiation Therapy program combines technical and liberal arts courses given at Nassau Community College with off campus clinical education at various affiliated hospitals and free-standing cancer centers. Students will rotate to different clinical settings ranging throughout Manhattan, Queens, Nassau and Suffolk Counties. The program maintains a fully functional VERT lab (virtual simulation), a state-of-the-art reality training system in radiation therapy, and a physics lab for treatment planning.

An additional \$50 per student OSHA training fee for each clinical rotation may apply. The Test for Essential Academic Skills (TEAS) is required for all applicants.

To be eligible for admission to the Radiation Therapy Program, candidates must meet academic requirements and be 18 years of age by the start of the first day of the first semester. Students must be legally eligible for employment and licensure in the United States at the time of application and be of "good moral character" as defined by the New York State Department of Health, applicable to the profession of Radiation Therapy. An interview is required. Background checks and physicals, including drug testing, are required upon acceptance and is at the cost of the student. Acceptance into the Radiation Therapy program is conditional, based upon the outcome of your background check and drug testing.

This program is accredited by the New York Department of Health and the Joint Committee on Education in Radiologic Technology, www.jrcert.org, 20 N. Wacker Drive, Suite 2850, Chicago, Illinois 60606. All students are expected to follow the policies as set forth in the college catalog and in the Radiation Therapy Student handbook.

Radiologic Technology (A.A.S.)—The Radiologic Technology program is a two-year (i.e., four semesters and three summer sessions) program leading to the Associate in Applied Science degree. This is a day only program starting each Fall semester. The curriculum combines liberal arts studies and technical courses with clinical education at affiliated hospitals in Nassau and Suffolk counties. The Radiologic Technology student is trained to work under the supervision of a physician in the diagnostic applications of x-rays. Responsibilities of the Radiologic Technologist include; positioning of patients, handling of complex equipment, and utilizing radiation protection devices. In addition to these technical skills, the technologist's duties require him/her to attend to the physical and emotional needs of patients who are often acutely ill or seriously injured. The program is accredited under the Nassau Community College accreditation granted by The Middle States Association of Colleges and Schools, and by the New York State Department of Health. Graduates are eligible to take the American Registry of Radiologic Technologists examination to become a Registered Radiologic Technologist and to obtain New York State Licensure. Opportunities for professional advancement and continuing education at the B.S. degree level are available.

The program maintains two fully functional radiologic suites. These radiology rooms are designs to give the radiology student a comprehensive training in all aspects of radiology imaging. Both radiology suites are equipped with the latest imaging modalities; DR imaging, CR imaging, and film imaging.

To be eligible for admission to the Radiologic Technology Program, candidates must meet academic requirements, must be legally eligible for employment and licensure in the United States at the time of application, and must be of "good moral character" as defined by the New York State Department of Health applicable to the profession of Radiologic Technology.

Respiratory Care (A.A.S.)—Respiratory Care is an allied health specialty concerned with the performance of diagnostic cardiopulmonary evaluation and respiratory therapy treatment applied to patients with deficiency and abnormalities of the cardiopulmonary system. It includes related education of the patient, family, and public. Cardiopulmonary evaluation includes the acquisition, analysis and interpretation of data obtained from physiologic specimens, performance of diagnostic tests, studies and research of the cardiopulmonary system, as well as neurophysiologic studies related to respiratory care. Specific testing techniques are employed in respiratory care to assist in diagnosis, monitoring treatment and research. This is understood to include measurement of ventilatory volumes, pressures, flows, blood gas analysis and other related physiologic monitoring. Respiratory therapy techniques include the application and monitoring of medical gases and related administration apparatus, environmental control systems, humidification systems, aerosols, inhaled medications, ventilatory support, bronchopulmonary drainage, pulmonary rehabilitation, cardiopulmonary resuscitation and airway management.

The Respiratory Care program is designed to train the student for a career as a respiratory therapist. It is a two-year course of study leading to the Associate in Applied Science (A.A.S.) degree. In addition, graduates are eligible for nationally recognize certification and registration through the National Board for Respiratory Care, and for licensure by the New York State Education Department. To be eligible for admission to the Respiratory Care Program candidates must meet academic requirements, must be legally eligible for employment and licensure in the United States at the time of application, and must be of "good moral character" as defined in the New York State Education Law as applicable to the profession of the Respiratory Care, and must pass a criminal background check.

The Respiratory Care curriculum is a balance of courses in the liberal arts and basic sciences as well as more specialized technical and clinical courses. Clinical, laboratory, and classroom training is structured to provide a comprehensive understanding of modern respiratory care techniques. Graduates are trained in diagnostic and therapeutic techniques for adult, pediatric and neonatal patients, and upon graduation are prepared to work in all areas of the field including intensive-critical-emergency care, general respiratory care, and rehabilitation and home care for cardiopulmonary patients. This program is nationally accredited by the Commission on Accreditation for Respiratory Care.

Surgical Technology (A.A.S.)—The Surgical Technology student is prepared to assume the role of surgical technologist in any surgical setting. In this program, the student is prepared to function in the areas of scrub, circulating assistant, and second assistant during surgical and obstetrical procedures. The graduate surgical technologist may elect to specialize in a particular area of surgery such as open heart, neuro, eye, orthopedics, and many others. Graduates are also employed in interventional suites, delivery rooms, ambulatory surgery centers, central supply units, organ retrieval/transplant teams, and surgical equipment sales. This two-year program leads to an Associate in Applied Science Degree and is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP) upon recommendation from the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA).

- The Surgical Technology courses are offered during the day only and students are admitted only in the Fall semester.
- A minimum grade of "C" is required in all AHS courses to qualify for programmatic advancement.
- Graduates are required to take the National Board of Surgical Technology and Surgical Assisting (NBSTSA) National Certifying Examination for Certified Surgical Technologists (CST).
- All candidates must be legally eligible for employment and certification in the United States at the time of application.
- You must be of good moral character as defined in the New York State Education Law as applicable to the profession of Surgical Technology.
- Background checks and random drug testing are required upon acceptance.
- Acceptance into the Surgical Technology program is conditional, based upon the outcome of your background check and random drug testing.
- Meeting all these requirements does not guarantee an interview or acceptance.
- Accepted students must be able to complete the minimum 120 clinical case requirement in the "first scrub" and "second scrub" roles.

- Accepted students are expected to follow the policies as set forth in the college catalog and in the Surgical Technology Student Handbook.

The Surgical Technology Program Student Handbook is available for review for current and potential students. Call 516.572.9640 ext. 26568 for details. The CST is widely recognized in the health care community as the foremost credential for surgical technologists in the nation and required for employment in NYS. Beginning in 2013, the program has annually received the National Merit Award from the National Board of Surgical Technology and Surgical Assisting (NBSTSA) for achieving a 90% or higher graduate pass rate on the Certified Surgical Technologist (CST) examination.

Surgical Technology Program Learning Outcomes:

1. Program will prepare competent entry-level professionals in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Students will perform at an acceptable level meeting stated academic, clinical and professional criteria.
3. Students will have the ability to provide a safe patient environment by being proficient in:
 - OR Environment
 - Aseptic Technique
 - Chemical Agents
 - Sterilization
 - Operation of Equipment
 - Instrumentation
 - Transport of Patient
 - Positioning
 - Skin Preparation
 - Drainage Tubes and Devices
 - Surgical Procedures
 - Drugs and Calculations
4. All students will register for, take and pass the NBSTSA National Certification Exam.
5. Graduates will be qualified competent entry level CST personnel.

Program Effectiveness Trends Data:

1. Five-Year Average Program Completion Rate: 85%
2. Five-Year Average Job Placement Rate: 97%
3. Five-Year Average Employer Satisfaction Rate: 100%
4. Five-Year Average Graduate Satisfaction Rate: 99%
5. The Current Pass Rate for the Class of 2023, CST Exam: 98%

Medical Laboratory Technician (A.A.S.)– The Medical Laboratory Technician program is a two-year (plus two summer sessions) course of study leading to an Associate in Applied Science degree. The program provides educational course requirements and clinical training for a career as a medical laboratory technician. Students learn the theory and principles of routine laboratory procedures and their role in detection, diagnosis and treatment of disease. They perform tests using contemporary, automated and computerized instrumentation in all sections of the laboratory. The curriculum includes courses in liberal arts and the basic sciences as well as specialized course offerings in the major areas of clinical laboratory science. Students complete a clinical internship in the fourth semester and final summer session at one of several affiliated hospital laboratories. Students who wish to pursue Bachelor Degree programs may do so but should seek advisement. To be eligible for admission to the Medical Laboratory Technician Program, candidates must meet academic requirements, be legally eligible for employment and licensure in the United States at the time of application, and be of "good moral character" as defined by the New York State Department of Health applicable to the profession of Medical Laboratory Technology. Students are admitted in the fall only and must be available for full-time study in the last spring and summer semesters.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Science (NAACLS), 5600 N. River Road, Suite 720, Rosemont IL, 60018 - 773.714.8880. Graduating students are eligible to take all examinations offered for certification and licensure.

Physical Therapist Assistant (A.A.S.) - The Physical Therapist Assistant (PTA) is a member of the health care team who provides Physical Therapy under the direction and supervision of a Physical Therapist. The PTA uses a variety of physical therapy interventions to provide treatments to improve the human experience across the lifespan. Interventions may include therapeutic exercises, functional training, manual therapy, and pain relieving modalities. PTA's can work in a variety of settings including sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care, athletic teams and health service agencies.

Upon successful completion, the student will receive the Associate in Applied Science (A.A.S.) degree, and will be eligible to take the national licensing exam which will lead to certification by the State of New York as a Physical Therapist Assistant. When applying for certification as a PTA, the graduate will be required to show evidence of his or her current name and any previous names used, any criminal records and citizenship or legal status in the United States.

The program is affiliated with more than eighty clinical education sites in Nassau and Suffolk, the five boroughs, and upstate New York. The campus has two laboratories fully equipped with machinery and accessories found in a variety of physical therapy settings.

The PTA courses are offered during the day only. Students are admitted in the fall only and must be available for full-time study in the last semester. The P.T.A. Program has been designed as a career program leading to employment at the end of two years of study. However, after completing additional credits and a bachelor's degree, students will be eligible to apply for competitive transfer into a doctoral level physical therapy program.

The program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association (APTA), 3030 Potomac Ave., Suite 100 Alexandria, Virginia 22305-3085; telephone 800-999-2782; email: accreditation@apta.org; website: www.capteonline.org.

Radiologic Technology (A.A.S.) - The Radiologic Technology program is a two-year (i.e., four semesters and three summer sessions) program leading to the Associate in Applied Science degree. This is a day only program starting each Fall semester. The curriculum combines liberal arts studies and technical courses with clinical education at affiliated hospitals in Nassau and Suffolk counties. The Radiologic Technology student is trained to work under the supervision of a physician in the diagnostic applications of x-rays. Responsibilities of the Radiologic Technologist include; positioning of patients, handling of complex equipment, and utilizing radiation protection devices. In addition to these technical skills, the technologist's duties require him/her to attend to the physical and emotional needs of patients who are often acutely ill or seriously injured. The program is accredited under the Nassau Community College accreditation granted by The Middle States Association of Colleges and Schools, and by the New York State Department of Health. Graduates are eligible to take the American Registry of Radiologic Technologists examination to become a Registered Radiologic Technologist and to obtain New York State Licensure. Opportunities for professional advancement and continuing education at the B.S. degree level are available.

The program maintains two fully functional radiologic suites. These radiology rooms are designed to give the radiology student a comprehensive training in all aspects of radiology imaging. Both radiology suites are equipped with the latest imaging modalities; DR imaging, CR imaging, and film imaging.

To be eligible for admission to the Radiologic Technology Program, candidates must meet academic requirements, must be legally eligible for employment and licensure in the United States at the time of application, and must be of "good moral character" as defined by the New York State Department of Health applicable to the profession of Radiologic Technology.

Radiologic Tech: Radiation Therapy Technology (A.A.S.) - Radiologic Tech: Radiation Therapy Technology (A.A.S.) - The Radiation Therapy program is a two-year (four semesters and three summer sessions) program leading to the Associate in Applied Science degree. Radiation Therapy courses are only offered during the day and students are admitted to the program during the Fall semester only. Graduates are eligible to take the American Registry of Radiologic Technologists examination to become Registered Radiation Therapists and obtain New York State Licensure. Radiation Therapists primarily treat cancer patients by applying ionizing radiation according to a radiation oncologist's prescription, using a variety of complex treatment techniques and equipment. The Radiation Therapy program combines technical and liberal arts courses given at Nassau Community College with off campus clinical education at various affiliated hospitals and free-standing cancer centers. Students will rotate to different clinical settings ranging throughout Manhattan, Queens, Nassau and Suffolk Counties. The program maintains a fully functional VERT lab (virtual simulation), a state-of-the-art reality training system in radiation therapy, and a physics lab for treatment planning.

An additional \$50 per student OSHA training fee for each clinical rotation may apply. The Test for Essential Academic Skills (TEAS) is required for all applicants.

To be eligible for admission to the Radiation Therapy Program, candidates must meet academic requirements and be 18 years of age by the start of the first day of the first semester. Students must be legally eligible for employment and licensure in the United States at the time of application and be of "good moral character" as defined by the New York State Department of Health, applicable to the profession of Radiation Therapy. An interview is required. Background checks and physicals, including drug testing, are required upon acceptance and is at the cost of the student. Acceptance into the Radiation Therapy program is conditional, based upon the outcome of your background check and drug testing.

This program is accredited by the New York Department of Health and the Joint Committee on Education in Radiologic Technology, www.jrcert.org, 20 N. Wacker Drive, Suite 2850, Chicago, Illinois 60606. All students are expected to follow the policies as set forth in the College Catalog and in the Radiation Therapy Student handbook.

Respiratory Care (A.A.S.) - Respiratory Care is an allied health specialty concerned with the performance of diagnostic cardiopulmonary evaluation and respiratory therapy treatment applied to patients with deficiency and abnormalities of the cardiopulmonary system. It includes related education of the patient, family, and public. Cardiopulmonary evaluation includes the acquisition, analysis and interpretation of data obtained from physiologic specimens, performance of diagnostic tests, studies and research of the cardiopulmonary system, as well as neurophysiologic studies related to respiratory care. Specific testing techniques are employed in respiratory care to assist in diagnosis, monitoring treatment and research. This is understood to include measurement of ventilatory volumes, pressures, flows, blood gas analysis and other related physiologic monitoring. Respiratory therapy techniques include the application and monitoring of medical gases and related administration apparatus, environmental control systems, humidification systems, aerosols, inhaled medications, ventilatory support, bronchopulmonary drainage, pulmonary rehabilitation, cardiopulmonary resuscitation and airway management.

The Respiratory Care program is designed to train the student for a career as a respiratory therapist. It is a two-year course of study leading to the Associate in Applied Science (A.A.S.) degree. In addition, graduates are eligible for nationally recognize certification and registration through the National Board for Respiratory Care, and for licensure by the New York State Education Department. To be eligible for admission to the Respiratory Care Program candidates must meet academic requirements, must be legally eligible for employment and licensure in the United States at the time of application, and must be of "good moral character" as defined in the New York State Education Law as applicable to the profession of the Respiratory Care, and must pass a criminal background check. The Respiratory Care curriculum is a balance of courses in the liberal arts and basic sciences as well as more specialized technical and clinical courses. Clinical, laboratory, and classroom training is structured to provide a comprehensive understanding of modern respiratory care techniques.

Graduates are trained in diagnostic and therapeutic techniques for adult, pediatric and neonatal patients, and upon graduation are prepared to work in all areas of the field including intensive-critical-emergency care, general respiratory care, and rehabilitation and home care for cardiopulmonary patients. This program is nationally accredited by the Commission on Accreditation for Respiratory Care.

Surgical Technology (A.A.S.) - The Surgical Technology student is prepared to assume the role of surgical technologist in any surgical setting. In this program, the student is prepared to function in the areas of scrub, circulating assistant, and second assistant during surgical and obstetrical procedures. The graduate surgical technologist may elect to specialize in a particular area of surgery such as open heart, neuro, eye, orthopedics, and many others. Graduates are also employed in interventional suites, delivery rooms, ambulatory surgery centers, central supply units, organ retrieval/transplant teams, and surgical equipment sales. This two-year program leads to an Associate in Applied Science Degree and is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP) upon recommendation from the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA).

OFFICE: Building G, Room 179, 516.572.7162 ext. 0

CHAIRPERSON: Izolda Maksym, Izolda.Maksym@ncc.edu

FACULTY: C. Cage, T. Emmerson, J. Gorman, A. Guest, I. Maksym, C. McBride, C. Monastra, W. Shillallies, R. Toedter, N. Wasserbauer

TECHNICAL ASSISTANTS: M. LaCombe, C. Lawrence, L. Rozzi

COURSES OFFERED: Art (ART)

The following curricula are offered by this Department:

- Art (A.S.)
- Art Studies (A.A.)
- Graphic Design (Certificate)
- Graphic Design and Digital Media (A.A.S.)
- **Photography (A.S.)**
- Photography (Certificate)
- Website Design (Certificate)

The Art Department offers courses of study for both the art major and for those wishing to explore the visual arts. Students may choose from A.S. degree programs in Art and in Photography, an A.A.S. degree in Graphic Design and Digital Media, an A.A. degree in Art Studies with an option of concentration in Art History, and Certificate programs in Photography, Desktop Publishing and Design, and Web Design.

Our A.S. degrees, designed for students who intend to pursue a four-year art education, provide a basic foundation across the various disciplines, including drawing, painting, 2D and 3D design, sculpture, ceramics, photography, printmaking, and computer graphics. Courses in Art History, ranging from primitive to contemporary and non-western, are also offered. Students must complete remedial courses in English and Reading before enrolling in any art history courses. The Certificate in Photography (36 credits) is a concentrated area of study for those students planning a more immediate career in this field. Our A.A.S. degree program in Graphic Design and Digital Media provides students with training in desktop publishing and multimedia. Studies include print and graphic design, web design, 3D modeling, animation and interactive design. The Desktop Publishing and Design Certificate provides students with specialized computer skills in typography, page layout, illustration, digital imaging, and printing. This 36 credit certificate program is designed to help prepare students for an entry level position. The Website Design Certificate program provides students with specialized computer skills in web site design, web site component languages and general computer technology in order to better define their own roles in the Industry. This 36-37 credit certificate program is designed to help prepare students for an entry-level position.

The Art facilities, located in the Social Sciences and Visual Arts Building (Bldg. G), contain seven specialized art studios with state-of-the-art equipment; four computer labs covering a range of courses in digital technology; a theater-style art history lecture hall with the latest AV and Smartboard technology, and a Photography complex that includes two professional photography studios, a large black & white darkroom, two computer labs for digital photography and a variety of specialized development and printing areas.

The Plaza Art Gallery, which is operated by the Art Department, offers several art exhibitions yearly and is open to the general public. Art students must complete one questionnaire associated with an art exhibition at the Plaza Art Gallery and attend one Art Forum sponsored by the Art Department each semester. In addition, museum and/or gallery visits and field trips may be required as part of an art instructor's curriculum. Students may also be required to provide supplies and/or equipment for individual use in their courses.

The Art Department requires all art majors to maintain a cumulative 2.0 GPA in their field of study. After one probationary semester, art majors with GPA's below 2.0 will be withdrawn from their major area of study.

CHAIRPERSON: Rakhi Agarwal, Rakhi.Agarwal@ncc.edu

FACULTY: R. Agarwal, T. Black, D. Deal, R. Fournier, R. Gonzalez, C. Hicks, D. Jones, A. Mellace, D. Resch, S. Roberts, J. Spano, C. Tuailon, Q. Wang, B. Woelker

TECHNICAL ASSISTANT: M. Heit, V. Sanchioli, H. Singh, C. Thurber, M. Wetherell

COURSES OFFERED: Biology (BIO), Chemistry (CHE)

CHEMISTRY DISCIPLINE: Students studying chemistry may elect to pursue the A.A.S., A.A. or A.S. degree. Graduates pursue careers in education, industry, government, environmental science, health sciences, medicine, dentistry, pharmacy, and veterinary medicine. The Department operates an experimental complex consisting of six teaching laboratories and support facilities, including equipment required for instrumental analysis and medical laboratory analysis. Chemistry students who enter the College with less than three years of high school mathematics should select mathematics by advisement. Students may not enroll in any chemistry courses while taking any remedial courses. Curriculum and program selections should be made in consultation with a departmental advisor. All chemistry courses, except CHE 109 (Contemporary Topics in Chemistry), CHE 110 (Introduction to Chemical Technology), and CHE 155 (Chemical Calculations and Computer Interface), satisfy the college's laboratory science requirement. CHE 109 (Contemporary Topics in Chemistry), CHE 110 (Introduction to Chemical Technology), CHE 155 (Chemical Calculations and Computer Interfaces) satisfies the college's non-laboratory science requirement.

The Chemistry Learning Center provides the chemistry tutorial support and is located in LS124 (Life Sciences Building).

If you need to contact us, send us an email to Chemistry@ncc.edu

BIOLOGY DISCIPLINE: The Department of Chemistry with Biology and Chemistry disciplines provides a strong program designed to enable students to transfer to an upper division college of their choice. Offering a wide variety of courses, the Department seeks to serve those students wishing to pursue a career in the biological sciences as well as those students who simply wish to explore the field of biology. Whether designed for the science student or the non-science student, all of our laboratory courses will satisfy the science requirement for an associate degree and all Biology courses can be used for elective credits. As a service for students pursuing a career in the biological sciences, the Department has developed articulation agreements with various branches of SUNY, Albany and Stony Brook for example, and many of the local private institutions.

In addition to providing students with the course work necessary for career preparation, the Department offers extensive career advisement for all areas of the biological sciences. Students preparing for careers in areas such as medicine, dentistry, chiropractic, podiatry, veterinary medicine, pharmacy, forestry, environmental science, biological research, etc., are encouraged to see departmental advisors. The Department also houses a modern and fully functional transmission and scanning electron microscope facility and a 3-D visualization theater.

The Biology Learning Center provides biology tutorial support and is located in building F, room 107. To verify center hours, call 516.572.7575.

If you need to contact us, send us an email to Biology@ncc.edu

SUNY GER World History and Global Awareness
Note: Students are required to satisfy both the Critical Thinking and Reasoning and the Information Literacy core competencies by choosing the appropriate classes that also satisfy their degree requirements.

Chemical Technology (A.A.S.) - The Associate of Applied Sciences (A.A.S.) Degree in Chemical Technology strengthens and expands the community partnership with the chemical/pharmaceutical industry and other educational organizations. This program prepares students to work with chemists and chemical engineers in research, development, and production of pharmaceuticals, agricultural chemicals, and plastics as well as in sales and technical writing. The undergraduate curriculum will train students not only for immediate employment but also will give a basic foundation for further professional growth including transferring to four-year institutions.

COURSES OFFERED: Communications (COM), American Sign Language (ASL)

Through the study and application of communications processes, content, and media, communications courses guide the student toward a better understanding of self and society and help develop more effective communications skills.

The department offers Associate of Arts Degrees in three areas: Communication Arts, American Sign Language, and Media Studies. Moreover, courses are offered in areas such as speech pathology, linguistics, business communications, culture, and TV/film production.

The Communication Lab is a state-of-the art computer lab which is available to, and supports, all students enrolled in communication courses. The lab has audio and video supplementary materials and software programs where students complete required course work and may also receive one-to-one assistant with course related assignments. The Communications Lab is located in Building F, Room 117. To verify hours, call 516.572.5422. Lab attendance is required for all ASL classes.

Field trips required for:

- ASL 152 American Sign Language I,
- ASL 153 American Sign Language II,
- ASL 252 American Sign Language III, and
- ASL 253 American Sign Language IV.

The following curricula are offered by this Department:

- American Sign Language (AA)
- Communication Arts (AA)
- Media (AA)

OFFICE: Building G, Room 157, 516.572.7178

CHAIRPERSON: Robert Costello, Robert.Costello@ncc.edu

FACULTY: A. al-Rahman, K. Cho, J. Ferraro, J. Zangari

COURSES OFFERED: Criminal Justice (CRJ), Fire Science (FRS), Private Security Administration (PSA)

The Criminal Justice Department provides students with instruction in all areas of the criminal justice profession. We offer a broad liberal arts education, together with training and internships in the criminal justice system. The Department thoroughly familiarizes students with the functions of police, courts, correctional programs, law, protection management, crime prevention and their application to the community.

Criminal Justice (A.S.) - Students choosing this program will be prepared for further study in the areas of criminal justice, law, public administration, sociology, or government. The program is best suited for those students planning to transfer to a four-year school, but is often used for entry-level positions in the criminal justice system. All criminal justice majors are required to take at least one class in each of the following areas: Policing, Probation/Parole, Security Administration, in addition to CRJ 105 Foundations of the Justice System, CRJ 212 Research in Crime and Security and CRJ 225 Criminal Law.

Fire Science (A.S.) - The Fire Science Degree (A.S) is designed to help students understand the importance of the fire service in our society. This program prepares students for an opportunity for employment in the Fire service field. The student will receive a strong foundation in liberal arts while gaining specific knowledge in fire science.

The Emergency Management (A.S) - The Emergency Management program (A.S) is designed to help students understand the importance of emergency management in our society. Furthermore, this program prepares students for transfer to a four year degree program or an opportunity for employment in the Emergency Management field. The student will receive a strong foundation in liberal arts while gaining training and specific knowledge in emergency management.

Criminal Justice (A.S.) - Students choosing this program will be prepared for further study in the areas of criminal justice, law, public administration, sociology, or government. The program is best suited for those students planning to transfer to a four-year school, but is often used for entry-level positions in the criminal justice system. All criminal justice majors are required to take at least one class in each of the following areas: Policing, Probation/Parole, Security Administration, in addition to CRJ 105 Foundations of the Justice System, CRJ 212 Probation and Parole II and CRJ 225 Criminal Law.

OFFICE: Building G, Room 155, 516.572.7181

CHAIRPERSON: Rosemary DeRiso, Rosemary.DeRiso@ncc.edu

FACULTY: T. Ayala, D. Braunschweiger, R. Deriso, G. Frost, E. Weeks, D. Wolman, E. Boussios, M. DeVeaux, A. Feuerbach, O. Jewett, V. Wilson-Corzen, E. Wood, J. Young, P. Flores, E. Gaudino-Goering, S. Greenbaum, H. Hilary, L. Korman, S. Kraszewski, D. Martin, D. Milillo-Portugal, C. Olko, L. Sidorowicz, A. Tigner, K. Wells-Bernard

COURSES OFFERED: Economics (ECO), Finance (FIN), Interdisciplinary Global Studies (IGS), Sociology (SOC), Human Services (HMS), Anthropology (ANT), Psychology (PSY)

Economics and Finance provide a bridge between the liberal arts and business programs by offering fundamental survey courses to satisfy the degree requirements of both social science and business students. The department's courses provide an understanding of the origins, characteristics, and functions of economic and financial systems. The courses will enable students to develop critical thinking skills while studying the structure and dynamics of the U.S. and global economies. Economic and financial analyses are used to examine individual, business, and public sector decision-making to ascertain how these decisions impact society.

Liberal arts and non-business students who wish to gain an overview of the economic and financial system in one semester should take Survey of Economics (ECO 100) or any other general theory courses such as: Personal Finance (ECO 110/FIN 110), Introduction to Finance (ECO 111/FIN 111), Economic Development of the United States (ECO 215), Economics of the Developing World (ECO 216), Economic Geography of the World (ECO 222), and History of Economic Thought (ECO 280).

Students who plan to pursue a Baccalaureate degree in Economics, Finance, or Business should begin their studies by taking Principles of Macroeconomics (ECO 207) and Principles of Microeconomics (ECO 208), both of which provide a foundation for more advanced study in economics and finance. Then, after faculty advisement, students may choose from the following: Introduction to Investments (ECO 112 / FIN 112), Economic Statistics (ECO 212), Money and Banking (ECO 213/FIN 213), Corporate Finance (ECO 214/FIN 214), Economics Development of the United States (ECO 215), Economics of the Developing World (ECO 216), Economic Geography of the World (ECO 222), Introduction to International Economics and Finance (ECO 230/FIN 230), History of Economic Thought (ECO 280), and Cooperative Education Internship (ECO 294/FIN 294). Students wishing to pursue study at the Baccalaureate level in economics or finance should consult an advisor in the Department of Economics and Finance.

Sociology, Anthropology and Social Work are disciplines that encourage students to think actively about their role in the world, and about the social forces that shape the human experience, thus increasing their ability to live their best lives. Our courses explore the kinds of questions that arise as soon as we start to look more closely at the world around us. What is the relationship between the individual, the community, and the society? Why do societies and cultures develop differently from one another? Why is there economic and social inequality within the United States and between nations? What are the most effective ways to solve social problems like crime, poverty, violence, or addiction? What social forces shape our ability to live healthy lives? What kinds of struggles do typical families face today? How are important elements of identity like gender, ethnicity, race, class, sexuality, socially constructed? And perhaps the biggest questions of all: How can we change the world we live in?

Sociology and anthropology courses are designed to meet the needs of general liberal arts and social science students as well as those planning to pursue sociology or anthropology majors at the baccalaureate level and beyond. Students wishing to pursue study at the baccalaureate level in sociology, anthropology or social work should see departmental advisors.

Human services courses are designed to help students explore career options within social work and human services. Students wishing to pursue our Human Service programs should speak with a departmental advisor.

In the field of psychology, fundamental survey courses are offered to fit the needs of all students. Those desiring to specialize are provided with patterns of preprofessional courses designed to satisfy the requirements of transfer colleges. Elective offerings provide further study in psychology for those seeking careers in counseling and teaching. Students wishing to pursue study at the baccalaureate level in these subjects should see departmental advisors.

The following curricula are offered by this department:

Human Services: Community Service and Social Welfare (A.A.): This program leads to the Associate of Arts degree and is designed for those students who intend to transfer to a baccalaureate program in social work or a related human services field. The program includes a broad variety of required and elective courses in community service (social-work oriented courses), social sciences, humanities, literature, science and math, and addictions. Various articulation agreements are in place for successful graduating students.

Case Management (Cert.): The purpose of the Case Management Certificate program is to produce human services professionals who can enhance the provision of services to a wide variety of clientele through proficiency in case management skills, as well as to enhance students' career and employment prospects. **To Our Veterans:** This Program is pending approval by Veterans Administration.

Disability Studies (A.A.): The Disability Studies (A.A.) explores disability from historical, cultural, philosophical, psychological and socio-political perspectives and from multiple disciplinary - and interdisciplinary- angles. Job opportunities may be found in developmental or physical disability service agencies, independent living centers, mental health centers, schools, geriatric and vocational rehabilitation agencies. It may also lead to employment in organizations promoting disability rights, advocacy and activism. Graduates are prepared to work effectively with individuals with many different disabilities, disorders, or conditions. Credits earned may be applied toward a B.A. in Disability Studies, Psychology or related fields.

Disability Studies (Certificate): The Disability Studies Certificate is designed to prepare students for a career in the field of disability service. Students will gain the theoretical knowledge and practical skills that will allow them to effectively provide services that meet the unique needs of individuals with disabilities across the life-span. Courses in the program assist students in developing an understanding and knowledge of disabilities that take into consideration the individual with a disability, societal influences, the environmental setting and the mandates of disability law. Students will also learn to employ assessment techniques, programming strategies, goal planning, and life-skills training that support self-advocacy, productivity and community inclusion for individuals with developmental disabilities across the life span.

Case Management (Cert.)—The purpose of the Case Management Certificate program is to produce human services professionals who can enhance the provision of services to a wide variety of clientele through proficiency in case management skills, as well as to enhance student career and employment prospects.

To Our Veterans: This Program is pending approval by the Veterans Administration.

COURSES OFFERED: English (ENG): The English Department aims to improve students' abilities in critical thinking, information literacy, writing in the disciplines, creative writing, and the reading, discussing, analyzing and aesthetic appreciation of the varied genres of the literary arts. English is a desirable major concentration of undergraduate study for education, law, publishing, advertising and public relations, government service, journalism, creative writing, and other language-related fields. English is usefully combined as a minor concentration with premedical and other science-related fields.

The following curricula are offered by this Department:

Creative Writing (A.A.) - The A.A. in Creative Writing provides students with knowledge and skills that will prepare them for a career in writing. The curriculum is also appropriate for students continuing onto a four-year institution where they may complete a Bachelor's degree with a major in Creative Writing. After successfully completing ENG 102 Composition II or its honors counterpart ENG 109 The Art of Analysis/Honors English II requirement, students may pursue their creative writing interest in the following courses:

- ENG 115 Creative Writing
- ENG 116 Play & Screen Writing
- ENG 117 Fiction Writing
- ENG 118 Poetry Writing
- ENG 120 Creative Non-Fiction Writing

Composition and Writing as a Craft

Composition I focuses on essay writing, research, citation, and the critical analysis of texts. Four courses meet this requirement:

- ENG 100 Enhanced Composition I
- ENG 100 ESL - Enhanced Composition I for English Language Learners
- ENG 101 Composition I
- ENG 108 The Craft of Composition / Honors English I

Composition II further develops the study and practice in composition and citation by analyzing literary works. Three courses meet this requirement:

- ENG 102 Composition II
- ENG 103 Writing in the Sciences
- ENG 109 The Art of Analysis/Honors English II

Additionally, students who seek to strengthen their grasp of language and writing in other ways can enroll in the following composition or creative writing electives:

Writing as a Craft

- ENG 105 Grammar: Structure and Strategy
- ENG 111 Technical Writing
- ENG 115 Creative Writing
- ENG 116 Play & Screen Writing
- ENG 117 Fiction Writing
- ENG 120 Creative Nonfiction Writing
- ENG 215 Journalism

English (A.A.) - The A. A. in English provides individuals with the skills in critical thinking, communication, and cultural understanding required for professional, academic, and personal success in the 21st century. The curriculum serves students continuing to four-year institutions to complete a bachelor's degree with a major in English; the AA degree in English is also usefully paired with many other majors.

Composition, Language, and the Writing Process:

Composition I focuses on essay writing, research, citation, and the critical analysis of texts. Four courses meet this requirement:

- ENG 100 Enhanced Composition I
- ENG 100 ESL - Enhanced Composition I for English Language Learners
- ENG 101 Composition I
- ENG 108 The Craft of Composition / Honors English I

Composition II further develops the study and practice of composition and citation by analyzing literary works. Two courses meet this requirement:

- ENG 102 Composition II
- ENG 109 The Art of Analysis/Honors English II

For further development in the technical, business, and scientific aspects of writing, we offer the following courses you may use as electives:

- ENG 103 Writing in the Sciences
- ENG 105 Grammar: Structure and Strategy
- ENG 111 Technical Writing

Survey and Period

- ENG 203 Early American Literature to 1865
- ENG 204 Modern American Literature: 1865 to Present
- ENG 205 Early English British Literature to 1800
- ENG 206 Modern British Literature from 1800 to 1950

Major Genre and Author

- ENG 207 African American Literature I (dual-listed with AFR 130)
- ENG 208 African American Literature II (dual-listed with AFR 131)
- ENG 216 Autobiographical Literature
- ENG 220 Mythology and Folklore
- ENG 221 Modern American Novel
- ENG 230 Modern British & American Drama
- ENG 231 Mystery and Detective Fiction
- ENG 232 Studies in Children Literature
- ENG 233 Studies in Science Fiction
- ENG 236 The Literature of the Bible
- ENG 251 Film and Literature
- ENG 252 Shakespeare on Stage & Page
- ENG 253 Shakespeare Comedies & Histories
- ENG 254 Shakespeare Tragedies
- ENG 263 The Modern American Short Story
- ENG 265 Modern American Poetry

- ENG 267 Satire
- ENG 298 Comedy: Theory and Development

Conventions of the Discipline

- ENG 105 Grammar: Structure and Strategy
- ENG 225 Introduction to Linguistics and Semantics I
- ENG 271 Psychoanalytic Approaches to Literature

Literature and Identity

- ENG 207 African American Literature I
- ENG 208 African American Literature II
- ENG 209 Modern Irish Literature
- ENG 219 Jewish Literature
- ENG 222 Latin American Literature
- ENG 223 Masterworks of Literature I
- ENG 224 Masterworks of Literature II
- ENG 227 South Asian Literature
- ENG 228 Asian American Literature
- ENG 229 Native American Literature
- ENG 243 GLBTQ Literature
- ENG 247 Women in Literature
- ENG 248 Women Writers
- ENG 261 Literature of the Holocaust
- ENG 281 Nature in Literature

Developmental and ESL Support

For students whose writing placement indicates a need for a developmental course, the English Department offers WRT 001 Foundations of Writing. The Department also offers ENG 001 College Preparatory English as a co-requisite to ENG 101 Composition I to form an Accelerated Learning Program (ALP) through which students meet with the same instructor for ENG 001 College Preparatory English and ENG 101 Composition I for five hours weekly. ENG 001 College Preparatory English supports the work of ENG 101 Composition I through small classes and lab work. By passing both courses, students fulfill their developmental writing requirement and earn 3 credits in Basic Communication toward their General Education requirements. Students must place higher than RDG 001 Individualized Reading and Study Improvement to enroll in ALP.

All matriculated students placing into RDG 001 Individualized Reading and Study Improvement and/or RDG 002 Reading and Studying College Texts, are required to enroll in these courses in their first semester of attendance. The Department offers RDG 002 as a Gateway Pairing (a co-requisite that pairs RDG 002 Reading and Studying College Texts with a variety of 3-credit introductory courses across the disciplines). Students are required to complete their non-credit classes successfully before being permitted to register for the next level of courses. Successful completion of each course is required. If RDG 001 Individualized Reading and Study Improvement is the original placement, RDG 002 Reading and Studying College Texts is required unless the student is exempted by meeting Departmental standards.

For English Language Learners the English Department offers:

RDG 030 Rdg ESL 3 - Reading and Study for the Foreign Student: This 4-hour weekly non-credit course is designed for students who demonstrate a need to develop mastery of college-level reading and study skills.

ENG 030 English as a Second Language (ESL Writing III): This 6-hour weekly, non-credit course prepares non-native speakers of English to advance in the college-level writing required for work in all disciplines.

ENG 001 ESL - College Preparatory English for English Language Learners: For students whose placement indicates intensive work in English language acquisition (particularly in writing), this specialized form of ENG 001 works with small class groups to prepare students to develop skills for college-level essays.

Writing Center

The English Department's Writing Center is open to NCC students of all levels interested in improving their writing in any discipline. Faculty members offer individualized and group instruction in expository and creative writing, research and documentation, and basic grammar and usage. ESL students receive assistance in language development and learning. Tutoring can also take place at a networked computer or online by e-mail. In addition, students are welcome to use the Department's computer lab for word processing and internet research.

Scholarships in the English Department

Seven scholarships specific to the English Department are available to students transferring to a four-year college.

Creative Writing (A.A.) –The A. A. in Creative Writing provides students with knowledge and skills that will prepare them for a career in writing. The curriculum is also appropriate for students continuing onto a four-year institution where they may complete a Bachelor's degree with a major in Creative Writing.

- Choose from the following:
COM 101 Interpersonal Communications, or
COM 103 Public Speaking, or
COM 123 Argumentation and Debate, or
COM 202 Persuasive Speaking.
- Recommended: NCC 101 Freshman Seminar: The College Experience
- Depending on placement.
- SUNY GE World Language.
- SUNY GE Mathematics and Quantitative Reasoning.
- Choose from the following attributes:
SUNY GE Western Civilization, or
SUNY GE Other World Civilization, or
SUNY GE American History.
- Choose from the following:
ENG 105 Grammar: Structure and Strategy, or
ENG 111 Technical Writing, or
ENG 215 Journalism.
- Students will be required to satisfy the NCC FAPA requirement while satisfying the GE - The Arts requirement.
- SUNY GE Natural Sciences and Scientific Reasoning.
- Students will be required to satisfy the SUNY Diversity: Equity, Inclusion and Social Justice while satisfying their PLDI or GLNW Literature requirement.
- Students will be required to satisfy their GLNW or WESH requirement while satisfying their Literature requirement.
- SUNY GE Social and Behavioral Science and History.
- SUNY GE Humanities, Not English
- SUNY GE Natural Sciences
- SUNY GE Humanities. 2 (two) 3-credit courses.
- SUNY GE Social and Behavioral Sciences elective
- SUNY GE Social and Behavioral Sciences Elective. This course must also meet NCC Culture and Diversity requirement.

OFFICE: Cluster P, Room 218, 516.572.7518

CHAIRPERSON: Jessica Marra, Jessica.Marra@ncc.edu

HEALTH STUDIES COORDINATOR: Dr. Donna Bacon, P-226, 516.572.7518, ext. 26621

FACULTY: K. Abrams, D. Bacon, D. Karras, A. Maddaluno, J. Ramsey, J. Steinhart, M. Toomey, A. Veit Cleveland

TECHNICAL ASSISTANTS: S. Mitchell

PROGRAMS OFFERED:

- Health Studies (A.S.)
- Physical Education Studies (A.S.)

COURSES OFFERED: Health and Physical Education (HED, PED)

The Department offers an A.S Degree Physical Education. Students are required to complete 7 credits of activity/method courses. The courses include:

- PED 106 Team Sports: Soccer, Volleyball and Basketball,
- PED 107 Racquet Sports: Tennis, Badminton and Pickleball,
- PED 110 Exercise Leadership: Muscular Strength & Conditioning,
- PED 111 Exercise Leadership: Aerobic Conditioning,
- PED 172 Golf (C),
- PED 178 Fundamentals of Movement and Rhythm (C) (F),
- PED 270 Adventure Activities Coed, and
- PED 275 Water Safety Instructor Coed

Students are also required to complete:

- PED 190 Introduction to Physical Education,
- HED 251 Human Sexuality,
- HED 291 Personal Health for Physical Education and Health Majors, and
- HED 292 Safety and First Aid

The Department offers an A.S. Degree in Health Studies. Students who wish to pursue a career in school or community health are required to take:

- HED 200 Concepts of Healthful Living and Stress Management,
- HED 293 Community Health,

and any 3 HED courses listed below:

- HED 202 Health Through Exercise, Nutrition and Weight,
- HED 205 Consumer Health Care and Protection,
- HED 211 Women's Health,
- HED 231 Death Education: Health Perspective,
- HED 251 Human Sexuality,
- HED 271 Alcoholism, Addictions and Abusive Behaviors

It is strongly suggested that interested students make an appointment with a Physical Education or Health Studies advisor to ensure proper course selection.

The Associate in Science degree in Health Studies is designed to prepare students for transfer to a four-year Bachelor's Degree program in Health Studies or a health-related field of study. The program also prepares students to obtain entry-level positions in the field as it is designed to begin the professional preparation of health professionals working in communities, schools and work sites. Students receive a strong foundation in liberal arts as they complete general education requirements, while at the same time gaining specific knowledge of the importance of Health Studies as a profession. Graduates of the program will demonstrate effective research skills, an understanding of various influences that shape health values and perspectives as well as gain the ability to communicate and articulate appropriate language in the field of health studies.

The Physical Education Studies (A.S.) program is a two-year program that offers courses for students who wish to pursue a career in physical education. Students in the program can transfer to a four-year institution where they can complete a Bachelor's degree and become certified to be a physical education teacher. Students are required to complete a number of specific physical education courses. These courses are designed to develop attitudes, appreciation, personal skills and applied techniques in all types of activities included in the broad physical education program. The department recommends that if a student wishes to certify for both Physical Education & Health Education, they should enroll in HED courses as general electives. It is strongly recommended that interested students make an appointment with the physical education or health education advisor to ensure proper course selection.

OFFICE: Building G, Room 257, 516.572.7422

CHAIRPERSON: Miguel C. Alonso, Miguel.alonso@ncc.edu

FACULTY: M. Alonso, M. Anderson, E. Boyden, P. Carlo, P. Caro, R. Cunsolo, L. Falcon, R. Genter, R. D. Goodman, M. James, S. Maurer, C. Poulivos, S. Sapiie, F. Siminoff, J. Vessels

COURSES OFFERED: Geography (GEO), History (HIS), Interdisciplinary (IGS), Latin American Studies (LAS), Political Science (POL)

In the area of history, the Department offers basic courses in Western civilization and non-Western civilizations; in the field of political science, the Department offers courses in national, international, state, and local governments. A selective program of electives is also provided in history, geography, and political science designed to meet the varied needs of both the general student and the student who wishes to pursue those studies.

- Computer-assisted instruction is available in selected history courses.
- Students who wish to pursue history are advised to incorporate into their program a maximum of 18 history credits, including HIS 101 (History of Western Civilization through the 18th Century) - HIS 102 (History of Western Civilization since the 18th Century) and HIS 103 (History of the United States through the Civil War) - HIS 104 (History of the United States since the Civil War).
- It is also recommended they take at least 3 credits in political science. Students who wish to pursue political science must take a minimum of 12 credits in political science in addition to HIS 101 - HIS 102 or HIS 103 - HIS 104.
- Students wishing to study geography should take GEO 101 (People and Environment) plus available electives (GEO 103 - Human Geography, GEO 201 - Geography of Europe).
- History, economics, anthropology, geology, and environmental science courses are recommended as supplements.
- Students wishing to pursue study at the baccalaureate level in these subjects should see departmental advisors.

OFFICE: Building K, Room 14, 516.572.7344

CHAIRPERSON: Anne Cubeta, Anne.Cubeta@ncc.edu

FACULTY: L. Boire, T. Field, D. Gibson, L. Hittleman

COURSES OFFERED: Culinary (CUL), Hospitality Business (HTL), Nutrition (NTR)

These professionally oriented programs offer students the opportunity to specialize in coursework related to the hospitality industry, and culminate in the A.A.S., A.S., and A.O.S. degrees and certificates. Students are prepared for professional and middle management positions in various areas of the industries. Hotel students may anticipate employment positions in various operations such as: guest service representation, hotel front desk, housekeeping, and auditing. Restaurant/Food Services Management students find employment as food and beverage managers, food service directors, and banquet and catering managers. Upon completion of the AOS degree in Culinary Arts, students will be prepared for entry level culinary positions in a variety of food services facilities.

An A.S. degree in Food and Nutrition prepares students for careers in Nutrition Education and Dietetics. Specialized courses provide students with a wide range of knowledge in the industry. Students are exposed to current culinary laboratory and food production methods. In addition, on-the-job training is provided through a cooperative work experience program conducted with local industry professionals. A fully equipped laboratory features all the facilities necessary for students to prepare and serve meals. Computer Labs are used to assist the students in teaching the Hotel Front Office course, the Food and Beverage Operations course and the Food and Beverage Merchandising course. A state of the art dietary analysis program prepares students for healthcare facilities.

A course of study is available for certification in Dietary Management and Food Service Technology. Students are required to work at special food and beverage functions offered to the college community as part of their coursework.

The A.S. degree in Food and Nutrition is designed for students wishing to transfer to a four-year program in Nutrition with the goal of becoming a Registered Dietitian. The program provides the foundation courses, science courses and Food Service Management courses required by the Academic of Nutrition and Dietetics (AND) (formerly American Dietetic Association) for four-year programs in Dietetics, enabling students to transfer to these institutions with ease.

The Dietary Management one-year certificate program is for those students desiring certification as a Dietary Manager. The program is fully accredited by the Association of Nutrition and Food service Professionals (formerly Dietary Managers Association) and will combine our current course offerings with a Registered Dietitian supervised field experience. Graduates are eligible for membership in the Dietary Managers Association (DMA) and will be qualified to sit for the national credentialing exam to become a Certified Dietary Manager (CDM). The coursework will also allow the students to earn 30 college credits towards an A.A.S. degree in Food Service Management.

The following curricula are offered by this Department:

- Culinary Arts (A.O.S.)
- Dietary Management Certificate
- Food and Nutrition (A.S.)
- Food Service Administration, Restaurant Management (A.A.S.)
- Food Service Technology Certificate
- Hotel Technology Administration (A.A.S.)

The Human Rights Project (HRS) promotes an understanding of worldwide genocide and human rights oppression and activism through academic coursework and co-curricular events open to the college and community at large. For further information, contact Dr. Florence Dee Boodakian, Bradley Hall, room 227, 516.572.7185 ext. 25663, Florence.DeeBoodakian@ncc.edu.

The Jewish Studies Project (JWS) provides students with an introduction to the world of Judaism from ancient origins to the present day. We offer two courses: Jews in Biblical and Medieval Cultures (JWS 102), generally offered in fall, examines Jewish life and culture from the Biblical period in the Middle East through the Renaissance in Europe, including Ashkenazic, Mizrahic, and Sephardic populations. Jews in the Modern World (JWS 104), generally offered in the spring, begins with the Enlightenment's impact on the Jewish community, including the effects of new areas of influence, such as Chassidism, Reform Judaism, Zionism, and Feminism. Overviews of the Holocaust, Immigration to America, and the Israel-Palestine conflict are included. Both courses feature readings, discussions, films, field trips, and guest speakers. They satisfy credit requirements for Gen Ed, Western Heritage, Global Awareness, and Pluralism and Diversity; both courses transfer to four-year colleges. Students from all backgrounds are welcome to enroll. The Jewish Studies Project also offers two scholarships each spring, and sponsors campus-wide programs and speakers each semester. For additional information, contact the Jewish Studies Project Coordinator, Professor Susan Cushman, Bradley Hall 215, Susan.Cushman@ncc.edu.

The Latin American Studies (LAS) Project promotes knowledge and an understanding of Latin American and US-Latino peoples, cultures, history, languages, literature, politics, economics, and relations with the US and other countries. The Project supports related courses in various departments, including History, English, and Foreign Languages, and offers two interdisciplinary courses: Introduction to Latin American Studies (LAS 101) and Introduction to Latino/a American Studies in the US (LAS 105). These courses help students explore this field of study and provide a useful background for different careers. For more information and/or advisement, contact Dr. Ines Shaw, Bradley Hall, room 228, 516.572.7840, Ines.Shaw@ncc.edu.

Multidisciplinary Courses (MDC) are designed to make connections between ideas in different disciplines, especially in the sciences and humanities. In the contemporary world it is important to see that events, discoveries, and social policies, as well as the creative arts, are motivated by some of the same ideas, and that they constantly influence one another. The world is a multidisciplinary place, and learning should follow suit. The five courses offered are open to all students in any field, especially those who intend to move on to a four-year school or compete for meaningful employment in a complex world. The Making of the Modern Mind II (MDC 102) and Mayor Ideas in the Post-Modern World (MDC 130) may be taken for General Elective credit. There are no prerequisites and they also may be taken in any order. For further information, contact MDC Program Coordinator, Professor William Moeck, Bradley Hall, Room 213, 516.572.9810, William.Moeck@ncc.edu.

Multidisciplinary Science Courses (MDS) are 4-credit Laboratory Science classes and have been approved as SUNY GenEd requirements. There are currently two courses in this area. Connecting the Sciences - A Macroscopic Approach (MDS 101) examines scientific ideas, methodology, and principles by studying the evolution of the universe, solar system, and Earth. Connecting the Sciences - A Microscopic Approach (MDS 102) examines scientific ideas, methodology, and principles by studying the evolution of life through the organization of atoms into living and nonliving structures. Both of these courses emphasize "hands-on" laboratory investigations. A more detailed description of these courses can be found under course descriptions. For further information, contact MDS Coordinator, Professor Frank Frisenda, Cluster D, Room 2086, 516.572.3556, Frank.Frisenda@ncc.edu.

Women and Gender Studies (WGS) a multidisciplinary project emphasizing diversity, serves hundreds of students each academic year. Sponsoring departments include Art, Communications, Economics, English, History, Health/PED, Library, and Sociology. Every term we offer several sections of Introduction to Women's Studies (WST 101) both online and face-to-face, a course that examines women's roles cross-culturally in the family, workplace, community, professions, and popular culture. We also offer Gender in Popular Culture (WST 105), which examines representations of masculinity and femininity in media including television and film; The Goddess in World Religions (WST 110), which investigates images of the Goddess in world religions such as Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, traditional African religions, and Native American traditions; Women's Issues in Global Context (WST 201), which looks at labor, reproductive rights, education, sexual identity, and grassroots activism in targeted areas around the world; and Philosophy of Sex and Gender (WST 107), a course dual-listed with the Philosophy, which investigates the nature and development of the sex-gender distinction and its application to issues surrounding sexual equality. For further information, contact WGS Program Coordinator, Professor Sara Hosey, 351 Harmon Avenue, second floor, 516.572.7082, sara.hosey@ncc.edu.

COURSES OFFERED: Fashion Buying and Merchandising (FBM), Fashion Design (FSD), Interior Design (INT), Marketing (MKT), Retail Business Management (RET)

The following curricula are offered by this Department

Business - Fashion Buying and Merchandising (A.A.S.)—Students have the opportunity to specialize in a concentration of applied fashion merchandising courses. Specialized courses include: Fashion Advertising and Promotion, Introduction to Menswear, Introduction to Fashion Industry, Introduction to Import Buying, Fashion and Home Accessories, Fashion Coordination and Publicity, and Interior Design. As part of the program, students will study textiles, visual merchandising, retailing, and retail buying. Students will also have the opportunity to participate in an internship program, gaining valuable on-the-job experience. The degree prepares students for positions in resident buying offices, fashion manufacturers, designers' showrooms, retail stores, fashion publications, and other firms associated with the fashion industry.

Business - Marketing (A.A.S.)—This degree is designed to satisfy the requirements of marketing and management organizations that seek competent personnel for positions of responsibility in business. Graduates of this program secure positions as entry level marketing and management trainees. The Associate in Applied Science (A.A.S.) degree serves as the foundation for a business career upon graduation or continued education at a four-year institution.

Business - Retail Business Management (A.A.S.)—Students in retail business management are prepared for merchandising and management careers in such retail enterprises as department and specialty stores, resident buying offices, chain organizations, and small businesses. Students will also have the opportunity to participate in an internship program, gaining valuable on-the-job experience. The Associate in Applied Science (A.A.S.) degree provides students with positions in the retailing industry upon graduation or continued education at a four-year institution.

Entrepreneurship (Cert.)—Upon completion of the Certificate program students will have core knowledge in the functional areas of marketing, accounting, finance and management providing them with the necessary skills to launch a start-up and operate their own business.

Fashion Design (A.A.S.)—Students have the opportunity to complete the A.A.S. degree in the field of fashion design. Draping, art, patternmaking and garment construction will be taught using techniques and equipment employed in industry. Students will develop the skills necessary to translate their original sketches into finished garments using computer aided design as part of the overall program. In addition to their coursework, students are encouraged to participate in industry-sponsored and community events. During the Spring semester, a fashion show is produced showcasing the fourth semester students' projects. Students will participate in an internship program in a design firm studio. The academic and practical experiences attained in this program provide a basis for employment as a designer, assistant designer, patternmaker, production or product development assistant or manager. Graduates may transfer to a four-year college to pursue a Bachelor of Fine Arts or Bachelor of Science degree. The College maintains a transfer agreement with F.I.T. for students wishing to pursue a 4-year technical design degree upon graduation.

Interior Design (A.A.S.)—The Interior Design AAS degree program provides students with a broad-based, hands-on education geared towards obtaining employment in the field of Interior Design. Emphasis is placed on developing conceptual, technical, and communication skills and building industry relationships. The AAS degree program includes a core of liberal arts courses which will aid in the pursuit of a four year degree.

Interior Design (Certificate)—The Interior Design Certificate program provides students with a broad-based, hands-on education geared towards obtaining employment in the field of interior design. Emphasis is placed on developing conceptual, technical, and communication skills and building industry relationships.

Marketing (A.S.)—The Marketing AS degree program is designed for students who wish to transfer to four year institutions as well as students who wish to begin careers in the field of marketing. The program provides students with an understanding of contemporary concepts and practices in the field of marketing, as well as an overview of global business practices. The program has an emphasis on the application of marketing principles and concepts through experiential learning.

Sport Marketing (A.S.)—The Sport Marketing AS degree program provides students with an overview of the growing, dynamic field of sports marketing and is designed for students who plan to transfer to four year institutions upon graduation. This marketing focused program enables students to develop an expertise in the sports industry, along with an appreciation of the global nature and influences of this growing field. The program also serves as a foundation for those students who wish to enter the job market seeking entry level positions in firms engaged in sports marketing.

Business - Fashion Buying and Merchandising (A.A.S.) – Students have the opportunity to specialize in a concentration of applied fashion merchandising courses. Specialized courses include: Fashion Advertising and Promotion, Introduction to Menswear, Introduction to Fashion Industry, Introduction to Import Buying, Fashion and Home Accessories, Fashion Coordination and Publicity, and Interior Design. As part of the program, students will study textiles, visual merchandising, retailing, and retail buying. Students will also have the opportunity to participate in an internship program, gaining valuable on-the-job experience. The degree prepares students for positions in resident buying offices, fashion manufacturers, designers’ showrooms, retail stores, fashion publications, and other firms associated with the fashion industry.

Business - Fashion Buying & Merchandising

A.A.S. Program

Hegis Code: 5004

Total Credits: 64

First Semester	Credits
ENG 100 Enhanced Composition I or ENG 101 Composition I or ENG 108 The Craft of Composition / Honors English I ⁽¹⁾	3
FBM 120 Introduction to the Fashion Industry	3
MKT 100 Introduction to Marketing	3
RET 107 Principles of Retailing	3
Social Science Elective	3
Total Semester Credits	15
Second Semester	Credits
COM 101 Interpersonal Communications or ENG 102 Composition II or ENG 109 The Art of Analysis / Honors English II	3
Fashion Area Electives ⁽²⁾	3
MKT 103 Principles of Sales	3
Mathematics Elective	3
RET 115 Textiles	3
RET 119 Retail Buying	3
Total Semester Credits	18
Third Semester	Credits
Business Area Elective ⁽³⁾	3

FBM 130 Fashion and Home Accessories	3
FBM 160 Seminar in Contemporary Fashion Buying and Merchandising	3
Laboratory Science Elective	4
RET 111 Retail Merchandising or MKT 101 Business Mathematics (as advised)	3
Total Semester Credits	16
Fourth Semester	Credits
FBM 110 Fashion Advertising and Promotion	3
FBM 142 Fashion Buying and Merchandising Field Training	3
Humanities Elective	3
RET 109 Visual Merchandising	3
Social Science Elective	3
Total Semester Credits	15

1. Depending on placement
2. Fashion Area Electives include:
 - FBM 121 Introduction to Menswear
 - FBM 125 Introduction to Import Buying
 - FBM 140 Introduction to Interior Design
 - FBM 150 Fashion Coordination and Publicity
 - INT 101 Interior Design Studio I
 - INT 102 History of Furnishings and Design
 - INT 104 Color for Home Furnishings and Design
3. Business Area Electives include:
 - MKT
 - RET
 - FBM
 - FSD
 - INT
 - BUS
 - CMP
 - ABT
 - LAW

Business-Marketing (A.A.S.) – This degree is designed to satisfy the requirements of marketing and management organizations that seek competent personnel for positions of responsibility in business. Graduates of this program secure positions as entry level marketing and management trainees. The Associate in Applied Science (A.A.S.) degree serves as the foundation for a business career upon graduation or continued education at a four-year institution.

CMP 115 Computers in Business	3
Humanities Elective	3
MKT 136 Marketing Management	3
Social Science Elective	3
Total Semester Credits	18

1. Depending on placement
2. Any course with a MKT designation not already designated as a degree requirement for Marketing.
3. Selection may be made from:
 - Accounting (ACC), except ACC 101 (Accounting I)
 - Administrative Business Technology (ABT)
 - Business Administration (BUS), except BUS 111 (Entrepreneurship)
 - Computer Processing (CMP)
 - Economics (ECO)
 - Fashion Buying and Merchandising (FBM)
 - Hospitality Business (HTL)
 - Law (LAW)
 - Marketing (MKT), except MKT 101 (Business Mathematics)
 - Retail Business Management (RET)

Business - Retail Business Management (A.A.S.) – Students in retail business management are prepared for merchandising and management careers in such retail enterprises as department and specialty stores, resident buying offices, chain organizations, and small businesses. Students will also have the opportunity to participate in an internship program, gaining valuable on-the-job experience. The Associate in Applied Science (A.A.S.) degree provides students with positions in the retailing industry upon graduation or continued education at a four-year institution.

OFFICE: Cluster B, Room 3028, 516.572.7383

CHAIRPERSON: Stuart Kaplan, Stuart.Kaplan@ncc.edu

FACULTY: B. Abgarian, K. Adel, E. Alfar, J. Altamura, C. Atwood, D. J. Balamore, J. Bernat, J. Bosworth, E. Botkin, Thomas C. Bruckner, D. Burdge, D. J. Ciardullo, R. Cohen, E. DeFalco, F. Frisenda, K. Gallagher, J. Ganson, H. Giordano, D. Grodenchik, H. Huntington, T. Imperato, M. Javadi, S. Kaplan, S. Keegan, I. Klikovac, J. Kohut, P. Kreinbihl, D. Kugler, C. M. Lee, G. Lehenbauer, C. Lin, A. Mantell, J. Martin, J. Mazza, C. Merlo, R. Moscatelli, D. Nataro, A. Nocella, D. O'Brien, A. Oglesby-Reyes, L. Orlova, U. Osuno, L. Postner, M. Pournazari, T. Re, M. Riedinger, C. Roethel, R. Rojas, M. Rose, J. Seibert, N. Shah-Giannaris, D. Sher, N. Simon, D. Spelman, G. Spengler, D. Stern, D. Stramiello, J. Thacker, S. Trabucco, T. Tweedy, D. Tyler, T. Vecchiarelli, F. Viscovich, M. Zito, M. Zucker

TECHNICAL ASSISTANTS: R. Cappiello, F. Chiang, Z. Durrani, A. Donor, P. Kreinbihl, R. Guarino, A. Sanchioli

COURSES OFFERED:

- Astronomy (AST)
- Civil Engineering Technology (CET)
- Climatology (CLI)
- Computer Processing (CMP)
- Computer Repair Technology (CRT)
- Computer Science (CSC)
- Construction Management
- Electrical Engineering Technology (ELT)
- Engineering Science (ENS)
- Environmental Science (ENV)
- General Science Studies (GSS)
- Geology (GLY)
- Green Sustainable Design (GSD)
- Information Technology (ITE)
- Mathematics (MAT)
- Meteorology (MET)
- Multi-Disciplinary (MDS)
- Multidisciplinary Science (MDS)
- Physical Sciences (SCI)
- Physics (PHY)

Mathematics & Computer Science: The purpose of the mathematics curriculum is essentially twofold: to provide a necessary aspect of a liberal arts education and to supply the necessary mathematics requirements for continued study in a Baccalaureate program and/or a career in such fields as mathematics, science, engineering, economics, accounting, the behavioral sciences, and such professions. Facilities on campus include Computer Learning Center (B 225), Math Center (B 130), and the Math Success Center (B 116).

Engineering & Physics:

- **General Science Studies:** These courses are 3-credit lecture and 4-credit lecture/laboratory science classes and may fulfill SUNY GenEd requirements. The ranges of 4-credit courses that include a lab component offered in this category are: GSS 103/GSS 104 are the Science of Physics I and II; GSS 106 is the Science of Sound and Music GSS 108 is the Science of Light and Color; GSS 111/GSS 112 are the Sciences of Our World I and II; and GSS 120, the Science of Modern Electronics. The three-credit non-lab science courses include GSS 122 the Science of Energy, GSS 126 Forensic Science, and GSS 128 Green Building Practices. All the courses are specifically designed for the student wishing to gain an understanding of scientific ideas, methodologies, and principles that are specific

to a relevant area of interest. A more detailed description of these courses can be found in the College catalog or the College Web-site.

- **Multidisciplinary Science Courses (MDS)** are 4-credit Laboratory Science classes and have been approved as SUNY GenEd requirements. There are currently two courses in this area. MDS 101, Connecting the Sciences: a Macroscopic Approach examines scientific ideas, methodology, and principles by studying the evolution of the universe, solar system, and Earth. MDS 102, Connecting the Sciences: A Microscopic Approach examines scientific ideas, methodology, and principles by studying the evolution of life through the organization of atoms into living and nonliving structures. Both of these courses emphasize "hands-on" laboratory investigations. A more detailed description of these courses can be found under course descriptions. For further information, contact MDS Coordinator, Professor Nicole Simon, Cluster D, room 2093, 516.572.7036, Nicole.Simon@ncc.edu.
- **Physics:** The Physics courses available at NCC are designed to satisfy the requirements for instruction in Physics for students in many disciplines and meet the standards for transfer as "general education" courses within the various SUNY institutions. In addition, these courses are acceptable for transfer credit to most private colleges and universities. The sequences available include calculus and non-calculus based courses suitable to majors in Engineering, the Physical Sciences, Biological Sciences, Allied Health Sciences, Mathematics, and Education (High School Teachers of Physics). These courses may also be suitable for those students who have an interest in Physics and would like to satisfy their laboratory science requirement with courses in the discipline.
- **Telecommunications courses:** The telecommunication courses at NCC are designed to satisfy the requirements and electives for the Computer Repair Technology program. The courses include basic electronic theory leading up to current and emerging technologies in telecommunications.

Physical Sciences: The department offers several introductory courses from a variety of disciplines. All courses provide students the ability to satisfy general education requirements along with the opportunity to major in one of the Atmospheric, Environmental or Earth Sciences.

- Many courses as part of the Distance Education program. Students enrolled in these courses benefit from the flexibility and convenience of online or partially online course platforms.
- Lab and field work are vital and exciting components to many of the courses. Astronomy students have exclusive access to the department's planetarium. The planetarium boasts an 18-foot dome shaped ceiling with a central projector that illuminates the night sky. Telescopes are mounted for use on the observation deck, along with portable telescopes that are used to conduct evening observations of celestial objects in the field.
- Students in Meteorology and Climatology courses study and analyze data provided by the NCC Weather Center, where live readings of outdoor atmospheric air temperature and pressure, precipitation, wind speed and direction are collected and displayed. Earth and Environmental Science students learn about earth processes unique to Long Island by attending several field trips. Field work provides students a means to directly observe environmental phenomenon. Environmental Mapping students use GPS/GIS units and mapping software to create maps of the region.

- All of the courses in the Physical Sciences will enhance one's academic experience while providing an understanding of their physical world.

The following curricula are offered by this department:

Cisco Certified Entry Networking Technician (Cert)—This Certificate program will prepare students to take the Cisco CCENT certification exam. The Cisco CCENT certification is one of the industry's leading certifications in Information and Communications Technology (ICT). Courses in the program will allow students to troubleshoot and configure Cisco routers and switches. Students will have the opportunity to work with enterprise grade Cisco equipment under the supervision of Cisco certified instructors.

Computer Science (A.S.)—This program leads to the Associate in Science (A.S.) degree and is designed for those who intend to transfer to a baccalaureate program oriented in the design of hardware and software of computer systems. The program stresses computer, mathematics, and science courses which are appropriate for transfer to a baccalaureate program.

Cybersecurity (A.S.)—This program introduces students to the world of cyber and information security.

Students will gain a fundamental understanding of:

1. the security triad,
2. the seven domains of information technology infrastructure, and
3. the three types of security controls.

As students continue through the program, they develop a diverse technical skillset and the foundational knowledge needed for future success. Hard and soft skills will be introduced and reinforced throughout the program. Students will develop technical skills via hands-on labs, develop written and communication skills in the form of policy and report writing, and develop a sound foundation for learning that can be applied in further study or in a career.

Cybersecurity (Cert.)—The Cybersecurity Certificate will introduce students to the world of information security. Confidentiality, integrity and availability will be a key focus as those three topics are a benchmark for evaluation of an information systems security. Students will be introduced to a wide variety of security related topics including physical security, encryption, security planning, disaster response, and will gain hands-on experience through Virtual Labs.

Information Technology (A.A.S.)—This program leads to the Associate in Applied Science (A.A.S.) degree and is designed primarily for those who intend to seek immediate employment in Information Technology. It is also beneficial for students planning to transfer to baccalaureate degree programs in I.T. or related areas. The program includes a general education foundation plus the business and mathematics courses necessary to augment the extensive computer courses. By judicious use of electives along with active advisement from departmental faculty, students can tailor the degree program to meet their individual needs. Topics included for study are object-oriented programming, web programming, 3-tier application development, relational database management and development, and Windows Server and Linux Administration.

Information Technology (Cert.)—The Information Technology Certificate Program has been designed to provide training in computer skills to meet the needs of students to adapt and succeed in the rapid growth and application of new and emerging computer technologies. The program includes a wide range of courses in computer areas such as networking, programming, and applications in order to provide training to develop marketable skills or an opportunity for college graduates to upgrade their computer skills or prepare for a career change. Students without any computer experience should complete CMP 100 (Computing Technology in Today's Society) before entering the certificate program.

Liberal Arts & Science - Mathematics (A.S.)—This program is designed for students who intend to transfer to a baccalaureate program in mathematics, mathematics education (secondary), or a related applied field. Graduates of the program should be able to complete the baccalaureate degree in two years of additional full-time study. The program includes liberal arts courses to provide a broadbased general education, plus computer science and science courses to augment the extensive mathematics component. The mathematics core develops knowledge in three basic areas of mathematics learning: proof and theory, algorithms, and applications. The computer component develops important ancillary skills.

Civil Engineering Technology (A.A.S.): The Civil Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>. The curriculum is balanced between liberal arts, mathematics, and civil engineering technology courses. Although many enter industry after graduation, others elect to transfer to Baccalaureate programs in engineering technology. Civil Engineering Technology graduates are guaranteed acceptance as juniors at Fairleigh Dickinson and Rochester Institute of Technology. Others have transferred to Pennsylvania State University, New Jersey Institute of Technology, University of North Carolina at Charlotte, and many other colleges. Civil engineering technicians are employed in all phases of the construction industry: small houses, building construction, highways, industrial plants, water supply, and sewage treatment plants. They work as concrete and steel designers, detailers, AutoCAD draftpersons, surveyors, estimators, construction superintendents, inspectors, and sales engineers. Their employers include architects; contractors; consulting engineers; land surveyors; equipment manufacturers; material suppliers; and federal, state, county, and town departments.

- **Course Substitutions:** Course substitutions in the AAS Civil Engineering Technology degree program will be made only for courses with substantial equivalent content (over 80% equivalence to that of the NCC approved course outline) from transfer institutions. Course substitutions will only be granted upon written recommendation and after review of the content by a member of the full-time program faculty. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval. Credit hour equivalence alone will not be an acceptable means to approve a substitution.
- **Life Experience Credit:** Life Experience credit will be made for those students with ten or more years of experience of appropriate breadth and depth of exposure to topics and content in a given course. Life Experience credit is not readily given. Life Experience credit will be granted only upon written recommendation by a member of the full-time program faculty, after review of supporting material supplied by the student. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval. Under no circumstance, will a student receive life experience for a 200-level course with the exception of CET

201 (Construction Estimating), CET 222 (Materials Testing Laboratory) and CET 231 (Elementary Surveying).

- **Prerequisite Waivers:** Course prerequisite waivers will be granted only upon written recommendation by a member of the full-time program faculty, after review of supporting material supplied by the student. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval.

Computer Repair Technology (A.A.S.): The Computer Repair Technology curriculum is designed to provide the knowledge and skills necessary to install, maintain, and repair microcomputer hardware and systems, as well as furnish support services to system users. The program will develop the necessary foundation in electronics and computer programming related to computer systems and networking. It will also focus on computer systems and networking. Principles and skills necessary to operate, troubleshoot, install and repair various types of computer systems and networks will be stressed. Graduates will be able to diagnose system hardware or software failures and perform the remedial actions necessary to correct these problems based on a knowledge of the system's operation. At the completion of the degree, the student will be prepared for the A+ certification exams. The student will also be prepared for various network certification exams (MCSE).

Electrical Engineering Technology (A.A.S.): The Electrical Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>. The ELT program is also accredited by the Federal Aviation Association (FAA) and part of the Collegiate Training Initiative (FAA-CTI). This curriculum prepares students as electronic technicians to enter such fields as aerospace, communications, digital computer controls, and energy conversion. Within these and related fields they may perform duties as part of a research and development team or a manufacturing, test, or service group. Graduates may continue their education by pursuing studies towards a Bachelor's degree in engineering technology.

Engineering Science (A.S.): Curriculum content and the overall program have been reviewed and endorsed by the New York State Association of Engineering Colleges. As such, qualified graduates transfer as juniors to numerous outstanding accredited engineering colleges in New York State. This list includes transfer to such institutions as Polytechnic Institute, Manhattan College, Rochester Institute of Technology, Cornell University, Columbia University, Clarkson University, Hofstra University, Syracuse University, Union College, New York Institute of Technology, SUNY at Stony Brook, SUNY Maritime, SUNY at Buffalo and SUNY at Binghamton. The program is also accepted with liberal arts transfer credit at out-of-state accredited schools of engineering such as Penn State and the Stevens Institute of Technology.

Certificate in Construction Management is a one-year career oriented program which prepares the student for opportunities in construction contracting and management. The coursework prepares students to enter the field as assistant to the project superintendent or manager, estimator, scheduler, or inspector. Those individuals already in the field will gain skills and knowledge to further their careers at the safety management, site superintendent, and project management levels. The Certificate in Construction Management will also provide graduates of associate degree programs in Architectural or Civil Engineering Technology an opportunity to enhance their education or to focus on management career goals rather than those associated with design. Other professionals in architecture, management, and interior design may enroll in the program to understand the building design and construction process, construction budgets, estimates, and schedules; enhance computer skills in estimating, scheduling, and management software; acquire knowledge of contract documents, building codes, and zoning regulations; understand safety issues; and develop skills in management and dispute resolution.

Certificate in Sustainable Design and Renewable Energy is geared to all students of Nassau Community College interested in gaining a broad understanding of different topics in sustainable design and renewable energy. The certificate program will be taught by professionals in the field, including professional engineers and registered architects. The knowledge gained by the students in this program will aid them in procuring jobs in the green industry, in such fields as engineering, construction, financial, marketing, sales, maintenance, and many more. The sustainable design principles that students will learn in this program will allow them to better understand methods used worldwide by diverse populations.

Students graduating with this certificate could also continue on and seek certification by the USGBC (U.S. Green Building Council) and become a Green Associate.

Cisco Certified Network Associate (Cert.) - This Certificate program will prepare students to take the Cisco CCENT certification exam. The Cisco CCENT certification is one of the industry's leading certifications in Information and Communications Technology (ICT). Courses in the program will allow students to troubleshoot and configure Cisco routers and switches. Students will have the opportunity to work with enterprise grade Cisco equipment under the supervision of Cisco certified instructors.

Cisco Certified Network Associate (CCNA)

Certificate

Hegis Code: 5199

Total Credits: 19-20

The Certificate Program in CISCO Certified Entry Networking Technician is not eligible for State or Federal student aid.

First Semester	Credits
CMP 103 IT Essentials	4
ITE 213 Data Communications and the Internet	3
ITE 215 Topics in Data Communications and Enterprise Networks	3
Total Semester Credits	10
Second Semester	Credits
ITE 255 Routing and Switching Essentials	6
Mathematics Elective ⁽¹⁾	3-4
Total Semester Credits	9-10

1. MAT 102 Introduction to Statistics or higher

Computer Science (A.S.) - This program leads to the Associate in Science (A.S.) degree and is designed for those who intend to transfer to a baccalaureate program oriented in the design of hardware and software of computer systems. The program stresses computer, mathematics, and science courses which are appropriate for transfer to a baccalaureate program.

Students who do not qualify for MAT 122 Calculus I and CSC 120 Computer Science I must seek advisement for MAT and CSC placement and should note that more than four semesters may be required to complete the degree program.

- Depending on placement
- General Education Electives:
6 credits in NCC Humanities (attribute: HUM)
6 credits in NCC Social Science (attribute: SBS)
Across the courses, at least 6 of the 12 credits must be in SUNY GE courses and the below SUNY GE attributes must be met:
Diversity: Equity, Inclusion, and Social Justice (attribute: SDES) *If the HED elective in the first semester satisfies SDES then this is not required here
Any 3 of:
Humanities (attribute: SHUM)
The Arts (attribute: SART)
World Language (attribute: SWOL)
Social Sciences (attribute: SSBS)
US History / Civic Engagement (attribute: SUSC)
World History (attribute: SWS)
Students are required to satisfy both SUNY GE attributes, Critical Thinking and Reasoning (attribute: S---) and Information Literacy (attribute: S---), by choosing appropriate classes that also satisfy their degree requirements.
- Choice of:
BIO 109 General Biology I,
CHE 151 General Chemistry I, or
PHY 151 Physics Science and Math I.
- Choice of:
BIO 110 General Biology II,
CHE 152 General Chemistry II, or
PHY 152 Physics Science and Math II

Cybersecurity (A.S.)—This program introduces students to the world of cyber and information security.

Students will gain a fundamental understanding of:

1. the security triad,
2. the seven domains of information technology infrastructure, and
3. the three types of security controls.

As students continue through the program, they develop a diverse technical skillset and the foundational knowledge needed for future success. Hard and soft skills will be introduced and reinforced throughout the program. Students will develop technical skills via hands-on labs, develop written and communication skills in the form of policy and report writing, and develop a sound foundation for learning that can be applied in further study or in a career.

 - MAT 111 Pre-Calculus
 - MAT 122 Calculus I
 - MAT 150 Data Science/Analytics

Information Technology (A.A.S.)—This program leads to the Associate in Applied Science (A.A.S.) degree and is designed primarily for those who intend to seek immediate employment in Information Technology. It is also beneficial for students planning to transfer to baccalaureate degree programs in I.T. or related areas. The program includes a general education foundation plus the business and mathematics courses necessary to augment the extensive computer courses. By judicious use of electives along with active advisement from departmental faculty, students can tailor the degree program to meet their individual needs. Topics included for study are object-oriented programming, web programming, 3-tier application development, relational database management and development, and Windows Server and Linux Administration.

Liberal Arts & Sciences: Mathematics (A.S.)—This program is designed for students who intend to transfer to a baccalaureate program in mathematics, mathematics education (secondary), or a related applied field. Graduates of the program should be able to complete the baccalaureate degree in two years of additional full-time study. The program includes liberal arts courses to provide a broadbased general education, plus computer science and science courses to augment the extensive mathematics component. The mathematics core develops knowledge in three basic areas of mathematics learning: proof and theory, algorithms, and applications. The computer component develops important ancillary skills.

2. General Education Electives:
6 credits in NCC Humanities (attribute: HUM)
6 credits in NCC Social Science (attribute: SBS)

Across the courses, the below SUNY GE attributes must be met:

Diversity: Equity, Inclusion, and Social Justice (attribute: SDES) *If the HED elective in the third semester satisfies SDES then this is not required here.

Any 3 of:

Humanities (attribute: SHUM)

The Arts (attribute: SART)

World Languages (attribute: SWOL)

Social Sciences (attribute: SSBS)

US History / Civic Engagement (attribute: SUSC)

World History / Global Awareness (attribute: SWHG)

Students are required to satisfy both SUNY GE attributes, Critical Thinking and Reasoning (attribute: S---) and Information Literacy (attribute: S---), by choosing appropriate classes that also satisfy their degree requirements.

3. Any course offered by the College may be taken, but no math courses numbered MAT 122 Calculus I or lower may be used.

Civil Engineering Technology (A.A.S.)—The Civil Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org/>. The curriculum is balanced between liberal arts, mathematics, and civil engineering technology courses. Although many enter industry after graduation, others elect to transfer to Baccalaureate programs in engineering technology. Civil Engineering Technology graduates are guaranteed acceptance as juniors at Fairleigh Dickinson and Rochester Institute of Technology. Others have transferred to Pennsylvania State University, New Jersey Institute of Technology, University of North Carolina at Charlotte, and many other colleges. Civil engineering technicians are employed in all phases of the construction industry: small houses, building construction, highways, industrial plants, water supply, and sewage treatment plants. They work as concrete and steel designers, detailers, AutoCAD draftpersons, surveyors, estimators, construction superintendents, inspectors, and sales engineers. Their employers include architects; contractors; consulting engineers; land surveyors; equipment manufacturers; material suppliers; and federal, state, county, and town departments.

- **Course Substitutions:** Course substitutions in the AAS Civil Engineering Technology degree program will be made only for courses with substantial equivalent content (over 80% equivalence to that of the NCC approved course outline) from transfer institutions. Course substitutions will only be granted upon written recommendation and after review of the content by a member of the full-time program faculty. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval. Credit hour equivalence alone will not be an acceptable means to approve a substitution.
- **Life Experience Credit:** Life Experience credit will be made for those students with ten or more years of experience of appropriate breadth and depth of exposure to topics and content in a given course. Life Experience credit is not readily given. Life Experience credit will be granted only upon written recommendation by a member of the full-time program faculty, after review of supporting material supplied by the student. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval. Under no circumstance, will a student receive life experience for a 200-level course with the exception of CET 201 (Construction Estimating), CET 222 (Materials Testing Laboratory) and CET 231 (Elementary Surveying).
- **Prerequisite Waivers:** Course prerequisite waivers will be granted only upon written recommendation by a member of the full-time program faculty, after review of supporting material supplied by the student. The faculty findings will then be submitted to the Department Chairperson and the Dean of Math and Science for approval.

2. US History or World History with Diversity
The course must meet the below attributes:
NCC Social Science (attribute: SBS), and
Diversity: Equity, Inclusion, and Social Justice (attribute:
SDES), and
One of: US History / Civic Engagement (attribute: SUSC) or
World History / Global Awareness (attribute: SWHG)

Students are required to satisfy both SUNY GE attributes,
Critical Thinking and Reasoning (attribute: S---) and
Information Literacy (attribute: S---), by choosing appropriate
classes that also satisfy their degree requirements.
3. Technical Elective is by department advisement, based upon the
student's desired Engineering transfer path.

Construction Management (Cert.)—Certificate in Construction Management is a one-year career oriented program which prepares the student for opportunities in construction contracting and management. The coursework prepares students to enter the field as assistant to the project superintendent or manager, estimator, scheduler, or inspector. Those individuals already in the field will gain skills and knowledge to further their careers at the safety management, site superintendent, and project management levels. The Certificate in Construction Management will also provide graduates of associate degree programs in Architectural or Civil Engineering Technology an opportunity to enhance their education or to focus on management career goals rather than those associated with design. Other professionals in architecture, management, and interior design may enroll in the program to understand the building design and construction process, construction budgets, estimates, and schedules; enhance computer skills in estimating, scheduling, and management software; acquire knowledge of contract documents, building codes, and zoning regulations; understand safety issues; and develop skills in management and dispute resolution.

Construction Management

Certificate Program

Hegis Code: 5317

Total Credits: 29

First Semester	Credits
CET 101 Residential Construction Methods	2
CET 103 Introductory Civil Engineering Technology	2
CET 150 Blueprint Reading	3
CET 250 Construction Planning and Scheduling	3
CET 252 Construction Safety	3
ENS 101 Graphics	1
Total Semester Credits	14
Second Semester	Credits
CET 107 Codes and Construction	3
CET 201 Construction Estimating	2
CET 254 Mechanical and Electrical Equipment for Buildings	3
CET 256 Construction Contracts and Specifications	2
CET 260 Construction Project Management	3
ENS 105 Introduction to CAD	2
Total Semester Credits	15

Certificate in Sustainable Design and Renewable Energy is geared to all students of Nassau Community College interested in gaining a broad understanding of different topics in sustainable design and renewable energy. The certificate program will be taught by professionals in the field, including professional engineers and registered architects. The knowledge gained by the students in this program will aid them in procuring jobs in the green industry, in such fields as engineering, construction, financial, marketing, sales, maintenance, and many more. The sustainable design principles that students will learn in this program will allow them to better understand methods used worldwide by diverse populations. Students graduating with this certificate could also continue on and seek certification by the USGBC (U.S. Green Building Council) and become a Green Associate.

COURSES OFFERED: Mortuary Science (MSC)

The following curriculum is offered by this Department:

Mortuary Science (A.A.S.) - This program includes extensive work in the areas of biological science, business, and social science, as well as instruction within the major area of funeral service. Candidates for licensure must take the National Board Examination sponsored by the International Conference of Funeral Service Examining Board. After successfully passing the national test, graduates must intern for a period of one year as a Registered Resident prior to receiving the Funeral Director License. The Mortuary Science degree program at Nassau Community College is accredited by the American Board of Funeral Service Education (ABFSE), 992 Mantua Pike, Suite 108 Woodbury Heights, NJ 08097; Phone: 816.233-3747; Web: exdir@abfe.org

National Board Examination pass rates, graduation rates, and employment rates for this and other ABFSE-accredited programs are available at www.abfse.org. To request a printed copy of this program's rates, visit the NCC Mortuary Science Department webpage, email MortuaryScience@ncc.edu, or call 516.572.7277.

Registration with the N.Y.S. Bureau of Funeral Directing is required before matriculation status is granted. Students must supply their own transportation to off-campus assignments.

CHAIRPERSON: Harry Marenstein, Harry.Marenstein@ncc.edu

FACULTY: B. Arendsen, G. Cavallo, J. Golan, H. Marenstein, C. Miley, N. Neal, R. Patane, P. Sheehan, S. Sobolewski.

TECHNICAL ASSISTANTS: D. Ferraro, C. Jusino, S. Locascio

COURSES OFFERED: Music (MUS), Studio Recording Technology (SRT)

The mission of the Music Department is threefold: first, to provide quality instruction in performance, music theory and musicianship, and music history to prepare students pursuing careers in music; second, to provide survey courses in various aspects of music as humanities and general electives for students in other degree programs; third, to serve as a cultural resource center in music for the students and the larger community of Nassau County by sponsoring performing ensembles and presenting concerts.

The following curricula are offered by this Department:

Performing Arts Music (A.A.S.) - A two-year music concentration program that leads to the Associate in Applied Science (A.A.S.) degree is offered in Performing Arts. The curriculum also is transferable to four-year institutions and closely parallels the first two years of the Bachelor of Music degree. The degree may also lead directly to performance and other careers in the music industry. For acceptance, incoming students are required to audition on their major instrument (or voice) and take a test in written music theory, aural musicianship, and keyboard skills.

A minimum grade of "C" is required in Music Major Classes.

Departmental Requirements for A.A.S. Degree in Performing Arts - Music:

1. Four semesters of college-level theory
2. Four semesters of college-level sight-singing
3. Four semesters of keyboard harmony
4. Four semesters of college-level applied music
5. Four semesters of ensemble (chorus, orchestra, band, or percussion ensemble)
6. One semester of music literature and one semester of music history
7. Additional requirements as described under Programs of Study
8. A minimum grade of "C" is required in Music Major Classes.

Applied Music Courses (a special fee will be charged for all courses.)
Requirements for Applied Music:

1. Students must be matriculated in a music degree program.
2. Students are required to perform on at least one recital each semester after reaching the second semester of college level study and also to attend a specified number of recitals and concerts each semester.
3. Woodwind and brass instrument students must also be enrolled in Band.
4. String instrument students must also be enrolled in Orchestra.
5. Voice, keyboard and guitar students must also be enrolled in Chorus.
6. Percussion students must also be enrolled in Percussion Ensemble.
7. Students are required to perform a jury exam at the end of each semester of applied music study.
8. MUS 000 (Applied Music Master Class) is a co-requisite for all applied music courses.

9. Students in applied music must also be enrolled in music theory unless those requirements have already been met.

Studio Recording Technology (Cert.) - This three-semester program is designed to introduce students to music and recording technology and to provide a broad-based perspective of the music industry. The SRT certificate is designed for those seeking entry-level employment in the recording industry, as well as those wishing to establish independent music recording/production businesses. Classes meet on campus. Internship training will take place at a professional recording, production or equivalent music industry work environment (at an off-campus location).

A minimum grade of "C" is required in Studio Recording Classes.

Facilities for the Music Department include a large performance space available for ensemble rehearsals, performances and recitals; several studios for applied music instruction; and several soundproof practice rooms, each equipped with an upright piano, available for individual practice sessions. The Department also has two piano laboratories, plus a computer laboratory and audio production laboratory that are available for student tutorial work. The Department owns a number of less common and/or larger instruments, which are available for student use. Music classrooms are equipped with state-of-the-art sound systems. The Music Department maintains an extensive teaching library of recordings and music scores.

Performing Arts-Music (A.A.S.)– A two-year music concentration program that leads to the Associate in Applied Science (A.A.S.) degree is offered in Performing Arts. The curriculum also is transferable to four-year institutions and closely parallels the first two years of the Bachelor of Music Degree. The degree may also lead directly to performance and other careers in the music industry. For acceptance, incoming students are required to audition on their major instrument (or voice) and take a test in written music theory, aural musicianship, and keyboard skills.

A minimum grade of “C” is required in Music Major Classes.

Departmental Requirements for A.A.S. Degree in Performing Arts - Music:

1. Four semesters of college-level theory
2. Four semesters of college-level sight-singing
3. Four semesters of keyboard harmony
4. Four semesters of college-level applied music
5. Four semesters of ensemble (chorus, orchestra, band, or percussion ensemble)
6. One semester of music literature and one semester of music history
7. Additional requirements as described under Programs of Study
8. A minimum grade of “C” is required in Music Major Classes.

COURSES OFFERED:Nursing (NUR) (NURS)

MULTI - AWARD NURSING PROGRAM (A.S., B.S.N.) – The Nursing Department offers a dual degree curriculum, accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), leading to an Associate in Science Degree (A.S.) and accreditation by the Commission on Collegiate Nursing Education (CCNE) and awarding of the Bachelor in Science Nursing (B.S.N.) degree.

Upon completion of the fifth semester in the Multi-Award degree program, the student is eligible to take the National Council Licensure Examination – (NCLEX) to become a Registered Nurse. If successful, in semester six through eight, students will complete their nursing education and be awarded a Bachelor of Science degree in Nursing through SUNY Empire State College.

The goal of our program is to prepare pre-licensed RN students to practice safe and competent patient-centered nursing care in a variety of health settings, to optimize human health and wellness potential across the life span and be prepared for the rapidly changing health care system.

It is designed to empower students with knowledge and skills that are essential in meeting the health care needs of a diverse population within our community, and to inspire in the student a sense of integrity, commitment and competence.

Throughout the program, students' competencies will grow incrementally in the attainment and utilization of nursing knowledge, critical thinking, clinical reasoning, communication, managerial, leadership and technological skills essential to their role within the profession and the health care team.

The required Nursing A.S. courses are offered during the Fall and Spring Semesters:

- NUR 101 Fundamentals of Nursing
- NUR 105 Comprehensive Nursing Care I
- NUR 203 Comprehensive Nursing Care II
- NUR 204 Comprehensive Nursing Care III

All Nursing (NUR/NURS) courses must be taken in sequence and as advised by a Nursing advisor. Seats in evening nursing courses are limited. Please be aware that obtaining a seat in Nursing is highly competitive. It is dependent upon the number of applications, the number of available seats, and the applicant's ranking according to quality point average for the courses applicable to Nursing, as well as, the TEAS Test scores for the Math, English, Reading and Science sections of the exam. Ten (10) additional points will be given to Nassau County residents, and five (5) points are removed if the applicant was in another nursing program. Meeting the criteria does not guarantee a seat.

Departmental Requirements and Guidelines:

1. If the NCC placement examination indicates a need for remediation in English, mathematics, or reading, the remediation must be completed before entering the Nursing Program.
2. Students with a F1 Visa/Status, contact International Education at ISAOFF@ncc.edu
3. To be considered for the nursing program, all applicants are required to take the TEAS examination. A minimum score of 58.7% must be achieved in **EACH** of the following sections: Math, English, Reading, and Science.
4. Students must be of good character with acceptance to the Multi-Award Nursing program conditional pending a background check.
5. Nursing students are required to submit evidence of a physical examination, antibody titers, and inoculations prior to their first day of classes in NUR 101(Fundamentals of Nursing)and annually.
6. Nursing students must be able to independently complete a patient assessment through visualization, direct and indirect auscultation, detection of odors, palpation, and percussion.
7. Nursing students must be able to perform gross and fine motor movements and must possess the physical strength and stamina to provide safe nursing care.
8. Nursing students must be alert, able to think critically and problem solve, possess emotional stability and flexibility, and be able to communicate effectively in English.
9. Students are required to adhere to all college and departmental policies.
10. A minimum grade of 75 (C+) is required in each of the Nursing courses.
11. Nursing students must obtain the required uniform and equipment.
12. Nursing students are required to have their own transportation to clinical settings.
13. Nursing students must submit a copy of current certification of competency in cardiopulmonary resuscitation for the Health Care Provider (After February 16, 2016 the BLS Provider card from the American Heart Association is acceptable), prior to admission to NUR 101 (Fundamentals of Nursing) and must be kept current throughout the program.
14. Courses completed at other colleges and applicable to the Nursing Program, must be transferred in prior to admission. Science courses completed more than ten years prior to admission will not be accepted.
15. BIO 131 (Pathophysiology), AHS 131(Anatomy and Physiology I), AHS 132 (Anatomy and Physiology II), andAHS 202 (Medical Microbiology), must be completed with a grade of C or better in order to remain in the nursing program.AHS 131 (Anatomy and Physiology I) may have only been attempted twice within the past ten (10) years.

Advanced Standing in Nursing Courses:

The opportunity for advanced standing is available to LPNs by challengingNUR 101 (Fundamentals of Nursing). **BY ADVISEMENT ONLY**, the Advanced Standing students are required to take NUR100 and achieve a grade of c+ or better to be considered for a seat in the Nursing program. Seven credits are granted to the student for successfully completing the challenge of NUR 101 (Fundamentals of Nursing). Applicant must be a student at NCC to be consider for a seat in the nursing program. At least 33 credits, including those for Nursing, must be taken at Nassau Community College and 45 credits must be taken at ESC campus.

Information on the challenge process may be obtained at the nursing Information Sessions and on the Nursing website.

Change of Program/Transfer:

Students attending Nassau Community College can apply to the NCC-ESC Nursing program by means of a Change of Program through the Nursing Department. Requests for Change of Program to Nursing will be accepted in Feb/March (dates TBD) to be considered for the Fall semester and September/October (dates TBD) to be considered for Spring semester.

- There are no set courses or number of credits required to apply.
- Transfer students must apply directly to the Office of Admissions.
- Applicants will be ranked according to the 'Quality point average' for the courses applicable to the Nursing program (only grades of C or better will be considered).
- Students will not be considered for admission if they have attempted AHS 131 (Anatomy and Physiology I) more than twice (an attempt includes receiving a grade below a C, a "W", and a "UW" grade).
- Further information about the NCC-ESC Nursing Program can be obtained from Academic Advisement, Admissions, Nursing Information Sessions, and the Nursing Department Website.

 - NURS 4020 Baccalaureate Capstone: 90 clinical hours
4. Upper Division Electives:
 - NURS 3035 Interdisciplinary Perspectives in Global Health
 - NURS 3040 Foundations of Palliative Care

OFFICE: Nassau Hall, Room M-217, 516.572.7450

CHAIRPERSON: Francesco Pupa; Francesco.Pupa@ncc.edu

FACULTY: E. Deluty, A. Favia, S. Walden

COURSES OFFERED: Philosophy (PHI)

Philosophy means love of wisdom. A philosopher questions everything, seeking answers to serious questions: Does human life have meaning? What is the difference between right and wrong? How should we live our lives? Do we have free will? Does God exist? Can humans know what the physical world is really like? In doing this, the philosopher uses finely tuned arguments and tries to follow them wherever they lead. Philosophy is intrinsically interesting, enlightening, and enjoyable, but it is also an unsurpassed tool for sharpening students' reasoning skills. Moreover, philosophy courses are writing intensive, emphasizing the written expression of philosophical ideas. This is why pre-law and pre-medical students are often advised to study it, and many four-year colleges and universities require it of all students.

Office: Nassau Hall Room 11, 516.572.7506

Chairperson: Molly Ludmar, Molly.Ludmar@ncc.edu

Faculty: M. Afkhami-Ramirez, N. Forchelli, S. Ganson, K. Gilpen, M. Horemis, L. Joseph, V. Lagakis, C. Lewis, C. Muller, A. Orologio, D. Petronella, S. Ramprasad, G. Sales, L. Smith, J. Suh, R. Ungar, D. Watkins

Technical Assistants: D. Smith, J. Wong

The Student Personnel Services Department (SPS) is dedicated to providing professional support services aimed at maximizing the academic and personal success of all students at NCC. It offers equal access to counseling, resources, programs, and classroom instruction in order to enhance academic performance as well as individual, social and professional development.

Courses Offered:

- NCC 101 College Experience
- SPS 101 Career Orientation
- SPS 102 Career Exploration
- SPS 103 Academic Success
- SPS 111 Understanding Substance Use, Abuse and Addiction
- SPS 201 Perspectives on People with Disabilities
- SPS 202 Career Management

The SUNY Teacher Education Transfer Template (TETT) is a State University of New York System articulation project designed to facilitate transfer between participating SUNY Associate Degree-Granting Institutions (ADGIs) and those SUNY baccalaureate campuses with teacher education programs, consistent with the Chancellor's initiative, *A New Vision in Teacher Education*. The goal is both to eliminate course incompatibilities that can hinder student progress and to simplify advisement at all campuses involved in teacher education. The TETT project calls for a model AA or AS curriculum consisting of three components for students aspiring to earn bachelor degrees with recommendation for NYS teacher certification in Childhood or Early Childhood Education or in Adolescence Education:

- General Education Core: complete SUNY-GER plus an additional three credits of Foreign Language (33 credits);
- Major or Concentration: at present the TETT project web site covers coursework in seven majors/concentrations - Biology, Chemistry, Earth Science, English, History/Social Studies, Mathematics, Physics (12-18 credits); and
- Pedagogical Core: one Psychology course (Child or Adolescent) and Foundations of Education (6 credits).

When a SUNY ADGI student completes these three components within a particular sequence of coursework, s/he is assured that the represented coursework will transfer to one of the SUNY designated campuses offering baccalaureate teacher education programs. The TETT project is a SUNY System articulation initiative and therefore assures that a transferring student's coursework is accepted in whole if the student meets the criteria for admission to a parallel program at a participating SUNY baccalaureate campus. The TETT project does not guarantee admission to a particular teacher education baccalaureate program or institution. Information pertaining to the admission requirements for participating senior college programs is provided as part of the guidance on the TETT web site, <http://www.suny.edu/EducationTransfer>. Students are also advised to visit the web pages of teacher education campuses of interest, accessible from this site.

The six Teacher Education degree programs offered by Nassau Community College are detailed below. Students matriculated in any of these programs are reminded that specific courses should be selected in close consultation with an advisor and based on the requirements of the students target baccalaureate institution.

For further information, contact the Teacher Education Coordinator, Professor Diane Martin at 516.572.7458.

Programs of Study

Early Childhood Education A.A. – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Early Childhood Education, Teacher Education Transfer (Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels Birth through Second Grade (Birth-2).

This course of study provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major/concentrate in English, History or Special Education.

Early Childhood Education A.S. – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Early Childhood Education, Teacher Education Transfer (Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels Birth through Second Grade (Birth-2).

This course of study provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major/concentrate in General Science, Mathematics or Special Education.

Childhood Education (A.A.) – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Childhood Education, Teacher Education Transfer (Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels First through Sixth Grade (1-6).

This course of study provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major/concentrate in English, History or Special Education.

Childhood Education (A.S.) – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Childhood Education, Teacher Education Transfer (Te Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels First through Sixth Grade (1-6).

This course of study provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major/concentrate in General Science, Mathematics or Special Education.

Adolescence Education (A.A.) – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Adolescence Education, Teacher Education Transfer (The Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels Seventh through Twelfth Grade (7-12).

This course of study provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major in English, Social Studies, or Special Education.

Adolescence Education (A.S.) – This program is designed to support and encourage progress toward a baccalaureate degree and NYS teacher certification for students interested in pursuing teaching as a career. Adolescence Education, Teacher Education Transfer (Liberal Arts and Sciences) degree is specifically for students interested in teaching grade levels Seventh through Twelfth Grade (7-12).

This course of study also provides students with a balance of coursework between completing Education classes, General Education requirements, and pursuing courses within the students' selected academic major. Students can major/concentrate in Biology, Chemistry, Earth Science, Mathematics, Physics or Special Education.

Teaching Assistant Certificate – This program is designed to meet the training levels for New York State Teaching Assistant Licensure and Certification. The Teaching Assistant Certificate provides an opportunity for individuals interested in education to begin their higher education in a gradual and supportive manner. Teaching Assistants provide direct instructional services to students under the supervision of a licensed teacher. All courses are applicable to the Teacher Education Transfer Associate degrees and provide a smooth transition to baccalaureate level education programs.

Gainful Employment Disclosure Information

1. Depending on placement

OFFICE: Theatre Building, 516.572.7508

CHAIRPERSON: Richard D. Ginsburg, richard.ginsburg@ncc.edu

FACULTY: R. Ginsburg, P. Teng

COURSES OFFERED: Dance (DAN), Theatre (THR)

The Department of Theatre and Dance at Nassau Community College provides enriched curricula for students enrolled in each of its discrete Associate in Arts degree programs: Acting, Dance and Technical Theatre.

The Department is committed to academic excellence. The undergraduate courses of study prepare students for transfer to four-year Baccalaureate or conservatory programs, along with a low student-to-faculty ratio provides for more personal attention in the classroom. Students have the opportunity to gain expertise in the fundamental areas of Theatre and Dance through an integrated program of study in a liberal arts context.

For students not majoring in Theatre or Dance, courses offered by the Department of Theatre and Dance may be used as Humanities or General Elective Credit. Specific courses serve as NCC and/or SUNY General Education Requirements. DAN 126 (Introduction to Modern Dance) may be used as a Physical Education activity elective. Students who wish to pursue the study of Acting, Dance, or Technical Theatre at the baccalaureate level should see departmental advisors.

The Department of Theatre and Dance offers discrete Associate in Arts degree programs in Acting, Dance, and Theatre.

A.A. Acting: In addition to Liberal Arts requirements, Acting degree students must successfully complete the Acting sequence: Acting I-IV, Theatre History I-II, Movement for the Actor I-II, Movement for Musical Theatre, Voice for Stage, a four-course sequence in Production & Performance, and ENG 252 Shakespeare on Stage and Page).

A.A. Dance: In addition to Liberal Arts requirements, Dance degree students must successfully complete the Dance sequence: Dance History, Dance Technique I-IV (Modern Dance/Ballet), Dance Concepts I-II (Choreography), a Modern Dance sequence consisting of Introduction to Modern Dance, and Modern Dance I-II, and a four-course sequence in Rehearsal & Performance.

A.A. Technical Theatre: In addition to Liberal Arts requirements, Technical Theatre degree students must successfully complete the Technical Theatre sequence: Theatre History I-II, Stagecraft, Technical Production, Lighting Fundamentals and Design Fundamentals, and a four-course sequence in Production & Performance.

Production Program: The Theatre/Dance Department's extensive open-to-the-public Production Program includes a Major Musical, a Children's Musical, a Dance Concert, a joint production with the Africana Studies Department, and numerous other plays. Auditions for these productions are open to all students enrolled in a minimum of six credits at the College. The Production Program serves as a closely supervised laboratory for the Department's Acting, Dance, and Technical Theatre academic courses, and as an effective mechanism for taking education beyond the walls of the classroom.

Acting (A.A.)—In addition to Liberal Arts requirements, Acting degree students must successfully complete the Acting sequence: Acting I-IV, Theatre History I-II, Movement for the Actor I-II, Movement for Musical Theatre, Voice for Stage, a four-course sequence in Production & Performance, and ENG 300 (Shakespeare on Stage and Page).

SPA 205 - SPA 206	Intermediate level for native, heritage, bilingual speakers of

Administrative Business Tech

ABT

ABT 100 - Fundamentals of Keyboarding

Description: Introductory keyboarding course using Microsoft Word. Emphasis is placed on learning the keyboard reaches and developing speed and accuracy. Instruction will include the formatting and keying of letters, memorandums, and reports. The following features will be presented: enhancing text, placing and aligning text, using writing tools, managing files, and printing documents. In addition, timed writings will be given to improve speed and accuracy development. Formerly OFT 100. Students who have completed OFT 100 will not receive credit for ABT 100. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

ABT 102 - College Keyboarding

Prerequisites: ABT 100 or permission of the Chairperson.

Description: Fundamentals of skill building using Microsoft Word. Application of basic skills in the production of letters, envelopes, memos, outlines, reports, agendas, minutes, resumes, and tables. Emphasis is placed on the following features: processing text, formatting characters, placing and aligning text, using writing tools, managing files, and printing documents. In addition, timed writings will be given to improve speed and accuracy development. Formerly OFT 102. Students who have completed OFT 102 will not receive credit for ABT 102. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 105 - Administrative Business Technology Workshop

Prerequisites: ABT 109 or permission of the Chair.

Description: A course to consolidate and reaffirm previously acquired office skills, to prepare business documents, and to acquaint the students with a wide range of office activities and procedures. Formerly OFT 105. Students who have completed OFT 105 will

not receive credit for ABT 105. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring (even years)

Credit Hours: 3

Department: Administrative Business Tech

ABT 107 - Machine Transcription

Description: This course is designed to develop competency in transcribing letters, memoranda, and other types of written communications using transcription equipment. Language arts skills are reinforced. Formerly OFT 107. Students who have completed OFT 107 will not receive credit for ABT 107. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall (even years), Spring (odd years)

Credit Hours: 3

Department: Administrative Business Tech

ABT 109 - Word Processing Applications I

Prerequisites: ABT 102 or permission of the Chairperson.

Description: Development of word processing and office automation skills using Microsoft Word. Emphasis is placed on the following features: paragraph formatting, page numbering, footnotes/endnotes, headers/footers, styles and templates, find and replace, outline, columns, tables, and draw. In addition, timed writings will be given to improve speed and accuracy development. Formerly OFT 109. Students who have completed OFT 109 will not receive credit for ABT 109. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 110 - Integrated Software I

Prerequisites: ABT 109 or permission of the Chairperson.

Description: This course continues the development of word processing and office automation skills using Microsoft Office. Students will prepare a wide variety of business documents. Emphasis is placed on the following features of Word: borders, columns, customizing default settings, forms, graphics, macros, merge, outline, advanced replace features, shading, special characters, styles, tables, templates, and watermarks. Students will also prepare basic spreadsheets to incorporate into routine business documents. In addition, timed writings will be given to improve speed and accuracy development. Formerly OFT 110.

Students who have completed OFT 110 will not receive credit for ABT 110 (2 lecture, 2 laboratory hours) laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 113 - Word Processing Basics

Description: This course introduces students to the basics of word processing using state-of-the-art software. Students will receive instruction in creating, editing, and formatting letters, reports, and a variety of other documents. This course is nontransferable. Formerly OFT 113. Students who have completed OFT 113 will not receive credit for ABT 113.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 1

Department: Administrative Business Tech

ABT 114 - Presentation Software Basics

Description: This course introduces students to the basics of presentation software using state-of-the-art software. Students receive instruction in inputting, editing, and formatting presentations. This course is non-transferable. Formerly OFT 114. Students who have completed OFT 114 will not receive credit for ABT 114.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 1

Department: Administrative Business Tech

ABT 115 - Spreadsheet Basics

Description: This course introduces students to the basics of spreadsheets using state-of-the-art software. Students will receive instruction in retrieving data, editing, and formatting spreadsheets to be incorporated into a variety of documents. This course is non-transferable. Formerly OFT 115. Students who have completed OFT 115 will not receive credit for ABT 115. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 1

Department: Administrative Business Tech

ABT 116 - Database Basics

Description: This course introduces students to the basics of databases using state-of-the-art software. Students will receive instruction in retrieving data, editing, and formatting databases to be incorporated into a variety of documents. This course is non-transferable. Formerly OFT 116. Students who have

completed OFT 116 will not receive credit for ABT 116.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 1

Department: Administrative Business Tech

ABT 119 - Integrated Software II

Prerequisites: ABT 110 or permission of the Chairperson.

Description: Using Microsoft Office, this course integrates word processing, spreadsheets, databases, and presentation applications. Through office-support simulation projects, students will share information between applications by copying, linking, and embedding data from a source application into a destination application. Formerly OFT 119. Students who have completed OFT 119 will not receive credit for ABT 119. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 120 - Desktop Publishing

Description: This course introduces the application of desktop publishing and computer graphics. Students design, edit, and produce high quality documents using Adobe InDesign Software Formerly OFT 120. Students who have completed OFT 120 will not receive credit for ABT 120. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 127 - Legal Office Procedures I

Description: Introduction to litigation documents: procedures for preparing summonses, complaints, answers, counterclaims, affidavits, bills of particulars, replies, verifications, and judgments. Discussion of New York State and Federal court systems. Formerly OFT 127. Students who have completed OFT 127 will not receive credit for ABT 127. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring (even years)

Credit Hours: 3

Department: Administrative Business Tech

ABT 128 - Legal Office Procedures II

Description: Introduction to the procedure for preparing non-litigation documents, including contracts, powers of attorney, wills, and real

estate papers. Discussion of probate, appeals, and motion practice. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall (odd years), Spring (odd years)

Credit Hours: 3

Department: Administrative Business Tech

ABT 129 - Medical Malpractice Office Procedures

Description: This course introduces students to the field of medical malpractice. Students will receive instruction on professional responsibility and ethics and the types of personal injury, worker's compensation, and general liability cases. Emphasis will be placed on preparing medical malpractice correspondence and other written documentation such as subpoenas, responses, answers, chronological summaries, depositions, and other discovery and investigative documents.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 152 - Medical Transcription

Prerequisites: ABT 244 or permission of Chairperson.

Description: Transcription from medical dictation tapes which include letters; chart notes; histories and physicals; discharge summaries; and operative, radiology, and pathology reports. Emphasis is on comprehension of medical terminology, language arts, correct formatting, and proofreading. Formerly OFT 152. Students who have completed OFT 152 will not receive credit for ABT 152. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 153 - Medical Coding

Prerequisites: HIT 151 or permission of the Chairperson.

Corequisites: HIT 151 or permission of the Chairperson.

Description: Introduction to current medical coding and billing procedures. Students will develop an understanding of both the ICD-9-CM and CPT-4 coding systems and will be introduced to the terminology and procedures for preparing insurance claim forms. Students will apply theory through computer specific reinforcement exercises and activities. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Please contact Department for course offering

Credit Hours: 3

Department: Administrative Business Tech

ABT 205 - Administrative Business Technology Internship

Prerequisites: ABT 105 and ABT 110 or ABT 254 or permission of the Chairperson.

Description: This course provides students with supervised internship experience in legal, medical, or general offices giving students the opportunity to apply their classroom skills in their chosen field of study. Weekly coursework and discussion postings are assigned to reinforce internship experience. Formerly OFT 205. Students who received credit for OFT 205 will not receive credit for ABT 205.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring (odd years)

Credit Hours: 3

Department: Administrative Business Tech

ABT 225 - Legal Workshop

Prerequisites: ABT 127 or permission of the Chairperson.

Corequisites: ABT 127 or permission of the Chairperson.

Description: Legal office procedures, case management, and the litigation process. Application assignments cover the job search, filing records, preparing the court calendar, and transcribing legal letters and documents. Practice sets are assigned to reinforce and enrich litigation procedures. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

ABT 226 - Legal Work/Study

Prerequisites: ABT 225 or permission of the Chairperson.

Corequisites: ABT 225.

Description: Supervised work experience in cooperation with the District Attorney's office and private law firms in Nassau County and New York City. Students are introduced to legal office procedures through observation, study, and work. Weekly seminars reinforce work experience.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

ABT 230 - Web Page Formatting

Description: This course allows students to create, edit, manage, and maintain websites using Adobe Dreamweaver. Dreamweaver is one of the most popular webpage/website

creation & management tools on the market. This course is open to all NCC students. No prerequisite. Formerly OFT 230. Students who have completed OFT 230 will not receive credit for ABT 230.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 235 - E-Commerce for Office Professionals

Description: A comprehensive introduction to electronic commerce and the Internet taken from an office worker's perspective. This course is designed to help office professionals develop the necessary skills to use the Internet effectively and to provide students with an overview of the field of electronic business and information processing. This course features hands-on exercises for students who want to know how information technologies are tied together to improve business productivity. This course is open to all NCC. No prerequisite. (Also offered online) Formerly OFT 235. Students who have completed OFT 235 will not receive credit for ABT 235.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 244 - Business Writing

Prerequisites: ENG 100 or ENG 101.

Description: An introduction to the principles of writing business correspondence. Emphasis on composing and editing business documents, including letters, memos, e-mail messages, and reports. Language arts skills are reinforced. (3 lecture, 2 laboratory hours) Laboratory fee applies. (Also offered online).

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Administrative Business Tech

ABT 245 - Administrative Management

Description: The study of managerial functions and theory. Special attention is given to issues facing office managers including the analysis of technology, office design implementation, personnel practices and concerns, and overall management of people, procedures, and equipment. Formerly OFT 245. Students who have completed OFT 245 will not receive credit for ABT 245. (Also offered online).

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 254 - Medical Workshop

Description: Front office and administrative procedures for the medical office: reports, filing, telephone techniques, human relations, and office management. Patient information, procedure and diagnostic codes, claim centers and service facilities, and billing information are presented using Medical Manager software. Formerly OFT 254. Students who have completed OFT 254 will not receive credit for ABT 254. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

ABT 255 - Medical Work/Study

Prerequisites: ABT 254 or permission of the Chairperson.

Description: Supervised work experience in cooperation with selected hospitals, doctors, offices, and research institutions. Students are introduced to medical procedures through observation, study, and work. Weekly seminars reinforce work experience.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Administrative Business Tech

Accounting

ACC

ACC 101 - Accounting I

Prerequisites: A student with two or more remedial requirements cannot take this course.

Description: This course is an introduction to financial statements, analysis of the statements, and accounting concepts for business entities. Other topics include cash, receivables, inventory, non-current assets, and current liabilities. Formerly BUS 101. Students who have completed BUS 101 will not receive credit for ACC 101.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

ACC 102 - Accounting II

Offered: Fall

Credit Hours: 1

Department: Africana Studies

AFR 151 - African American Choral Ensemble

Description: (Dual listed with MUS 130)

This is the second course in the AFR 150 - AFR 151 sequence. Participation in the production, rehearsal and performance of the African American Choral Ensemble performances. (3 hours)

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 1

Department: Africana Studies

AFR 152 - Perspective on Jazz

Description: (Dual listed with MUS 207)

This course is designed to explore the inception and evolution of jazz, its styles and influence on other musical types. Included is the heritage of the African American: i.e., spirituals, work songs, blues, with emphasis on characteristics of African music.

SUNY GE- SART, SDES, SHUM; SUNY GEN ED-GART, GHUM; NCC GEN ED-PLDI, HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Africana Studies

AFR 153 - African American Choral Ensemble

Description: (Dual listed with MUS 229)

Participation in the production, rehearsal and performance of the African American Choral Ensemble productions. (3 hours)

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 1

Department: Africana Studies

AFR 154 - African American Choral Ensemble

Description: (Dual listed with MUS 229 - MUS 230)

Participation in the production, rehearsal and performance of the African American Choral Ensemble productions. (3 hours)

SUNY GE- SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 1

Department: Africana Studies

AFR 155 - African American Music

Description: (Dual listed with MUS 205)

In addition to an evaluation of the basic musical materials of African American music and its effects on other music forms, an historical/philosophical/political analysis and survey are also included.

SUNY GE-SART, SDES, SHUM; SUNY GEN ED-GART, GHUM; NCC GEN ED-HUM, PLDI, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Africana Studies

AFR 170 - Black Social Philosophy

Prerequisites: Students must have satisfied all ENG and RDG remediation requirements prior to starting the course. (

Description: Dual listed with PHI 108)

An examination of the social philosophy of thinkers such as Du Bois, Garvey, King and Fanon. Particular attention is paid to oppression and the struggle for self-identity.

The ideals of freedom, equality, justice and community are carefully considered. SUNY GE- SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Africana Studies

AFR 185 - African American Culture

Description: (Dual listed with SOC 214)

A comprehensive survey of the various aspects of the lives, life-styles, values, art forms and social impacts of the African American. The course includes the varying lifestyles at different socioeconomic levels; speech patterns; the role of the church as a religious, historical, political and recreational institution; African American cultural patterns; and the influence of Africa.

SUNY GE-SART; SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Africana Studies

AFR 186 - The African American Family

Prerequisites: SOC 201 or ANT 203, or permission of instructor.

Description: (Dual listed with SOC 219)

Sociological approaches to the African American family. Topics include interactions with public and social institutions, male/female relationships, state of the extended family, identity as a socialization agent, courtship, sex patterns and roles, health and economic issues, alternative life styles, the Black male as an "endangered species," and the effects of public policy on the Black family.

SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS

Offered: Fall, Spring

Credit Hours: 3

Department: Africana Studies

AFR 190 - Introduction to Black Theatre in America

Description: (Dual listed with THR 102)

An introduction to the literature and artists of the contemporary African American theatre. The course includes representative playwrights, actors and technicians as speakers in the class and field trips to theatre productions. Students have the opportunity to work in at least one production per semester, selected from contemporary African American drama which may, whenever possible, be performed in the community.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Africana Studies

AFR 191 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with THR 117)

Participation in the production, rehearsal and performance of the African American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Africana Studies

AFR 192 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with THR 118)

Participation in the production, rehearsal and performance of the African American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Africana Studies

AFR 193 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with THR 217)

Participation in the production, rehearsal and performance of the African American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Africana Studies

AFR 194 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with THR 218)

Participation in the production, rehearsal and performance of the African American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Africana Studies

AFR 197 - Communications in Black America

Prerequisites: Students must have satisfied all ENG and RDG remediation requirements prior to starting the course.

Description: (Dual listed with COM 130)

A study of how oral communication functions in various relationships. Emphasis on discussion, group exercises, role playing. The role of oral communication in the Black experience.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Africana Studies

AFR 200 - History of the Black Woman

Prerequisites: Completion of RDG 001

Description: (Dual listed with HIS 178)

A historical examination of the image, role and treatment of the Black Woman in America from the Age of Slavery to the advent of the feminist movement and the contemporary scene. Emphasis centers on the burdens of racism, sexism, single-parent motherhood, welfare, Black female and male relationships, sterilization, the Black family and the issues of Black Women's liberation, women's lib and the ERA amendment.

SUNY GE-SDES, SUSC; SUNY GEN ED-GAMH, GSBS; NCC GEN ED-SBS, WESH, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Africana Studies

AFR 201 - History of the Black Woman in America II

Prerequisites: HIS 178 or AFR 200 or permission of instructor, completion of RDG 001 and/or RDG 002.

Description: A historical continuation of the History of the Black Woman, from 1900 to the Post World War II Era, the decade of the 1990's and the contemporary scene.

Emphasis centers on her problems, roles and experiences in America, her changing role in the workplace, church, professions and society and the current Black Feminist Thought in the New Black Feminist Movement.

SUNY GEN ED-GAMH, GSBS; NCC GEN ED-SBS, WESH, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: Africana Studies

AFR 203 - The Afro-Caribbean World

Description: (Dual listed with HIS 221)

A historical presentation of the African experience in the Caribbean nations of Cuba, Bahamas, Haiti, Dominican Republic, Jamaica, Puerto Rico, and the nations of the Lesser Antilles, Trinidad and Tobago. Emphasis centers on the impact and effects of African slavery in the Caribbean, African contributions to the region, its cultural roots in Caribbean society, and the contemporary problems in the Caribbean today.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GOWC, GSBS; NCC GEN ED-GLNW, WESH, PLDI, SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Africana Studies

AFR 295 - Independent Study-Africa

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly AFR 699. Students who have completed AFR 699 will not receive credit for AFR 295.

Credit Hours: 3

Department: Africana Studies

Allied Health Sciences

AHS

AHS 100 - CPR and Basic Cardiac Life Support

Description: (Dual listed with HED 290) This course is designed to teach Cardiopulmonary Resuscitation (CPR) and Basic Life Support to individuals entering the various service professions (police, fire), health professionals and professionals who are activity-oriented (recreation, lifeguard), etc. Basic procedures are covered in full. Successful completion of the course meets all requirements for the American Red Cross and Heart Association "course completion card." It cannot be used to fulfill Physical Education requirement for graduation.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Allied Health Sciences

AHS 101 - Introduction to Allied Health Science

Description: An introductory course designed to provide the student with basic knowledge and skills common to a variety of Allied Health Sciences. Medical terminology; the hospital: organization, specialized services and personnel; the nature, cause, diagnosis and treatment of disease; medical-legal considerations; aseptic principles and emergency care.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Allied Health Sciences

AHS 102 - Introduction to Physical Therapy

Description: An introductory course designed for students who are planning to become physical therapists. Topics include: the training and role of health care workers in physical therapy, an introduction to physical therapy techniques, and ethical and medical-legal aspect of practice.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Allied Health Sciences

AHS 103 - Fundamentals of Pharmacology

Description: The action and usage of commonly used drugs and solutions and the methods by which they are administered. In addition, a general orientation to the mathematics involved in the computation of drug dosages and solution composition.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 104 - Fundamentals of Pharmacology and Therapeutics for Respiratory Care

Prerequisites: AHS 101, AHS 111, AHS 116, AHS 131, and CHE 131.

Description: An introduction to general principles of pharmacology, with an emphasis on agents used in the treatment of diseases of the cardio-respiratory systems. Also treated are principles of patient assessment, aerosol medication delivery systems, hyperinflation therapy, and associated equipment and techniques.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 105 - Integrated Basic Science

Description: An integrated science course focusing on application of scientific principles in paramedical areas. Topics of study include fundamentals of chemistry, anatomy and physiology, and microbiology as they pertain to the clinical field.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 111 - Respiratory Care I Lecture

Corequisites: AHS 116

Description: An examination of cardiopulmonary anatomy from the perspective of the respiratory therapist. The course begins with an overview of the chemical basis of structure, then concentrates on the structure and function of the cardiopulmonary system. Topics of study include cellular structure of the lung, structure of the conducting and respiratory areas of the lung, and functional anatomy of the cardiovascular system. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 112 - Respiratory Care II Lecture

Prerequisites: AHS 101, AHS 111, AHS 131, AHS 116 and CHE 131

Corequisites: AHS 104, AHS 117

Description: An examination of the physiology of the cardiopulmonary system from the perspective of the respiratory therapist. Although the course concentrates primarily on the function of the pulmonary system, detailed attention is also given to the functional relationship between the cardiac and pulmonary systems. Topics of study include oxygen and carbon dioxide transport, blood acid-base balance, cellular respiration, pulmonary and systemic circulation, and functional changes to the cardiopulmonary systems caused by other organ systems. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 113 - Respiratory Care III Lecture

Prerequisites: AHS 212

Corequisites: AHS 314 and AHS 413

Description: A study of pulmonary pathology from the perspective of the respiratory therapist. The course covers diseases of the pulmonary system concentrating on such topics as restrictive and obstructive diseases. The student learns disease etiology, epidemiology, physiologic abnormalities, clinical features, and the treatment of each disease. The course includes an introduction to problem-based learning and critical diagnostic thinking in respiratory care. Examples of diseases covered include emphysema, asthma, pneumonia, bronchitis, and pulmonary edema. (2 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 2

Department: Allied Health Sciences

AHS 114 - Respiratory Care IV Lecture

Prerequisites: AHS 113, AHS 314, AHS 413.

Corequisites: AHS 214 and AHS 414

Description: A study of cardiovascular pathology and pathology of related organ systems from the perspective of the respiratory therapist. The course covers diseases of the cardiovascular system but also includes diseases of other related organ systems such as the digestive, nervous, intestinal, endocrine, and renal systems. The student learns disease etiology, epidemiology, physiologic

abnormalities, clinical features, and the treatment of each disease. The course builds upon the concepts of problem-based learning and critical diagnostic thinking in respiratory care. Examples of diseases covered include stroke, encephalopathy, trauma, carcinoma, heart diseases, liver diseases, diabetes, HIV/AIDS, and renal diseases. (2 lecture hours) SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 2

Department: Allied Health Sciences

AHS 116 - Respiratory Care I Lab

Prerequisites: MAT as advised.

Corequisites: AHS 101, AHS 111, AHS 131 and CHE 131.

Description: Introduction to the profession of respiratory care. History and development of respiratory care. Scientific measurement, physics and chemistry as pertinent to respiratory mechanics and physiology. The use of medical gases, aerosols, and instrumentation as preparation for an understanding and implementation of therapy rationale.

Laboratory practice with respiratory care apparatus. This course includes introductory clinical exposure at local affiliating hospitals. Formerly AHS 311. Students who have completed AHS 311 will not receive credit for AHS 116. (8 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 117 - Respiratory Care II Lab

Prerequisites: AHS 101, AHS 111, AHS 116, AHS 131

Corequisites: AHS 104, AHS 112, AHS 132

Description: Introduction to mechanical ventilator therapy. Comprehensive study of all aspects of modern mechanical ventilation including terminology, classification, modes of operation, physiologic effects, clinical implementation, monitoring and troubleshooting of modern critical care devices with a focus on invasive ventilation. Laboratory practice emphasizing the set up and operation of current examples of adult mechanical ventilators. Formerly AHS 312. Students who have completed AHS 312 will not receive credit for AHS 117. (9 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 118 - Respiratory Care III Lab

Prerequisites: AHS 104, AHS 112, AHS 117, AHS 132

Description: Continuation of the study of modern mechanical ventilation with a focus on advanced ventilator techniques and interpretation of arterial blood gas results; introduction to diagnostic pulmonary function testing. Laboratory practice emphasizing the set up and operation of advanced ventilator systems as well as pulmonary function measuring instruments. Formerly AHS 313. Students who have completed AHS 313 will not receive credit for AHS 118. (16 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 2

Department: Allied Health Sciences

AHS 119 - Respiratory Care Summer Clinical

Prerequisites: AHS 118

Description: Comprehensive clinical practicum at an affiliating hospital. The student will practice clinically the procedures learned during AHS 116, AHS 117, AHS 118, and AHS 104. (40 clinical hours per week for 5 weeks). Registration is limited to students enrolled in the Respiratory Therapy program. Formerly AHS 212. Students who have completed AHS 212 will not receive credit for AHS 119. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 2

Department: Allied Health Sciences

AHS 121 - Surgical Technology I

Description: Orientation to hospital organization, administration, and physical structure, with concentration on surgical areas. Interpersonal relationships, stressing patient welfare and the "surgical team" concept. Introduction to medical terminology and microbiology. Emphasis on development of knowledge and skills relating to principles and practices of sterilization, aseptic techniques, surgical instruments and supplies, pneumatic and electrical equipment; electrosurgical, cryosurgical, and laser techniques. Selected laboratory and clinical experience. (4 lecture, 3 laboratory hours) Laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 5

Department: Allied Health Sciences

AHS 122 - Surgical Technology II

Prerequisites: AHS 121

Description: Development of knowledge and skills required of a "scrub" assistant,

knowledge and understanding of "circulating" duties, procedures of patient preparation, basic operative procedure, reporting and recording operative data, radiological and endoscopic procedures; principles of anesthesia and related safety measures; techniques of catheterization and plaster application. Selected laboratory and clinical experience in the hospital setting includes exposure to the Endoscopy Unit and Central Supply. (4 lecture, 3 laboratory hours, 4 practicum hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 6

Department: Allied Health Sciences

AHS 123 - Surgical Technology III

Prerequisites: AHS 122

Description: Orientation to specific surgical specialties including hernia surgery, surgery of the gastrointestinal tract, surgery of the gall bladder, pancreas, liver and spleen and gynecologic and obstetric surgery, with related surgical anatomy pathophysiology and specialty instrumentation. Relevant ethical and legal considerations. Selected clinical experience in the hospital setting includes exposure to PACU and Ambulatory Surgery Centers as well as correlated participation as scrub assistant and assisting with circulating duties under supervision. (4 lecture, 12 practicum hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 8

Department: Allied Health Sciences

AHS 124 - Surgical Technology IV

Prerequisites: AHS 123

Description: General orientation to specific surgical specialties including genitourinary, plastic, head and neck, orthopedic, otologic, ophthalmic, neurologic, thoracic, peripheral vascular and cardiovascular surgery, with related surgical anatomy, pathophysiology and special instrumentation. Relevant ethical and legal considerations. Selected clinical experience in the hospital setting includes exposure to the Ambulatory Surgery Center and the Delivery Room as well as correlated participation as scrub assistant, and assisting with circulating duties under supervision. (4 lecture, 12 practicum hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 8

Department: Allied Health Sciences

AHS 131 - Anatomy and Physiology I

Prerequisites: Students must have satisfied all MAT, ENG, and RDG remediation prior to starting the course.

Description: The study of cell structure and function, tissue, skeleton, muscular system, nervous system, and special senses. Required of all students in Physical Therapist Assisting, Surgical Technology, Medical Laboratory Technology, Respiratory Care, Nursing, Radiologic Technology and Radiation Therapy. (3 lecture, 3 laboratory hours) Laboratory fee applies.
SUNY GE- SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Allied Health Sciences

AHS 132 - Anatomy and Physiology II

Prerequisites: A minimum grade of C in AHS 131

Description: The study of blood, lymph, reticuloendothelial, cardiovascular, respiratory, digestive, urogenital, and endocrine systems. (Continuation of AHS 131 and required of the same students.) (3 lecture, 3 laboratory hours) Laboratory fee applies.
SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Allied Health Sciences

AHS 133 - Radiation Biology

Prerequisites: AHS 131, AHS 132

Description: Cell structure and function. Biological effects of radiation on normal and abnormal cells. Differential sensitivity of tissues; acute and late reactions. Clinical application and use of radiosensitizers, chemotherapeutic agents, combined therapies, and hyperthermia.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 134 - Applied Radiation Physics I

Prerequisites: AHS 168, AHS 265

Description: Corequisites: AHS 133, AHS 266, AHS 267

Physical specifications of various treatment units. Beam characteristics, half value layers, radioactive decay. Radiation units of measurement, radioactive half life, and application of radionuclides.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 135 - Applied Radiation Physics II

Prerequisites: AHS 134

Description: Interaction of ionizing radiation with matter. Dose calculations, multiple field techniques and therapeutic use of particulate radiation. Emphasis on principles of treatment planning, comparison of manual and computer treatment plans, fixed field and moving beam techniques.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 147 - Survey of Anatomy & Physiology

Description: This one-semester course presents basic introductory information on Human Anatomy and Physiology. An overview of structures and functions of the systems of the human body will be discussed along with the scientific method. This course is for students who are interested in pursuing a degree in the wide range of medical sciences. This course is recommended as preparation for Human Anatomy and Physiology I, Human Anatomy and Physiology II, and medical entrance exams.

SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Allied Health Sciences

AHS 151 - Physical Therapist Assistant I

Corequisites: AHS 234

Description: Majors only co-requisite AHS 234. The first of eight sequential courses in the Physical Therapist Assistant Program. The lecture includes an introduction to physical therapy across the lifespan, Scope of Physical Therapist Assistant practice and integration within the rehabilitation team, pathological conditions. The laboratory includes vital signs, body mechanics, transfers, gait training and activities of daily living (3 lecture, 3 laboratory, 3 practice laboratory hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Allied Health Sciences

AHS 152 - Physical Therapist Assistant II

Prerequisites: AHS 151, AHS 234.

Description: The lecture includes orthopedic and neurological conditions requiring physical therapy. The laboratory is an introduction to exercise including passive, active assistive,

active resistive and progressive resistive range of motion, stretching, goniometry, and exercise equipment. Clinical application of skills occurs in a local facility. (6 lecture hours, 3 laboratory hours, 3 practice laboratory, 3 clinic hours.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 7

Department: Allied Health Sciences

AHS 153 - Physical Therapist Assistant III

Prerequisites: AHS 154

Corequisites: AHS 155

Description: This course includes the physiological basis and application of physical therapy modalities of heat, cold, light, water, mechanics and massage. Physical therapy treatments for patients with cardio-respiratory and integumentary impairments are included. (3 lecture, 3 laboratory, 3 practice laboratory hours.) Laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 154 - Physical Therapist Assistant IV

Prerequisites: AHS 152

Description: The lecture includes principles and uses of medical physics, modalities of electricity along with physiological principles, indications, contraindications and precautions. The laboratory consists of the proficient application of these modalities used to alleviate pain, swelling and weakness. (8 lecture, 4 laboratory, 4 practice laboratory hours.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Allied Health Sciences

AHS 155 - Physical Therapist Assistant V

Prerequisites: AHS 154

Corequisites: AHS 153

Description: The lecture includes current issues and practices in physical therapy. The laboratory involves regionally designed exercises and advanced therapeutic exercise techniques for a variety of patients. One day per week is spent in the clinic. (3 lecture, 3 laboratory, 3 practice laboratory, 8 clinic hours.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Allied Health Sciences

AHS 156 - Physical Therapist Assistant VI

Prerequisites: AHS 155

Description: Topics include physical treatment for pediatrics, the neurologically impaired adult and patients with amputations. (8 lecture, 6 laboratory, 6 practice laboratory hours.) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Allied Health Sciences

AHS 157 - Clinical Affiliation I

Prerequisites: AHS 156 with concurrency

Description: Full-time clinical practice as a physical therapist assistant student in physical therapy settings is required including: sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care, athletic teams and other health service agencies. (40 hours per week/6 weeks.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 158 - Clinical Affiliation II

Prerequisites: AHS 156 with concurrency.

Description: Full-time clinical practice as a physical therapist assistant student in two separate physical therapy settings is required including: sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care, athletic teams and other health service agencies. (Summer only/40 hours per week/6 weeks.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 168 - Introduction to Treatment Planning

Prerequisites: AHS 261

Description: Fundamental principles of treatment planning, dosimetry and calculations. Concepts of radiation protection including ALARA are discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 180 - Treatment Technique

Description: Specific techniques for delivering care to radiation therapy patients, including shielding and immobilizing devices. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall (first 5 weeks)

Credit Hours: 1

Department: Allied Health Sciences

AHS 181 - Radiology and Topographic Anatomy

Prerequisites: AHS 180

Corequisites: AHS 261

Description: Identification of structures on radiographs as related to Topographical landmarks used in determining treatment ports in Radiation Therapy.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall (second 5 weeks)

Credit Hours: 1

Department: Allied Health Sciences

AHS 182 - Quality Assurance

Description: Quality assurance as it applies to Radiation Therapy. Chart maintenance, identification of machine malfunction, and image quality will be discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall (third 5 weeks)

Credit Hours: 1

Department: Allied Health Sciences

AHS 201 - Clinical Hematology

Corequisites: AHS 131 and CHE 131 or CHE 151.

Description: The study encompasses both normal and abnormal morphology and physiology of those cells and structures normally found in human blood. Relationships are drawn from hematologic manifestations occurring from other than pure hematological diseases and clinical findings are accentuated, being mutually or reciprocally related to true hematological disorders. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Allied Health Sciences

AHS 202 - Medical Microbiology

Prerequisites: Students must have a minimum grade of C in AHS 132, Anatomy and Physiology 2, in order to register for AHS 202.

Description: The student is given a medical view of microorganisms: their morphology and physiology. Pathogenic microorganisms, including etiology and pathology, are examined in detail as applicable to the hospital environment. The study of aseptic

and antiseptic techniques involving patients, equipment and clinical areas enumerated. Practicum in obtaining pure cultures and identifying these cultures included. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Allied Health Sciences

AHS 203 - Clinical Pathology

Prerequisites: AHS 131, AHS 132

Description: Pre or Concurrent Requisites: AHS 201

This course is designed to expose students to principles of pathologic processes and disorders. Theoretical considerations will provide the necessary background to understand disease and will facilitate the application of diagnostic modalities and therapeutic interventions.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 205 - Immunohematology

Prerequisites: AHS 131, AHS 201 and CHE 131 or CHE 151

Description: Provides student of Medical Technology with the theory and practice of blood transfusion and immunohematology. Modern, routine blood banking techniques are emphasized, especially in the laboratory portion of the course. Detailed discussion of related aspects of blood collection, component preparation, storage, preservation, and testing for compatibility between donor and recipient as well as hazards of transfusion are presented. (3 lecture, 3 laboratory hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Allied Health Sciences

AHS 206 - Clinical Immunology

Prerequisites: AHS 201, AHS 205 and all prior Med. Tech. requirements.

Description: Concurrent Requisites: AHS 202 Basic Immunologic mechanisms: Antigen structure and antigenicity; antibody structure; antigen-antibody interaction: T-cell and B-cell interactions, including thymus-dependent and thymus-independent antigens; antibody production, including DNA and looping-out excision; complement; cytokines; theory of immunologic and serologic procedures and the immunologic manifestations of disease. The student will acquire the fundamental

information necessary to function as a technician in a medical laboratory and/or engage in studies at the technologist level. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 209 - Clinical Applications of Medical Laboratory Science

Prerequisites: AHS 131, AHS 132, AHS 201, AHS 202, AHS 203 and AHS 205.

Corequisites: AHS 210 and CHE 221.

Description: Restricted to Medical Laboratory Technology Students Only. This course includes instruction and practice in various areas of the clinical laboratory. It provides a comprehensive study of hemostasis (the mechanisms of hemostasis, fibrinolysis and hemostatic control) and urinalysis (the principles of physical, chemical and microscopic fluid analyses). Fundamentals of phlebotomy are also introduced. Students practice routine diagnostic methods in these laboratory disciplines with emphasis on principles, sources of error, interpretation, and clinical correlation of results.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 210 - Clinical Internship I

Prerequisites: AHS 131, AHS 132, AHS 201, AHS 202, AHS 203 and AHS 205.

Corequisites: AHS 209 and CHE 221.

Description: Clinical Internship is offered during the spring term and is only for those laboratory technician students who are matriculated and entering the final phase of their studies. Completion of all AHS science prerequisites with a minimum grade of C is required prior to registration for AHS 210. Students are assigned to hospital or private laboratories in Nassau County and surrounding areas. Here under Departmental supervision, students further their clinical training in selected phases of laboratory work. Through participation and practice they refine technical skills and didactic principles as they relate to the laboratory workplace. ,

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 211 - Clinical Internship II

Prerequisites: AHS 209 and AHS 210.

Description: This course is open to only those senior MLT students who have successfully

completed AHS 210. Duration 15 weeks. Students assigned to area hospitals or laboratories will complete the balance of their clinical training.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Allied Health Sciences

AHS 212 - Respiratory Care Clinical I

Prerequisites: AHS 313

Description: Comprehensive clinical practicum at an affiliating hospital. The student will practice clinically the procedures learned during AHS 311, AHS 312, AHS 313, and AHS 104. (40 clinical hours per week for 5 weeks). Registration is limited to students enrolled in the Respiratory Therapy program. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 2

Department: Allied Health Sciences

AHS 214 - Respiratory Care Clinical IV

Prerequisites: AHS 113, AHS 314 and AHS 413. C

Corequisites: AHS 114 and AHS 414.

Description: Comprehensive clinical experiences in multiple clinical rotations including medical, surgical, neonatal and pediatric intensive care, pulmonary rehabilitation and long term care as well as sleep diagnostics. This course is an "off campus" course and will afford the student respiratory therapist an opportunity, within the hospital, to apply and develop proficiencies in the technical knowledge obtained during the first four semesters of 'on campus' study. Under supervision of College faculty, the student will apply to the patient more intensive therapeutic measures involving medical gas therapy, aerosol therapy, mechanical ventilation, artificial airways, and airway care and patient assesment and evaluation with a focus on the application of critical diagnostic thinking and problem-solving skills. Additionally, many of the before-mentioned therapeutics will be applied to infants and pediatric patients. (8 clinical hours per week). Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 2

Department: Allied Health Sciences

AHS 215 - Diagnostic Microbiology

Prerequisites: AHS 131, AHS 132, AHS 201, AHS 202

Description: Pre or Concurrent Requisites: AHS 209, AHS 210

A continuation of AHS 202, this course provides an overview of diagnostic microbiology that is relevant and essential for a career as a medical laboratory technician. It includes discussion of the microorganisms of importance and basic test procedures commonly encountered in clinical settings. While bacteriology is the emphasis, mycology, parasitology, and virology will also be included. For MLT majors only.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 216 - Respiratory Care III Lecture

Prerequisites: AHS 119

Corequisites: AHS 218 and AHS 219

Description: A study of pulmonary pathology from the perspective of the respiratory therapist. The course covers diseases of the pulmonary system concentrating on such topics as restrictive and obstructive diseases. The student learns disease etiology, epidemiology, physiologic abnormalities, clinical features, and the treatment of each disease. The course includes an introduction to problem-based learning and critical diagnostic thinking in respiratory care. Examples of diseases covered include emphysema, asthma, pneumonia, bronchitis, and pulmonary edema. Formerly AHS 113. Students who have completed AHS 113 will not receive credit for AHS 216. (2 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 2

Department: Allied Health Sciences

AHS 217 - Respiratory Care IV Lecture

Prerequisites: AHS 216, AHS 218, AHS 219.

Corequisites: AHS 220 and AHS 221

Description: A study of cardiovascular pathology and pathology of related organ systems from the perspective of the respiratory therapist. The course covers diseases of the cardiovascular system but also includes diseases of other related organ systems such as the digestive, nervous, intestinal, endocrine, and renal systems. The student learns disease etiology, epidemiology, physiologic abnormalities, clinical features, and the treatment of each disease. The course builds upon the concepts of problem-based learning and critical diagnostic thinking in respiratory care. Examples of diseases covered include stroke, encephalopathy, trauma, carcinoma, heart diseases, liver diseases, diabetes, HIV/AIDS, and renal diseases. Formerly AHS 114.

Students who have completed AHS 114 will not receive credit for AHS 217. (2 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 2

Department: Allied Health Sciences

AHS 218 - Respiratory Care IV Lab

Prerequisites: AHS 119.

Corequisites: AHS 216 and AHS 219.

Description: The comprehensive study of the techniques and procedures of airway management, weaning from mechanical ventilation, bronchial hygiene, arterial sampling and noninvasive ventilation. Topics also covered are diseases of the neonatal and pediatric patient as well as the associated respiratory care equipment and treatment modalities and an introduction to home care, long term care, and pulmonary rehabilitation. Laboratory practice with respiratory care equipment and role playing in problem-solving situations. Formerly AHS 314. Students who have completed AHS 314 will not receive credit for AHS 218. (8 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Allied Health Sciences

AHS 219 - Respiratory Care Clinical II

Prerequisites: AHS 119.

Corequisites: AHS 216 and AHS 218.

Description: Comprehensive clinical experiences in multiple clinical rotations including experience in medical and surgical intensive care, physical assessment, patient evaluation and nursing arts in the acute care hospital setting, pulmonary function testing and respiratory care in the subacute care setting. This course is an 'off campus' course and will afford the student respiratory therapist an opportunity within the hospital to apply and develop proficiencies in the technical knowledge obtained during the first three semesters of 'on campus' study. Under supervision of College faculty, the student will apply to the patient such therapeutics as medical gas therapy, aerosol therapy, mechanical ventilation, artificial airways, and airway care, and diagnostic pulmonary function testing as well as physical assessment and evaluation techniques. Formerly AHS 413. Students who have completed AHS 413 will not receive credit for AHS 219. (8 clinical hours) Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Fall Only

Credit Hours: 2

Department: Allied Health Sciences

AHS 220 - Respiratory Care IV Clinical

Prerequisites: AHS 216, AHS 218 and AHS 219.

Corequisites: AHS 217 and AHS 221.

Description: Comprehensive clinical experiences in multiple clinical rotations including medical, surgical, neonatal and pediatric intensive care, pulmonary rehabilitation, and long term care as well as sleep diagnostics. This course is an "off campus" course and will afford the student respiratory therapist an opportunity, within the hospital, to apply and develop proficiencies in the technical knowledge obtained during the first four semesters of "on campus" study. Under supervision of College faculty, the student will apply to the patient more intensive therapeutic measures involving medical gas therapy, aerosol therapy, mechanical ventilation, artificial airways, and airway care and patient assessment and evaluation with a focus on the application of critical diagnostic thinking and problem solving skills. Additionally, many of the before mentioned therapeutics will be applied to infants and pediatric patients. (12 clinical hours) Lab fee applies. Formerly AHS 414. Students who have completed AHS 414 will not receive credit for AHS 220.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 221 - Respiratory Therapy Clinical II

Prerequisites: AHS 216, AHS 218 and AHS 219.

Corequisites: AHS 217 and AHS 220.

Description: Comprehensive clinical experiences in multiple clinical rotations including medical, surgical, neonatal and pediatric intensive care, pulmonary rehabilitation and long term care as well as sleep diagnostics. This course is an "off campus" course and will afford the student respiratory therapist an opportunity, within the hospital, to apply and develop proficiencies in the technical knowledge obtained during the first four semesters of 'on campus' study. Under supervision of College faculty, the student will apply to the patient more intensive therapeutic measures involving medical gas therapy, aerosol therapy, mechanical ventilation, artificial airways, and airway care and patient assessment and evaluation with a focus on the application of critical diagnostic thinking and problem-solving skills. Additionally, many of the before-

mentioned therapeutics will be applied to infants and pediatric patients. Formerly AHS 214. Students who have completed AHS 214 will not receive credit for AHS 221. (8 clinical hours per week). Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 2

Department: Allied Health Sciences

AHS 223 - Clinical Chemistry

Prerequisites: CHE 131, 132 or CHE 151, 152

Description: A one-semester course designed to train medical technologists in the principles and practices of the science of clinical chemistry, specimen collection and processing, quality control, modern instrumentation in clinical chemistry, basic physiology, analytical procedures, and the correlations of abnormal values with the disease states. Laboratory utilizes modern instrumentation in the determination of biochemical profiles such as liver, kidney, heart, electrolytes, lipids, thyroid function, pancreatic function and the monitoring of therapeutic drugs. (2 lecture hours, 6 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Allied Health Sciences

AHS 225 - Medical Concepts and Techniques

Description: The lecture includes the Medical Assistant's role in caring for patients. Discussion of functional anatomy, common disorders and diagnostic studies as they pertain to clinical medical assisting practice. Emphasis in laboratory will be on aseptic technique and standard precautions to prevent the spread of disease, diagnostic tests and common laboratory procedures. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Allied Health Sciences

AHS 234 - Kinesiology

Description: Analysis of human motion based on anatomic, physiologic and mechanical principles. The study of typical and atypical movement patterns and manual muscle testing are included. (3 lecture, 3 laboratory, 3 practice laboratory hours). Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Allied Health Sciences

AHS 235 - PTA Clinical Affiliation I

Prerequisites: AHS 151, AHS 101, AHS 234, AHS 131

Description: Corequisites: AHS 252

This course is only open to Physical Therapist Assistant students. It is a 4-hour primary clinical course in a local facility. Clinical application of skills occurs in the facility under the direct supervision and expertise of a faculty member.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 1

Department: Allied Health Sciences

AHS 236 - PTA Clinical Affiliation II

Prerequisites: AHS 154

Description: Corequisites: AHS 255, AHS 153

This course is only open to Physical Therapist Assistant students. It is a one day per week 8-hour secondary clinical experience as a Physical Therapist Assistant Student in a Physical Therapy setting.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 2

Department: Allied Health Sciences

AHS 237 - PTA Clinical Affiliation III

Prerequisites: AHS 255, AHS 153, AHS 256

Description: Concurrent Requisites: SPS 201
Corequisites: AHS 156, AHS 238

This course is only open to Physical Therapist Assistant students. Full-time clinical practice as a physical therapist assistant student in a physical therapy setting is required. Affiliated sites include sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care, and other health service agencies. (40 hours per week/6 weeks.).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Allied Health Sciences

AHS 238 - PTA Clinical Affiliation IV

Prerequisites: AHS 255, AHS 153, AHS 156

Description: Concurrent Requisites: SPS 201
Corequisites: AHS 156, AHS 237

This course is only open to Physical Therapist Assistant students only. This is a terminal clinical course. Full-time clinical practice as a physical therapist assistant student in a physical therapy settings is required. Affiliated sites include: sports medicine facilities, outpatient clinics, schools, rehabilitation centers, nursing homes, hospitals, home care,

and other health service agencies. (40 hours per week/6 weeks.).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Allied Health Sciences

AHS 240 - Radiologic Technology I Lecture

Prerequisites: ENG 101 and MAT Elective.

Corequisites: AHS 101, AHS 131 and AHS 241.

Description: A four week orientation lecture unit to prepare students for clinical education followed by lectures in applied physics, radiation safety, and radiographic technique. Upon successful completion of orientation unit, students will begin clinical education at an affiliating hospital. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 241 - Radiologic Technology I Laboratory/ Clinic

Prerequisites: ENG 101 and MAT Elective.

Corequisites: AHS 101, AHS 131 and AHS 240.

Description: A four-week laboratory orientation unit to prepare students for clinical education followed by instruction and practice in an energized x-ray laboratory to include selected routine and special radiographic examinations of the appendicular and axial skeleton using phantoms. Upon successful completion of the orientation unit, students will begin supervised clinical education at an affiliating hospital two days a week. (3 laboratory hours, 16 clinical hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 5

Department: Allied Health Sciences

AHS 242 - Radiologic Technology II Lecture

Prerequisites: AHS 101, AHS 131 and AHS 241.

Corequisites: AHS 132 and AHS 243.

Description: Lectures in radiographic quality, special radiographic techniques, electricity and x-ray circuitry. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 243 - Radiologic Technology II Laboratory/ Clinic

Prerequisites: AHS 101, AHS 131, AHS 241 and AHS 242.

Corequisites: AHS 132 and AHS 242.

Description: Instruction and practice in an energized x-ray laboratory to include selected routine and special radiographic examinations of axial skeleton using phantoms. Supervised clinical instruction and practice in an energized x-ray laboratory to include selected routine and special radiographic examinations of axial skeleton using phantoms. Supervised clinical education at an affiliating hospital two days a week. (3 laboratory hours, 16 clinical hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 5

Department: Allied Health Sciences

AHS 244 - Radiologic Technology III Summer Clinical

Prerequisites: AHS 240, AHS 241, AHS 242 and AHS 243.

Description: Supervised clinical education at an affiliating hospital five days a week from June to August. (40 clinical hours per week). Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 5

Department: Allied Health Sciences

AHS 245 - Radiologic Technology IV Lecture

Prerequisites: AHS 244.

Corequisites: AHS 246.

Description: Lectures in radiation physics, radiobiology and radiation protection. (3 lecture hours).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Allied Health Sciences

AHS 246 - Radiologic Technology IV Laboratory/ Clinic

Prerequisites: AHS 244.

Corequisites: AHS 245.

Description: Introduction & practice in an energized x-ray laboratory to include common procedures using contrast media. Supervised clinical education at an affiliating hospital three days a week. (3 laboratory hours, 24 clinical hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 6

Department: Allied Health Sciences

AHS 247 - Radiologic Technology V Lecture**Prerequisites:** AHS 245 and AHS 246.**Corequisites:** AHS 248.**Description:** Lectures in medical and surgical diseases and an introduction to other imaging modalities including CT scanning. (3 lecture hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 3**Department:** Allied Health Sciences**AHS 248 - Radiologic Technology V Laboratory/ Clinic****Prerequisites:** AHS 245 and AHS 246.**Corequisites:** AHS 247.**Description:** Instruction and practice in an energized x-ray laboratory to include specialized views of the skull, selected special procedures, pediatric examinations, mammography and the essentials of a quality control program; supervised clinical education at an affiliating hospital three days a week. (3 laboratory hours, 24 clinical hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 6**Department:** Allied Health Sciences**AHS 249 - Radiologic Technology VI Summer Clinical****Prerequisites:** AHS 245, AHS 246, AHS 247 and AHS 248**Description:** Five days a week, from June to August. Supervised clinical education at an affiliating hospital. (40 clinical hours per week). Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 5**Department:** Allied Health Sciences**AHS 252 - Physical Therapist Assistant II****Prerequisites:** AHS 151, AHS 234, AHS 101**Description:** Corequisites: AHS 235 For students in the Physical Therapist Assistant Program only. The lecture includes orthopedic and neurologic conditions requiring physical therapy. The laboratory is an introduction to exercise including: passive, active assistive, active resistive and progressive resistive range of motion, stretching, goniometry and exercise equipment.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 7**Department:** Allied Health Sciences**AHS 255 - Physical Therapist Assistant V****Prerequisites:** AHS 235, AHS 154, AHS 252**Description:** Corequisites: AHS 236, AHS 153

This course is only open to Physical Therapist Assistant students. The lecture includes current issues and practices in physical therapy. The laboratory involves regionally designed exercises and advanced therapeutic exercise techniques for a variety of patients.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall**Credit Hours:** 4**Department:** Allied Health Sciences**AHS 261 - Radiation Therapy Lecture I****Description:** Lectures on the rationale of using radiation therapy as a major modality in the treatment of cancer. Emphasis on the principles governing radiosensitivity and normal tissue tolerance. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall**Credit Hours:** 3**Department:** Allied Health Sciences**AHS 262 - Radiation Therapy Clinic I****Corequisites:** AHS 261.**Description:** Introduction to clinical education in radiation therapy technology. Experience is obtained at one of several area hospitals, utilizing a variety of therapy equipment. (16 laboratory hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall**Credit Hours:** 2**Department:** Allied Health Sciences**AHS 263 - Radiation Therapy Lecture II****Prerequisites:** AHS 261 and AHS 262.**Corequisites:** AHS 264.**Description:** Lectures on the operating principles of various types of therapy equipment; the rationale for delivering treatments on particular units; introduction to pathology. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 3**Department:** Allied Health Sciences**AHS 264 - Radiation Therapy Clinic II****Prerequisites:** AHS 261 and AHS 262.**Corequisites:** AHS 263**Description:** Clinical education in Radiation Therapy Technology. Experience is obtained at one of several area hospitals, utilizing a variety

of therapy equipment. (16 laboratory hours)

Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 2**Department:** Allied Health Sciences**AHS 265 - Radiation Therapy Clinic III****Prerequisites:** AHS 263 and AHS 264.**Description:** Clinical education at assigned affiliating hospitals. (40 laboratory hours) Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer**Credit Hours:** 5**Department:** Allied Health Sciences**AHS 266 - Radiation Therapy Lecture III****Prerequisites:** AHS 131, AHS 132 and AHS 263.**Corequisites:** AHS 267**Description:** Methods of treating cancers with radiation therapy based on anatomic site, histologic grade and normal tissue tolerance. Discussion of borders of treatment fields, dose and treatment. Emphasis on cancers of skin, head and neck, digestive and respiratory systems. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall**Credit Hours:** 3**Department:** Allied Health Sciences**AHS 267 - Radiation Therapy Clinic IV****Prerequisites:** AHS 265.**Corequisites:** AHS 266.**Description:** Clinical education in Radiation Therapy Technology. Experience is obtained at one of several area hospitals, utilizing a variety of therapy equipment. (24 laboratory hours)

Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall**Credit Hours:** 3**Department:** Allied Health Sciences**AHS 268 - Radiation Therapy Lecture IV****Prerequisites:** AHS 266.**Corequisites:** AHS 269.**Description:** Methods of treating cancers with Radiation Therapy based on anatomic site, histologic grade and normal tissue tolerance. Discussion of borders of treatment fields, dose and fractionation and reaction to treatment. Emphasis on cancers of central nervous system, breast, genitourinary system, and blood forming organs. (3 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 269 - Radiation Therapy Clinic V

Prerequisites: AHS 267.

Corequisites: AHS 268

Description: Clinical education in Radiation Therapy Technology. Experience is obtained at one of several area hospitals, utilizing a variety of therapy equipment. (24 laboratory hours) Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Allied Health Sciences

AHS 270 - Radiation Therapy Clinic VI

Prerequisites: AHS 269.

Description: Clinic VI. Clinical education in Radiation Therapy Technology. Experience is obtained at one of several area hospitals. (40 laboratory hours) Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 5

Department: Allied Health Sciences

AHS 295 - Independent Study-AHS

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly AHS 699. Students who have completed AHS 699 will not receive credit for AHS 295.

Credit Hours: 3

Department: Allied Health Sciences

Animation

ANI

ANI 101 - Animation I

Description: This course provides the foundation for traditional animation techniques and introduction to animation through the Twelve Principles of Animation. Students will explore traditional animation techniques with an emphasis on figurative drawing and learn to transfer their work to digital format. The course will present concept and story development, production as well as the history and media theory of moving pictures, sound and animation. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ANI 102 - Animation II

Description: Prerequisite: ANI 101

This course will focus on a study of established practices in the field of animation. Traditional methods are combined with animation and imaging software. The focus is on individual creative growth. Fundamentals concerning the application of physics to animated movement will be covered. In addition, character emotions and body mechanics will be explored. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Art

Anthropology

ANT

ANT 203 - Physical Anthropology

Description: The major problems, methods and theories of physical and biocultural anthropology. Topics include: primatology, human origins, evolutionary processes, human variation, origins of language, and the interaction of nature, culture and society.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ANT 204 - Cultural Anthropology

Description: Explores cultures holistically in preindustrial and non-Western and Western societies. Topics include: ecology and environment, economic organization, kinship and marriage patterns, political organization, social structure, religious organization, rituals, ideas, values and world view. Other topics are culture contact, technological development, and culture change.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS, PLDI, GLNW

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ANT 205 - Women and Men in Cross-Cultural Perspective

Prerequisites: SOC 201 or ANT 203 or permission of instructor.

Description: This course uses anthropological studies to understand women and men in different cultures around the world. Gender differences are explored from a cross-cultural perspective in relation to such topics as: kinship, work, power relations, religious beliefs, sexuality, life cycle, roles and status.

SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS, GLNW

Offered: On Occasion

Credit Hours: 3

Department: Sociology/Anthropology/SociWrk

ANT 206 - Introduction to Archaeology

Description: The course introduces the methods and techniques used by archaeologists to understand the past, while exploring ancient cultures across the world, and including current cultural heritage management and preservation issues.

SUNY GE-SSBS; SUNY GEN ED- GOWC,

GSBS; NCC GEN ED: GLNW, PLDI; SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ANT 207 - From Chiefdoms to Kingdoms

Description: Tens of thousands of years ago people began to create permanent settlements resulting in major biological, environmental and cultural changes that still resonate around the world. Students will examine the evidence and apply anthropological research methods, concepts and theories to explore the causes and consequences of culture change.

SUNY GE-SSBS; SUNY GEN ED- GOWC,

GSBS; NCC GEN ED: GLNW; PLDI; SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ANT 208 - Anthropology in Action

Description: The course explores the application of anthropology in everyday situation in a global society with a focus on topics related to cultural and biological variation. Topics include: application for developing practices suited for business, cultural awareness, innovation, appropriate technology, and the practical use of anthropology for understanding and solving contemporary problems.

SUNY GE-SSBS; SUNY GEN ED: GOWC,

GSBS; NCC GEN ED: GLNW; PLDI; SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

Arabic

ARA

ARA 101 - Beginning Arabic I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. This course is not intended for students of Arabic

speaking background. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM
Offered: Fall, Spring, Summer
Credit Hours: 3

Department: Foreign Languages

ARA 102 - Beginning Arabic II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM
Offered: Fall, Spring
Credit Hours: 3

Department: Foreign Languages

Art

ART

ART 100 - Introduction to Visual Arts

Prerequisites: (Non-majors only) Completion of remedial courses in English and Reading.

Description: An introduction to the development of the visual arts emphasizing perception and understanding of painting, sculpture, architecture and design, as well as their relationship to the creative process. This is primarily a lecture course. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-FAPA, HUM, WESH
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 102 - Art History (Renaissance)

Prerequisites: Completion of remedial courses in English and Reading.

Description: Architecture, sculpture and painting in Western Europe from 1300 to 1600. An examination of the styles of the Renaissance and Mannerism in Northern and Southern Europe. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 103 - Art History (Baroque through Realism)

Prerequisites: Completion of remedial courses in English and Reading.

Description: Architecture, sculpture and painting in Europe and the Americas from the 17th century through the mid 19th century.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Art

ART 104 - Modern and Contemporary Art

Prerequisites: Completion of remedial courses in English and Reading.

Description: Art from 1940 to the present, with special attention given to modern European and American art as a foundation. A study of the contributions of individual artists and movements, with an examination of the development of new approaches to form and the creative experience.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 105 - Principles of 2-Dimensional Design

Description: Required of art majors.

A foundation course in design on a 2-dimensional surface. This course explores the elements of line, shape, value, color, and texture and principles of design and its relationship to composition. Subject and content are components of study as well. Students are introduced to a conceptual and visual vocabulary as art applies to the visual arts. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 106 - Principles of 3-Dimensional Design

Description: Required of art majors. A foundation course in design in 3-dimensional space. This course explores the elements of line, form, value, color and texture and their application to fine and applied art. This involves 3-dimensional constructions in such materials as board, plaster, clay, plastics, etc. Average cost for supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 107 - Prepress for Commercial Artists

Prerequisites: ART 133

Description: This course introduces the student to the preparation of computer graphics for commercial printing and production. The basics of the prepress including trapping, impositions, halftones, process and spot colors, paper, and proofs using industry standard applications will be explored. Average cost of supplies: \$50. Laboratory fee applies. SUNY GEN ED-GART; NCC GEN ED-HUM

Credit Hours: 3

Department: Art

ART 108 - Advertising Art

Description: Pre or Concurrent Requisites: ART 130 or permission or the Chairperson. Students are guided through the process of art direction as it applies to the creation of promotional and advertising material. Creative problem solving through the visualization of ideas is applied throughout the various stages of development of thumbnail sketches, roughs, comprehensives and storyboards. Layouts, typography, and illustration are stressed. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 109 - Printmaking I

Description: This mixed-media course introduces the student to the basic fundamentals and concepts of non-toxic printmaking: the development of an image on a particular surface, the transfer of the image to paper, edition printing, and presentation. Media may include photo and digital transfer, relief prints, silkscreen, intaglio, and monoprints. Emphasis is placed on the student's exploration of this creative process to produce and develop exciting prints. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 110 - Printmaking II

Prerequisites: ART 109 or permission of Chairperson.

Description: This course offers an opportunity for the advanced study of non-toxic printmaking as explored through traditional and experimental methods in Printmaking I. Students will develop independent projects and experiment with methods and materials.

By creating personal projects that reflect printmaking's versatility in creating a new form of expression, the student may concentrate more fully on a strong portfolio. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 111 - Drawing I

Description: A basic course that explores the fundamentals of drawing through the development of both technical skills and concepts. The student's understanding of composition through the study of line, value and perspective will develop through direct visual observation and the education of the artist's eye. Students will be encouraged to work with conventional and non-traditional materials and methods. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 112 - Drawing II

Prerequisites: ART 111 or permission of Chairperson.

Description: This course is designed to further explore the creative process of drawing. Students are encouraged to master advanced skills and search for their own individual focus of expression. Each student will be exposed to new approaches, methods and materials to further enhance his or her drawing experience and art portfolio. Average cost of supplies: \$85. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 113 - Package Design

Prerequisites: ART 137 or permission of Chairperson.

Description: Analysis of container design, involving internal surface graphics, for design students who wish to explore functional containers, from egg cartons to compact discs to the box car and paper bag. Emphasis is placed upon functional design and structure. Average cost of supplies: \$150. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM
Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 114 - Typography for Graphic Design

Prerequisites: ART 130 or permission of Chairperson.

Description: Students are taught to create designs using visual symbols and type to communicate ideas. This course covers designing letterforms, logos, trademarks, stationery, corporate branding and preparing art for presentation, including the use of various digital scanning and printing devices. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART, SHUM; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 115 - Painting I

Description: An introduction to the techniques, mechanics and composition of painting via personal expression. Average cost of supplies: \$200. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 116 - Painting II

Prerequisites: ART 115 or permission of Chairperson.

Description: With the skills and understanding of basic painting, Painting II expands material usage and gives further focus on creativity and personal self-expression. Average cost of supplies: \$200. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 117 - Illustration

Prerequisites: ART 111 or permission of Chairperson.

Description: Communicating ideas with focus and clarity through the use of visual materials. Techniques and materials are introduced to give impact to ideas and professional portfolio quality work. Average cost of supplies: \$140. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 118 - Figure Drawing I

Prerequisites: ART 111 or permission of Chairperson.

Description: An extensive study of the human figure, its proportions and constructions, as a subject for artistic and personal expression. Average cost of supplies: \$65. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Art

ART 119 - Anatomy and Figure Drawing II

Prerequisites: ART 118 or permission of Chairperson.

Description: A continuation of the study of the figure as the subject for artistic expression. Emphasis is on acquiring a sensitivity to subtle anatomical definition. More extensive technical skills are needed for this definition. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 122 - Ceramics I

Description: Tools and techniques of hand-building and potters wheel are used to form pottery and related sculptural construction in clay. Students learn a variety of decorative and glazing techniques and an understanding of the processes related to the firing of clay into ceramic. Average cost of supplies: \$125. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 123 - Sculpture I

Description: Designing and construction of sculptures from clay, plaster, wood and metal is a means to symbolic expression. The format of lecture/demonstration, planning, building of the sculpture, individual and group critiques, gallery/museum visits assist students in understanding the role of the artist and the creative process. Average cost of supplies: \$125. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 124 - History of Photography

Prerequisites: Completion of remedial courses in English and Reading.

Description: A survey course in the history of photography, emphasizing aesthetics, socio-cultural history, and technical advances in the field. Major photographers and trends will be analyzed.

SUNY GE-SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 125 - Photography I

Description: A basic foundation in the techniques and aesthetics of black and white photography with emphasis on the camera, film processing, print development, the digital darkroom and portfolio preparation. A 35-mm camera capable of manual operation to be provided by the student. Average cost of supplies: \$225 (does not include manual 35-mm camera). Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Credit Hours: 3

Department: Art

ART 126 - Introduction to Studio Arts

Description: An introductory course for non art majors that includes a variety of studio arts. They are explored with historical context and emphasis on developing an awareness of materials and processes, sensitivity to design, as well as a creative approach. Average cost of supplies \$150. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 129 - Gallery Survey

Description: This course introduces students to the diversified operation of today's art gallery/museum. Regular visits to galleries/museums are required. This course also provides insight into exhibition preparation and installation including behind-the-scenes investigation into planning, art conversation, education goals, curatorial responsibilities, and funding. Students are responsible for transportation and admission fees.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Summer

Credit Hours: 3

Department: Art

ART 130 - Graphic Design I

Description: Hands-on experience with industry standard software used to create commercial and fine art images. Topics include basic design principles, grid structure and typography used in the development of charts, trademark design, landscapes, interiors, portraits, scanning images, and print design. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 131 - Digital Imaging

Prerequisites: ART 130 or permission of Chairperson.

Description: Hands-on course in Adobe Photoshop, the most widely used application in digital imaging and photography. Topics include: image creation and scanning, painting, editing and retouching, image manipulation and resizing, color correction, conversions, layers, filters and image output. Cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART, SHUM; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 133 - Graphic Design III

Prerequisites: ART 131 and ART 140

Description: Hands-on experience with desktop publishing and computer hardware and software used to create professionally designed publications. Topics include word processing, page layout, creating and scanning images, typography, and print production. Average cost of supplies: \$150. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 135 - Design Fundamentals

Description: To interpret fashion design using art based fundamentals, such as the importance of color, anatomy, fabric rendering, fashion model proportions and movement. Assignments and learning experiences to reinforce each area. The student will discover, through exploration of fashion assignments, how to evaluate design details and proportions for Women's apparel markets. Technical flats and their importance to the process will be covered. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 136 - Fashion Art Techniques I

Prerequisites: ART 135 or permission of Chairperson.

Description: This course is designed to further interpret the creative process of Fashion Design. Students are encouraged to master advanced skills and search for their own individual focus of expression. Each student will be exposed to new approaches, methods and materials to further enhance his or her design experience and Fashion Design portfolio. Menswear and Children's wear will be explored as well as the Women's wear markets. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 137 - Computer Illustration

Prerequisites: ART 130.

Description: Adobe Illustrator on the Macintosh is used as a tool for creative expression in the use of illustration techniques to communicate ideas. Technical requirements for printing are also emphasized. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART;

NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 138 - 3D & Video I

Prerequisites: ART 130.

Description: Hands-on course in creating and composing complete 3D computer generated imagery (CGI). Topics include: NURBS (non-uniform rational B-spline) and polygonal modeling, texturing, lighting, camera positioning and rendering. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART;

NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 139 - Animation and Dynamic Design

Prerequisites: ART 131 and ART 137.

Description: Basic to intermediate animation techniques with an interactive design using various computer-generated imagery (CGI) and popular design applications. This course

introduces the basic principles of composition, color, light, and motion applied to animation, focusing primarily on brand identity and interactive media. In addition, the course will give insight into theories, principles, and skills of dynamic design. Design for the screen, effective use of text, graphical elements, video, and motion, understanding fluid identity, and data drive adaptable Design are covered. These skills will be applied in projects that stress conceptual, design techniques, presentation, and technical development, concentrating on brand identity development. Average cost of supplies: \$200. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 140 - Graphic Design II

Prerequisites: ART 130 or Permission of Chairperson

Description: Concurrent Requisite: ART 105. Using computers as tools for research and composition, students will survey the global history of visual communications as well as the ways visual elements are used to construct and convey meaning. Historical, cultural, social and technological developments and their impact on the field of graphic design will be studied. An interactive environment for the study of the development and the practical applications of visual imagery will be promoted. Cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART, SHUM; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 141 - History of Graphic Design

Prerequisites: Completion of remedial courses in English and Reading.

Description: A survey of the history of graphic design from the beginning of the written word through today, including discussions on typography, printing press, posters, Bauhaus, propaganda and digital media.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM, PLDI, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 142 - Art Internship

Prerequisites: Permission of the instructor and a minimum of 9 art credits.

Description: Supervised placement of the student in an artist's studio, gallery position

or other setting appropriate to student's area of art study, to enable the student to gain work experience that enriches the theoretical concepts developed in the classroom. Students may incur additional travel expense. This course may be taken for credit only once. Open to Art majors only.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 145 - Raku and Pit-Firing

Prerequisites: ART 122 or ART 147.

Description: This ceramics course will introduce the student to basic hand building and Raku and Pit-Firing of ceramic pieces that are formed in class. The student will participate in the rapid-fire technique, the quick cool down and the reduction of their pieces. Also explored in this course will be various methods of creating decorative surfaces. Average cost of supplies: \$125. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Art

ART 147 - Potter's Wheel

Description: The potter's wheel will be the tool we will be using to make our projects. We will explore various expressive, tactile and intellectual possibilities that are available through the use of this medium. Also explored: a variety of glazing techniques and processes related to firing of clay. Historical references will contribute to students' development of critical thinking skills and creative problem solving. Average cost of supplies: \$125. Lab fee applies.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 159 - Photography I

Description: A basic foundation in the techniques and aesthetics of photography with emphasis on the camera, digital darkroom and portfolio preparation. A dSLR (digital) camera capable of manual operation to be provided by the student. Average cost of supplies: \$225 (does not include dSLR camera). Laboratory fee applies. Students who have completed ART 125 will not receive credit for ART 159.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 160 - Black and White Darkroom

Description: A traditional black and white photography course utilizing film cameras and traditional darkroom techniques. Emphasis is on creativity, aesthetic considerations and the development of a personal photographic vision through class assignments, individual photographic projects, and portfolio development. Students to provide a 35-mm manually operated camera. Average cost of supplies: \$275. Laboratory fee applies. Students who have completed ART 225 will not receive credit for ART 160.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 201 - Ancient Through Medieval Art

Prerequisites: Completion of remedial courses of English and Reading.

Description: The development of architecture, painting and sculpture from their origins in Prehistory through the cultures of Ancient Egypt, the Middle East, Greece, Rome, and in Western Europe, from the time of Constantine to the end of the Middle Ages.

SUNY GE-SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 202 - Renaissance Through Modern Art

Prerequisites: Completion of remedial courses in English and Reading.

Description: The development of painting, sculpture, and architecture from the Renaissance to the twentieth century. This course explores the history of Western art from both contextual and formal art historical perspectives.

SUNY GE-SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Art

ART 203 - Art Beyond the West

Prerequisites: Completion of remedial English and Reading is required.

Description: This course is a survey of selected historical topics drawn from the following non-western cultures: India, China, Southeast Asia, Japan, Oceania, Africa, Pre-

Columbian Americas. Representative works of painting, sculpture, crafts, and architecture from selected cultures will be examined in the context of the religious, social, economic, and/or political forces that shaped them.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, GLNW

Offered: Spring

Credit Hours: 3

Department: Art

ART 222 - Ceramics II

Prerequisites: ART 122 or ART 147.

Description: Build upon prior hand building and/or potter's wheel techniques as a means to creating pottery or related sculptural constructions in clay. Glaze formulation and experience with operation of gas and electric kilns. Average cost of supplies: \$125. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 223 - Sculpture II

Prerequisites: ART 123 or permission of Chairperson.

Description: Students build on skills, techniques and knowledge acquired in Sculpture I. They are encouraged to develop individual ideas into sculptural compositions and acquire related skills to verbally assess both the emerging work and the completed sculpture. Average cost of supplies: \$125. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 225 - Photography II

Prerequisites: ART 125 or permission of Photography Coordinator.

Description: An intermediate photography course involving advanced camera and darkroom photo techniques, both film based and digital. Emphasis is on creativity, aesthetic considerations and the development of a personal photographic vision through class assignments, individual photographic projects, and portfolio development. Students to provide a 35-mm manually operated camera. Average cost of supplies: \$225. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Credit Hours: 3

Department: Art

ART 226 - Experimental Photography

Prerequisites: ART 159 and ART 160.

Description: Advanced photographic and darkroom techniques and manipulative effects including black and white, color and digital photographic processes. Emphasis will be on creative expression and interpretation of ideas through alternative and experimental techniques. Students to provide their own cameras. Average cost of supplies: \$225. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 227 - Studio Photography

Prerequisites: ART 159

Description: This course offers students a foundation in studio and location photography exploring editorial, portraiture, and still life projects. Students will learn multiple professional lighting technologies including tungsten, LED, and electronic flash systems. Emphasis is placed on critical thinking skills and creative problem-solving techniques in the production of personal projects. Medium format and other digital cameras are available for student use. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Art

ART 228 - Documentary Photography

Prerequisites: ART 159

Description: This course introduces students to the development and production of short and long term documentary projects. Through a mix of still photography and media based production students engage with current events, cultural trends and historical perspectives while addressing the most effective story telling techniques. Included in as overview of the techniques and styles, history and ethics of the practice and application of a documentary photography. Average cost of supplies: \$275. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-FAPA; HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 229 - View Camera

Prerequisites: ART 159 and ART 160.

Description: This intermediate level course offers students a broad and immersive experience with large format photography. Students will use 4" x 5" Field and View cameras as a means to explore camera movements, exposure, sheet film development, gelatin-silver printing, high end digital scanning and advanced inkjet printing techniques. Strong emphasis will be placed on project development, critical thinking and problem solving techniques. Cameras will be provided for student use. Average cost: \$350. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Art

ART 230 - Digital Photography II

Prerequisites: ART 159.

Description: This course builds upon the principles and techniques covered in Digital Photography I by incorporating the application of color as an aesthetic and thematic consideration. Adobe Lightroom, Adobe Photoshop and basic calibration techniques from the foundation from which students explore their photographic production. Average cost of supplies: \$225. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 231 - Digital Photography III

Prerequisites: ART 230

Description: This course builds upon the principles and techniques covered in Digital Photography II and will provide students with a strong foundation in digital printing techniques. Emphasis will be placed on critical thinking skills and project development as they are informed by advancements and techniques in photographic imaging. Topics include: image editing software, color management, profile creation and workflow techniques as they relate to specific output processes. Average cost of materials: \$350. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 232 - Professional Developmental: Practices and Procedures

Prerequisites: ART 105 or ART 111 or ART 159 or permission of Chair

Description: This lecture and studio-based course offers an introduction to the skills and practices needed to become a professional fine artist or commercial photographer. Topics include exploring career options, self-promotion (printed materials and online presence), writing artist statements, applying for art exhibitions, competitions, artist residencies, grants, and freelance jobs, as well as the basics of running a business including budgeting, estimates, contracts, and record-keeping. Lessons will include follow-up practical exercises to reinforce learning. Over the course of the semester students will create print and digital promotional materials and portfolios using their own artwork. Average cost of materials: \$125.

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 235 - Fashion Art Techniques II

Prerequisites: ART 135 and ART 136.

Description: Students design collections by exploring the roles of research, design development, and editing in the fashion design process. Emphasis is placed on the knowledge of key fashion categories, markets and price points. This course also introduces the basics of computer-aided design specifically used in the fashion industry. Using vector based software, students learn techniques to conceptualize fashion designs and create industry-standard presentations. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 236 - Fashion Art Techniques III

Prerequisites: ART 135, ART 136 and ART 235.

Description: To develop an awareness of broad-based market demands. To develop an awareness of market timing (seasonal and campaigns). To develop an awareness of marketable presentations. To appreciate the relationship of theme, fabrics, price range, and colors in the preparation of a portfolio. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 237 - Digital Video and Visual Effects

Prerequisites: ART 130

Description: Hands on course in digital video and special effects using live video footage and computer-generated imagery (CGI). Topics include: digitizing video, editing, creating titles, compositing and visual effects. Traditional concepts such as storyboarding, lighting and camera work will also be covered. Students will create finished commercial or creative video shorts and learn how to present these on the World Wide Web or DVD.

Average cost of supplies: \$100. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 238 - 3D & Video II

Prerequisites: Minimum grade of "C" in ART 138.

Description: Hands-on course in 3D computer Animation. Topics include: animated logos, motion paths, camera movement, particle systems, simulated physics and character rigging. Students will learn about scripting, storyboarding, recording animations and integrating computer-generated imagery (CGI) with other applications. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 239 - Web Design I

Prerequisites: ART 130, ART 131, ART 137 and ART 140 or Permission of Chairperson.

Description: This course will investigate the application of interactive design, composition and narrative for the purpose of creating websites. Students will conceptualize and produce web pages using popular web authoring software. Emphasis will be on the integration of various visual and narrative elements into a rich user experience. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 240 - Portfolio Workshop

Prerequisites: ART 133 and ART 239 or Permission of the Instructor, for Art Majors Only. Must be taken in the last semester.

Description: Research, creation and completion of a professionally relevant major project in a chosen medium (print portfolio, computer animation or an interactive multimedia program). Average cost of supplies: \$250. Laboratory fee applies. SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 249 - Web Design II

Prerequisites: ART 239.

Description: This course will focus on creativity in digital and multimedia art using advanced techniques and authoring tools to create professional animations, websites, and games. There will be a strong emphasis on typography, graphics, animation, special effects, sound and video to create dynamic and user-friendly interface design for a large target audience. Average cost of supplies: \$100.

Laboratory fee applies.

SUNY GEN ED-GART; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Art

ART 295 - Independent Study-Art

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a Formerly known as Art 699. Students who have completed ART 699 will not receive credit for ART 295.

Credit Hours: 3

Department: Art

American Sign Language

ASL

ASL 152 - American Sign Language I

Prerequisites: Students must have satisfied all ENG and RDG 001 remediation requirements prior to starting the course.

Description: An introduction to American Sign Language, the natural language of the Deaf community in the United States and Canada. Focuses on conversation, fingerspelling, basic rules of grammar and customs, traditions and history of the deaf community. Laboratory component and attendance at Deaf community events required. SUNY GE-SDES, SHUM; SUNY GEN ED-GFOL, GHUM; HUM; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

ASL 153 - American Sign Language II

Prerequisites: ASL152 and must have satisfied all ENG and RDG 001 remediation requirements prior to starting the course.

Description: Continuation of basic American Sign Language and Deaf culture, with opportunities to build receptive and expressive sign vocabulary, phrases and conversational skills; use of Non-Manual Markers; continued fingerspelling practice. Laboratory component and attendance at Deaf community events required. br> SUNY GE-SDES, SHUM; SUNY GEN ED-GFOL, GHUM; HUM; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

ASL 226 - Communication and Culture in the Deaf Community

Prerequisites: Students must have satisfied all ENG and RDG 001 remediation requirements prior to starting the course.

Description: This course explores the communication and culture of Deaf people. It focuses on a unique human communication phenomenon- a community with a communication and cultural system that is not based on a spoken language. The relationship between communication and culture is examined through analysis of the different aspects of the Deaf culture and community, including language, history, the arts, norms, values, traditions and customs of the Deaf community and its interaction with a hearing-dominant society. This course will be conducted in English; knowledge of American Sign Language is not required. SUNY GE-SDES, SHUM; SUNY GEN ED-GSBS; HUM; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

ASL 252 - American Sign Language III

Prerequisites: ASL 153 or permission of instructor. Students must have satisfied all ENG and RDG remediation requirements prior to starting the course.

Description: A continuation of American Sign Language II, expanding the emphasis on ASL grammar and vocabulary development and Deaf culture. Dialogues, short stories, narratives and short conversations, both receptive and expressive, will be featured throughout the course. Laboratory component and attendance at Deaf community events required.

SUNY GE-SDES, SHUM; SUNY GEN ED-GFOL, GHUM; HUM; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Communications

ASL 253 - American Sign Language IV

Prerequisites: ASL 252 or permission of the instructor. Students must have satisfied all ENG and RDG remediation requirements prior to starting the course.

Description: An advanced course in American Sign Language (ASL) designed to provide interactive opportunities for students to continue development of their knowledge of vocabulary, grammatical features, conversational and narrative skills. Laboratory component and attendance at Deaf community events required.

SUNY GE-SDES, SHUM; SUNY GEN ED-GFOL, GHUM; HUM; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

Astronomy

AST

AST 101 - Exploring the Solar System

Description: The historical development of the physical laws and theories basic to the study of the solar system is studied. Physical characteristics of the earth, moon, planets and sun are discussed including findings of unmanned planetary exploration. Students are required to attend at least two evening observation sessions during the semester. Students gain a working knowledge of the operation of a telescope. (3 lecture, 3 laboratory hours) Lab fee applies. Note: A special Hybrid section of Solar System Astronomy may be offered each semester. This distance-learning course uses the internet, computers and other electronic media to complete the course assignments. Therefore, students must have access to a computer. Students will occasionally meet with the instructor on campus to perform laboratory experiments and take exams. Lab fee applies. Formerly SCI 105. Students who have completed SCI 105 will not receive credit for AST 101.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

AST 102 - Discovering Stars and Galaxies

Description: The student is introduced to the historical development of theories basic to understanding the concepts of the universe

beyond the solar system and studies the evolution of stars and galaxies in terms of observations. Included are discussions of quasars, pulsars, black holes and the Big Bang Theory. Students are required to attend at least two evening observation sessions during the semester. (3 lecture, 3 laboratory hours) Lab fee applies. Formerly SCI 106. Students who have completed SCI 106 will not receive credit for AST 102.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Biology

BIO

BIO 101 - Introduction to College Biology I

Description: Life processes are studied to develop an understanding of structures and functions of organisms. Major topics include the scientific method, cell structure and function, and a survey of human anatomy and physiology. Laboratory includes the dissection of a typical vertebrate. When paired with BIO 102 Introduction to College Biology II, these two courses provide two semesters in introductory biology with laboratory components for the non-science major. Note: Prior to Fall 2018, this course was entitled "General Biology I" (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 102 - Introduction to College Biology II

Description: A survey course which explores the basic biological principles of reproduction and development, classical and molecular genetics, evolution, behavior and ecology. The diversity of life is examined in the laboratory as well as through field trip experiences. When paired with BIO 101 Introduction to College Biology I, these provide two semesters in laboratory science for the non-science major. Note: Prior to Fall 2018, this course was entitled "General Biology II" (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 103 - Ecology

Description: A study of the relationships between the living and non-living components of the biosphere. The student examines dynamics and complexities of ecosystems, communities and populations of organisms. An examination of human impact and value systems upon ecosystems is considered throughout the course. Field work is undertaken when applicable. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 104 - Zoology

Description: A survey of the structure, physiology, adaptations, and life cycles of animals. Laboratory includes a study of microscopic forms, dissection of more advanced invertebrates, and selected vertebrates including frog, fetal pig, and perch. Field trip identification of local fauna is included as one of the course objectives. Course fulfills one semester of a laboratory science for students who have interest in or desire to pursue studies in zoology, wildlife, marine biology, and ecology. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 107 - Phage Hunters - Discovery

Prerequisites: Successful completion of all developmental/remedial coursework.

Description: Phage Hunters - Discovery is the first of a two-semester research based-laboratory course sponsored by the Howard Hughes Medical Institute Science Education Alliance. Students will isolate bacteriophages from local soils samples, purify and characterize their phages, and select one phage per class for genetic sequencing. Students in the course will make significant contributions to the field of genomics while gaining skill in the process of scientific inquiry, hypothesis development and testing, and practice in common microbial techniques. SUNY GE-SSCI; NCC GEN ED-LSCI.

Offered: Fall

Credit Hours: 4

Department: Chemistry

BIO 108 - Phage Hunters - Genomics and Bioinformatics

Prerequisites: Successful completion of all developmental/remedial coursework.

Description: Phage Hunters - Genomics and Bioinformatics is the second of a two-semester research based-laboratory course sponsored by the Howard Hughes Medical Institute Science Education Alliance. Students will characterize and analyze the genomes of phages obtained in the wild with bioinformatics tools and compare their discoveries with those of phages isolated at other locations around the United States. The research goals of this course will be to identify bacteriophage genes and their organization, examine their similarities and differences that may characterize different phage groups, and determine how these groups may have arisen during evolution. SUNY GE-SSCI; NCC GEN ED-LSCI.

Offered: Spring

Credit Hours: 4

Department: Chemistry

BIO 109 - General Biology I

Prerequisites: High school biology, high school chemistry (or equivalent, such as CHE 107), successful completion of all remedial English, reading, and math requirements.

Description: This is the first course in the BIO 109 - BIO 110 sequence. This sequence is intended for students majoring in the sciences, including the health sciences, and secondary science education. These courses cover the basic concepts of biology that are derived from the study of living things. In the first semester, emphasis is placed upon the molecular and cellular levels of life. Topics such as cell structure, metabolism, molecular genetics, cell division and control mechanisms are discussed. The second semester deals with life on organism through the ecosystem levels. Plant and animal systems are examined in the context of their role in evolution and the environment. The diversity of life is examined in the laboratory as well as through field trip experiences. The laboratory includes a dissection of more advanced invertebrates and selected vertebrates. Note; Prior to Fall 2018, this course was entitled Principles of Biology I". (3 lecture, 3 laboratory hours) Laboratory fee applies to each course.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 110 - General Biology II

Prerequisites: BIO 109.

Description: This is the second course in the BIO 109 - BIO 110 sequence. This sequence is intended for students majoring in the sciences,

including the health sciences, and secondary science education. These courses cover the basic concepts of biology that are derived from the study of living things. In the first semester, emphasis is placed upon the molecular and cellular levels of life. Topics such as cell structure, metabolism, molecular genetics, cell division and control mechanisms are discussed. The second semester deals with life on the organism through the ecosystem levels. Plant and animal systems are examined in the context of their role in evolution and the environment. The diversity of life is examined in the laboratory as well as through field trip experiences. The laboratory includes a dissection of more advanced invertebrates and selected vertebrates. Note: Prior to Fall 2018, this course was entitled "Principles of Biology II". (3 lecture, 3 laboratory hours) Laboratory fee applies to each course.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 115 - Human BioNutrition

Description: (Formerly BIO 111 / BIO 112) Nutrition is explored as an emerging science that combines biology and chemistry into an exciting field of specialization. This course is designed to explore the physiological mechanisms of nutrient metabolism and their interactions on human cellular biology. The characteristics and functions of nutrient groups are studied in their relation to their biological requirements and proper balance. Special attention is given to the relationship between an unbalanced diet, an altered metabolism and the disease process. Also considered are the unique biological features of each of the stages of life and their effect on nutrient requirements. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 116 - Human Genetics

Description: (Formerly BIO 105 / BIO 106) Human Genetics examines the basic concepts of DNA and normal and abnormal gene function in human development and life. A point of emphasis is the relationship between genetic material and environmental impacts, including radiation, chemicals and viral infection. Genetic engineering, birth defects, DNA fingerprinting, gene therapy, cancer and the human problems associated with these subjects are discussed. Laboratory

exercises involve work with living organisms. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 118 - On Becoming Human

Description: (Formerly BIO 113 / BIO 114)

A biological examination of what it means to become a human. The course traces the development of human form and function from conception to birth through lectures, discussions and laboratory experiences on human genetics, reproduction, development, and birth. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Spring

Credit Hours: 4

Department: Chemistry

BIO 119 - Oceanology

Description: (Dual listed with GLY 106)

The course is designed as an overview of the structure, origin, and evolution of the world's oceans. Investigations will include analysis of abiotic factors such as sediments, coastlines, water properties, and movement. Students will take a close look at general water circulation, tides, currents, waves, and the effects of weather and climate. Further investigations will focus on biotic factors such as marine organisms, food chains, resources, and man's relationship to the sea. Note: This is a three-credit course and does not fulfill the laboratory science requirement needed for graduation. There will be no waivers issued under any circumstances. (3 lecture hours)

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Chemistry

BIO 120 - Birds and the Environment

Prerequisites: One semester of college biology or permission of the Department.

Description: The anatomy, physiology, and behavior of birds will be studied in context of their environments. Classification and evolution of birds are also discussed. Laboratory exercises involve dissection, field trips, and individual investigative projects involving data collection and analysis. Field trips include representative Long Island habitats: marine, fresh water, woods,

and fields. (3 lecture, 3 laboratory hours)

Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Summer

Credit Hours: 4

Department: Chemistry

BIO 121 - A Survey of Mammals

Description: The course introduces students to the biology of mammals. The characteristics of mammals, how they evolved and their phylogenetic relationships are examined. A survey of the living mammalian orders, their features, life history characteristics, physiological and behavioral specializations, and habitat and ecological significance is discussed. Field trips are a required portion of the course.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-NSCI

Offered: Spring

Credit Hours: 3

Department: Chemistry

BIO 124 - Plants and Society

Description: This course surveys the various groups of plants, their structures and functions, their ecology and economic importance. Students will apply botanical concepts to understand the greenhouse effect, organic gardening, transgenic plants, medicinal uses of plants, and conservation of natural resources. The Laboratory component requires students to perform research and participate in ongoing investigative projects by using the scientific processes to construct hypotheses, design experiments, evaluate data, and draw conclusions. (3 lecture, 3 laboratory hours - including field trips) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Fall, Summer

Credit Hours: 4

Department: Chemistry

BIO 125 - Introduction to Marine Science

Description: An introductory level course dealing with Marine Science. It provides a framework for illustrating biological principles and processes. Aspects taught include ecology, diversity of plants and animals, marine communities and habits, and current issues and topics related to human intervention. Laboratory emphasis is on observation, sampling, and studies of marine animals and plant communities. Field trips are a required portion of the course. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Chemistry

BIO 130 - Molecules & Medicines

Description: The course includes basic chemistry, history of healing plants, medicinally active ingredients of plants, and modes of action of traditional and modern medicines on the human physiology. The laboratory component requires students to perform research, test common myths using the scientific processes, analyze data, and participate in other investigative exercises. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 131 - Pathophysiology

Prerequisites: AHS 131 and AHS 132

Description: The course is designed to familiarize students with a host of clinical diseases and their signs, symptoms, risk factors, and treatments. Case studies will be used throughout the course: including use of Internet information from national disease websites. Students will also be required to demonstrate their knowledge of human anatomy.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC
GEN ED-NSCI

Offered: Fall, Spring

Credit Hours: 3

Department: Chemistry

BIO 150 - Biology for Educators

Prerequisites: Successful completion of all developmental/remedial coursework.

Description: This course will prepare future educators to understand fundamental biological concepts and theories through lectures and experiments. The characteristics of living things, including the transmission of genetic information and mechanisms of evolution, will be considered. This course will also explore life processes that maintain equilibrium at both the organismal and ecological levels.

NCC GEN ED-LSCI.

Offered: Fall

Credit Hours: 4

Department: Chemistry

BIO 162 - Animal Ecology

Prerequisites: High School biology or similar course experience.

Description: The fundamental principles of ecology are presented through habitat explorations. Patterns of animal behavior (ethology) along with the physical specializations adapting wildlife to their habitats are emphasized. Working with locally found living vertebrate and invertebrate species students will produce photo-essay investigations of assigned wildlife topics. Students must have a camera and are responsible for their own transportation to, from and around field sites. (3 lecture, 3 laboratory hours for 7 1/2 weeks. This is a half semester course that may be taken in sequence with BIO 165 for 4 credits.) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 2

Department: Chemistry

BIO 165 - Natural History of Long Island

Prerequisites: High School biology or similar course experience.

Description: The course aims at expanding the student's knowledge about Long island's ecological diversity. During field trips students will investigate the factors affecting the preservation of several natural ecosystems in proximity to the College. Critical thinking skills, class discussions and natural science methodology will be combined for the production of photo-essays exploring Long Island's plant and animal communities. The impact of commercial development on ecological balance, and items in local news, provide the themes for class projects. Students must have a camera and are responsible for their own transportation to, from and around field sites. (3 lecture, 3 laboratory hours for 7 1/2 weeks. This is a half semester course that may be taken in sequence with BIO 162 for 4 credits). High school biology or similar experience recommended. Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 2

Department: Chemistry

BIO 200 - Experimental Research Methods

Prerequisites: Completion of all English, reading, math remediation courses and a Natural or Physical Science sequence: AHS131 and AHS132 or, BIO109 and BIO110 or, CHE151 and CHE152 or, PHY101 and PHY102 or, PHY151 and PHY 152.

Description: (Dual listed with SCI 200)

This course introduces processes involved in completing the scientific method during experimentation and presentation of related research findings. Students will review theories and facts using prior works and identify literature which leads to further questioning and modification of original ideas. Students will explore the fundamentals of planning research experimentation including time management, theoretical frameworks, and logic of inquiry. Students will learn scientific thinking and writing skills necessary to communicate research findings. The course will also examine effective measures for presenting learned information (either via literature review or experimentation) including abstract writing, verbal presentations and written representations of works as a publishable work, thesis, or dissertation. It will also examine safety guidelines and ethical standards. Laboratory work will include explorations into the scientific method, experimental design and data collection. With an emphasis on applied learning, students will conduct research in the area of their choosing. SUNY GE-SSCI; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 201 - Anatomy

Prerequisites: BIO 109 and BIO 110 with a grade of C or better in each course, or permission of the Department.

Description: This course is an exploration of the intricate structure of the human body. The student studies the various tissues, organs, and systems which function together to maintain life. The laboratory includes dissection of a representative mammal - the cat. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Summer

Credit Hours: 4

Department: Chemistry

BIO 202 - Physiology

Prerequisites: BIO 201 with a grade of C or better, or permission of the Department.

Description: A study of the normal functions of the human organism. The student surveys the various systems of the body, their activities and interrelationships. Much of the laboratory work involves measurement of human body functions. Combined with BIO 201, this course is an excellent introduction to anatomy and physiology. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEB ED-GLAB;
NCC GEN ED-LSCI

Offered: Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 203 - Oceanography

Prerequisites: A one year college level science course or permission of the Department.

Description: An introduction to the interactions of the chemical, geological, physical, and biological processes of the marine environment. Laboratory emphasis on observation, sampling techniques and analytical procedures. Field trips are a required portion of course. (3 lecture, 3 laboratory hours, including field trips) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 204 - Marine Biology

Prerequisites: Need either BIO 101, BIO 102, BIO 103, BIO 104, BIO 109, BIO 110, BIO 115, BIO 116, BIO 118, BIO 119, BIO 120, BIO 124, BIO 130, BIO 131, BIO 162, BIO 165, BIO 203; CHE 107, CHE 108, CHE 131, CHE 132, CHE 135; SCI 101, SCI 102, SCI 108, SCI 109, SCI 110, SCI 120 or permission of the Department.

Description: This course provides an introduction to the plant and animal communities inhabiting shallow and deep North Atlantic marine waters. Emphasis is placed on diversity of adaptations for interaction with the varied salt water environments. Field trips are a required portion of course. (3 lecture, 3 laboratory hours, including field trips) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Summer

Credit Hours: 4

Department: Chemistry

BIO 209 - Principles of Nutritional Science

Prerequisites: BIO 109 and BIO 110
Recommend

Description: Prerequisites: BIO 109 and BIO 110

Recommended for science majors, the course includes such topics as the digestion, absorption, and function of nutrients. Regulatory mechanisms that influence the requirements and metabolism of nutrients are considered. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 210 - Current Concepts in Nutritional Science

Prerequisites: BIO 109 and BIO 110 (maybe co-requisite) or AHS 131 and AHS 132 (maybe co-requisite) or permission of the Department

Description: This course examines nutritional physiology and pathophysiology. Topics explored include the effects of nutrients on metabolism at the molecular, cellular, and systemic levels, including special metabolic needs during growth, reproduction, stress, and senescence, as well as, current theories and controversies in the field of nutritional science. Students will critically analyze and evaluate nutritional research, identifying trends and the influence they have on health promotion and disease prevention. As of Fall 2017 students who have completed BIO 226 will not receive credit for BIO 210.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: On Occasion

Credit Hours: 3

Department: Chemistry

BIO 211 - Developmental Biology

Prerequisites: BIO 109 and BIO 110 or permission of the Department.

Description: This course explores the molecular, cellular and genetic processes of invertebrate and vertebrate development from fertilized egg to multicellular organism. The evolution of developmental mechanisms will also be discussed. A comparative study of invertebrate and vertebrate embryos will be included in the laboratory. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Spring

Credit Hours: 4

Department: Chemistry

BIO 212 - Comparative Anatomy

Prerequisites: BIO 109 and BIO 110 or permission of the Department.

Description: An intensive course dealing with the anatomy of various vertebrates. Through a study of the present anatomical structures, the evolutionary development of these animals is outlined. Differences and similarities of organ systems from various species are discussed. (3 lecture, 3 laboratory hours) Laboratory fee applies. Generally offered spring.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Spring

Credit Hours: 4

Department: Chemistry

BIO 214 - Microbiology

Prerequisites: BIO 101 - BIO 102 or BIO 109 - BIO 110 or permission of the Department.

Description: This course examines the morphology, physiology, structure, genetics, and metabolism of microorganisms, including the roles played by microorganisms in medical, environmental, agricultural, and biotechnological sciences. The laboratory deals with the culture and study of microorganisms, the dynamics of microbial growth, and the physiological basis of bacterial identification. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

BIO 215 - Histology

Prerequisites: BIO 109 - BIO 110 or permission of the Department.

Description: Exploration of the microscopic structure of the human body. An appreciation is developed of the interactions of cells and tissues which result in a harmonious, complex body. Laboratory examination of the structure of cells, tissues, and organs of the body. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 216 - Parasitology

Prerequisites: BIO 101 - BIO 102 or BIO 109 - BIO 110 or permission of the Department.

Description: This course investigates the lives of animal parasites of medical, veterinary and economic importance. The habitats, life cycles, geographic distribution and underlying principles of transmission, diagnosis, treatment and prevention are considered. Through the use of prepared microscope slides and living materials, the student is given the opportunity to view and study a wide variety of parasitic organisms. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall

Credit Hours: 4

Department: Chemistry

BIO 219 - Field Biology

Prerequisites: BIO 101 - BIO 102 or BIO 109 - BIO 110 or permission of the Department.

Description: A habitat approach involving field trips is used for the investigation of the interactions of living organisms with their physical and biological environments. Emphasis is given to population dynamics and the interactions among organisms that determine the structure, function, and evolutionary development of biological communities. Studies are carried out in specific habitats such as bog, marsh, forest, field, and estuary. Specially marked sections of this course may be run at offsite locations or abroad. Students are responsible for their own transportation to, from and around field sites. (3 lecture, 3 laboratory hours). Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 221 - Transmission Electron Microscopy

Prerequisites: BIO 109 and BIO 110 or permission of the Department.

Description: An introduction to the basic principles of transmission electron microscopy including tissue preparation, microscope (TEM) operation, black and white photography, and micrograph interpretation. The entire laboratory is devoted to the development of skills and preparative techniques involved with the operation of an actual transmission electron microscope. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall

Credit Hours: 4

Department: Chemistry

BIO 222 - Scanning Electron Microscopy

Prerequisites: BIO 109 and BIO 110 or permission of the Department.

Description: An introduction to the theoretical and practical concepts of biological scanning electron microscopy (SEM). Topics studied include SEM optical principles, preparative techniques, SEM photographic techniques, SEM micrograph analysis. Through hands-on SEM operation, students will produce a portfolio of micrographs of a variety of biological samples. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Spring

Credit Hours: 4

Department: Chemistry

BIO 226 - Investigations in Human BioNutrition

Prerequisites: BIO 101 or BIO 115 or permission of the Department

Description: This course explores current theories and controversies in the field of nutritional science. Students will evaluate research trends and critically analyze the influence of nutrition on health promotion and disease prevention. Beginning Fall 2017 students who have completed BIO 210 will not receive credit for BIO 226.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-NSCI

Offered: Fall, Spring

Credit Hours: 3

Department: Chemistry

BIO 230 - Molecular Approaches to Modern Medicine

Description: Prerequisite: BIO 109; Corequisite BIO 110

Molecular Medicine is highly dynamic, fast evolving field of life science research. It combines classical disciplines such as cell biology, molecular biology, biochemistry and medicine. This course will provide an introduction to molecular medicine and advances in the field. Topics will include the basic principles of molecular medicine, discoveries in cellular and molecular biology, disease mechanisms and development, clinical research, therapy, biomedical ethics and personalized medicine. Students interested in the medical field will greatly benefit from this course. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Chemistry

BIO 231 - Biotechnology: Recombinant DNA Science

Prerequisites: BIO 109, BIO 110, MAT 109 or higher, CHE 151 or higher or permission of the Department.

Description: An investigation of DNA, the molecule of the gene, and recombinant DNA technology (genetic engineering). The student will explore the Central Dogma of gene structure and function; gene regulation in embryology and in cancer development. Applications of biotechnology to human genetics, forensics, gene cloning, agriculture, medicine and industry are included. Through

hands-on biotechnology laboratories, students will perform fundamental modern recombinant DNA techniques, including bacterial transformation, restriction enzyme analysis and polymerase chain reaction. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: On Occasion

Credit Hours: 4

Department: Chemistry

BIO 295 - Independent Study-Biology

Description: SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly BIO 699. Students who have completed BIO 699 will not receive credit for BIO 295.

Credit Hours: 3

Department: Chemistry

Business

BUS

BUS 100 - Creative Problem Solving in Business

Description: This course will assist students in developing the skills required for success in business and in upper-level coursework. Various forms of active learning techniques will be employed to develop and improve those skills viewed by the business community as essential for success in the workplace. These skills include the ability to communicate effectively, work in teams/groups to solve business problems, research information, and think creatively and critically in solving business problems.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 109 - Introduction to Corporate Business

Description: The course is an introduction to the role of corporate business as a primary source of goods, services, employment, and income. It provides beginning business students and non-business majors with an understanding of the basic scope of corporate business and its relationship to government and society. Students will have a "hands-on" corporate experience to learn the operations and activities of a major corporation as an additional component to the course.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 110 - Introduction to Business

Description: An introduction to the role of business in American life as a primary source of goods, services, employment and income. The course provides the beginning business student and the non-business student with an understanding of the basic nature and scope of business and its relation to government and all members of society. Students examine the operation and activities of large and small enterprises and the interrelationship of the various specialized fields of business.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 111 - Entrepreneurship

Description: An introduction to the management of small business. The course covers the role of small business in the economy, and is designed both for those interested in establishing businesses as well as those who have already established them.

Emphasis is placed on development of a managerial philosophy for entrepreneurs, managers, and potential managers. Course work includes operational techniques, legal and environmental relationships, and analysis of the risks and rewards of managing or owning small enterprises.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 112 - Principles of Management

Description: An examination of the character and structure of modern business organizations; how individuals and groups within these organizations conduct themselves as they strive for personal and enterprise goals. Topics covered include planning, organizing, directing and controlling functions of managers; human relations and motivation; financial and non-economic considerations which provide the basis of decision making. Students are involved in experiencing a combination of textbook theory and current business practices through problem solving techniques.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 114 - Introduction to International Business

Description: An introduction to the challenges and problems faced by American firms in conducting business in world markets. The

course will expose students to the concepts and principles dealing with world trade, foreign environments, global operations and the necessary global managerial skills required for success in such activities.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

BUS 116 - Business Internship

Prerequisites: Permission of Department Chairperson.

Description: Students work for appropriate business firms, institutions and/or agencies to enrich the theoretical concepts previously developed in the classroom.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

BUS 118 - Franchising Management

Description: This course is designed for students who are interested in starting and managing a franchise business, either as a franchisee or as a franchisor. Attention is placed on the characteristics of the franchisor and franchisee; evaluation of franchising opportunities; raising of resources; legal concerns of franchising; and the development of appropriate strategies and the successful planning, implementation and launching of a new business.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Accounting and Business Admin

BUS 120 - Management in Health Systems

Prerequisites: None.

Description: An overview of the challenges and issues facing business professionals in the area of health care management. This course will introduce students to issues such as effective healthcare management, health systems and health care services and organizations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Accounting and Business Admin

BUS 130 - Current Issues in Business

Description: This course will analyze current issues in business so students will think critically and creatively to address these issues with solutions. Current events, journal articles, case studies, discussions and the textbook will be utilized to engage students.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 140 - Human Resource Management

Description: Principles of effective human resource administration are discussed in this course. Topics include the human resources department and its objectives, management-labor relations with special references to elements affecting recruitment, selection, training, evaluation and compensation.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

BUS 150 - Organizational Behavior

Description: An introductory course that will provide future managers with basic information about employees and their behavior within the context of a business environment. Topics include motivation, communication, decision making, group behavior, team development, conflict, change, empowerment, leadership styles, power, authority, work design, performance appraisal and reward systems.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

BUS 180 - Sport Facility Management

Description: An overview of the challenges and issues facing sport facility managers. The course will introduce students to issues such as introduction to sport facility management, facility management, facility systems and operations, facility administration and event and activity management.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 280 - Introduction to Sports Management

Description: An overview of the structure of the sports industry, as well as issues facing sports organizations. Emphasis on how management techniques can be applied to solve sports business problems. Discussion of sports management career opportunities will be included.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

BUS 288 - Co-op Partnership with Industry

Prerequisites: Completion of remedial and/or ESL courses are required. In addition, students must have completed a minimum of 12 credits and be in good academic standing prior to the commencement of the course or obtain permission of the chairperson. Students who are not department majors must be recommended by an instructor and obtain the permission of the department chairperson.

Description: The course provides supervised, practical, paid, full-time experience at institutions that offer students opportunities to which they apply concepts learned in the classroom. Written reports demonstrating the understanding of theories and their applications are an integral part of the curriculum. Travel and living expenses may be incurred contingent upon placement. Formerly BUS 600. Students who have completed BUS 600 will not receive credit for BUS 288.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 6

Department: Accounting and Business Admin

BUS 289 - Adv International Business

Description: An examination of the distinctive management challenges and opportunities of companies operating in more than one country. The course provides an overview of the growing role of business with its political, legal, cultural and economic influences on the rapidly changing international scene. Students are involved in independent research after visits to multinational companies, foreign banking systems, government controlled businesses, and foreign financial and economic centers. Special expenses for students include airfare to and from foreign countries, food, lodging, taxes and transfers for approximately two weeks. Not offered every semester. Formerly BUS 800. Students who have completed BUS 800 will not receive credit for BUS 289.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Accounting and Business Admin

BUS 295 - Independent Study-Business

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly BUS 699. Students who have completed BUS 699 will not receive credit for BUS 295.

Credit Hours: 3

Department: Accounting and Business Admin

Civil Engineering Technology

CET

CET 001 - College Preparatory Physics

Description: (Dual Listed with ELT 001 and PHY 001)

A non-credit one-semester course for students lacking a high school background in physics. The course will cover selected topics in mechanics, hydraulics, heat, sound, light and electricity. Emphasis will be placed on problem solving. The theory will be heavily supplemented by demonstrations. Report writing and the reporting of experimental data will be stressed. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 0

Department: Engineering/Physics/Tech

CET 101 - Residential Construction Methods

Description: Students learn the types and organization of construction projects. Content includes the materials used in construction: concrete, steel, masonry, and wood; interior finishes, plumbing and electrical systems related to construction; methods of testing, excavation, foundation construction and superstructure erection. State and local codes, code administration and construction safety are also discussed. Films and individual projects are required. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 103 - Introductory Civil Engineering Technology

Description: An introductory course in the art of engineering designed to acclimate the students to the engineering profession and to acquaint them with the techniques and methodologies of engineering design. The "design" aspect of the course consists of an introduction to computer integration (as it applies to the engineering profession), graphical techniques, and design oriented problems using analysis software. The objectives of the design section entail the generation of engineering related problems. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 107 - Codes and Construction

Prerequisites: Enrollment in the Interior Design or Construction Management program, or permission of Department.

Description: Overview of practice and materials of construction, building types and structural framing. Instruction on the development and use of the current New York State Uniform Fire Prevention and Building Code, the 1992 Americans with Disabilities Act and their relation to residential and commercial uses of space. Instruction on fire codes related to materials used in interior design. (2 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 111 - Structural Drawing I

Prerequisites: ENS 105.

Description: Drawing of plans and details used in building construction. Development of drafting techniques and standards, using AutoCAD computer drafting software. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 150 - Blueprint Reading

Description: Introduction to blueprint reading for building construction. Study and interpretation of building plans; architectural, mechanical and electrical. Estimating theory and quantity takeoff. (2 lecture, 2 laboratory hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 201 - Construction Estimating

Prerequisites: CET 101, CET 103 and CET 150.

Description: Estimating costs of building construction. Practice in finding required material quantities from drawings. Procedures for estimating labor, material, and equipment costs. Scheduling of construction by CPM (Critical Path Method) including the use of estimating software. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 211 - Structural Drawing II

Prerequisites: CET 111.

Description: Development of data and preparation of drawings used in building construction and civil engineering, using Auto CAD computer drafting software. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 218 - Statics of Structure

Prerequisites: MAT 109.

Description: Resultants and equilibrium of coplanar force systems; trusses and three force members; force systems in space; friction, centroids and moments of inertia of composite areas.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 219 - Mechanics of Materials

Prerequisites: CET 218.

Description: Stress and strain in elastic bodies when subject to external tensile, compressive, shear and torsion forces. Beam reactions, shears, bending moment diagrams and deflections, by the moment-area method are determined. Column analysis; introduction to indeterminate structure.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 222 - Materials Testing Laboratory

Corequisites: CET 219.

Description: Determination of physical properties of construction materials. Standard tests used on the American Society of Testing Materials and the American Concrete Institute standards including report writing software. (3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 1

Department: Math/Computer Science/Info Tec

CET 223 - Structural Steel Design

Prerequisites: CET 219.

Description: Analysis of statically determined structures. Design and investigation of structural steel members; columns, beams, trusses, and girders. Bolted, riveted, and

welded connections reactions, shear, bending moment and deflection by analytic and graphical methods, including the use of design software. (2 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 225 - Soils and Foundations

Prerequisites: CET 219.

Description: The course is an introduction to soil mechanics with application to problems encountered in construction and design. Topics include soil origin and nature, soil properties, field sampling, gradation, compaction, classification, permeability, soil strength. Laboratory experiments include the classification and evaluation of engineering properties of soil for predicting its behavior in accordance with ASTM and AASHTO specifications. The course also covers the structural design of foundations such as retaining walls, grade beams and footings. (3 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 231 - Elementary Surveying

Prerequisites: MAT 109.

Corequisites: ENS 105

Description: Basic principles of plane surveying. Field practice and office procedures. Use of level, transit, stadia, electronic theodolite and total station. Use of survey computation software for determination of horizontal and vertical controls and areas. Mapping of selected areas. (2 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 232 - Route Surveying

Prerequisites: CET 231.

Description: Field and office procedures in layout of highways, railroads, and pipelines. Profile leveling, horizontal and vertical curves and alignment. Mapping, plotting profiles and cross sections. Cut and fill computations. Principles of field astronomy. Computations using defined software. (2 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 240 - Hydraulics

Prerequisites: CET 219 or PHY 101.

Description: The course studies fundamental properties and behavior of fluids under static and flow conditions. Topics covered include hydrostatic force, buoyancy, pressure, manometry, continuity and energy equations, laminar and turbulent flow, losses, flow through pipes and open channels, and flow measurements, as well as an introduction to surface water hydrology. The rational method is used to determine peak flows. Laboratory experiments study the principal physical properties of liquids and major laws of fluid mechanics. (3 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 250 - Construction Planning and Scheduling

Prerequisites: CET 101, CET 103 or permission of the Department Chairperson.

Corequisites: CET 101, CET 103 or permission of the Department Chairperson.

Description: Concepts and methods for planning and scheduling of operations and resources on construction projects. Topics include Gantt charts, progress curves, critical path methods and project networking techniques. Extensive use of computer software to aid the student in planning and analysis of scheduling, resource management and updating construction operations. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 252 - Construction Safety

Prerequisites: CET 101 or permission of the Department Chairperson.

Description: Introduction to occupational safety and health practices in the construction industry. This course provides an overview of U.S. Department of Labor, Occupational Safety and Health 1926 Standards for the construction industry. Course work includes a detailed study of construction safety management. Topics include personal protective equipment, hazardous communications, site safety management, inspection and supervision for erection and demolition of structures.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 254 - Mechanical and Electrical Equipment for Buildings

Prerequisites: CET 101 or permission of the Department Chairperson.

Description: Introduction to the basic concepts of mechanical systems design and construction for residential and commercial buildings. Systems design and equipment selection is performed for heating, cooling, plumbing, sanitation, electrical lighting and acoustics. Emphasis is placed on the use of the International Building code and A.S.H.R.A.E Standards.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 256 - Construction Contracts and Specifications

Prerequisites: CET 101 or permission of the Department Chairperson.

Description: Introduction to building construction contract documents. Student is exposed to contract law, general conditions of the contract and construction specifications using the Construction Specifications Institute Standards. Analysis of owner, designer, and contractor responsibilities under contract.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

CET 260 - Construction Project Management

Prerequisites: CET 101, 201 or permission of the Department Chairperson.

Description: Corequisites: CET 250 Introduction to methods and techniques of managing construction projects. Construction business organization, contracts, bonding, insurance, construction site supervision, labor law and labor relations. Introduction to computer applications in project administration. (2 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CET 295 - Independent Study-CET

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly CET 699. Students who

have completed CET 699 will not receive credit for CET 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Chemistry

CHE

CHE 107 - Introduction to Chemistry

Prerequisites: Completion of all ENG, RDG and MAT remediation requirements.

Description: Introduction to Chemistry, CHE 107, is a one-semester laboratory course in basic chemistry. Students are introduced to the fundamental concepts of physics and mathematics that are required to understand chemistry. The course then follows a semi-traditional introduction to chemistry: relative atomic/molecular weights, the mole concept, solution chemistry, stoichiometry, and gas laws. This course satisfies the prerequisite requirements for CHE 151. Note: Before the Fall of 2017 this course was entitled "General Chemistry" (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 108 - Consumer Chemistry

Prerequisites: Completion of all ENG, RDG and MAT remediation requirements.

Description: A non-mathematical course in chemistry for non-science students. The course explores the science of chemistry as it relates to modern society. Chemical principles are taught on a "need to know basis" as they are required to explore scientific issues that impact modern society. It satisfies the laboratory requirement for liberal arts. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 109 - Contemporary Topics in Chemistry

Prerequisites: Completion of all ENG, RDG and MAT remediation requirements.

Description: This is a three-credit non-laboratory course in chemistry. Topics covered include forensic science, development of pharmaceuticals, actions of drugs in the body, toxicity of chemicals, and green chemistry. This course satisfies the liberal

arts requirements for a non-laboratory science course in chemistry. (3 lecture hours)

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Spring, Summer

Credit Hours: 3

Department: Chemistry

CHE 110 - Introduction to Chemical Technology

Description: The purpose of this orientation course is to provide students an overall view on the chemical industry primarily for employment as a chemical technician. The course will help students gain an insight in the chemical field and basic laboratory skills. The topics covered include collecting and preparing data, interpretation of graphs, study skills, writing reports, literature search and presentation. It may also involve field trips to neighboring industries.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Chemistry

CHE 131 - College Chemistry I

Prerequisites: Completion of all ENG, RDG and MAT remediation requirements.

Description: College Chemistry I is the first course of a two-course sequence. The course covers fundamental principles of modern chemistry including problem-solving techniques. Topics include atomic and molecular structure, chemical nomenclature, stoichiometry, chemical bonding, properties of gases, liquids and solids, and solutions. One year of high school chemistry and a working knowledge of elementary mathematics including algebra is recommended. Note: This course is not the designated SUNY Seamless Transfer Path Course. Before the Fall of 2017 this course was entitled "General Chemistry I". (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 132 - College Chemistry II

Prerequisites: Completion of College Chemistry I (CHE 131), and all ENG, RDG and MAT remediation requirements.

Description: College Chemistry II is the second course of a two-course sequence. This course covers fundamental principles of modern chemistry including problem-solving techniques. Topics include thermochemistry,

thermodynamics, kinetics, equilibrium, acid-base theory, solubility products, oxidation-reduction, nuclear chemistry, and organic chemistry. Note: This course is not the designated SUNY Seamless Transfer Path course. Before the Fall 2017 this course was entitled "General Chemistry II" (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 135 - Chemistry for Applied Sciences

Prerequisites: Completion of all ENG, RDG and MAT remediation requirements.

Description: A one semester laboratory course encompassing basic principles of inorganic, organic and biochemistry with emphasis on their application. Topics include metric/SI systems, energy, basic atomic theory, stoichiometry, gas laws, solutions, pH, buffers, nomenclature and structure of organic compounds, amino acids, proteins, carbohydrates, lipids and metabolism. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Chemistry

CHE 151 - General Chemistry I

Prerequisites: Completion of all English and Reading developmental courses.

Corequisites: Pre or co-requisite MAT 111 or equivalent.

Description: General Chemistry I is the designated first-semester chemistry course in the SUNY Seamless Transfer Path. This course is recommended for students majoring in science or mathematics or planning for a career as a physician's assistant or medical doctor. This course is a definitive study of chemistry encompassing modern atomic and molecular theory and periodicity. An in-depth study of physical and chemical behavior of matter, including stoichiometry, gas laws, and solutions. The laboratory work reinforces concepts presented in lecture through the application of the scientific method. Emphasis in the laboratory is placed upon accuracy and precision in the development of qualitative and quantitative techniques. This course is designed for students that have taken high school chemistry. If you have not taken high school chemistry, it is advised that you take

CHE 107 before taking this course. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 152 - General Chemistry II

Prerequisites: CHE 151.

Description: General Chemistry II is the designated second-semester chemistry course in the SUNY Seamless Transfer Path. This course is recommended for students majoring in science or mathematics, or planning for a career as a physician's assistant or medical doctor. Topics covered in this course include study of oxidation-reduction reactions, chemical equilibrium, electrochemical cells, thermodynamics, and chemical kinetics. The laboratory emphasizes descriptive chemistry via qualitative analysis, and classical methods of gravimetric, volumetric, and basic instrumental analysis. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 155 - Chemical Calculations and Computer Interfaces

Prerequisites: CHE151

Description: Concurrent Requisite: CHE152 This course trains students on how to use the computer as both a scientific instrument, and publication tool in the increasingly important field of cheminformatics. Students will use new and familiar software suites to collect scientific data and analyze it. They will also learn how to format and present chemical structures in vector format. A basic introduction to molecular computational chemistry will be presented for the purposes of geometry optimization and reaction modeling. SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Chemistry

CHE 200 - Introductory Organic Chemistry

Prerequisites: CHE 131 or CHE 151 or permission of Chairperson.

Description: CHE 200 offers a basic introduction to the world of organic chemistry. A functional group approach, emphasizing structure, nomenclature, preparation and reactivity is used. While the approach parallels CHE 201 to an extent, it is significantly less

demanding and thus cannot be substituted for the higher level course. Nevertheless, many science and pre-professional students with weak backgrounds in chemistry have found CHE 200 helpful as a refresher course before taking CHE 201 - CHE 202. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 201 - Organic Chemistry I

Prerequisites: Minimum of "C" in CHE 152.

Description: This is the first course of the CHE 201 - CHE 202 sequence. This 1st semester course in organic chemistry covers the nomenclature, physical properties, stereochemistry, structure-reactivity relationships, and reaction mechanisms of alkanes, alkenes and alkynes. Laboratory activities include organic synthesis, qualitative analysis and instrumental techniques. (3 lecture, 6 laboratory hours) Laboratory fee applies. Molecular model set required. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 5

Department: Chemistry

Department: Chemistry

CHE 202 - Organic Chemistry II

Prerequisites: Minimum of "C" in CHE 201.

Description: This is the second course of the CHE 201 - CHE 202 sequence. This 2nd course in organic chemistry covers modern spectroscopic techniques and the characteristic reactions of the major classes of organic compounds. A mechanistic approach is emphasized. Laboratory activities include organic synthesis, qualitative analysis, and instrumental techniques. (3 lecture, 6 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Spring, Summer

Credit Hours: 5

Department: Chemistry

CHE 221 - Clinical Chemistry

Prerequisites: CHE 200.

Description: A one-semester course designed to train medical technologists in the principles and practices of the science of clinical chemistry, specimen collection and processing, quality control, modern instrumentation in clinical chemistry, basic physiology, analytical procedures, and correlations of abnormal values with the disease states. Laboratory utilizes modern instrumentation

in the determination of biochemical profiles such as liver, kidney, heart, electrolytes, lipids, thyroid function, pancreatic function and the monitoring of therapeutic drugs. (2 lecture, 6 laboratory hours). Laboratory fee applies. SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Offered: Spring

Credit Hours: 4

Department: Chemistry

CHE 251 - Analytical Chemistry I

Prerequisites: CHE 151 and CHE 152 or CHE 131 and CHE 132

Description: This course is the first in a two-semester course in analytical chemistry. Students are introduced to the fundamental concepts of the chemical analysis. The course discusses analytical methods and techniques in a variety of specific topics: quantitative chemistry in equilibrium applied to acid-base, precipitation, and chelation; electrochemistry; spectroscopy; introductory mass spectrometry; and introductory separation science in chromatography and electrophoresis; etc. Students will be expected to perform chemical analysis; and develop problem-solving and laboratory skills.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 5

Department: Chemistry

CHE 252 - Analytical Chemistry II - Instrumental Methods

Prerequisites: CHE 251

Description: This course is the second in a two-semester course in analytical chemistry. The course covers the design, operational principles and practical application of modern instrumental methods used in chemical analysis. These methods are used in the separation, identification, and quantification of samples. Using a combination of problem-based learning approaches, case studies and traditional lectures, the student will develop critical thinking skills in the areas of instrument selection, method development and data interpretation.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 5

Department: Chemistry

CHE 260 - Biochemistry

Prerequisites: CHE 200 or CHE 201 or permission of Chairperson.

Description: For paramedic science students. This course presents classes of biologically interesting compounds and covers their structure, biosynthesis, and metabolism. Physiological buffers are also presented. The

laboratory stresses analysis of such classes of compounds. (3 lecture, 3 laboratory hours)

Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Spring, Summer

Credit Hours: 4

Department: Chemistry

CHE 295 - Independent Study-Chemistry

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly CHE 699. Students who have completed CHE 699 will not receive credit for CHE 295.

Credit Hours: 3

Department: Chemistry

CHE 297 - Chemistry Research

Prerequisites: Minimum of "C" in CHE 152 or equivalent.

Description: This course is designed to give a chemistry-based research experience to undergraduate students. It includes developing problem-solving skills, using critical thinking, understanding scientific processes, and developing an interest in the field of science for future career pathways. It involves research experiences through working on a research project, exploring scientific interest in intellectual challenges, and developing confidence in problem solving through addressing complex research problems. The students will be working either individually or in groups. Students would require meeting weekly with their professor to discuss progress and their composite research plan. The students will require doing weekly journal entries through the learning management system (eg. blackboard) that will be confirmed by the principal investigator for the integrity of information.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Chemistry

Chinese

CHI

CHI 101 - Beginning Chinese I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Chinese speaking background. Laboratory fee applies. Laboratory component required. SUNY GE-SWOL; SUNY GEN ED-GFOL; NCC GEN ED-GLNW, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Foreign Languages

CHI 102 - Beginning Chinese II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-GLNW, HUM

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

Climatology

CLI

CLI 101 - Introduction to Climatology: Climates of the World

Description: Meteorological elements such as temperature, precipitation, pressure, and wind will be studied to provide an understanding of the different climates around the world. Students will learn how climate can influence agriculture, clothing, housing, and transportation in different parts of the world. The interdisciplinary nature of this course is evident in the study of how scientists have used biology, meteorology, geology, astronomy, physics, chemistry, oceanography and computer modeling to determine the climates of the past and predict the climates of the future. The study of climate change will include astronomical theories, the ocean conveyor belt, ozone depletion, global warming and El Nino and La Nina. Formerly SCI 108. Students who have completed SCI 108 will not receive credit for CLI 101. (3 lecture, 3 laboratory hours) Lab fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-GLNW, LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Computer Processing

CMP

CMP 100 - Computing Technology in Today's Society

Prerequisites: All MAT, ENG 001 and RDG 001 developmental courses requirements must be compl

Description: Prerequisites: All MAT, ENG 001 and RDG 001 developmental courses requirements must be completed.

This course provides the general liberal arts student with a non-technical overview of the roll that computing plays in today's world with a focus on new and emerging technologies.

The lecture component discusses the role of computing in various disciplines and its impact on individuals, institutions and society. The hands-on approach allows the student to become familiar and comfortable with current developments in hardware and software technologies. Examples include Arduinio, an open source electronics platform, and App Inventor, a block language used to develop mobile applications.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 101 - Introduction to Computers

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: An introduction to computers applying critical thinking and problem-solving strategies in science, mathematics and information/data management. The course will address issues of information validity and value judgments. Students will develop both qualitative and quantitative solutions to college-level applications. Topics include computer hardware and software, security, ethics, connectivity, basic networking, presentation software, and an introduction to programming algorithms. Students will have the opportunity to earn digital badges in Digital Competency and PowerPoint Introductory that can be shared with prospective employers via social media sites such as LinkedIn. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring,

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 103 - IT Essentials

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course is designed to provide students with fundamental concepts pertinent to the IT industry related to personal computers, computer hardware, and operating systems software. Students will learn how various hardware and software components work and best practices in maintenance, safety

and security involved in the processing of data. Through lab activities, major emphasis is placed on learning how to assemble and configure computers, install operating systems and popular software packages, as well as troubleshooting hardware and software issues. Upon the completion of this course students will have covered topics found on the CompTIA A+ exam. (4.5 contact hours and 4 credits). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring,

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 104 - Programming Logic and Problem Solving

Prerequisites: Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: The course is an introduction to programming logic and problem solving including programming concepts and terminology. The focus of the course is on critical thinking skills necessary to write computer programs and provides students with an introduction to programming without focusing on the details of programming syntax. This course is intended for students with little or no object-oriented programming experience. (3 lecture hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-CMPS

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 105 - Microsoft Excel Spreadsheets

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course covers spreadsheets using Microsoft Excel, the most widely used spreadsheet software in business. Topics include formatting, formulas and functions, charts, tables, pivot tables, what-if analysis tools, multiple worksheets, power add-ins, specialized functions, and basic macros. It is designed for general liberal arts students interested in obtaining comprehensive hands-on training in Excel. Students will have the opportunity to earn digital badges in Excel Introductory and Excel Advanced that can be shared with prospective employers via social media sites such as LinkedIn. (4.5 lecture hours). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winter, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 106 - Database Processing

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course is an introduction to database processing for business and information systems. Emphasis is placed on the planning, administration, control, and design of database management systems. A database programming language (command files, report generator, and screen files) is also presented. It is suggested that students have previous microcomputing experience and/or programming experience (or CMP 101 and CMP 103) before enrolling in this course (4.5 lecture hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 110 - Data Communications and the Internet

Prerequisites: At least a C in ITE 101 or CMP 103 or permission of Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is designed to acquaint the student with the interface, hardware, software, and the communications protocols necessary to utilize various information systems of both local and global networks. Topics include: installation of communications hardware and software, Local Area Networks (LAN), Wide Area Networks (WAN) and the internet, along with governance and structure of computer networks. Sites and domains, remote connections, file transfer protocols, electronic resources, navigation of remote domains and networks, networking security, societal impact and related issues will be covered.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 112 - Hypermedia

Prerequisites: CMP 103, CMP 110 and CMP 210, or permission of the Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course introduces the student to the essentials of developing multimedia presentations for on-line documentation and system tutorials. Various commercial computer hardware and software are employed throughout the course. Programming skills are utilized to combine

video and audio, and text to compile effective and powerful presentations. Topics include programmatic animation, image and voice digitizing and their associated file formats, hypertext, system requirements, integration into other software products and presentation techniques. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 115 - Computers in Business

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course introduces the role of computers and data processing in the business environment. Topics include: essential business computer concepts, computer hardware/software, modern business computer systems, the Internet, data communications, networking, and systems analysis and design. Electronic spreadsheets are used to emphasize business analysis and decision-making using computers. Students will not receive credit for both CMP 115 and CMP 117. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 117 - Business Computing: Concepts and Applications

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course is designed to provide the business student with a broad-based background in the use of computer systems in business and industry. An overview of computer hardware and software concepts with their impact on business systems is an integral part of the course. Students are introduced to a variety of information systems and the development life cycle utilized in the private sector. The importance of networking structures and the analysis of data flow within business and management information systems (MIS) are covered. Use of the Internet for global electronic commerce is discussed. The hands-on component of the course provides students with substantial use of spreadsheet, database and presentation software to analyze data and solve real-life business problems. Students will be introduced to databases that exhibit the hierarchy of data and the relational database model. Students will not receive

credit for both CMP 115 and CMP 117.

Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 160 - Data Preparation with SAS

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: SAS (Statistical Analysis System) is a complete programming language and is widely used in the Data Science field. This course is an introduction to writing SAS programs. The student will be introduced to accessing data, reading raw data files, formatting data values, using SAS functions, combining datasets, controlling input and output, using do loops and arrays, creating summary reports, creating detailed reports, and creating temporary and permanent datasets of all formats (text, csv, Excel, etc.) SAS software will be used extensively throughout the course.

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 205 - Survey of Operating Systems

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: Students are introduced to the basic concepts of operating systems and will study the similarities and differences between at least three current and popular architectures and user interfaces. Topics include shell languages, file structures, background processes, system software, including editors, and system utilities. These topics will be covered for each of the different systems. Theoretical concepts covered include multi-tasking, inter-process communication and system administration. Use of both written and on-line system documentation is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 207 - Computer Organization & Assembly Language Programming

Prerequisites: At least a C in CMP 211. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: Implementation and discussion of registers, addressing modes, relocatability, base arithmetic, data representation, assembly and linkage using a particular instruction set and architecture. Topics include arithmetic calculation, memory organization, flow of control, address modification and access methods, bit and byte manipulations, I/O, user and system interrupts, routines and macros. Intended for Computer Science majors (4.5 lecture hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 208 - Network Management

Prerequisites: CMP 103 and CMP 110, or permission of the Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is designed to cover fundamental and advanced concepts in network theory and system administration. Use of the network operating system in planning and management of directory services and network file systems are stressed. Additional topics include: management of devices, application software and mail systems, data communications, network security, setting up and maintaining user accounts, protecting network data, and network printing. This course contains knowledge units typically needed for professional certification. The lab portion of the course will incorporate a widely used network operating system (4.5 lecture hours). Students may be required to purchase compatible hard drives and/or slide trays. (Approximate cost: \$125) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 209 - Network Server Configuration

Prerequisites: At least a C in CMP 208 or permission of the Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is designed to cover advanced concepts in network configuration and implementation. Topics include methods of installation, and upgrading of server operating system software along with implementation, merging and migration techniques. Configuration and applications of multiple protocols including, Web server and File Transfer Protocol (FTP) services, will also be discussed. This course contains knowledge

units typically needed for professional certification. Students may be required to purchase compatible hard drives and/or slide trays. (Approximate cost: \$125) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 210 - Computer Science I

Prerequisites: At least a C in CMP 104 or equivalent, or prior programming experience including HS programming courses, or MAT 111 or equivalent including HS pre-calculus, or permission of department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is an introduction to computer programming and algorithmic problem solving using an object-oriented, high-level programming language. Emphasis is placed on problem-solving strategies that utilize multiple classes and methods. This course will focus on the following concepts: algorithm implementation, modular development, documentation, abstraction and coding along with problem-solving strategies. Includes supervised hands-on component. (4 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-CMPS

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 211 - Computer Science II

Prerequisites: At least a C in CMP 210. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course expands on the design of object-oriented programs introduced in Computer Science I. Students will be introduced to abstract data types including stacks, queues, and lists. Emphasis is placed on the design and implementation of these abstract data types as well as applications that utilize them. Object-oriented programming concepts such as composition, inheritance, polymorphism, and exception handling are utilized throughout this course. An introduction to binary trees and recursion is provided. Includes supervised hands-on laboratory component. (4 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-CMPS

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 214 - Applications Development

Prerequisites: CMP 218 or CMP 219, and CMP 252. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is an introduction to computer programming using a GUI (Graphical User Interface) programming language. Business and information system applications are developed using Visual Basic. The course introduces the concepts of event-driven programming, terms, rules, and programming components. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 217 - C Programming Language

Prerequisites: At least a C in CMP 211 or CMP 219 or CMP 218, or permission of the Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: The C programming language is widely used in both the computer industry and as a tool for studying advanced topics in the area of Computer Science. Topics include language syntax, scalar and compound data types, pointers, functions, operators, modular coding practices and files. Both the ANSI version and traditional C are discussed with emphasis on the former. This course is designed to meet the needs of the student considering further study in the area of Computer Science and Information Processing, and the computer science professional. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 218 - Java Programming Language

Prerequisites: At least a C in ITE 154, or permission of Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: As part of this course, students should avail themselves of further study and/or educational assistance available in the Computer Center in B225. Use of the resources in the Computer Centers is deemed an integral part of the course, and will help the student master necessary knowledge and skills. This course is an introduction to object-oriented programming using the Java programming language. Students will become familiar with the concepts of objects and classes, inheritance, polymorphism, and encapsulation. Topics include creating graphical user interfaces, servlets, networking,

and exception handling. Optional topics include applets and multi-threading. (4.5 lecture hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 219 - Object Oriented Programming in C++

Prerequisites: At least a C in CSC 130 or ITE 204 (or equivalent).

Description: This is a course in object-oriented design and programming using C++ and is intended for students who already have a firm understanding of the object-oriented paradigm including objects, classes, and inheritance. The topics presented prepare the student for advanced study in Computer Science and Information Systems. Topics include C++ basics, I/O streams, class definition, friend functions and operator overloading, dynamic memory allocation/deallocation, dynamic binding, and virtual functions. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 220 - Analysis of Computer Architecture and Software

Prerequisites: At least a C in CMP 207. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: The fundamentals of computer systems are examined. Computer architecture and the many levels of software systems are studied. Topics include microarchitecture, microprogramming, conventional machine language, operating system software, assemblers, linkers and loaders, compilers and interpreters, codes and networks. A term project is directed in one of these areas. Intended for Computer Science majors. Fall evening and spring day only. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 251 - Data Structures

Prerequisites: A grade of C or better in CMP 211. Students must have satisfied all MAT, ENG and RDG remediation prior to starting the course.

Description: Concepts, implementations, and applications of advanced data types and structures. Data structures presented include priority queues, hash tables, and search trees. Concepts covered include recursion, algorithm

efficiency, best and worst time analysis, and advanced tree structures and graphs. Fall evening and spring day only. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CMP 252 - Database Management and Development

Prerequisites: At least a C in ITE 154, or permission of Department. Students must have satisfied all MAT, ENG and RDG remediation requirements prior to starting the course.

Description: This course is an introduction to database processing for business. Emphasis is placed on the planning, administration, control and design of database systems. Students learn to develop applications using a popular DBMS software package. (4.5 lecture hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 294 - Cooperative Education Internship

Prerequisites: Permission of Department, approval by the Agency offering the internship, a minimum of 9 CMP credits, and a minimum GPA of 2.75.

Description: This is a course integrating classroom study with career related professional training in the area of Information Technology. The student will be placed in a corporation, small business or other setting related to the field of Information Technology and will gain work experience that enriches the theoretical concepts developed in the classroom.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CMP 295 - Independent Study- Computer Processing

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly CMP 699. Students who have completed CMP 699 will not receive credit for CMP 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Communications

COM

COM 000 - Academic Listening and Speaking for Beginner ESL Students

Prerequisites: Placement into class.

Description: COM 000 is for English language learners at a beginner level whose goal is to be successful in credit-bearing courses at NCC. This course will strengthen conversation skills and introduce speaking and listening in the academic setting. Students will expand their vocabulary to improve oral comprehension and production. Emphasis will be placed on guided pronunciation and grammar practice in oral expression. The students will be assessed through numerous measures, including written and spoken responses to beginner academic audio and video material, conversations, and roleplays. Mastery of these skills will prepare the student for entrance into COM 010 or higher. Laboratory component required. (3 class hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 010 - Academic Listening and Speaking for Low Intermediate ESL Students

Prerequisites: Successful completion of COM 000 or placement into the class.

Description: COM 010 is for English language learners at a low intermediate level whose goal is to be successful in credit-bearing courses at NCC. This course will build academic listening and speaking skills. Students will expand their vocabulary and improve oral comprehension and production for effective participation in college classes. Emphasis will be placed on pre-listening strategies, notetaking, and guided listening comprehension practice. Additional emphasis will be placed on improving pronunciation, grammar, the ability to express opinions, and other speaking skills. The students will be assessed through numerous measures, including written and spoken responses to low intermediate academic audio and video material, discussions, short group presentations, and simple debates. Mastery of these skills will prepare the student for entrance into COM 020 or higher. Laboratory component required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 020 - Academic Listening and Speaking for Intermediate ESL Students

Prerequisites: Successful completion of COM 010 or placement into the class.

Description: COM 020 is for English language learners at an intermediate level whose goal is to be successful in credit-bearing courses at NCC. This course will strengthen academic listening and speaking skills and introduce presentational speaking. Students will develop college-level communicative competence through guided practice in pre-listening strategies, notetaking, and guided listening comprehension practice. Emphasis will be placed on improving pronunciation, grammar, pacing, projection, vocal variation, and other delivery skills. Students will be assessed through numerous measures, including written and spoken responses to intermediate academic audio and video material, short speeches, presentations, and debates. Proficiency in these skills will prepare the students for entrance into ESL-designated COM 103/201 courses or placement out of the Communications requirement altogether. Laboratory component required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 030 - Public Speaking for Non-Native Speakers (ESL III)

Prerequisites: Placement test.

Description: COM ESL III is a preparatory public speaking course for advanced ESL students. It teaches organizational, research, and delivery skills. Students will learn how to carry out research, create a bibliography, write an outline, and deliver an informative speech. Improved fluency and clear articulation in English are also goals of this course. This course is offered only in conjunction with the credit bearing (3 credits) course COM 103. The courses will be given in an intensive (four days a week) format, and both can be completed in one semester.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 101 - Interpersonal Communications

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: This course is a study of the historical and contemporary principles and concepts of human communication. An examination of the interpersonal communication process will help the student gain an awareness of the elements which both aid and hinder communication. Skills which will increase communication effectiveness will

be studied, including verbal and nonverbal behavior, listening, assertiveness, and conflict resolution. Course will incorporate an analysis of theoretical applications.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GBCM, GHUM, NCC GEN ED-COM, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 103 - Public Speaking

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Principles and practices of public speaking. Emphasis in public speaking on preparation and presentation of speeches, selection of materials, organization and development, delivery, audience analysis, critical listening, and constructive evaluation. Three researched, informative speeches are required.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GBCM, GHUM NCC GEN ED-COM, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 104 - Film Appreciation

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: The study of film as an art form and as popular culture. Through readings, discussions, and viewings of historical and contemporary films of various genres, the aesthetics of film's form and narrative components are examined. Films are analyzed for meaning and merit using various models of film theory and criticism.

SUNY GE-SART, SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 107 - Film Production I

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A study of the creative & artistic concerns & fundamental processes involved in filmmaking. Emphasis on the preproduction planning, shooting, editing & screening of films. Material fee applies.

SUNY GE-SART, SHUM; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 109 - Television Journalism

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A comprehensive study of electronic journalism as prepared and presented through the medium of television. Students engage in the creation of television news production. Students develop a critical awareness of television news. SUNY GE-SCOO, SCOW; SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 110 - Understanding Mass Media

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: The study of mass media, radio, television, film, print, advertising of our time. How do the media reshape and restructure us as individuals, in the social group and as a "global village"? How do mass media work on the inside? How do mass media work outside on the lives of the consumers?

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 112 - History of Film

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A history motion pictures as entertainment, art, and education. This course examines artistic influences and techniques that have affected the development of the medium, and looks at film's role from a social and historical perspective as it reflects or challenges an era's prevailing ideological, political, and social attitudes.

SUNY GE-SART, SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 113 - Documentary Media

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Historical development, content and social and artistic impact of the

documentary are analyzed. The emphasis of the course is an examination of the distinctions and similarities in form and content of the documentary as it has developed through radio, television and film.

SUNY GE-SART, SDES, SHUM; SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 119 - Oral Interpretation

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Experiences in interacting with an audience, using prose and poetry as vehicles for oral interpretation. Different types of literature are used to develop skills in analysis and performance based on understanding principles of interaction in oral interpretation. Final goal consists of original programs, created and performed by students in class.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 121 - Small Group Communication

Prerequisites: Students must have satisfied English remediation requirements and RDG 001 prior to starting the course.

Description: Theory and practice in assuming membership and leadership roles in decision-making groups, with emphasis upon the individual's ability to communicate and thus interact more effectively. Group process is investigated as it relates to each individual's ability to communicate.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 123 - Argumentation and Debate

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Provides students an opportunity to locate, organize and use rational arguments both for and against controversial issues of national importance. Classroom debates promote skill in cross-examination, detecting faulty reasoning and refuting opposing views. For all students, particularly those interested in business and the professions.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GBCM; NCC GEN ED-HUM, COM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 124 - Communication for Business and the Professions

Prerequisites: COM 101. Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A course designed to acquaint students with the fundamental principles and concepts of communication within the organizational environment. It assists in developing interpersonal skills needed for effective performance in business and the professions. The course examines the communication implications of organizational structure on the processing, networking, and transaction of messages. The communication climates of organizations are analyzed.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Communications

COM 125 - Effective Listening

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: The study of the theories of listening and the application of principles of effective listening in academic, professional, and personal situations. Students will analyze and test their own listening patterns and engage in exercises to improve listening skills.

SUNY GE-SHUM; SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 130 - Communication in Black America

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: (Dual listed with AFR 197) A study of how oral communication functions in various relationships. Emphasis on discussion, group exercises, role playing. The role of oral communication in the Black experience.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 170 - Radio Production

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: An introduction to the medium of radio with an emphasis on basic radio production. Students gain competence in using radio equipment and producing programs in various formats. The course will examine the role of program elements to support business and public interest aspects of the medium. Laboratory fee applies.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 171 - Television Studio Production

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Designed to give the student a creative grasp of the art and craft of television production in a studio setting. Students develop skills in the aesthetic as well as technical aspects of television in the practical setting. Emphasis is on the production process by developing group and individual projects. Laboratory fee applies.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, FAPA

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 172 - Video Field Production

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Introduces the foundational concepts, techniques, and equipment of single camera video production in a field setting. Students write, produce, and edit a variety of projects, using digital video cameras and non-linear post-production software.

SUNY GE-SART, SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, FAPA

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 201 - Voice and Diction

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A study of the structure and function of the speech and voice mechanism. The course is designed to provide training for the improvement of articulation and voice quality. The International Phonetic Alphabet and its use in recording the sounds of American English are studied. Emphasis is given to the practice and application of

principles basic to good speech production. Voice recordings and individual conferences with the instructor are required of all students. SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 202 - Persuasive Speaking

Description: Students who have taken COM 102 will not receive credit for COM 202. Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Examines the role of persuasion in contemporary society. Focus on both the technical and ethical aspects of persuading. Study of attention, various appeals, and structure in adapting to audiences. Assigned speeches.

SUNY GE-SOO, SCOW, SHUM; SUNY GEN ED-GBCM; NCC GEN ED-HUM, COM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 203 - Phonetics

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: This course will provide students with a strong foundation in the study of human speech by focusing on the physiological aspects as well as the physical components of speech sounds. Students will study the anatomy of the vocal tract, articulation processes, dialects and accents, the articulatory and acoustic properties of speech sounds, the International Phonetic Alphabet, and the direct application of phonetic principles. This course is intended to fit within the recommended sequence of course work to be completed by undergraduates who wish to enter the fields of Speech Pathology/Audiology, Linguistics, and TESL/TEFL.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 209 - Introduction to Speech and Hearing Therapy

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: A study of speech & hearing disorders, their diagnosis & treatment. Review of the physical, emotional & intellectual interrelationships of language & speech development. Provide a comprehensive

overview of the field of speech & hearing therapy. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 210 - Global Media

Prerequisites: Students must have satisfied all ENG and RDG remediation requirements prior to starting the course.

Description: The study of international, national, transnational, and global media. The course will deal with the media systems in other countries, the exportation of American media products, and how other cultures use the media to tell stories.

SUNY GEN ED-n/a; NCC GEN ED-GLNW, HUM

Offered: Spring, Summer

Credit Hours: 3

Department: Communications

COM 220 - Communication and Language

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Communication and Language is an advanced course which teaches the meaning of oral language codes and explains how and why language takes the form we observe. Issues that underlie varieties of speech such as sexism, racism, and social status are examined, and the specific mechanisms of these codes are revealed. Special emphasis is given to the oral patterns used by men and women, to the pragmatic aspects critical to communicative function, and to the study of dialectical variety and bilingualism.

SUNY GE-SDES, SHUM; SUNY GEN ED-GBCM; NCC GEN ED-PLDI, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 222 - Nonverbal Communication

Prerequisites: Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Theories and methods of nonverbal communication. Emphasis on the analysis and significance of nonverbal cues and their effects on behavior in daily living. Participation in exercises demonstrating various aspects of nonverbal communication including body language, eye movement, smell and space and time relationships. Exploration of nonverbal behavior of other cultures and subcultures. Mini-projects in observing and

recording nonverbal behavior in many kinds of situations including those in which nonverbal norms are violated.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Communications

COM 224 - Intercultural Communications

Prerequisites: Students must have satisfied English developmental requirements and RDG 001 prior to starting the course.

Description: This course will examine the factors that help people understand, adjust to, and interact with others of diverse cultures. The focus will be on the strategic role of communication within the context of sociocultural factors that affect communication style and effectiveness. Students will become familiar with major theory and research in intercultural communication and have an opportunity to develop and practice those competencies that will increase their effectiveness in intercultural interactions.

SUNY GE-SDES, SHUM; SUNY GEN ED-n/a; NCC GEN ED-PLDI, HUM

Offered: Fall

Credit Hours: 3

Department: Communications

COM 290 - Media Practicum

Prerequisites: Departmental permission. Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: Supervised practical experience at media facilities providing the students with situations in which they can apply concepts learned in previous media courses. Field experience and future career opportunities will be discussed in a collateral on-campus class. The focus of this course is on media technology. (Prior coursework in media or permission of the Departmental Chair required.) Three credits (1 1/2 hours classroom lecture, discussion; 12 hours field experience) SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Communications

COM 295 - Independent Study-Communications

Prerequisites: Departmental permission. Students must have satisfied all ENG remediation requirements and RDG 001 prior to starting the course.

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly CRJ 699. Students who have

completed CRJ 699 will not receive credit for CRJ 295.

Credit Hours: 3

Department: Communications

Criminal Justice

CRJ

CRJ 101 - Police Organization and Administration

Description: Administrative principles and practices which apply to law enforcement and public safety agencies, including the formulation of policy and procedures, rules and regulations, deployment, coordination of activity, and the enactment of procedural and tactical planning.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 105 - Foundations of the Justice System

Description: Students will be provided with basic knowledge of the philosophy, structure and processes utilized in the delivery of justice. This survey of justice will provide students with the necessary knowledge so they can understand and impact the system to enable it to best serve individual and/or societal needs.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 106 - Understanding Criminal Behavior

Description: Focuses on a branch of criminal justice dealing with criminal behavior in relation to legal principles and court cases. Practical aspects of assessment, management and treatment functions of the practitioner will be examined from both a clinical and a behavioral perspective. Students will explore theories, techniques and research methods associated with judicial settings and correctional institutions.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 110 - Introduction to Correction

Description: A survey of the correctional field: origins, development, current status, and future prospects. The course is intended for students who would like to explore the field of

corrections. The focus is on the current state of corrections, with enough background material to illuminate relevant contemporary events.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 111 - Probation and Parole I

Description: This course focuses on two important components of the correctional system which are frequently used as alternatives to incarceration of offenders. Students are introduced to the historical development of these systems, as well as to their legal aspects and the theories governing probation and parole. This course gives particular emphasis to the impact of these systems in the Criminal Justice System.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 112 - Probation and Parole II

Prerequisites: CRJ 110, CRJ 111, or CRJ 215 or permission of instructor or chairperson.

Description: This course reviews relevant issues in probation and parole systems which require in-depth analysis. Major problems are thoroughly examined and possible solutions are suggested. These areas cover a wide range of problems which have been in existence for long periods of time, and those which have developed as a result of the emergence of new technology or change in philosophy in the correctional discipline.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Criminal Justice

CRJ 113 - Community Based Corrections

Description: This course assists students in understanding the principles and philosophy of alternatives to incarceration. The course focuses on the various correctional programs available to offenders which are designed to assist the individual to make a more realistic adjustment to normal community living following the commission of a criminal offense or delinquent act.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 201 - Criminal Investigation

Description: This course examines the theories and practices of criminal investigation

through each of the germane aspects, commencing with the discovery of a potential crime, through crime scene and evidence methodology, through the secondary investigative steps of examination, interview, interrogation and case preparation. Emphasis is placed on the utilization of evidence and testimony to prove both the elements of specific crimes and the identity of the specific criminal(s).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 203 - Police and the Community

Description: The importance of good police community relations is stressed, as well as the factors that go into the effort to achieve them. The course gives the student an in-depth review of the past and the present state of police community relations, as well as an assessment of what will be required in the future. The impact of politics, unionism, minorities and media relations on the police and the public they serve is analyzed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 206 - Dispute Resolution (Mediation)

Description: This course focuses on the differences between mediation, arbitration and fact finding, and how each of these processes is used on the Federal, state, and local level. A comparative study of dispute resolution centers throughout the United States, and how these centers are used as an alternative to the Criminal Justice System. The course will provide outlines for student participation in role playing dispute situations, and how the disputes are resolved, including the final agreement between the parties.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 207 - Criminal Justice Internship

Description: Permission of Department required.

This course offers a classroom seminar and assignment in various agencies within the Criminal Justice System, providing students with the opportunity to include an internship in their studies and to integrate classroom learning with practice before considering entering the criminal justice professions. Field experience will occur in Police, Sheriff, Probation, Correction, Parole,

County Attorney, District Attorney, and related agencies at the local level. Students will become acquainted with the function, structure, staff and clientele of these Criminal Justice agencies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 212 - Research in Crime and Security

Prerequisites: At least nine credits of Criminal Justice and/or Private Security Administration.

Description: (Dual listed with PSA 241)

This seminar type course offers the student an opportunity to examine specific issues, conflicts or controversies in one or more of the following discipline areas: law enforcement, loss prevention, the courts, and corrections. An interdisciplinary approach is stressed for a broader understanding. Each student is required to complete a research project under the direction of the instructor in the student's chosen area of examination.

SUNY GE-SCOO, SCOW; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 215 - Introduction to Juvenile Delinquency and Justice

Description: The organization, functions, and jurisdiction of juvenile agencies; the processing and detention of juveniles. A comprehensive study of the state law relating to youthful offenders.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 216 - Investigation Interviewing and Counseling

Description: This course examines the various functions of investigations conducted on offenders, preparation of reports for various agencies, interviewing techniques most applicable to the correctional client, and the various issues involved in the counseling of these specific types of clients.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 217 - Contemporary Issues in Corrections

Prerequisites: CRJ 105 or CRJ 110 or permission of instructor or Department chairperson.

Description: An examination of the most relevant issues in corrections at this time. Correctional treatment, sentencing practices and impact on correctional policy, violence in prison, community based treatment of the offender, minority offenders and other issues are analyzed in depth.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 218 - International Criminal Justice Systems

Description: Permission of instructor.

This study tour will examine the criminal justice systems of foreign nations. Students will visit courts, penal institutions, assessment and treatment centers for both youthful and adult offenders. In addition, discussions with government officials and criminal justice practitioners are planned. Participants will have an opportunity to contrast and compare the criminal justice systems of these countries with that of the United States. Travel costs are extra.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Winterim

Credit Hours: 3

Department: Criminal Justice

CRJ 219 - Sentencing Alternatives and the Juvenile Delinquent

Prerequisites: CRJ 215.

Description: A seminar course that will focus on presenting functional sentencing alternatives for juvenile delinquents and persons in need of supervision (PINS). The course objectives will involve instruction supported by an active learning environment, including campus-based fieldwork. Students will participate in conflict resolution and mediation, teen court scenarios, diversion programs and a wide variety of other community based sentencing alternatives. Students, under faculty supervision, will have an opportunity to interface with agencies that provide alternative sentencing programs in Nassau County.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

CRJ 220 - Women in the Criminal Justice System

Description: This seminar will explore the various theoretical explanations underlying contemporary female criminality. The issues

of female victimology, women as offenders & female practitioners in the criminal justice system will be examined. Problems within the various rehabilitative and punitive sentencing alternatives will be identified and analyzed. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Criminal Justice

CRJ 221 - Police Supervision and Public Relations

Description: A seminar course on the administration of justice & community relationships. It utilizes the interdisciplinary activities & emphasizes the evaluation of police facilities at the community level. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Criminal Justice

CRJ 225 - Criminal Law

Description: Introduction to the origin and function of the substantive criminal law of New York State; review and analysis of the elements of major offenses at common law and under modern penal codes, and the available defenses; review and discussion of leading judicial interpretations of penal codes. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 226 - Criminal Procedure

Description: Devoted to the study of the criminal law administration as mandated by the Supreme Court of the United States through legal controls over police investigative procedures. Specifically, the 4th, 5th, 6th, and 14th Amendments of the U.S. Constitution and the New York criminal procedure law are discussed and analyzed through the case law. Special emphasis is placed on procedures involving arrests, searches and seizures, warrants and interrogation.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

CRJ 227 - Constitutional Law

Description: Introduces the student to the institutional aspects of the U.S. Constitutional system. Historically, the relationship between the Federal Constitution (the Bill of Rights and 14th Amendment) and the states is traced through a study of the decisions of the United States Supreme Court.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 228 - Law of Evidence

Description: A brief analysis of the law of evidence for undergraduates which will be beneficial to police officers and students intending to enter the field of criminal justice and law.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Criminal Justice

CRJ 230 - Introduction to White Collar Crime

Description: This class focuses on the different types of white collar crime such as identity theft, antitrust violations, bank fraud, computer/Internet fraud, economic espionage, counterfeiting, embezzlement, money laundering, bribery, securities fraud among others. Secondary aspects include theories/explanations of white collar crime, enforcement, adjudication and criminal statutes.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

CRJ 295 - Independent Study-Criminal Justice

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly CRJ 699. Students who have completed CRJ 699 will not receive credit for CRJ 295.

Credit Hours: 3

Department: Criminal Justice

Computer Repair Technology

CRT

CRT 201 - Personal Computer Equipment Servicing I

Description: This course is the first of a two-course sequence designed to provide the skills required to install, service and maintain personal computers and their peripheral devices. Topics include microcomputer fundamentals; PC hardware; the addition or replacement of field replaceable modules; installation and configuration procedure for various devices; common problems associated with each module and troubleshooting

techniques. Microprocessor support systems, memory systems, on-board I/O, expansion slots, system board upgrading and troubleshooting conclude the course. Department computer facility will be used for all laboratory work. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CRT 202 - Personal Computer Equipment Servicing II

Prerequisites: CRT 201

Description: This course is the second of a two-course sequence designed to provide the skills required to install, service, and maintain personal computers and their peripheral devices. The course begins with coverage of input/output devices, including coverage of serial and parallel ports, troubleshooting port problems. The construction, installation and troubleshooting of input devices such as keyboards, mice, trackballs, joysticks, light pens, touch-screens and scanners are discussed. Magnetic storage is then covered including disk drive operation, floppy disk drives, hard disk drives, RAID systems and tape drives. Video displays, including CRT basics, color monitor video standards, video controllers, liquid crystal displays and gas plasma displays are covered. The characteristics, mechanics, installation and troubleshooting of dot-matrix, ink-jet and laser printers are studied. Data communications is covered, including modems, local area networks and wide area networks. Department computer facility will be used for all laboratory work. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Computer Science

CSC

CSC 104 - Programming Logic and Problem Solving

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: The course is an introduction to programming logic and problem solving including programming concepts and terminology. The focus of the course is on critical thinking skills necessary to write computer programs and provides students with an introduction to programming without

focusing on the details of programming syntax. This course is intended for students with little or no object-oriented programming experience. Students who have completed CMP 104 will not get credit for CSC 104. (3 lecture hours) SUNY GEN ED-n/a; NCC GEN ED-CMPS, FBAE, MBAE

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CSC 120 - Computer Science I

Prerequisites: At least a C in CSC 104 or at least a C in MAT 111 or permission of Department.

Description: This course is an introduction to computer programming and algorithmic problem solving using an object-oriented, high level programming language. Emphasis is placed on problem solving strategies that utilize multiple classes and methods. This course will focus on the following concepts: algorithm implementation, modular development, documentation, abstraction and coding along with problem solving strategies. Includes supervised hands-on component.

Students who have completed CMP 210 will not receive credit for CSC 120. (4 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-CMPS

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CSC 130 - Computer Science II

Prerequisites: At least a C in CSC 120.

Description: This course expands on the design of object-oriented programs introduced in Computer Science I. Students will be introduced to abstract data types including stacks, queues, and lists. Emphasis is placed on the design and implementation of these abstract data types as well as applications that utilize them. Object-oriented programming concepts such as composition, inheritance, polymorphism, and exception handling are utilized throughout this course. An introduction to binary-trees and recursion is provided. Includes supervised hands-on laboratory component. Students who have taken CMP 211 will not receive credit for CSC 130. (4 lecture, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-CMPS, FBAE, MBAE

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CSC 217 - C Programming Language

Prerequisites: At least a C in CSC 130 or CMP 219 or ITE 204, or permission of the Department.

Description: The C programming language is widely used in both the computer industry and as a tool for studying advanced topics in the area of Computer Science. Topics include language syntax, scalar and compound data types, pointers, functions, operators, modular coding practices and files. Both the ANSI version and the traditional C are discussed with emphasis on the former. Typically fall day and spring evening. Students who have completed CMP 217 will not receive credit for CSC 217. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CSC 230 - Data Structures

Prerequisites: At least a C in CSC 130.

Description: This course introduces the programming literate student to the advanced data types and structures of priority queues, hash tables, and search trees. The concepts covered in this course include recursion, algorithm efficiency, best and worst time analysis, and advanced tree structures and graphs. Typically fall day and spring evening. Students who have completed CMP 251 will not receive credit for CSC 230. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CSC 240 - Mobile Application Development

Prerequisites: At least a C in CSC 130 or permission of the Department

Description: This course introduces students to the emerging field of mobile device software development. Capitalizing upon their prior experience in general-purpose object-oriented program development, students will learn how to write and test programs for handheld devices. Students will learn about the hardware limitations of handheld devices and how to optimize performance for them. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

CSC 250 - Computer Organization and Assembly Language Programming

Prerequisites: At least a C in CSC 130.

Description: Implementation and discussion of registers, addressing modes, relocatability, base arithmetic, data representation, assembly and linkage using a particular instruction set and architecture. Topics include arithmetic calculation, memory organization, flow of control, address modification and access method, bit and byte manipulations, I/O, user and system interrupts, routines and macros. Typically fall evening and spring day. Students who have completed CMP 207 will not receive credit for CSC 250. (4.5 lecture hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 4

Department: Math/Computer Science/Info Tec

CSC 260 - Computer Architecture and Organization

Prerequisites: At least a C in CSC 130.

Description: This course covers the fundamentals of computer architecture and organization. Topics include: classical von Neumann machines, major functional units, primary memory, representation of numerical (both integer and floating point) and non-numerical data, CPU architecture, instruction encoding, the fetch-decode-execute cycle, instruction formats, addressing modes, symbolic assemblers, assembly language programming, handling of subprogram calls at the assembly level, mapping between high level language patterns and assembly/machine language, interrupts and I/O operations, virtual memory management, and data access from magnetic disk.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Culinary

CUL

CUL 101 - Culinary Sanitation

Description: This Culinary Sanitation course is an introduction to Federal, State, and Local regulations and the origins of foodborne illness and the implementation of HACCP (Hazard Analysis and Critical Control Points). The importance of food safety, good personal hygiene, time and temperature control, preventing cross-contamination, cleaning and sanitizing, safe food preparation, receiving and storing food, methods of thawing, cooking, cooling and reheating food, HACCP and food safety regulations are intensively covered. The National Restaurant Association ServSafe

exam will be administered in this course to fulfill course requirements.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 110 - Introduction to Culinary Arts

Description: Pre or Concurrent Requisites: CUL 101

This course is an introduction to food preparation emphasizing basic culinary skills, practices, and the complete sanitation program in food establishments. Chef Instructor demonstrates proper culinary methods and preparations. Students then perform learned skills. Students are required to produce foods and clean and sanitize the kitchen laboratory. Lifting required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 120 - Classical French Cuisine

Description: Pre or Concurrent Requisites: CUL 101

The French Classical course utilizes lectures, demonstrations and production to expose students to the preparation of traditional French Cuisine. French menu terminology, tableside cooking and compound sauces are taught. Emphasis is placed on sautéing, baking, roasting, braising, and poaching. Time management, station organization, palate development, and in depth knowledge of plate design and styling will be developed. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 130 - American Regional Cuisine

Description: Pre or Concurrent Requisites: CUL 101

The American Regional Cuisine course utilizes lectures, demonstration and production to focus on cuisines from across the United States, specifically, California, Hawaii, New England, Mid-Atlantic, South, Floribbean, Texas, Southwest and the Rocky Mountains. The proper use of knives, tools, small wares and kitchen equipment will be expounded upon. Grilling, broiling, roasting and deep frying will be thoroughly covered. Extensive focus will be placed on food cost control, ingredients and plate presentations. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 140 - Baking I

Description: Pre or Concurrent Requisites: CUL 101

The Baking I course utilizes lectures, demonstrations and cooking for an integrated approach to mastering the fundamentals of baking. The student is introduced to quick breads and yeast-raised laminated doughs (breads and rolls), puff pastry, pâté à choux, mousses, custards and creams, with a daily emphasis on plated desserts. The formulation and calculating baker's mathematics, the uses of baking equipment, scaling, shaping techniques, inventory control and sanitation are also covered. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 155 - International Travel Culinary/ Hospitality

Description: This course provides the opportunity for students to study abroad at various culinary, hospitality and tourism facilities with a purpose of enhancing their skills and cultural understanding. It will include hands on training at distinguished culinary schools, research on visits to cultural sites, farms, food producers, and hospitality facilities. Special expenses for students will include airfare, food and lodging, taxes, etc. for up to two weeks..

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Hospitality Business

CUL 210 - Culinary Nutrition

Description: Pre or Concurrent Requisites: CUL 101

The Culinary Nutrition course utilizes lectures, demonstration and production to focus on the principles of nutrition, basic nutrients and related health concepts. Eating behaviors, recommended dietary intakes, and tools for healthy eating patterns are emphasized. Students are introduced to the cooking techniques of steaming, poaching, reduced salt and fat free meals. Lecture, demonstration and production revolve around nutritional analysis of menus and recipes, and the sensory properties of food. The focus is on production of flavorful and nutritionally balanced entrees, vegetables and grains. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 220 - International Cuisine

Prerequisites: CUL 110, CUL 120

Description: This 15 week International Cuisine course utilizes lectures, demonstrations and production to prepare, taste, serve and evaluate traditional and regional dishes of North America, South America, The Caribbean, Asia, Europe and the Mediterranean. Emphasis will be placed on ingredients, flavor profiles, preparations, and techniques representative of the area. Students will also develop and in depth knowledge of plate design and styling. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 230 - Garde Manger

Description: Pre or Concurrent Requisites: CUL 101

The Garde Manger course utilizes lectures, demonstration, and production to focus in preparation of cold entrees. The student will be introduced to the production of pâté's terrines, sausages, galantines and hors d'oeuvres. Special emphasis will be placed on preservation techniques (curing and aging). This course will emphasize platter designs and plate presentations. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 240 - Baking II

Prerequisites: CUL 140

Description: The Baking II course utilizes lectures, demonstration and cooking for an integrated approach to mastering the fundamentals of baking. This course provides students with the skills and knowledge of producing cakes, butter creams, and icings. Each student is taught proper mixing methods, assembling, icing, and finishing techniques of a variety of cakes and pies. Students are introduced to rolled fondant and develop their piping skills through intricate patterns and techniques. Students will learn how to temper chocolate for the use of fillings and decorative pieces. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 242 - Culinary Internship

Description: Student's intern with appropriate Food Service Institutions to enrich theoretical concepts previously practiced in the classroom. Students must complete 200 hours on-the-job training as assigned by the instructor in conjunction with assigned papers and coursework. Some office visits are required by the assigned professor.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Hospitality Business

CUL 245 - Commercial Baking

Prerequisites: CUL 240

Description: This course introduces students to the management and operation of a commercial retail bakery. Utilizing a combination of lectures and labs, students will acquire the manual skills and product knowledge necessary to produce and market a range of products. Students will work with mixes, bases, and frozen dough products as well as develop commercial products "from scratch." Advanced methods of baking, product development, cost controls, sanitation and supervisory skills will be included. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 250 - Dining Room Service

Description: Pre or Concurrent Requisites: CUL 101

In the Dining Room course students are introduced to front-of-the-house operations including sales forecasting and professional dining service techniques. Effective communication skills, guest check writing, guest relations and service quality. Students will be introduced and responsible for performing American plate service, Banquets, Buffet, French, Russian, and Family service styles as well as hot and cold beverage service on a daily basis. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 255 - Advanced Dining Room & Banquet Operations

Prerequisites: CUL 250

Description: The Advanced Dining Room and Banquet Operations course builds on skills learned in CUL 250 Dining Room and HTL 178 Event Planning. Students will be responsible for executing all aspects of an on-site café and banquet facilities.

Responsibilities will include menu and labor planning, product development, dining room and beverage service, and the complete execution of catered events. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 260 - Quantity Food Production

Prerequisites: CUL 101

Description: The Quantity Food Production course focuses on the food preparation and cooking methods needed to produce food products on a large scale. The use of quantity food production tools and equipment, standardized recipes, buffet set up and breakdown, and the application of speed and accuracy in large scale food production are stressed. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

CUL 265 - Culinary Seminar

Prerequisites: CUL 110

Description: In the Culinary Seminar, students will develop professional skills needed to market themselves in the workplace. They will be required to design personal portfolios and resumes, create self-marketing strategies and/or business plan. Topics of discussion will include business development skills including financial reconciliation; the use of technology in food service; "Green" techniques and strategies; labor planning and forecasting as well as inventory, receiving and storage. Guest lecturers and professional demonstrations will be included along with "networking" events.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

Dance

DAN

DAN 101 - Dance History

Prerequisites: Satisfactory completion of Remedial Reading.

Description: A study of the development of dance as an art form from the Romantic Era at the end of the 19th century to the contemporary scene. Representative choreographers, dance theories, trends and personalities are discussed. The course

includes film shows and subsequent seminar discussion related to the films, as well as practical workshops for exploring movement concepts and styles. Attendance at dance performances is required.

SUNY GE-SART; SUNY GEN ED-GART;

NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

DAN 105 - Choreography I

Prerequisites: for Dance A.A majors only or permission of the department

Description: This is the first course in the DAN 105 - DAN 106 sequence. The use of improvisation to introduce and develop elements of dance composition through exploration of the factors of space, rhythm and dynamics; solo and group studies. Additional independent studio hours are required (3 hours).

SUNY GE-SART; SUNY GEN ED-GART;

NCC GEN ED-HUM

Offered: Spring

Credit Hours: 2

Department: Theatre & Dance

DAN 106 - Choreography II

Prerequisites: DAN 105.

Description: The use of improvisation to introduce and develop elements of dance composition through exploration of the factors of space, rhythm and dynamics; solo and group studies. Additional independent studio hours are required (3 hours).

SUNY GE-SART; SUNY GEN ED-GART;

NCC GEN ED-HUM

Offered: Spring

Credit Hours: 2

Department: Theatre & Dance

DAN 109 - Dance for Musical Theater I

Prerequisites: for Acting A.A. degree majors only or permission of the Department.

Description: Training for movement for musical theatre with emphasis in modern jazz and tap (3 hours).

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

DAN 117 - African American Dance Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 110 - AFR 111)

This is the first course in the DAN 117 - DAN 118 sequence. Participation in the production,

rehearsal and performance of the African American Dance Ensemble Productions. SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Theatre & Dance

DAN 118 - African American Dance Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 110 - AFR 111)

This is the second course in the DAN 117 - DAN 118 sequence. Participation in the production, rehearsal and performance of the African American Dance Ensemble Productions.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

DAN 125 - A Survey of the Art of African American - Dancers and Choreographers

Description: (Dual listed with AFR 112)

An introduction to the contributions of African American creative and performing artists to the development of social and theatrical dance in America. Classroom demonstrations by representative artists and field trips to dance concerts are part of the curriculum.

SUNY GE-SART, SHUM; SUNY GEN ED-GART, GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Theatre & Dance

DAN 126 - Introduction to Modern Dance

Description: Studio work in basic dance techniques; movement and combinations explored and analyzed with emphasis on elements of space, energy and time. The aim: to develop (1) body awareness; (2) the ability to control and direct one's own body in organized rhythmic movement; (3) organic dance movement and an individually expressive body. No previous experience necessary. The course substitutes for one credit of physical education activity. Attendance at off-campus dance productions required (3 hours).

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-PED, HUM

Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Theatre & Dance

DAN 127 - Contemporary I

Prerequisites: Dance Major or permission of department.

Description: This is the first course in the DAN 127 - DAN 128 sequence. Training in modern dance techniques to develop (a) the body as a performing instrument, and (b) an awareness of the movement principles and aesthetic elements of specific dance studies (3 hours).

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 2

Department: Theatre & Dance

DAN 128 - Contemporary II

Prerequisites: DAN 127.

Description: This is the second course in the DAN 127 - DAN 128 sequence. Training in modern dance techniques to develop (a) the body as a performing instrument, and (b) an awareness of the movement principles and aesthetic elements of specific dance studies (3 hours).

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 2

Department: Theatre & Dance

DAN 129 - Rehearsal and Performance

Prerequisites: for Dance A.A. degree majors only or permission of the department.

Description: This is the first course in the DAN 129 - DAN 132 sequence. Study and performance of selected choreographed works and new works which may be traditional, contemporary or experimental in concept and structure. (Available for one credit each semester to be taken in a four-semester sequence.)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

DAN 130 - Rehearsal and Performance

Prerequisites: for Dance A.A. degree majors only or permission of the department.

Description: This is the second course in the DAN 129 - DAN 132 sequence. Study and performance of selected choreographed works and new works which may be traditional, contemporary or experimental in concept and structure. (Available for one credit each semester to be taken in a four-semester sequence.)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

DAN 131 - Rehearsal and Performance

Prerequisites: for Dance A.A. degree majors only or permission of the department.

Description: This is the third course in the DAN 129 - DAN 132 sequence. Study and performance of selected choreographed works and new works which may be traditional, contemporary or experimental in concept and structure. (Available for one credit each semester to be taken in a four-semester sequence.)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

DAN 132 - Rehearsal and Performance

Prerequisites: for Dance A.A. degree majors only or permission of the department.

Description: This is the fourth course in the DAN 129 - DAN 132 sequence. Study and performance of selected choreographed works and new works which may be traditional, contemporary or experimental in concept and structure. (Available for one credit each semester to be taken in a four-semester sequence.)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

DAN 139 - Ballet for Non-Majors

Description: A course designed for non-major students. The non-major students will acquire essential ballet terminology, knowledge of movement theories as well as practical understanding of the classical and contemporary principles of ballet aesthetics as a performing art. Areas of class work will include barre practices for body alignment, feet and arm configurations, center work with allegro and adagio movement combinations with variations across the space of the dance studio.

SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring

Credit Hours: 2

Department: Theatre & Dance

DAN 140 - Ballet and Dance Technique I

Prerequisites: for Dance A.A. degree students. This is the first course in the DAN 140 - DAN 141 sequence. The elementary dancer learns the basic disciplines in dance as a performing art and acquires the knowledge and understanding of the movement principles underlying these skills.

Description: SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

DAN 141 - Ballet and Dance Technique II

Prerequisites: DAN 140.

Description: This is the second course in the DAN 140 - DAN 141 sequence. The elementary dancer learns the basic disciplines in dance as a performing art and acquires the knowledge and understanding of the movement principles underlying these skills. SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

DAN 217 - African American Dance Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 113) This is the first course in the DAN 217 - DAN 218 sequence. Participation in the production, rehearsal and performance of the African-American dance ensemble productions. SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

DAN 218 - African American Dance Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 114) This is the second course in the DAN 217 - DAN 218 sequence. Participation in the production, rehearsal and performance of the African American Dance Ensemble Productions.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

DAN 240 - Ballet and Dance Technique III

Prerequisites: DAN 140 and DAN 141.

Description: This is the first course in the DAN 240 - DAN 241 sequence. The intermediate dancer works to develop the technical skills and understanding essential to performance of modern dance and ballet works.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

DAN 241 - Ballet and Dance Technique IV

Prerequisites: DAN 240.

Description: This is the second course in the DAN 240 - DAN 241 sequence. The intermediate dancer works to develop the technical skills and understanding essential to performance of modern dance and ballet works.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

DAN 295 - Independent Study-Dance

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly DAN 699. Students who have taken DAN 699 will not receive credit for DAN 295.

Credit Hours: 3

Department: Theatre & Dance

Economics

ECO

ECO 100 - Survey of Economics

Description: A survey of the basic principles of economics, with application to contemporary issues. Operation of markets, determination of national income and its measurements, the role of financial markets, monetary and fiscal policies, and international trade are to be considered, as well as their impact upon the economy, individuals, and businesses. Business majors should take ECO 207 - ECO 208.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 110 - Personal Finance

Description: (Dual listed with FIN 110) Personal Finance prepares students to manage their current and future financial affairs. Topics to be covered include: financial planning, saving and credit, insurance, government transfers, home buying, stocks, bonds, mutual funds, and estate planning. This is a practical and sophisticated course intended to aid students with their personal finances.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 111 - Introduction to Finance

Description: (Dual Listed with FIN 111) This course offers an introduction to financial decision making and the basic structure of institutions in contemporary financial markets. Topics include time value of money, risk and return, investment types, the role of government regulation, the influence of globalization in contemporary financial markets and evaluation of financial performance and return. The role of ethics in financial decision making and institutional policy will be discussed. Internet and data base research will be used to support the course curriculum and help the student develop the necessary skills to analyze realistic scenarios used in financial markets.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 112 - Introduction to Investments

Description: (Dual listed with FIN 112) An introduction to financial investments and portfolio management. Course topics include: financial markets and instruments, reading financial listings, stock trading and indexes, risk analysis, present and future value, stock valuation and investment decisions, portfolio management, individual and portfolio yields, types and uses of derivatives, sources of investment information, mutual funds, international diversification, the macroeconomy and the impact of economic variables on investments.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 207 - Principles of Macroeconomics

Prerequisites: Students must have satisfied all remediation in MATH.

Description: An introductory course that studies the behavior of the economy as a whole. The course explores the supply and demand model, the measurement of macroeconomic indicators (Gross Domestic Product, unemployment, inflation, and growth) and macroeconomic theories of economic fluctuations. Other topics covered include the role of the federal government and the Federal Reserve in the economy through fiscal and monetary policies, and the basic framework of international trade.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 208 - Principles of Microeconomics

Prerequisites: Students must have satisfied all remediation in MATH.

Description: An introductory course that studies the behavior of individual decision makers and their effect on individual markets. This course explores the supply and demand model, consumer choice, and producer decisions under perfect and imperfect competitive conditions. Other covered topics may include factor markets and environmental economics.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 212 - Economic Statistics

Prerequisites: MAT 102 or permission of instructor.

Description: An introduction to economic statistics. Topics covered include review of statistical inference, time series analysis, index numbers and introduction to econometrics. This course will help students understand the construction and uses of business, government and other social statistics. Topics will include the CPI, GNP, and risk analysis.

SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: Economics and Finance

ECO 213 - Money and Banking

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with FIN 213) Basic concepts of money and financial intermediaries. Development of commercial banks and the creation of demand deposits. Yield, risk, and interest rates will be analyzed from a monetary and fiscal perspective. Functions and policies of the Federal Reserve in credit regulation and economic stabilization will be analyzed. Monetary Theory, Keynesian vs. Monetarists, international finance, exchange rates and the balance of payments will be examined.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 214 - Corporation Finance

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with FIN 214) An introductory course describing the role and functioning of business firms in the economy, and the application of economic theory in the solution of managerial decisions. Topics investigated include the management of cash, inventories and receivables; selection of alternative investments; short, intermediate, and long-term sources of financing; the cost of capital, optimum capital structure; corporate dividend policies. Case problems are assigned to develop applications of general principles. SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 215 - Economic Development of the U.S. (Economic History)

Description: The economic forces which brought the United States from an undeveloped wilderness to its present position of world leadership will be examined. The role of economic institutions will be considered in the transformation of our nation into a highly centralized, interdependent society. The economic, social, and political problems concomitant with this development will also be studied.

SUNY GEN ED-GSBS; NCC GEN ED-SBS, WESH

Offered: Fall

Credit Hours: 3

Department: Economics and Finance

ECO 216 - Economics of the Developing World

Prerequisites: ECO 207 or permission of the Department Chair.

Description: This course is an introductory study of the economic development of Third World countries. It focuses on the role of education, health, human resources, planning, income distribution, food supplies, natural resources and international trade in nations' development. Students will work with data, graphs and maps. Students will learn to identify and understand the differences between developed and developing nations, their respective development patterns, as well as the impact of increasing global interdependence.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, PLDI

Offered: Spring, Summer

Credit Hours: 3

Department: Economics and Finance

ECO 218 - International Economic Systems: A Study Abroad

Prerequisites: ECO 207 or ECO 208 and permission of instructor.

Description: An in-depth and comparative study of the structure, conduct and performance of alternate economic systems. Students will study the economic and financial institutions and public policies of selected economic systems. The course is offered abroad for six weeks in the summer only. For additional information, contact the Department of Economics/Finance.

SUNY GEN ED-GSBS; NCC GEN ED-SBS, GLNW, WESH

Credit Hours: 6

Department: Economics and Finance

ECO 220 - American Banking Practice

Prerequisites: ECO 213 or permission of instructor.

Description: (Dual listed with FIN 220) The purpose is to provide the student with an insight into the organization and internal operation of various departments of a bank. Concentration on what a bank does, rather than the exact procedure of how it works, is the core of this course.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 3

Department: Economics and Finance

ECO 222 - Economic Geography of the World

Description: A multidisciplinary course that examines how economic and geographic conditions affect world economic activities and global development. Topics to be discussed include resource use, population, energy, agriculture, the environment and international trade. Globalization and international efforts to promote growth will also be discussed.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-GLNW, PLDI, SBS

Offered: Fall, Spring

Credit Hours: 3

Department: Economics and Finance

ECO 230 - Introduction to International Economics and Finance

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with FIN 230) A study of the United States as an open economy which trades in goods, services and financial assets with other nations. Topics include the reasons nations trade; the costs and benefits of free trade; tariff and non-tariff barriers; regional trade pacts; economic and monetary integration; foreign exchange

rate determination; balance of payment problems and international capital mobility; and international monetary institutions. SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-WESH, SBS

Offered: Spring

Credit Hours: 3

Department: Economics and Finance

ECO 280 - History of Economic Thought

Description: General examination of ancient and medieval economic institutions with special emphasis on its modern relevance. Specific study of economic thought and practice of mercantilism, physiocrats, classical economics, 19th century socialist dissent, neoclassical and modern schools of economics and its contemporary significance. This study directs students' attention, whatever their field of interest, to man's economic world and the forces that are shaping it.

SUNY GEN ED-n/a; NCC GEN ED-WESH, SBS

Credit Hours: 3

Department: Economics and Finance

ECO 294 - Cooperative Education Internship

Prerequisites: ECO 207 and one other ECO or FIN course and permission of the instructor.

Description: (Dual listed with FIN 294) Supervised, practical experience at institutions such as commercial banks, thrift institutions, stock and bond brokerage houses, government agencies and firms employing economic practitioners that will provide students with situations in which they can apply concepts learned in previous Economics and Finance courses. Written reports demonstrating understanding of theory and its application will be an integral aspect of this course. Field experience and future career opportunities will be discussed in co-lateral, on-campus class. Prerequisite for this course is the completion of Economics 207 plus one other economics or finance course and permission of the instructor. Students must have, as a minimum, a 2.50 GPA to be enrolled in this internship course. Students who have completed ECO 490 will not receive credit for ECO 294. SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 4

Department: Economics and Finance

ECO 295 - Independent Study-Economics

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly ECO 699. Students who have completed ECO 699 will not receive credit for ECO 295.

Credit Hours: 3

Department: Economics and Finance

Education

EDU

EDU 101 - Applied Behavior Analysis: Field Experience I

Prerequisites: Permission of Chairperson.

Description: A systematic examination of facilities for the education of special education children. Emphasis is placed upon developing the student's understanding of applied behavior analysis, atypical vs. typical development, the analysis of human behavior and techniques for behavioral change, and developmentally appropriate curriculum. Field experience is designed to provide the student with opportunities for observation and participation in public and private schools for a minimum of three hours a week. (3 lecture, 3 laboratory hours). Students who have taken SEV 101 will not receive credit for EDU 101.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Economics and Finance

EDU 102 - Applied Behavior Analysis: Field Experience II: Practicum

Prerequisites: EDU 101 and permission of Chairperson.

Description: Supervised field experience in preschool-12th grade classes within both special and regular education classes for a minimum of 9 hrs. per week. Students will be required to demonstrate competence in developmentally age-appropriate curriculum and behavioral programs. Lecture is devoted to discussion of problems encountered on field experience. (1 lecture, 9 laboratory hours) Students who have taken SEV 102 will not receive credit for EDU 102.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Economics and Finance

EDU 104 - Infants and Toddlers

Description: Will explore programs, curricula for the care of children ages 6 weeks through the second year who are in group care settings. Appropriate techniques for fostering the emotional, physical, social, and cognitive development of the very young will be examined. Field visits to infant and toddler programs will be required. Students who have taken SEV 104 or NED 106 will not receive credit for EDU 104.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Economics and Finance

EDU 105 - Introduction to Developmental Disabilities

Description: This course will provide an overview of developmental disabilities and the nature and needs of disabled people throughout the life cycle. Issues to be explored include definition of developmental disability, etiology, normalization, mainstreaming, and the role of the interdisciplinary team. Legal, ethical and cultural considerations will be emphasized as well as the impact of disabilities on the person affected, the family and the community. Students who have taken SEV 105 will not receive credit for EDU 105.

SUNY GE-SDES, SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

EDU 206 - Educational Psychology

Prerequisites: PSY 203.

Description: (Dual listed with PSY 206) This course is intended to provide knowledge and understanding of the major theories and findings of the science of Educational Psychology. The course includes a consideration of such topics as: research methods in educational psychology; the cognitive, personal, social and moral development of students; the impact of student diversity on teaching and learning; the principles and processes of learning; motivational concerns in education; classroom management; techniques of teaching; and methods of assessing student learning. Students who have taken PSY 206 will not receive credit for EDU 206.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

EDU 208 - Foundations of Education

Prerequisites: PSY 203 and PSY 212 or PSY 213.

Description: This introductory course presents an overview of the historical, philosophical, sociological and pedagogical influences on American education. Prominent figures who have shaped education and Supreme Court cases that have influenced educational policy are examined. Major trends in contemporary education are analyzed with special focus on

multicultural and inclusive education. Students who have taken PSY 208 will not receive credit for EDU 208.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

EDU 235 - Psychology of the Exceptional Child

Prerequisites: PSY 203 and PSY 212 or PSY 213.

Description: Students who have taken PSY 235 will not receive credit for EDU 235.

This course examines the psychological, learning and behavioral characteristics of each category of exceptionality. Students will be introduced to special education laws and their implications for identification, delivery systems, transition plans, and placement procedures. Field experience in a special education setting is required.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

Electrical Engineering Technology

ELT

ELT 001 - College Preparatory Physics

Description: (Dual listed with CET 001 and PHY 001)

A non-credit one-semester course for students lacking a high school background in physics. The course will cover selected topics in mechanics, hydraulics, heat, sound, light and electricity. Emphasis will be placed on problem solving. The theory will be heavily supplemented by demonstrations. Report writing and the reporting of experimental data will be stressed. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 0

Department: Engineering/Physics/Tech

ELT 103 - Elementary Engineering I

Description: An introductory course in the art of engineering designed to acclimate the students to the engineering profession and to acquaint them with the techniques and methodology of engineering design.

The "design" aspect of the course consists of an introduction to computer integration (as it applies to the engineering profession), graphical techniques, and design oriented problems using analysis software. The objectives of the design section entail the generation of engineering related problems. (1 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 1

Department: Math/Computer Science/Info Tec

ELT 110 - Technical Practices

Description: An introductory study of the technical practices employed in the electronics industry, with particular emphasis on the design and construction of metal chassis, printed circuit boards, proto boards, component identification and hand tool usage to be developed by the construction of technical projects. (Every student must complete the electronic projects for completion of the course. The proto board and projects will be used in other ELT courses when completed.) Approximate cost: \$80.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

ELT 112 - Resistive Circuits

Description: Pre or Concurrent Requisites: MAT 109.

An introductory resistive circuits course employing applied mathematics for circuit analysis. The fundamental concepts of current, voltage and resistance are the major components of the course. Ohm's law, Kirchhoff's laws, voltage division, current division, Thevenin's theorem, superposition, and mesh/node analysis are included as methods of analyzing resistive circuit parameters. The laboratory segment of the course provides instruction on electronic measuring equipment and practical circuit investigations. Analog and digital multimeters, power supplies, function generators, and the oscilloscope are included. Laboratory fee applies.

SUNY GEN ED-n/a; NCC gen ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 113 - Electronics I

Prerequisites: ELT 112 and MAT 109

Description: Corequisite: ELT 115
This course begins a sequence of two courses in electronics. Semiconductor

physics is introduced with applications of the semiconductor diode to rectification, clipping and clamping. The junction transistor is studied with special regard given to biasing techniques, small and large signal amplification. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 115 - Reactive Circuits

Prerequisites: ELT 112.

Description: Steady state response of circuits containing resistive, capacitive, and inductive elements subject to sinusoidal excitation. Transient responses of these circuits subject to step or pulse excitation. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 203 - Automatic Control Theory II

Description: This course introduces the concepts of applied electronic instrumentation and automatic control. Computer analog and digital instrument circuits, and computer interface concepts are introduced during the course of study. The laboratory reinforces industrial instrumentation applications for DC control circuits using selected input/output devices. The introduction of open and closed loop position control systems (servo system, stepper motors, and robotic systems) is also included. (Each student is responsible for the implementation of an electronic control circuit project.) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ELT 213 - Electronics II

Prerequisites: ELT 113.

Description: A continuation of ELT 113 beginning with a study of multi-stage amplifiers, Bode diagrams and the frequency response of amplifiers. The Operational Amplifier and its more common applications are considered in detail. Filters, electronic communication concepts and some special topics conclude the sequence. Students work in teams to implement and present an electronics project as part of their laboratory experience. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 214 - Digital I

Prerequisites: ELT 112.

Description: An introduction to Boolean algebra, Karnaugh minimization and the analysis/design of digital networks including arithmetic circuits, counters, registers and memories. In addition, basic hardware items such as multivibrators, Schmitt triggers, and integrated circuits are analyzed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Spring, Summer*

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ELT 215 - Digital II

Prerequisites: ELT 113, ELT 214.

Corequisites: ELT 217.

Description: Introduction to pulse analysis (integrators and differentiators) as well as transistor switch, bistable, monostable, integrated circuits (DTL, TTL, ECL, MOS, CMOS, HMOS, VMOS, CCD) LSI (dynamic shift register, memory-ROM, RAM) CP AMF and Modems.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Fall*

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ELT 217 - Lab in Digital Electronics

Prerequisites: ELT 214.

Corequisites: ELT 215

Description: Examination of basic logic components such as gates, counters, clocks, registers, and computing elements by constructing and monitoring complex digital systems. (3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Fall*

Credit Hours: 1

Department: Math/Computer Science/Info Tec

ELT 220 - Advanced Topics in Digital Technology

Prerequisites: ELT 215 or permission of Department Chairperson.

Description: Theory and operation of microprocessors and peripherals, industrial and control systems applications of digital technology, machine and assembly language programming. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Spring*

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 240 - Electronic Communication

Prerequisites: ELT 213.

Description: This course deals with the methods and signals used to electronically transmit and receive information. Topics include a study of continuous modulation techniques such as AM, FM, PM, as well as a variety of Pulse Modulations methods. Included are selected topics in electronic communication systems and their controls. Students receive hands-on experience in the laboratory and a working knowledge of the basic bench instrumentation commonly used within the communications industry, including signal generators, modulators, oscilloscopes and spectrum analyzers. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Spring*

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ELT 295 - Independent Study-Electrical Engineering Technology

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly ELT 699. Students who have completed ELT 699 will not receive credit for ELT 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

English

ENG

ENG 000 - ENG 000 Academic Writing for Beginner ESL Students

Prerequisites: Placement into course.

Description: ENG 000 is for English language learners at a beginner level whose goal is to be successful in credit-bearing courses at NCC. This course prepares beginner students for ENG 010 or higher. It introduces English grammar, vocabulary, sentence structure and basic composition. Students will also read and analyze sentences and be introduced to the concept of paragraphing. By the end of the semester, students are expected to write basic sentences and improve them through editing strategies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Fall, Spring, Summer*

Credit Hours: 0

Department: English

ENG 001 - College Preparatory English

Description: This course provides intense instruction in small classes to enable underprepared students to meet the demands

of college-level writing. Specifically, students practice basic writing skills in preparation for the requirements of ENG 101. (See catalog description of ENG 101.) ENG 001 curriculum is designed to teach writing as a process encompassing pre-writing exercises, drafting, revising, and editing, but it is also provides review and instruction in basic grammar, punctuation, sentence boundaries and structural and developmental issues related to basic composition. Freshmen assigned to ENG 001 must pass it before enrolling in ENG 101. ENG 001 is a pass/fail course with no withdrawals allowed. (Students with a foreign language background are referred to the descriptions below of ENG 030. Additionally, ESL sections of ENG 001 are offered to students in need of focused language acquisition work in writing.) (3 lecture hours) SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Fall, Spring, Summer*

Credit Hours: 0

Department: English

ENG 010 - ENG 010 - Academic Writing for Low Intermediate ESL Students (ESL ENG I)

Prerequisites: Successful completion of ESL ENG 000 or placement into the course.

Description: ENG 010 is for English language learners at a beginner level whose goal is to be successful in credit-bearing courses at NCC. This course prepares beginner students for ENG 020 or higher. It introduces English grammar, vocabulary, sentence structure, and basic composition. Students should also read and analyze sentences and will be introduced to the concept of paragraphing. By the end of the semester, students are expected to write basic sentences and improve them through editing strategies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: *Fall, Spring, Summer*

Credit Hours: 0

Department: English

ENG 020 - ENG 020 - Academic Writing for Intermediate ESL Students (ESL ENG II)

Prerequisites: Successful completion of ENG 010 or placement into the course.

Description: ENG 020 is for English language learners at an intermediate level whose goal is to be successful in credit-bearing courses at NCC. This course prepares students for ENG 030 or higher. It focuses on the development of English grammar, vocabulary, sentence structure and basic composition. Students should also read and analyze extensive passages. By the end of the semester, students are expected to write well-

developed essays and improve them through editing strategies. Students will be assessed through numerous measures including written responses to intermediate texts. The primary means of passing English 020 with a score of "Satisfactory" is through the successful completion of a timed departmental exit exam (i.e., argumentative essay) in accordance with the ESL English Department rubrics.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

ENG 030 - English as a Second Language (ESL Writing III)

Prerequisites: Placement by Department.

Description: This course prepares students for ENG 101. Advanced language skills and flexibility with advanced sentence structures, vocabulary, and idiomatic expressions are stressed so that students develop correct, clear, and coherent self-expression. Students practice a variety of essay structures with a focus on presenting a point of view and supporting it with evidence. By the end of the semester, students are expected to write developed, coherent essays and to substantively revise, proofread, and edit their work. The course is also designed to develop in students the skills that enable them to interpret and analyze texts.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

ENG 100 - Enhanced Composition I

Prerequisites: Score on the Placement essay of 5.5 or placement by Department.

Description: This course is equivalent to ENG 101, the first credit-bearing course in composition. ENG 100, created for underprepared students with marginal writing skills offers an extra hour for necessary developmental writing instruction and individualized support toward the creation of college-level essays. Exactly as does ENG 101, the course prepares students to produce clear, well-developed, well-organized, grammatically correct writing. The curriculum is designed to give students guided practice in pre-writing, drafting, revising, and editing essays, with the addition of time for review and instruction in basic grammar, punctuation, sentence boundaries and structural and developmental issues related to basic composition. The course is also designed to develop skills that enable students to interpret and analyze published texts. In addition to readings assigned in class, students respond to texts they locate

themselves through research and write at least one documented or research essay. Students who take ENG 100 do not take ENG 001 or ENG 101. Success in ENG 100 indicates movement to ENG 102, the next course in the composition sequence. Students who have completed ENG 100 will not receive credit for ENG 101.

SUNY GE-SCOO, SCOW, SINP; SUNY GEN ED-GBCM; NCC GEN ED-COMP

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 101 - Composition I

Prerequisites: ENG 001, ENG 030 or placement by Department, RDG 001, concurrent enrollment in RDG 030 or placement by Department.

Description: This course prepares students to produce clear, well-developed, well-organized, grammatically correct writing. The curriculum is designed to give students guided practice in drafting, revising, and editing essays. The course is also designed to develop the skills that enable students to interpret and analyze published texts. In addition to readings assigned in class, students respond to texts they locate themselves through research and write at least one documented or research essay. Students who have completed ENG 100 will not receive credit for ENG 101.

SUNY GE-SCOO, SCOW; SUNY GEN ED-GBCM; NCC GEN ED-COMP

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

ENG 102 - Composition II

Prerequisites: ENG 100 or ENG 101.

Description: This course is an introduction to writing about literature. The course is designed for students to practice close reading and organizing evidence to support their written interpretation and analysis of literary texts. The course offers students continued practice in drafting, revising, and editing essays. A primary goal for students is to produce clear, well-developed, well-organized, grammatical writing. For at least one essay, students use research materials.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GBCM, GHUM; NCC GEN ED-COMP, HUM

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

ENG 103 - Writing in the Sciences

Prerequisites: ENG 100 or ENG 101 or ENG 108.

Description: This course is an analytical and writing intensive approach to the development of college-level writing in the sciences. The curriculum gives students practice in drafting, revising, and editing their writing; in using clear, succinct, standard English in expository, analytical, and practical writing assignments. Students analyze and interpret published texts in the sciences. Typical assignments include lab reports, abstracts, and reviews of research. At least one assignment requires student research. SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GHUM, GBCM; NCC GEN ED-COMP, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 105 - Grammar: Structure and Strategy

Prerequisites: ENG 100 or ENG 101 or ENG 108.

Description: This course is for students interested in improving their ability to write academic and professional English. It focuses on vocabulary, grammar, and punctuation at the sentence and paragraph levels. Students will study grammar, not only through rules and textual models, but also in the context and practice of their own writing and editing.

SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 108 - The Craft of Composition / Honors English I

Prerequisites: By invitation only.

Description: This course centers on the study of rhetorical form-narration, description, classification, process analysis, definition, comparison/contrast, cause/effect and problem/solution-and uses the essay form as its method of investigation. The course is designed to give students a critical awareness of language and to teach language techniques through extensive readings. This course fulfills the college requirement for the first semester of English composition.

SUNY GE-SCOO, SCOW; SUNY GEN ED-GBCM; NCC GEN ED-COMP

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 109 - The Art of Analysis / Honors English II

Prerequisites: ENG 108 and/or by invitation.

Description: The second half of Honors English integrates literature-the introduction

of poetry, fiction and drama- with further instruction in expository writing. The emphasis is on analyzing literature as a way of developing personal style. The course includes extensive readings of major literary figures whose works are the heritage of educated people. The course fulfills the College requirement for the second semester of English composition.

SUNY GE-SCOO, SCOW, SHUM; SUNY GEN ED-GBCM, SUNY GEN ED-GHUM, NCC GEN ED-COMP, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 111 - Technical Writing

Prerequisites: Completion of the composition requirement in the student's major.

Description: This course examines the principles of technical writing and enables students to learn writing skills required in the technical job market. Style, strategy, and format in published samples of workplace writing are analyzed. Student writings include reports, proposals, memos, outlines, and abstracts. Regular attention is paid to grammar and techniques of revision.

SUNY GE-SCOO, SCOW; SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 115 - Creative Writing

Prerequisites: ENG 102 or ENG 109

Description: This course, conducted as a workshop, is for students interested in exploring their writing style within the basic imaginative genres: fiction, creative non-fiction, poetry, and script writing. Students will read and analyze literary models and then focus on their own writing, partaking in peer revision. Students are expected to complete one of the following: attend a literary reading; submit to or work on the student literary magazine Luna; participate in an activity sponsored by the Creative Writing Club or Creative Writing Project. Formerly ENG 313. Students who have completed ENG 313 will not receive credit for ENG 115.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 116 - Play & Screen Writing

Prerequisites: ENG 102 or ENG 109 and permission of instructor or Department Chair.

Description: This course, conducted as a workshop, is for students interested in exploring the craft of writing for the stage and screen. Students will read and analyze classic and contemporary dramas and then focus on their own scripts, partaking in peer revision. Students are expected to complete one of the following: attend a literary reading; submit to or work in the student literary magazine Luna; participate in an activity sponsored by the Creative Writing Club. Formerly ENG 316. Students who have completed ENG 316 will not receive credit for ENG 116.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: English

ENG 117 - Fiction Writing

Prerequisites: ENG 102 or ENG 109 and permission of instructor or Department Chair.

Description: This course, conducted as a workshop, is for students who are interested in exploring fiction writing and discovering unique voices as storytellers. Students will read and analyze literary models to explore narrative techniques and then produce their own writing, partaking in peer revision. Students are expected to complete one of the following: attend a literary reading; submit to or work on the student literary magazine Luna; participate in an activity sponsored by the Creative Writing Club or Creative Writing Project. Formerly ENG 317. Students who have completed ENG 317 will not receive credit for ENG 117.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: English

ENG 118 - Poetry Writing

Prerequisites: ENG 102 or ENG 109 and permission of instructor or Department Chair.

Description: This course, conducted as a workshop, is for students interested in exploring the craft or poetry. Students will read and analyze classic and contemporary poems and then craft their own property, partaking in peer revision. Students are expected to complete one of the following: attend a literary reading; submit to or work on the student literary magazine Luna; participate in an activity sponsored by the Creative Writing Club. Formerly ENG 318. Students who have completed ENG 318 will not receive credit for ENG 118.

SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Spring

Credit Hours: 3

Department: English

ENG 120 - Creative Nonfiction Writing

Prerequisites: ENG 102 or ENG 109.

Description: This course, conducted as a workshop, will enable students to explore a fourth writing genre: creative nonfiction. Student writers will utilize traditional literary techniques, such as point of view, dialogue, characterization, scene construction, and aesthetics to translate life experiences into compelling pieces of literature. Students will read and analyze nonfiction literary models, attempting to emulate the samples in their own writing. *Students are expected to complete one of the following: attend a literary reading; submit to or work on the student literary magazine Luna; participate in an activity sponsored by the Creative Writing Club or Creative Writing Project.*

SUNY GEN ED-GART, NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 200 - Advanced Composition : The Art of Essay Writing

Prerequisites: B+ or better in ENG 101 and 108.

Corequisites: ENG 102 and 109.

Description: Advanced students learn to write thoughtful, creative essays with an emphasis on acquiring a polished, professional style. Rhetorical techniques are examined in classical as well as innovative, modern prose. Writing projects are developed through group discussion and one-on-one editorial revision. In addition to the three classroom hours, students are required to tutor for at least one hour per week in the College's Writing Center or in a community setting.

SUNY GEN ED-GBCM; NCC GEN ED-HUM

Credit Hours: 3

Department: English

ENG 203 - Early American Literature to 1865

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course studies American literature through 1865. It examines the creation and emergence of American culture by engaging indigenous texts and colonial literatures (some in translation), Revolutionary Era writers, and early National writers, including some texts by formerly enslaved persons. Some representative authors are:

Bradford, Winthrop, Wheatley, Franklin, Irving, Poe, Douglass, Emerson, Fuller, Hawthorne. Writing is an integral component of the course.

SUNY GEN ED-GHUM; NCC GEN ED-WESH, HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 204 - Modern American Literature from 1865 to Present

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course studies evolving notions of the American individual and American society since the Civil War. Attention is paid to important literary texts and authors, significant historical and political events, and artistic innovations and movements. Writers studied include authors such as: Dickinson, Whitman, Twain, Wharton, Washington, DuBois, Eliot, Hemingway, Faulkner, Ellison, Baldwin, Plath, Rich, Alexie and others. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-WESH, HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 205 - Early English British Literature to 1800

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students are introduced to major English writers in Britain from the Anglo-Saxon period to the 18th century. Themes, ideas and literary form of literary works are examined with the aims of appreciating the aesthetics and understanding the historical background. Literature is examined as both a product of its time and as influential force in society. Representative writers include: Chaucer, Shakespeare, Milton, Defoe, Swift, and Pope. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 206 - Modern British Literature from 1800 to 1950

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students are introduced to major British writers from the late 18th century to the mid Twentieth century, roughly 1950. Writers

such as Wordsworth, Arnold, Dickens, Woolf, Eliot, Yeats, and Du Maurier are studied. Each work is read both for understanding of its aesthetic form and for its relationship to the events and ideas of its historical time. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 207 - African American Literature I

Prerequisites: ENG 100 or ENG 101 and ENG 102 or ENG 109

Description: (Dual listed with AFR 130) This course covers development of African American literature from early slave narratives and folklore following the advent of the trans-Atlantic slave trade through the Revolutionary, pre- and post-Civil War periods, to the major literary flowering of the 1920s Harlem Renaissance. Writing is an integral component of the course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 208 - African American Literature II

Prerequisites: ENG 100, ENG 101, or ENG 108 and ENG 102 or ENG 109.

Description: (Dual listed with AFR 131) The course examines the ideas, themes, and aesthetics in literature by African Americans from the 1930s to the present. Writers such as West, Malcolm X, Ralph Ellison, James Baldwin, Gwendolyn Brooks, Hayden, Alice Walker, Toni Morrison, and Walter Moseley are read. Writing is an integral components of the course.

SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Spring

Credit Hours: 3

Department: English

ENG 209 - Modern Irish Literature

Prerequisites: ENG 102 or ENG 109.

Description: This course examines outstanding works by major writers such as Yeats, Joyce, Shaw, O'Casey, O'Connor, Behan, and Beckett and their cultural background in relation to the Irish literary tradition. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-WESH, HUM, LIT

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 215 - Journalism

Prerequisites: ENG 100 or ENG 101 or ENG 108.

Description: The course examines the principles and practices of journalism and the media's role in a democratic society. The course introduces students to basic reporting and newswriting skills, including interviewing, researching, and fact-checking. Students produce texts representing multiple genres of journalism, including hard news, features, profiles, critical reviews, cultural commentary, blogs, and op-ed articles. Students are introduced to the changes in journalism that have occurred due to the internet revolution. SUNY GE-SCOO, SCOW; SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 216 - Autobiographical Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course is a study of autobiographical literature, including, but not limited to, traditional autobiography, memoir, travel writing, and the personal essay. Students will read and examine representational pieces of autobiographical writing in order to assess how authors characterize themselves, their life choices, and their views of the world through prose. Writing is an integral component of the course. Students who have taken ENG 217 are discouraged from taking this course.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 217 - Autobiographical Writing

Prerequisites: ENG 102 or ENG 109.

Description: Students read representative examples of autobiography which serve as models and inspiration for their own writing. Writing assignments include frequent journal writing and formal essays in which students use skills such as narration, description, and analysis to explore their world and examine their own ideas.

SUNY GEN ED-GART; NCC GEN ED-HUM, LIT

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 218 - 20th Century Literature of the Non-Western World

Prerequisites: ENG 102 or ENG 109.

Description: This course introduces students to the diversity of literatures from the non-Western traditions. It will examine the development of literary styles and traditions as responses to specific cultural and historical conditions. A wide range of novels, short stories, poems, and plays will be studied from the literatures of Africa, Asia, the Caribbean, Latin America, and the Middle East. Writing is an integral component of the course.

SUNY GEN ED-GHUM; NCC GEN ED-GLNW, HUM, LIT

Credit Hours: 3

Department: English

ENG 219 - Jewish Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course introduces the range and diversity of Jewish writing from Biblical-era commentary to present-day texts. It enables students to appreciate literary development in relation to modern Jewish thought, culture, and creativity. The course includes works written in English and translations from Western and non-Western Jewish Literatures. Writing is an integral component of the course, as is the use of other media, including art, music, and film. SUNY GEN ED-n/a; NCC GEN ED-GLNW, HUM, LIT, PLDI, WESH,

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

ENG 220 - Mythology and Folklore

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course is a study of the mythological roots of literatures such as Greek, Roman, Indian, African, and Chinese mythology, tales from the Bible, and folk material such as ballads, fables, and proverbs. Myths and symbols are traced from their early sources through the 21st century. Writing is an integral component of the course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-GLNW, HUM, LIT

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 221 - Modern American Novel

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Selected modern and contemporary authors such as Dreiser, Fitzgerald, Dos Passos, Baldwin, Wright,

Welty, Morrison, Bellow, Husseini, Oates, and Erdich are studied in relation to the historical and intellectual background of their times. Writing is an integral component of the course. Formerly ENG 305. Students who have completed ENG 305 will not receive credit for ENG 221.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-PLDI, HUM, LIT

Offered: Spring

Credit Hours: 3

Department: English

ENG 222 - Latin American Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: (Dual listed with LAS 222) This course introduces students to the range of literary traditions that comprise the literatures of Latin America. It examines literary productions in specific cultural and historical contexts. Most literary works are translated into English from Spanish or Portuguese; a few may be from indigenous languages, French, or Haitian creole. Representative countries include: the North American nation of Mexico, Central American nations such as Nicaragua, El Salvador, and Guatemala; Caribbean nations such as Cuba and Puerto Rico; and many South American nations such as Argentina, Colombia, Brazil, Chile, and Uruguay. Writing is an integral component of the course. This course may not be used for foreign language credit.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 223 - Masterworks of Literature I

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students read selected masterpieces of world literature before 1500 C.E., such as, but not limited to, *The Illiad*, *The Odyssey*, the *Torah*, the *Koran*, the *Ramayana*, the *Divine Comedy*, *Canterbury Tales*, the *Tale of Genji*, and dramatic works by *Shakespeare*. Formerly ENG 311. Students who have completed ENG 311 will not receive credit for ENG 223.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-LIT, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 224 - Masterworks of Literature II

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students read selected masterpieces of world literature written after 1500 C.E.; such as *Paradise Lost*, *The Dream of the Red Chamber*, *Madame Bovary*, *Crime and Punishment*, *A Hundred Years of Solitude*, *The Stranger*, and *Things Fall Apart*. Writing is an integral component of the course. Formerly ENG 312. Students who have completed ENG 312 will not receive credit for ENG 224.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 225 - Introduction to Linguistics and Semantics I

Prerequisites: ENG 100 or ENG 101 or ENG 108.

Description: This course is a study of basic aspects of language (e.g., phonetics, phonology, morphology, semantics) as well as language in its social context (e.g. ethnic, regional, social, and gender differences). SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: English

ENG 226 - Introduction to Linguistics and Semantics II

Prerequisites: ENG 100 or ENG 101 or ENG 108.

Description: This course examines grammatical systems and linguistic theory with primary emphasis upon first and second language acquisition. SUNY GEN ED-GBCM; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: English

ENG 227 - South Asian Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course will introduce students to the diverse literatures of South Asia. It will provide an understanding of the literary and cultural traditions of the sub-continent: classical, Islamic, European, and postcolonial. This course will include texts in English and in translation from such countries as India, Pakistan, Bangladesh, Nepal, Sri Lanka, and Tibet. Writing is an integral component of this course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-GLNW, HUM, LIT

Offered: Spring

Credit Hours: 3

Department: English

ENG 228 - Asian American Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines literature by writers of Asian ancestry living in the United States, from the early 1900s to the present. It explores the historical, social and cultural contexts of the literary works. The varied ethnic groups include: Chinese American, Japanese American, Filipino American, Korean American, Vietnamese American, Indian and Pakistani American. Some representative authors are: Carlos Bulosan, John Okada, Maxine Hong Kingston, Bharati Mukherjee, and Amy Tan. Writing is an integral component of the course. SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-PLDI, HUM, LIT
Offered: Fall

Credit Hours: 3

Department: English

ENG 229 - Native American Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines narrative styles and themes in Native American literature, and focuses on its embodiment of traditional American Indian concepts of time, space, history, spirit, body, and community. How Native American literature adapts oral literature and its traditions to the requirements of written literature is central to the course. It also studies myth, pastiche, and humor as literary modes employed to challenge stereotypical depictions of "the Indian" in dominant Western culture. Authors include: N. Scott Momaday, Leslie Marmon Silko, Louise Erdrich, Greg Sarris, Sherman Alexie, James Welch and Paula Gunn Allen. Writing is an integral component of the course. SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI
Offered: Spring

Credit Hours: 3

Department: English

ENG 230 - Modern British & American Drama

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This survey of British and American drama from the 20th century to the present encompasses a variety of aesthetic, political, and philosophical interests: social Darwinism, Freudian psychology, existentialism, the theatre of the absurd, minimalism, feminism, and the perspectives

of Civil Rights' Movements. Representative playwrights might include Eugene O'Neill, Langston Hughes, Samuel Becket, Harold Pinter, Tom Stoppard, Luis Valdez, Adrienne Kennedy, and August Wilson. Formerly ENG 309. Students who have completed ENG 309 will not receive credit for ENG 230. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall

Credit Hours: 3

Department: English

ENG 231 - Mystery and Detective Fiction

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: The course offers a historical survey of mystery and detective fiction as well as of the various subcategories of the genre (e.g. the classic mystery, the noir mystery and contemporary realistic fiction). Short story, novel length and cinematic representatives of the genre may be included. Representative authors include: Poe, Doyle, Christie, Chandler, Grafton, Mosley, and Hillerman. Writing is an integral component of the course. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 232 - Studies in Children Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course is a study of children's literature as it responds to children's aesthetic as well as developmental needs. A variety of prose and poetic genres are examined, including fables, fairy tales, fantasy, and others. Writing is an integral component of the course. Formerly ENG 314. Students who have completed ENG 314 will not receive credit for ENG 232. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 233 - Studies in Science Fiction

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines both historical and thematic aspects of the wide-ranging science fiction genre. Fantastic representations of social, political, technological, and environmental issues are

considered. Writers such as Wells, Heinlein, Lessing, LeGuin, Atwood, Delany, and Butler are studied. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 236 - The Literature of the Bible

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course is a study of the Bible in English translation: its narrative and poetry, as well as its literary and historical meaning. Examined as a literary text, the Bible is read in light of its significant contributions to our culture. Writing is an integral component of the course. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Spring

Credit Hours: 3

Department: English

ENG 243 - LGBTQ Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Through the study of selected literary works, this course provides a background in gay, lesbian, bisexual, and transgender theory and examines 20th century classification of people into these categories of "queer" or "straight." Selections from classical Greece to present-day literature, with emphasis on their historical context, will present issues about the definition, experience, and acceptance of lesbian, gay, bisexual, and transgender people. Writing is an integral component of the course. SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 247 - Women in Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines images of women from various feminist, historical, and cultural studies perspectives. The course observes how literary works may reflect or resist stereotypes and gender norms. While literature from different time periods and cultures is analyzed and studied comparatively, emphasis is given to feminist expressions in the twentieth and twenty-first centuries. Writing is an integral component of the course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall

Credit Hours: 3

Department: English

ENG 248 - Women Writers

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students explore the variety of literature written by women from various cultures. The course analyzes the point of view and the changing status of the woman writer in contemporary times. Writing is an integral component of the course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Spring

Credit Hours: 3

Department: English

ENG 251 - Film and Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines narrative conventions used in both literature and film as well as what is unique to each art. Students study concepts including characterization, narrative, genre, form, symbolism and convention in both media. Content, themes, and film production are studied in historical context. Writing is an integral component of the course..

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 252 - Shakespeare on Stage & Page

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: (Dual listed with THR 252) This interdisciplinary course, team-taught by members of the English and Theatre Departments, offers a performance-oriented view of Shakespeare's plays. Students see films and videotapes as well as perform segments of the plays in class. Writing is an integral component of the course. Formerly ENG 300. Students who have completed ENG 300 will not receive credit for ENG 252.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Spring

Credit Hours: 3

Department: English

ENG 253 - Shakespeare Comedies & Histories

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This survey course teaches how to read Shakespeare's comedies and histories by exploring the character, theme, imagery, poetic techniques, and the evolving conventions of Elizabethan drama in plays such as *A Midsummer's Night's Dream*, *Twelfth Night*, *The Tempest*, *Richard II*, *Henry IV and Richard III*. Attention will be paid to influences of the Elizabethan Era on Shakespeare drama, and, of course, Shakespeare's role in creating this new "modern" era of drama. Writing is an integral component of the course. Formerly ENG 301. Students who have completed ENG 301 will not receive credit for ENG 253.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Fall

Credit Hours: 3

Department: English

ENG 254 - Shakespeare Tragedies

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This survey teaches how to read Shakespeare's tragedies. Students explore Shakespeare's use of dramatic conventions such as the tragic hero, imagery, theme, and poetic/linguistic techniques in plays such as *Macbeth*, *King Lear*, *Romeo and Juliet*, *Caesar*, *Othello*, and *Hamlet*. Attention will be paid to influences of the Elizabethan Era on Shakespeare's work and Shakespeare's influence on Elizabethan drama. Writing is an integral component of the course. Formerly ENG 302. Students who have completed ENG 302 will not receive credit for ENG 254.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 261 - Literature of the Holocaust

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course introduces students to the response of creative writers to the Nazi plan to destroy European Jewry between 1933 and 1945. Students read an international spectrum of writers and are introduced to the diversity of literary styles writers use to examine and convey the consequences of genocide. Writing is an integral component of the course.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 263 - The Modern American Short Story

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students study short stories by U.S. authors from the nineteenth century to the present. Stories are read with attention to historical and literary influences, and students closely study authors' use of elements such as plot, characterization, point of view, linguistic choices such as diction and figurative language, setting, and theme. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 265 - Modern American Poetry

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course studies the diversity of American poetry from the 19th century to contemporary times. Analysis of the texts with reference to historical, cultural, artistic and contemporary trends and ideas is emphasized. Writers to be studied include, but are not limited to Whitman, Dickinson, Frost, Eliot, Hughes, Bishop, Lowell, Rich, Plath, Cummings, Ashberry, Harper and Clifton. Writing is an integral component of this course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

ENG 267 - Satire

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines how satire is used to comment on human behavior and critique society. Representative authors include classics such as Aesop, Juvenal, Jonathon Swift, and Mark Twain as well as twentieth and twenty-first century authors such as Joseph Heller, Dorothy Parker, Dick Gregory, and Steven Colbert. Some media sources are studied.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall

Credit Hours: 3

Department: English

ENG 271 - Psychoanalytic Approaches to Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: Students read and analyze the impact of psychoanalytical theory on works of literature, focusing on issues such as human consciousness and behavior. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Fall, Spring

Credit Hours: 3

Department: English

ENG 281 - Nature in Literature

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines literature that considers the relationship between human beings and the natural world. It includes works that focus on conservation and ecology. It also explores how science relates to literary art. Representative selections include the Bible, medieval poetry and plays, pastoral poetry, plays by Shakespeare, and such writers as Gilbert White, Mary Shelley, Ralph Waldo Emerson, Charles Darwin, Henry David Thoreau, Thomas Hardy, Isak Dinesen, Farley Mowat, Edward Abbey, Annie Dillard, Barry Lopez, Leslie Mamon Silko, and Linda Hogan. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Spring

Credit Hours: 3

Department: English

ENG 294 - Cooperative Education Internship

Prerequisites: One of the following: ENG 111, ENG 200, ENG 215, ENG 216, or ENG 115 and permission of the Department Chair.

Description: By matching internships with pertinent class work in English, students will study the connection between the practical experience in the workplace with the theoretical concepts explored in the appropriate classroom setting. Occupational titles for which internships are appropriate may include Fact Finder, Copy Editor, Reporter, Photo Caption Editor, Columnist, Production Manager, and Report Writer. Formerly ENG 490. Students who have completed ENG 490 will not receive credit for ENG 294.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Credit Hours: 4

Department: English

ENG 295 - Independent Study-English

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly ENG 699. Students who

have completed ENG 699 will not receive credit for ENG 295.

Credit Hours: 3

Department: English

ENG 298 - Comedy: Theory and Development

Prerequisites: ENG 102 or ENG 103 or ENG 109.

Description: This course examines comedic genres such as farce and parody and emphasizes their historical development in works from various cultures. Writing is an integral component of the course.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT

Offered: Spring

Credit Hours: 3

Department: English

Engineering Science

ENS

ENS 101 - Graphics

Description: Graphical techniques of design utilizing instrument drawing and free hand sketching are introduced. Principles of projection, isometrics, sections, auxiliary views, as well as floor plans and elevations are used as examples.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 1

Department: Math/Computer Science/Info Tec

ENS 103 - Elementary Engineering I

Description: An introductory course in the art of engineering designed to acclimate the students to the engineering profession and to acquaint them with the techniques and methodology of engineering design. The "design" aspect of the course consists of an introduction to computer programming (as it applies to the engineering profession), graphical techniques, and design oriented problems. The objectives of the design section entail the generation of engineering related problems. (3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 1

Department: Math/Computer Science/Info Tec

ENS 104 - Computational Methods in Engineering

Prerequisites: MAT 122, PHY 122 or permission of instructor.

Corequisites: PHY 122 This is a second-semester course in computational methods. This course is intended for students in engineering and applied science. Emphasis is placed on solving engineering related problems through the use of current industry accepted high level programming languages. Analytical as well as approximate solutions are stressed in this course. Students are expected to spend additional time outside of the classroom to complete class assignments and projects. (1 lecture, 3 laboratory hours) Laboratory fee applies.

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Math/Computer Science/Info Tec

ENS 105 - Introduction to CAD

Description: An introduction to computer-aided drafting (CAD) designed to acquaint the student with the fundamental nature of computer-aided design and basic operational commands. Students will learn how to use a current version of AutoCAD to prepare two-dimensional drawings for architecture, interior design, engineering and construction management. (1 lecture, 3 laboratory hours)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 2

Department: Math/Computer Science/Info Tec

ENS 106 - Computer Aided Drafting

Prerequisites: Prer

Description: equisites: ENS 101. The student will develop mastery of producing general engineering-related drawings using AutoCAD drafting package and solid modeling using Autoshade color rendering package on a personal computer. The student will learn to apply AutoCAD commands to produce two dimensional drawings. Advanced AutoCAD techniques will be explored and used to produce three dimensional drawings. Students will learn to apply shading and coloring techniques using Autoshade in their drawings. (3 laboratory hours) SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 1

Department: Math/Computer Science/Info Tec

ENS 205 - Statics

Prerequisites: MAT 122, PHY 122.

Description: Introduction to applied vector algebra, force systems, equilibrium. Analysis of structures and machines. Friction, centroids, and moment of inertia.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ENS 206 - Dynamics

Prerequisites: ENS 205, PHY 122.

Description: Kinematics of a particle, relative velocities and acceleration, moving coordinate systems, dynamics of a particle, dynamics for systems of particles, kinematics and kinetics of rigid bodies. Euler's Equations, work-energy and impulse-momentum techniques, and introduction to vibrations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ENS 207 - Mechanics of Materials

Prerequisites: ENS 205.

Description: Introduction to mechanics of materials stress and strain, stress-strain-temperature relations, torsion, bending, deflection, stability, buckling. Computer methods in structural analysis.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ENS 225 - Engineering Circuit Analysis I

Prerequisites: MAT 123.

Description: Introduction to circuit analysis consisting of free and forced response of simple networks and various methods of analysis, frequency variation and resonance, complex frequency variable, two-part networks, transformers, computer solutions (analog and digital), Fourier series, Laplace transform and transform networks. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ENS 226 - Engineering Circuit Analysis II

Prerequisites: ENS 225.

Description: Corequisites: MAT 234 A continuation of ENS 225. Topics include complex frequency response; parallel, series, and other resonance forms; magnetically coupled circuits; one and two-part networks; and Fourier analysis. The transient response of the RLC circuit to the step input will be covered by classical means. Laplace transforms will be introduced and applied

toward the transfer functions H(s) and the complete response. The laboratory will include AC models of active circuit elements. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ENS 230 - Engineering Thermodynamics

Prerequisites: MAT 123 and PHY 123.

Description: A first course in engineering thermodynamics, introducing fundamental thermodynamic variables, properties of pure substances and energy relationships. Analysis of open and closed systems based on the classical laws of thermodynamics; concepts of reversibility and entropy; power cycles and engines. A term project requiring the detailed analysis of power cycles will be assigned to each student. Knowledge of at least one high level programming language or simulation software is highly desirable.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ENS 295 - Independent Study-Engineering Science

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly ENS 699. Students who have completed ENS 699 will not receive credit for ENS 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Environmental Sciences

ENV

ENV 101 - Introduction to Environmental Science

Description: Some Saturday field trips may be required of evening students. This course offers an introduction to the basic principles of ecology, population and food production problems. The course also examines the basic principles concerning air and water pollution. Laboratory exercises are designed to measure the local air and water quality. The modes of detection and prevention of environmental pollution will be investigated and discussed. Field trips and laboratory exercises are a required part of the course. Students must provide their own transportation to and from

the field trip sites. (3 lecture, 3 laboratory hours) Lab fee applies. Formerly SCI 109. Students who have completed SCI 109 will not receive credit for ENV 101.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ENV 102 - Introduction to Environmental Resources, Energy & Pollution

Prerequisites: ENV101 is recommended but not required.

Description: The course involves the investigation of current problems in our environment. The areas which will be discussed will be the problems of solid waste and various methods of its disposal; the effects of pollutants from present and future energy sources; noise pollution and the effects of radiation on people and the environment. Field trips and laboratory exercises are a required part of the course. Students must provide their own transportation to and from the field trip sites. (3 lecture, 3 laboratory hours) Lab fee applies. Formerly SCI 110. Students who have completed SCI 110 will not receive credit for ENV 102.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ENV 103 - Mapping the Environment using GPS & GIS

Description: This beginning level course is designed to introduce non-science as well as science oriented students, to the latest concepts and technologies in mapping science. The course covers the theories and concepts of Global Positioning Systems (GPS) and Geographic Information Systems (GIS). Students acquire a fundamental hands-on understanding of the technologies and systems used in the GIS field. The course will include problem solving activities through laboratory and field work. Off-campus field trips are required. Laboratory fee applies. Formerly SCI 150. Students who have completed SCI 150 will not receive credit for ENV 103.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Winterim, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ENV 104 - Field Exploration of Environmental Issues around Metro NY

Prerequisites: Permission of Instructor.

Description: This is a limited enrollment course that runs during select intersessions for a period of 10 days. Special fees for transportation are required. This course is an intensive investigation of the current environmental problems facing society using the greater metropolitan area of New York as the focal point. Students will receive firsthand experience with current environmental problems through field trip observations and surveys. Problems dealing with the physical treatment of oil spills, the scientific formulation of environmental impact statements, and the effects of heavy industry on air quality will be some of the issues under consideration. The field trips and laboratory activities will be designed to reinforce the topics discussed during lecture. Formerly SCI 120. Students who have completed SCI 120 will not receive credit for ENV 104. SUNY GEN ED-GLAB; NCC GEN ED-LSCI.
Offered: May Special
Credit Hours: 4
Department: Math/Computer Science/Info Tec

ENV 105 - Environmental Safety & Health

Description: This course is designed for anyone interested in understanding what constitutes a safe and healthy environment. The course first discusses the methodologies that enable one to understand why and how exposure to various hazards, to which persons may be exposed to at home, outside and in the work environment, are dangerous. Along with a general understanding of the hazards, the course presents basic concepts and methods used to recognize, evaluate, control and mitigate these hazards. Some of the hazards that will be explored are food safety, herbicides, radiation, indoor/outdoor air pollution (including carbon monoxide and cleaning products), noise pollution, transportation, water quality, pesticides, dangers facing children along with both solid and hazardous waste. The concept of sustainability is introduced and becomes a central theme is discussing the mitigation of various hazards. Some of the regulations promulgated by authorities will be considered including how one can use MSDS (Safety Data Sheets) documentation to learn about the dangers presented by various materials we use in everyday life. Some of the basic course concepts as well as the fundamental skills of critical thinking and problem solving will be taught using active learning exercises. Additionally the course provides students with an opportunity to research topics of special interest to them. Formerly SCI 209. Students who have completed SCI 209 will not receive credit for ENV 105.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-ASC, NSCI.
Offered: Fall, Winterim, Spring, Summer
Credit Hours: 3
Department: Math/Computer Science/Info Tec

EOP

DATA COULD NOT BE LOADED

Exercise Science

EXS

EXS 193 - Introduction to Exercise Science

Prerequisites: HED 202. May be taken concurrently.
Description: Students will be introduced to a variety of topics within exercise science and their impact on health and fitness. This introductory course will cover cardio vascular and musculoskeletal fitness principles, diseases process, energy systems, and current research in the field. Physiologic adaptation to exercise and the impact of inactivity are discussed in depth. Opportunities for employment and career options will be explored.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Credit Hours: 3
Department: Health/Physical Ed/Recreation

EXS 194 - Fitness Assessment

Prerequisites: HED 202 May be taken concurrently.
Description: This course prepares students to administer a series of resting and active fitness assessments and screenings. Exercise prescriptions are made based on measurements and evaluation of athletic performance and personal health. The focus is on proper technique and participant safety.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Credit Hours: 3
Department: Health/Physical Ed/Recreation

Fashion Buying and Merchandising

FBM

FBM 110 - Fashion Advertising and Promotion

Description: This course introduces the various principles and methods of advertising and promotion used by producers, manufacturers, designers, and retailers in the

fashion industry. Students will analyze how marketing objectives and strategies influence advertising and other forms of promotion. Students will prepare an advertising campaign while utilizing their acquired skills.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Credit Hours: 3
Department: Marketing & Retailing

FBM 120 - Introduction to the Fashion Industry

Description: This course provides an introduction to all aspects of the fashion industry: its history and current designer trends; textile and apparel production-how products are created, priced and promoted to the trade and the consumer; retail concepts; and the impact of globalization on the industry.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Summer
Credit Hours: 3
Department: Marketing & Retailing

FBM 121 - Introduction to Menswear

Description: A course introducing students to the specialized marketing practices used by domestic and foreign menswear manufacturers and distributors. Students analyze the development of lines of menswear merchandise, from design to consumer purchase. Included is an in-depth study of design, production, sales, merchandising, and promotion techniques.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Credit Hours: 3
Department: Marketing & Retailing

FBM 125 - Introduction to Import Buying

Description: Introduction to Import Buying provides students with an opportunity to learn about the rationale, problems, and opportunities of importing merchandise from various markets throughout the world. Included in the course of study will be the necessary preparatory practices, relevant import/export terminology, and governmental legislation and regulations.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Credit Hours: 3
Department: Marketing & Retailing

FBM 130 - Fashion and Home Accessories

Description: Construction, quality and product features of leather, shoes, gloves, furs, jewelry, dinnerware, glassware, silverware and cosmetics are studied. The care, selection, promotion, and sales of these non-textiles are evaluated according to government regulations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Marketing & Retailing

FBM 140 - Introduction to Interior Design

Description: A survey course exploring the various periods of furniture design with emphasis on complete room planning.

Decorative arts studied include color and design, fabrics, window treatments, accessories, arrangements and harmony.

Career opportunities in the home fashion field are emphasized.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

FBM 142 - Fashion Buying and Merchandising Field Training

Prerequisites: Permission of Department Chairperson.

Description: Students intern with fashion buying and merchandising firms to enrich the theoretical concepts previously learned in the classroom.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Marketing & Retailing

FBM 150 - Fashion Coordination and Publicity

Description: The course presents the coordination of the merchandising of fashion through coordination and publicity. The activities of the fashion office are examined to show influences of wholesale and retail markets on the selling and promotion of fashion.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

FBM 160 - Seminar in Contemporary Fashion Buying and Merchandising

Description: Merchandise students visit the market and attend seminars with representatives from the Fashion and Merchandising field. Students apply basic principles to the solutions of typical problems in Fashion and Retailing. Additionally, the dynamic skills of human resource management are developed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

FBM 295 - Independent Study-Fashion/Merchandising

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly FBM 699. Students who have completed FBM 699 will not receive credit for FBM 295.

Credit Hours: 3

Department: Marketing & Retailing

Finance

FIN

FIN 110 - Personal Finance

Description: (Dual listed with ECO 110)

Personal Finance prepares students to manage their current and future financial affairs.

Topics to be covered include: financial planning, saving and credit, insurance, government transfers, home buying, stocks, bonds, mutual funds, and estate planning. This is a practical and sophisticated course intended to help students with their personal finances.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

FIN 111 - Introduction to Finance

Description: (Dual Listed with ECO 111)

This course offers an introduction to financial decision making and the basic structure of institutions in contemporary financial markets. Topics include time value of money, risk and return, investment types, the role of government regulation, the influence of globalization in contemporary financial markets and evaluation of financial performance and return. The role of ethics in financial decision making and institutional policy will be discussed. Internet and data base research will be used to support the course curriculum and help the student develop the necessary skills to analyze realistic scenarios used in financial markets.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

FIN 112 - Introduction to Investments

Description: (Dual listed with ECO 112)

An introduction to financial investments and portfolio management. Course topics include: financial markets and instruments, reading financial listings, stock trading and indexes, risk analysis, present and future value, stock valuation and investment decisions, portfolio management, individual and portfolio yields, types and uses of derivatives, sources of investment information, mutual

funds, international diversification, the macroeconomy and the impact of economic variables on investments.

SUNY GE-SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

FIN 213 - Money and Banking

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with ECO 213)

Basic concepts of money and financial intermediaries. Development of commercial banks and the creation of demand deposits. Yield, risk, and interest rates will be analyzed from a monetary and fiscal perspective.

Functions and policies of the Federal Reserve in credit regulation and economic stabilization will be analyzed. Monetary Theory, Keynesian vs. Monetarists, international finance, exchange rates and the balance of payments will be examined.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

FIN 214 - Corporation Finance

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with ECO 214) An introductory course describing the role and functioning of business firms in the economy, and the application of economic theory in the solution of managerial decisions. Topics investigated include the management of cash, inventories and receivables; selection of alternative investments; short, intermediate, and long-term sources of financing; the cost of capital, optimum capital structure; corporate dividend policies. Case problems are assigned to develop applications of general principles.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

FIN 220 - American Banking Practice

Prerequisites: ECO 213 or permission of instructor.

Description: (Dual listed with ECO 220)

The purpose is to provide the student with an insight into the organization and internal operation of various departments of a bank. Concentration on what a bank does, rather than the exact procedure of how it works, is the core of this course.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 3

Department: Economics and Finance

FIN 230 - Introduction to International Economics and Finance

Prerequisites: ECO 207 or permission of instructor.

Description: (Dual listed with ECO 230) A study of the United States as an open economy which trades in goods, services and financial assets with other nations. Topics include the reasons nations trade, the costs and benefits of free trade, tariff and non-tariff barriers, regional trade pacts, economic and monetary integration, foreign exchange rate determination, balance of payments problems and international capital mobility, and international monetary institutions. SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Spring

Credit Hours: 3

Department: Economics and Finance

FIN 294 - Cooperative Education Internship

Prerequisites: ECO 207 and one other ECO or FIN course and permission of the instructor.

Description: Supervised, practical experience at institutions such as commercial banks, thrift institutions, stock and bond brokerage houses, government agencies and firms employing economic practitioners that will provide students with situations in which they can apply concepts learned in previous Economics and Finance courses. Written reports demonstrating understanding of theory and its application will be an integral aspect of this course. Field experience and future career opportunities will be discussed in co-lateral, on-campus class. Prerequisite for this course is the completion of Economics 207 plus one other economics or finance course and permission of instructor. Students must have, as a minimum, a 2.50 GPA to be enrolled in this internship course. Students who have completed FIN 490 will not receive credit for FIN 294.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 4

Department: Economics and Finance

French

FRE

FRE 101 - Beginning French I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. This

course is not intended for students of French speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

FRE 102 - Beginning French II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

FRE 201 - Intermediate French I

Description: First course of intermediate level. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

FRE 202 - Intermediate French II

Description: Second course of intermediate level. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

FRE 225 - French for Business

Prerequisites: FRE 102 or permission of the instructor.

Description: Using print, video, and electronic media, this course offers students a practical knowledge of French business terminology and procedures. It will introduce students to such topics (in French) as commercial letter writing, telephone etiquette, filling out business forms, etc. Students will also learn how to deal with cultural aspects of the international business environment. Laboratory fee applies. Laboratory component required. SUNY GEN ED-GFOL; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

FRE 261 - Advanced French 1

Description: More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in French. Laboratory fee applies. Laboratory attendance required. Formerly FRE 301. Students who have completed FRE 301 will not receive credit for FRE 261.

SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Credit Hours: 3

Department: Foreign Languages

FRE 262 - Advanced French 2

Description: More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in French. Laboratory fee applies. Laboratory attendance required. Formerly FRE 302. Students who have completed FRE 302 will not receive credit for FRE 262.

SUNY GEN ED-GFOL; NCC GEN ED-HUM

Credit Hours: 3

Department: Foreign Languages

FRE 295 - Independent Study-French

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly FRE 699. Students who have completed FRE 699 will not receive credit for FRE 295.

Credit Hours: 3

Department: Foreign Languages

Fire Science

FRS

FRS 101 - Introduction to Fire Science

Description: This course is an introduction to the history and philosophy of the fire service. It reviews the career options that are available and examines the tactical and fire suppression responsibilities of the fire service.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Criminal Justice

FRS 102 - Fire Safety and Tactics

Description: This course focuses on the safety measures that need to be incorporated at the fire scene. It also prepares the student to understand the importance of proper fire tactics and procedures that are needed to be employed by the fire service.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

FRS 201 - High Rise/ Structures and Systems

Description: This course is an introduction to the art of firefighting in High Rise buildings. It will expose the student to the unique problems that are present in large buildings. The students will learn how to utilize the fire protection and safety features that are in High Rise buildings.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

FRS 202 - Fire Protection and Detection Systems

Prerequisites: ENG 100 or ENG 101, FRS 101, FRS 201.

Description: A study of Fire Protection and Fire Detection Systems, this course provides an overview of Life Safety Systems as they are applied in stores, schools, offices, hotels, motels, hospitals, and any place where people live or work. This course emphasizes the need for fire detection systems, fire notification devices, and fire suppression systems.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

FRS 203 - Hazardous Materials in the Fire Service

Description: A study of Hazardous Materials, this course provides an overview of the laws, regulations, and standards associated with the Hazardous Materials incident response. This course emphasizes the need for: Hazardous Materials recognition and identification, information resource technology, protective actions to be taken, product control and air monitoring, terrorism awareness, and Hazardous Materials law enforcement activities.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Criminal Justice

Fashion Design

FSD

FSD 101 - Draping and Design I

Prerequisites: FSD 120

Corequisites: FSD 120

Description: Students learn fundamentals of draping in muslin on a dress form. Basic silhouettes as well as original designs are executed. Original sample garment is constructed. Material cost and laboratory fees apply.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Marketing & Retailing

FSD 102 - Draping and Design II

Prerequisites: FSD 101 (previously APD 101).

Description: Students learn to drape intricate garments. Projects include draping the cowl, bifurcated garments, notch and shawl collar jackets and skirt variations. An original design is executed from a sketch and a sample garment is constructed. Material cost and laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Marketing & Retailing

FSD 103 - Draping and Design III

Prerequisites: FSD 102 (previously APD 102).

Description: Continuation of more advanced draping projects includes draping in a variety of fabrics. Original designs for knitwear, tailored jacket, boutique and term garment are draped and constructed in fabric. Material cost and laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Marketing & Retailing

FSD 104 - Draping and Design IV

Prerequisites: FSD 103 (previously APD 103).

Description: An original collection of garments, in an area of specialization, is designed, draped and/or drafted and constructed in fabric. Material cost and laboratory fees apply.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Marketing & Retailing

FSD 110 - Flat Pattern Design I

Prerequisites: FSD 120

Description: Students develop the fundamentals of pattern-making using basic slopers. The bodice, skirt, sleeve and collar variations are executed to learn the variety of design options possible through flat pattern technique. Material cost and laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Marketing & Retailing

FSD 111 - Flat Pattern Design II

Prerequisites: FSD 110 (previously APD 110).

Description: Further studies in advanced patternmaking projects include tailored jackets, raglan and kimono sleeves, stylized armholes, bifurcated garments and torso development. Design variations on these projects are stressed. Material cost and laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 2

Department: Marketing & Retailing

FSD 120 - Garment Construction

Description: Students learn the fundamentals of design room sewing techniques utilizing step samples to execute seam and hem finishes, bias and zipper applications, and construction details used in industry. Sample garments are developed through the use of a basic pattern. Material cost and laboratory fees apply.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

FSD 121 - Fashion History

Description: Students explore early modes of fashion beginning with ancient civilizations from the Middle Ages through the Renaissance, Baroque, Rococo, Victorian and Edwardian periods to present day dress. This course is designed to give students an understanding of the cultural, historical, social and political effects on fashion from its respective time period.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

FSD 122 - Fashion Design Business Practices

Prerequisites: FSD 103

Description: Technical knowledge of the design process is explored through visits to design studios where students meet with industry professionals. Students learn how to design for a target market, how to research fashion trends and source fabric and trims and learn garment production. Students learn how to prepare for an entry level position in the fashion industry.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

FSD 135 - Fashion Art I

Description: To interpret fashion design using art based fundamentals, such as the importance of color, anatomy, fabric rendering, fashion model proportions and movement. Assignments and learning experiences to reinforce each area. The student will discover, through exploration of fashion assignments, how to evaluate design details and proportions for Women's apparel markets. Technical flats and their importance to the process will be covered. Average cost of supplies: \$75. Laboratory fee applies. Formerly ART 135. Students who have completed ART 135 will not receive credit for FSD 135.

SUNY GE-SART; SUNY GEN ED-GART;
NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

FSD 136 - Fashion Art II

Prerequisites: FSD 135

Description: This course is designed to further interpret the creative process of Fashion Design. Students are encouraged to master advanced skills and search for their own individual focus of expression. Each student will be exposed to new approaches, methods and materials to further enhance his or her design experience and Fashion Design portfolio. Menswear and Children's wear will be explored as well as the Women's wear markets. Formerly ART 136. Students who have completed ART 136 will not receive credit for FSD 136. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART;
NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

FSD 142 - Field Training

Prerequisites: FSD 104.

Description: Students work for appropriate fashion design firms, in a design room to enrich the theoretical concepts previously developed in the classroom.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

FSD 235 - Fashion Art III

Prerequisites: ART/FSD 136.

Description: Students design collections by exploring the roles of research, design development, and editing in the fashion design process. Emphasis is placed on the knowledge of key fashion categories, markets and price points. This course also introduces the basics of computer-aided design specifically used in the fashion industry. Using vector based software, students learn techniques to conceptualize fashion designs and create industry-standard presentations. Formerly ART 235. Students who have completed ART 235 will not receive credit for FSD 235. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART;
NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

FSD 236 - Fashion Art IV

Prerequisites: ART/FSD 235.

Description: To develop an awareness of broad-based market demands. To develop an awareness of market timing (seasonal and campaigns). To develop an awareness of marketable presentations. To appreciate the relationship of theme, fabrics, price range, and colors in the preparation of a portfolio. Formerly ART 236. Students who have completed ART 236 will not receive credit for FSD 236. Average cost of supplies: \$75. Laboratory fee applies.

SUNY GE-SART; SUNY GEN ED-GART;
NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

GAM

GAM 101 - Game Design I

Description: Students will develop plans for one or more comprehensive game designs for computer games. The development of story and game design concept will be emphasized. An overview of production technologies and asset pipelines will be discussed. This course includes critique, formal reviews and

group presentations. The course covers an introduction to the roles of members of a team game design, game development and project management. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-FAPA,
HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

Geography

GEO

GEO 101 - People and Environment

Prerequisites: Completion of RDG 001 and/or RDG 002.

Description: This course is an introduction to the basic concepts and techniques of geography. Global patterns of and interactions among climate, landforms, environmental alteration, economic, demographic and cultural phenomena are stressed.

SUNY GE-SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

GEO 103 - Human Geography

Prerequisites: Completion of RDG 001 and/or RDG 002.

Description: A survey of the global patterns and significance of human distributions. Demography and foodways, language and religion are the bases for identifying distinct regional cultures. Stress is placed on problems related to crowding, ethnicity, and alteration of the environment.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-SBS, GLNW

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

GEO 201 - Geography of Europe

Prerequisites: Completion of RDG 001 and/or RDG 002.

Description: An examination of the physical and cultural landscapes of Europe, their causes and consequences. Attention is focused on the political, social, and economic developments over time that have created regional divisions from Iceland to the Russian border. The meaning of Europe's ethnicity and boundaries is stressed.

SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

GEO 202 - Geography of Long Island

Description: Geography of Long Island explores the land and people from Brooklyn to Montauk. It examines the physical, economic, and human geography of the area with a focus on the environmental and cultural influences that have shaped the Island's landscapes, spatial interactions, and prospects. SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

German

GER

GER 101 - Beginning German I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. This course is not intended for students of German speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

GER 102 - Beginning German II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening, comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Foreign Languages

GER 201 - Intermediate German I

Description: This is the first course in the GER 201 - GER 202 sequence. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

GER 202 - Intermediate German II

Description: This is the second course in the GER 201 - GER 202 sequence. Development

of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

GER 261 - Advanced German 1

Description: This is the first course in the GER 301 - GER 302 sequence. More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in German. Laboratory fee applies. Laboratory component required. Formerly GER 301. Students who have completed GER 301 will not receive credit for GER 261.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

GER 262 - Advanced German 2

Description: This is the second course in the GER 301 - GER 302 sequence. More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in German. Laboratory fee applies. Laboratory component required. Formerly GER 302. Students who have completed GER 302 will not receive credit for GER 262.

SUNY GEN ED-n/a; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

GER 295 - Independent Study-German

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly GER 699. Students who have completed GER 699 will not receive credit for GER 295.

Credit Hours: 3

Department: Foreign Languages

Geology

GLY

GLY 101 - Introduction to Physical Geology

Description: This course presents principles of the study of the earth outlining how the science began in the late 1700s from natural curiosity progressing to our present knowledge of the earth as a dynamic entity. Students will study its surface features and processes and then can appreciate how patterns observed have allowed for interpretations of what is going on within the interior. Such aspects include but are not limited to earthquakes, volcanism, origin and deformation of mountain belts and ocean basins, the work of running water, glaciers and wind. In lab, students are provided a hands-on approach to the study of minerals, igneous, sedimentary and metamorphic rocks and will learn how to use a topographic map. A one-day field trip may be offered to illustrate and reinforce the concepts introduced. (3 lecture, 3 laboratory hours) Lab fee applies. Special sections of Physical Geology may be offered which cover most of the topics above but which present the popular field of gemology, allowing the students to work with professional instruments to identify a large suite of gems, both natural and synthetic. Lab fee applies. Formerly SCI 103. Students who have completed SCI 103 will not receive credit for GLY 101.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GLY 102 - Historical Geology

Description: This is a problem-oriented approach to the study of the geologic history of the planet earth. Laboratory methods are emphasized in conjunction with the fundamental tools of geology. The origins and evolution of the continents and ocean basins are examined both from a classical perspective, and through the utilization of the theories of continental drift and plate tectonics. The histories of select areas will be examined with an emphasis placed on the techniques used in the interpretation of the ancient environments in which the rock record was formed. A one-day field trip may be offered to illustrate and reinforce the concepts introduced. (3 lecture, 3 laboratory hours) Laboratory fee applies. Formerly SCI 104. Students who have completed SCI 104 will not receive credit for GLY 102.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GLY 104 - Field Lab Geology

Prerequisites: Permission of Instructor.

Description: This is a limited enrollment course that runs during select intersessions for a period of 10 days. Special fees for transportation are required. This is an activity-oriented approach to the study of some of the regionally accessible geologic features: their processes, history and beauty. The participants in this course will be introduced to a varied curriculum of the regional physical, historical, economic and environmental geologic phenomena. A brief sampling of some topics open to investigation are: post glacial features, coastal barrier beach problems/dynamics, the identification of major rock outcrop features, mining operations, and mineral and fossil collecting. Laboratory and field equipment will be used for the gathering of specimens and data to help develop an understanding of the gross geologic aspects of a particular location. A portion of the time needed to accomplish these goals will be spent as preparation and review on campus in the laboratory/lecture room. Field sites will be reached primarily through the use of chartered transportation. Formerly SCI 203. Students who have completed SCI 203 will not receive credit for GLY 104.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI.

Offered: May Special

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GLY 105 - Beaches and Coasts

Description: This course introduces the study of beach and coastal processes and environments. It examines coastal morphology such as barrier islands, spits, dunes and marshes and introduces the effects of plate tectonics, glaciers, and rivers on beaches and coasts. It also examines tidal currents, wave action, longshore currents and transport, and estuarine circulation. Human activities and the effects of man-made (anthropogenic) structures will also be emphasized. Students will also study the various methods used for study of coastal environments. Field trip(s) required. Formerly SCI 115. Students who have completed SCI 115 will not receive credit for GLY 105.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-ASC, NSCI

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GLY 106 - Oceanology

Description: (Dual listed with BIO 119). This is a three-credit course and does not fulfill the laboratory science requirement needed for graduation. There will be no waivers issued under any circumstances. One field

laboratory during the term. The course is designed as an overview of the structure, origin, and evolution of the world's oceans. Investigations will include analysis of abiotic factors such as sediments, coastlines, water properties, and movement. Students will take a close look at general water circulation, tides, currents, waves, and the effects of weather and climate. Further investigations will focus on biotic factors such as marine organisms, food chains, resources, and man's relationship to the sea. Formerly SCI 119. Students who have completed SCI 119 will not receive credit for GLY 106. (3 lecture hours)

SUNY GE-SSCI; SUNY GEN ED-GLAB;

NCC GEN ED-NSCI.

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Green Sustainable Design

GSD

GSD 130 - Green Building Materials

Description: Pre or Concurrent Requisites: GSS 128

This course will introduce students to the design, application, recycling and cost analysis of various green building materials in residential and commercial buildings and their ability to increase the energy efficiency in buildings. The selection and installation of various construction materials to include the insulation, foundations, concrete slabs on grade, the building envelope, roof, windows and doors, finished floor materials, low volatile organic compound wall finishes, and FSC wood will be discussed including harvesting and transporting.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 132 - Green Projects Case Studies

Description: Pre or Concurrent Requisites: GSS 128

This course will allow students to research and analyze various green building projects on Long Island and New York City to learn different methods used to achieve sustainable design through the use of green building practices. Building projects will be evaluated in terms of site selection, orientation, water and energy efficiency, renewable energy storage, on-site power generation, indoor air quality and the efficient use of building

materials. Students will be required to visit one project site discussed, during the semester.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 200 - Wind Turbines / Solar Panels Applications

Prerequisites: GSS 126 and GSS 128

Description: Students will be introduced to the methodology by which different wind turbines function and produce electricity including power generation, wind speed, turbine size, efficiency of turbine aerodynamics, power storage potential, and payback. Comparison of different locations for wind turbine installation and structural design and construction will be discussed. Students will be introduced to the concept by which various types of solar panels (photovoltaic panels) installations produce electricity including direct and alternating current. Site selection and evaluation for installation of the solar panels on residential homes and buildings including correct sizing for building consumption, power storage potential, code compliance and government incentives will be discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 202 - Water Recycling / Wastewater Treatment

Prerequisites: GSS 128

Description: This course will introduce students to the principles of design, application, and the cost analysis of water recycling and reuse methods and on-site wastewater treatment for building construction including the layout and design of building piping. Methods of water retention, filtration and reuse of rainwater through erosion control measures and green roofs, greywater, black water, infiltration systems, various plumbing fixtures, and direct and indirect strategies for on-site wastewater treatment including living machines and constructed wetlands will be discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 204 - Energy Codes and Energy Analysis

Prerequisites: GSS 128

Description: This course will introduce students to the techniques used to make

residential and commercial buildings more energy efficient including energy analysis software, energy audits, construction costs and maintenance costs. Methodology used during construction to maintain compliance with the Energy Conservation Construction Code of New York State, ASHRAE 90.1, Energy Standard for Buildings and ASHRAE 90.2 Energy Efficient Design of Residential Buildings.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 206 - HVAC \ Air Quality

Prerequisites: GSS 128

Description: This course will introduce students to the various factors in building design and construction that affect the indoor air quality including the comparison of various passive and mechanical ventilation systems. Compliance with ASHRAE standard 189.1, Standard for the Design of High Performance Green Buildings, MERV ratings, use of low and zero volatile organic compounds and construction air quality control plans will be discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSD 295 - Independent Study-Green Sustainable Design

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

General Science Studies

GSS

GSS 103 - Science of Physics I

Prerequisites: A high school course in elementary Algebra.

Description: An introductory course designed for students with a primary interest in the humanities or physical education. The course goal is to achieve a conceptual understanding of the ideas of physics. The historical and philosophical background as well as the content of physics is studied. Laboratory exercises are designed to illustrate principles of scientific experimentation while deepening the understanding of physical areas. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 104 - Science of Physics II

Prerequisites: A high school course in elementary Algebra. Note: GSS 103 is recommended, but not required for GSS 104.

Description: A conceptual course in physics dealing with waves, electricity and magnetism. 20th-century physics, the historical and philosophical background as well as the content of physics, will be discussed.

Laboratory exercises are designed to illustrate principles of scientific experimentation while deepening the understanding of physical ideas. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 106 - Science of Sound and Music

Description: Fundamentals of mechanics, sound and acoustics, energy, electricity and magnetism with applications to music, musical instruments, sound systems and electronic music. The course material is developed descriptively and demonstrated experimentally. Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;

NCC GEN ED-LSCI

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 108 - The Science of Light and Color

Description: This introductory course will focus on the nature of light and color. It will include not only the principles of geometric and physical optics but also general properties of waves and particles; the relation between light and matter; quantum theory and photons; light, heat, temperature and energy; and the conservation of energy. These physical principles will be applied to understanding color in art, vision, photography, holography, fiber optics, and atmospheric effects.

The course will include many student investigations, in recitation as well as in lab in order to emphasize the experimental nature of science. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;

NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 111 - Science of Our World I

Description: An introductory laboratory science course designed for non-technically oriented students who desire an understanding of the capabilities, characteristics and methods of our modern technological society. Contemporary problems are discussed including such topics as air and water quality, waste management technologies, population dynamics, decision-making and principles of ecology. Laboratory techniques of simulation and modeling are developed to illustrate the topics discussed in lecture. Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;

NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 112 - Science of Our World II

Prerequisites: GSS 111 is recommended but not required.

Description: A continuation of GSS 111 which includes additional topics such as electrical energy, noise pollution, light and laser applications, nuclear power generation, heat and thermal pollution. Laboratory modeling and simulation are utilized to aid in the understanding of the technology and the underlying science principles. Laboratory fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 120 - Science of Modern Electronics

Description: The course is designed for non-technical students and will provide a conceptual understanding of science related to electronic devices. The course details science fundamentals using a non-mathematical approach, then focuses the presentation to include applications in the area of electronics (entertainment, business, communication, home electronics). Aspects of sound, light, heat, and mechanics are included with applications in today's electronic world. Laboratory work will consist of hands-on experience with actual measuring devices. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB;

NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

GSS 122 - Science of Energy

Description: This introductory course covers the scientific principles and technological

innovations related to Energy resources. The study of mechanics, electricity, magnetism and thermodynamics pertinent to energy are explained. Students develop an appreciation of energy use in the contemporary world by examining alternate energy systems such as solar, wind, photovoltaic, hydro, biomass, the ocean, renewable alternative energy sources and environmental sustainability processes. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSS 126 - Forensic Technology

Description: The course introduces the various types of physical evidence commonly encountered at crime scenes (e.g., fingerprints, hairs, fibers, drugs, glass, etc.), and discusses comparison and identification techniques (i.e., optical examination/comparison, instrumental analysis, and various chemical processes) used for the analysis of such physical evidence. It examines the various methods used for analysis of scientific evidence in the field of forensic technology. Students learn the technology used to interpret the science and its applications.

SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

GSS 128 - Green Building Practices

Description: This course introduces students to the science governing fundamental sustainable design and green building practices and their implementation. Topics include building site selection, building orientation, water and energy efficiency, renewable energy and storage, on-site power generation, improvement of indoor air quality including air quality and efficient use of building materials. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-NSCI

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Healthcare Administration

HCA

HCA 180 - Introduction to Healthcare Administration

Prerequisites: None.

Description: This course provides students entering the healthcare administration field with an introduction to the organization and delivery of healthcare in the United States. The management of various healthcare enterprises including hospitals and health systems, physician practices and clinics, and public health organizations will be reviewed. Changes within the healthcare industry and the responsibilities, function, and role of healthcare administrators will be discussed. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

HCA 182 - Healthcare Resource Management & Strategic Planning

Description: This course prepares students with knowledge of strategic principles and planning skills required to address the intricacies of the contemporary healthcare system. The continued evolution of healthcare reform and its effect on healthcare market structure and business models is reviewed. The strategic challenges commonly faced by healthcare administrators including the shift to value-based care and reimbursement models, issues of capitation, the formation of accountable care relationships, and competitive positioning to the dissolution of alliances and vertical integration will be reviewed. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

HCA 184 - Healthcare Revenue Cycle

Description: This course reviews the variety of ways in which healthcare is reimbursed as it pertains to the financial analysis and decision making required by healthcare administrators. Changes to reimbursement methodologies and payment systems, including Medicare, regulation of managed care, public policy and formation of integrated delivery systems is reviewed. Responsibilities and issues faced by healthcare administrators regarding delivering and financing healthcare is discussed. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

HCA 187 - Topics in Public Health

Prerequisites: None.

Description: Public health addresses broad issues that can affect the health and well-being of individuals, families, communities, populations, and societies. This course is an introduction to public health which explores topics including population health management, public health administration, health planning and promotion, research,

epidemiology, the public health workforce, environmental and occupational health, public health education and public health emergency preparedness and response.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

HCA 280 - Medicolegal Aspects of Healthcare Administration

Description: This course is an overview of the legal and ethical issues faced by healthcare administrators. Healthcare ethics, medical staff organization, physician liability, patient consent, reporting requirements, end-of-life issues, and patient rights and responsibilities as they impact the duty of healthcare administrators will be reviewed. The practical application of ethics in a healthcare setting, including review of case studies as well as real-world events related to healthcare administration will be discussed. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

HCA 288 - Healthcare Administration Internship

Prerequisites: HCA 180, HCA 182, HCA 184, HCA 187, HCA 280 (with a grade of C or better in each course)

Description: Concurrent Requisite: HIT 166 (with a grade of C or better)

This course is a supervised internship experience that provides students with the opportunity to perform directed projects common in healthcare administrative setting. Students are introduced to healthcare administration duties through observation, study, and work. Weekly seminars reinforce work experience.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Administrative Business Tech

Hebrew

HEB

HEB 101 - Beginning Hebrew I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. This course is not intended for students of Hebrew speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Fall, Spring

Credit Hours: 3

Department: Foreign Languages

HEB 102 - Beginning Hebrew II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN-HUM, GLNW

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

HEB 201 - Intermediate Hebrew I

Description: Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

HEB 202 - Intermediate Hebrew II

Description: Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

HEB 295 - Independent Study-Hebrew

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly HEB 699. Students who have completed HEB 699 will not receive credit for HEB 295.

Credit Hours: 3

Department: Foreign Languages

Health, Physical Education and Recreation

HED

HED 200 - Concepts of Healthful Living and Stress Management

Description: Students receiving credit for PED 200 will not receive credit for HED 200

This comprehensive survey course explores healthy behaviors, emphasizing wellness and stress management. Taking into consideration one's entire life style through the "whole person approach," connections among the mind, body and spirit are examined using information culled from advanced research in the interdisciplinary sciences. Topics include: psychosocial stressors and their relationship to acute/chronic diseases, stress management, coping strategies, death and dying, violence and victimization, and mental health; nutrition, fitness and weight management, sexual relationships, sexually transmitted infections, contraception, pregnancy and childbirth; use/misuse of alcohol, drugs and tobacco and other compulsivities.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 201 - Personal and Family Health

Description: Students receiving credit for PED 201 will not receive credit for HED 201. The focus of this course is on the essential behavior necessary for a healthy lifestyle. Included is the opportunity to evaluate and improve physical as well as emotional well being in light of the most current information available in each topic. The student is presented with strategies that have proven successful in moderating individual behavior. Topics that deal with improving the physical health level include physical fitness, weight control and nutrition, while topics that explore the development of positive mental and emotional health and stress management, intimate personal relationships and human sexuality.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 2

Department: Health/Physical Ed/Recreation

HED 202 - Health Through Exercise, Nutrition and Weight

Description: Students are introduced to the concepts and principles of energy balance, body composition, weight control, and physical fitness as they relate to personal health. The exploration of genetic and lifestyle related risk factors for disease will enable students to develop a comprehensive nutrition and exercise program.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer, Winterim

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 203 - Infant Health and Care

Description: The course introduces cognitive, physical and socio-emotional development of children birth through 36 months. Students will learn appropriate, inclusive, and respectful care practices, including Sudden Infant Death Syndrome (SIDS), Shaken Baby Syndrome, Immunizations and pediatric doctor visits, Nutrition, Infant CPR, Accident Prevention, Childhood diseases, Cognitive and physical development, Community resources and early intervention programs for diagnosed/noticed developmental delays.

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 205 - Consumer Health Care and Protection

Description: Students receiving credit for PED 205 will not receive credit for HED 205. A course intended to keep pace with today's unprecedented consumer interests, particularly in matters of health services and products. The availability and quality of such care are explored in the following areas: the health consumer, protecting one's rights in the marketplace, the unique role of the college student as a health consumer, the patient and doctor, the national medical care crisis, kinds of health insurance, getting more for one's health dollars, the role of health agencies, health spas and clubs, diet clubs and fads, popular remedies for common ailments, and health career opportunities.

SUNY GEN ED-n/a; NCC GEN ED-HED

Offered: Fall

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 211 - Women's Health

Description: The course explores cross-cultural approaches to women's health and reproductive issues. In particular, it will explore gendered, ethnic, culture, and class dimensions that underlie the patterning of disease and illness with attention to the long-term health effects of racism, poverty, and sexism. Topics will include: world views and usage of birth control, gender and racial discrepancies in health care, diseases of the female body and reproductive system, mortality and morbidity, abortion, menstruation and menopause, cardiovascular, physical and mental health, globalization of contraception, STI's, pregnancy, midwifery, breastfeeding and reproductive rights.

SUNY GE-SDES

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 231 - Death Education: A Health Perspective

Description: Students receiving credit for PED 231 will not receive credit for HED 231. The course enables students to understand and cope with death as part of the life cycle. From an interdisciplinary and historical perspective, the course explores how many different cultures treat death and dying as well as examines biomedical ethics (euthanasia, organ donation, wills and trusts). Emphasizing the psychological adjustments to loss, topics include the meaning of death, stages of dying, bereavement and grief processes and a variety of religious attitudes toward suicide, funeral rituals and death in general. SUNY GE-SDES, SSBS; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 251 - Human Sexuality

Description: Students receiving credit for PED 251 will not receive credit for HED 251. Taught in cross-cultural context, this interdisciplinary course examines the diversity of family life and human sexuality. Drawing from the social and biological sciences, students explore a variety of attitudes and personal beliefs. Topics include the history of human sexuality, sexual reproduction, gender related sexual health issues, gender roles/identity and sexual orientation. Sexual communication, intimacy, behaviors, coupling, victimization, dysfunctions and therapy are also addressed. Audiovisual material of a sensitive nature may be used. SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-PLDI

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 271 - Alcoholism, Addictions and Abusive Behaviors

Description: Students receiving credit for PED 271 will not receive credit for HED 271. This course is designed to explore why people develop addictions and dependencies. Using alcohol use, abuse and alcoholism as primary models, students discuss addictive behavior as manifested in such areas as eating disorders, gambling, tobacco and substance use. The course analyzes the epidemiology of alcohol use in American culture and its effects on society. It also considers the intra-psycho-addictive syndrome on diverse populations that reflect issues of race, ethnicity, gender and sexual orientation. SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 272 - Alcoholism and Addictions: Modalities, Prevention and Treatment

Prerequisites: HED 271.

Description: Students receiving credit for PED 272 will not receive credit for HED 272. This course focuses on assessment, diagnosis, and treatment of addictive behaviors. Emphasis on special populations such as college students, adolescents, disabled and incarcerated individuals and ethnic minorities are examined. Treatment techniques and prevention strategies are explored. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 290 - CPR Basic Life Support Coed

Description: (Dual listed with AHS 100) This course is designed to teach Cardiopulmonary Resuscitation (CPR) and Basic Life Support to individuals entering the various service professions (Police, Fire), health professions and professions who are activity-oriented (recreation, lifeguards), etc. Basic procedures are covered in full, including techniques of advanced life support. Successful completion of the course meets all requirements for the American Red Cross and Heart Association Certification. It cannot be used to fulfill Physical Education course requirement for graduation. Formerly PED 640. Students who have completed PED 640 or PED 290 will not receive credit for HED 290. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

HED 291 - Personal Health for Physical Education and Health Majors

Description: Identification and evaluation of sound health principles, personally and professionally. The design of this course provides examination and exploration of health issues for daily living, as well as pedagogical techniques for future health and Physical Education teachers. Formerly PED 291. Students who have completed PED 291 will not receive credit for HED 291. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 292 - Safety and First Aid

Description: An analysis of problems related to safety and first aid, with special emphasis

on their application to Physical Education. A study of the immediate care of injuries and their prevention. The student will be required to participate in practical examination of skills, including a pool session which involves neck and back spinal immobilization. Successful completion of this course will certify the student in the American Red Cross - Responding to Emergencies and Adult CPR. It cannot be used to fulfill Physical Education course requirement for graduation. Formerly PED 292. Students who have completed PED 292 will not receive credit for HED 292. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

HED 293 - Community Health

Description: Students receiving credit for PED 293 will not receive credit for HED 293. A course designed to acquaint the major student in Health Education with the multiple definitions of health, principles of health maintenance, structure of the health care delivery system, basic epidemiological tools, elementary health counseling techniques, as well as a broad overview of major health problems that face the community. The course is also designed to familiarize the student with the agencies and facilities that are currently operating to solve health problems. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Health/Physical Ed/Recreation

History

HIS

HIS 101 - History of Western Civilization through the 18th Century

Description: The course begins with a brief survey of the foundations of modern Western Civilization in the ancient and medieval world. The rise of individualism, humanism and science, the growth of the state, the emergence of the middle class and the beginnings of the age of liberal revolutions are discussed as ingredients in the birth of the modern world. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GWEH, GSBS; NCC GEN ED-SBS, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 102 - History of Western Civilization since the 18th Century

Description: The second half of Western Civilization considers the historical forces and events that shaped the world in the 19th and 20th centuries. The course examines revolutions, nationalism, industrialization, imperialism, war, and the clash of Nazism, fascism, communism, and democracy. Other major components consist of the decline of colonialism, the atomic age, the Cold War, contemporary world conflicts, and prospects for the future.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GWEH, GSBS; NCC GEN ED-SBS, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 103 - History of the United States through the Civil War

Description: The course covers the broad spectrum of American life through a survey of American social, cultural and political events. Included are such topics as the rise of colonial America; the American Revolution; the early national period of Washington, Adams, Jefferson and Hamilton; the westward movement; and the antislavery movement which climaxes with the bitter struggle of the Civil War.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 104 - History of the United States since the Civil War

Description: This second half of the American history sequence picks up the American story with the era of Reconstruction and moves on to mark the growth of industrial America, the expanding frontier with its Indian wars, the Progressive Era, the expansion of American foreign interests, the Great Depression, and the rise and image of modern America. Designed to reveal this nation's colorful and remarkable past in the modern era, the course seeks to examine the impact recent events have had on the creation of modern American society, culture, politics and world affairs.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 105 - The World, 1945-Present

Description: With its focus on the present, this course is designed to give students an

understanding of the world they live in, how it was born out of the past and how it is creating the future. Recent international conflicts, social change and expectations of the future are explored in the framework of the nuclear age. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-GLNW, SBS, HISSD

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 106 - U.S.A., 1945-Present

Description: This course deals with America in the nuclear age, its recovery from World War II and its growing domination of the Western world. The course covers the dramatic changes in American society at home and its entanglements abroad in an effort to contain Russian and Chinese power. Domestic transformation of the Kennedy-Johnson period, the upheaval of Watergate, the Reagan "revolution", and contemporary issues in American life conclude the course.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-GAMH, GSBS; NCC GEN ED-SBS, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 107 - A Pictorial Approach to European History Since 1500

Description: This course offers a unique approach to European history using media as a major part of each class period. Slides and films of great masterpieces are used to illuminate selected historical periods giving the class discussions visual impact not available in ordinary history presentations.

SUNY GE-SSBS, SWHI; SUNY GEN ED-GWEH, GSBS; NCC GEN ED-SBS, WESH

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 108 - Honors History: Western Roots through the 18th Century

Description: This course traces the roots of Western Civilization beginning with a survey of the Judeo-Christian and Greco-Roman traditions and concluding with the Age of Enlightenment and revolutionary upheavals through 1789 that helped usher in the modern world. The course is designed for honors students only and includes extensive reading in primary and secondary source materials.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, WESH

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 109 - Honors History: Western Roots since the 18th Century

Description: This second half of Honors Western Civilization studies the development of the Western world from 1789 to the present. The course considers that great events and forces that have shaped our Atlantic world: revolutions, nationalism, industrialization, imperialism, war, and conflict between fascism, communism, and democracy to the present day. This course is designed for honors students only and includes extensive reading in primary and secondary source materials.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GWEH, GSBS; NCC GEN ED-SBS, WESH

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 110 - History of Contemporary Africa

Prerequisites: Completion of RDG 001 and/or RDG 002.

Description: (Dual listed with AFR 143) The study of African independence movements; discussion of the problems of post-independent Africa, such as nation building, strategies of development, education, pan-Africanism; and problems of democracy in southern Africa.

SUNY GE-SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW

Offered: Fall, Spring

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 124 - Women in the Western World

Description: A focus on the role of women as a significant force in the development of the Western world. The course examines, in historical context, the factors which have determined women's place over the centuries, compares the situation of women in capitalist, socialist, and fascist societies, and surveys contemporary European feminist movements.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, WESH, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 125 - The Role of Women in American History

Description: Women's history offers an important new dimension to the study of American society. This course examines the vital role ordinary women have played in American life for 350 years, the experiences and achievements of women, and the successes and failures of the feminist movements.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 130 - Race and Ethnicity in America

Description: An exploration of American history through the eyes, ears and emotions of its immigrants - the experiences of Italians and Jews, Irish and Germans, Chinese and Mexicans, and others. Common problems of adjustment, acceptance and assimilation faced by these groups teach us about America. Guest speakers, films and tapes are utilized throughout the course to probe the meaning and bring to life the history of ethnic groups in America.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, PLDI

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 136 - History of Latinos in the U.S.

Description: This course explores major social, economic and political developments in the history of the various Latino communities of the United States from the mid-19th century to the present. Attention is given to such long-term processes as community formation, Latino immigration to the U.S., religion, and group identity.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-n/a; NCC GEN ED-SBS, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 137 - Native Americans

Description: A survey of Native peoples in United States history and popular culture, from contact to the present. Emphasis centers on comparing and contrasting the different Native American groups in the United States; their respective responses over time to the influx of peoples from outside the western hemisphere, and the developing relationship between these groups and what became the dominant political and social U.S. institutions and people. There will be a special emphasis on indigenous peoples of Long Island particularly and New York generally. In addition, this course will look at the ever-changing images and/or stereotypes of Native Americans in U.S. culture.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 140 - Nassau County: History and Government

Description: (Dual listed with POL 111)

A review of the development of what is now Nassau County from pre-Colonial times to the present day. Emphasis is placed upon the governmental-administrative structure of the county and the major problems facing urban-suburban communities. Field trips and guest speakers are utilized to complement class work.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 150 - History of the American Labor Movement

Description: This course explores the dramatic and inspiring history of working men and women as they struggle to improve life for themselves and their children. Students trace the history of the American labor movement from Colonial times to the present. Emphasis is placed on the theory, strategy, and goals of the organized labor movement. Students are also introduced to the concept and techniques of collective bargaining. Films, speakers, and resources on Long Island are utilized to complement class discussion.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GAMH, GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 161 - World History: Antiquity to 1500

Description: This course examines major developments in world history, from the emergence of the earliest civilizations to about 1500 C.E. How various civilizations conceptualized and responded to issues such as the nature of god(s), human nature, gender roles and relationships, and the environment are explored. Technological developments and economic, political, and social structures are also studied.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-GLNW, SBS, PLDI

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 162 - World History: 1500 to the Present

Description: This course examines important developments and interactions in world history from the age of exploration and European expansion to the present. Major formative elements of the modern world such

as industrialization, democracy, imperialism, nationalism, secularism, feminism, socialism, fascism, human rights, and technological developments are explored.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-GLNW, SBS, PLDI

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 165 - Religion in World History

Description: This course examines the emergence and historical development of religious ideas and practices and their impact on world history from the ancient world through the beginning of the 21st century. Religions of Asia, South Asia, Africa, the Americas, The Middle East, the Pacific, and "new" religions are all examined in their historical contexts, as well as the historical relationships and interactions among the great world religions.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI, SBS

Offered: Fall, Spring

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 176 - African-American History I

Prerequisites: Completion of RDG 001

Description: (Dual Listed with AFR 140)

A survey of the African-American experience in the New World, from the advent of the African slave trade to the Civil War and the Reconstruction Era. Emphasis centers on the African background, the cultural heritage of the African-Americans, slavery and a legacy of racial discrimination.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 177 - African American History II

Description: (Dual listed with AFR 141)

A survey of the African American experience since the Reconstruction Era to the post World War II period and the current scene. Emphasis centers on the Civil Rights Movement, the Harlem Renaissance, the Black Revolution and the philosophies of Dr. Martin Luther King, Jr., Malcolm X, Jesse Jackson, Angela Davis, Cynthia Boston, Willie McGee and the "exiled" leaders of the contemporary scene.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 178 - History of the Black Woman**Prerequisites:** Completion of RDG 001**Description:** (Dual listed with AFR 200)

An historical examination of the image, role and treatment of the Black Woman in America from the Age of Slavery to the advent of the feminist movement and the contemporary scene. Emphasis centers on the burdens of racism, sexism, single-parent motherhood, welfare, Black female and male relationships, sterilization, the Black family and the issues of Black Women's liberation, women's lib and the ERA amendment.

SUNY GE-SDES, SUSC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH, PLDI

Offered: Fall, Spring, Summer**Credit Hours:** 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 179 - History of the Black Woman in America II****Prerequisites:** HIS 178 or AFR 200 or permission of instructor, completion of RDG 001 and/or RDG 002.**Description:** (Dual listed with AFR 201)

An historical continuation of the History of the Black Woman, from 1900 to the Post World War II Era, the decade of the 1990's & the contemporary scene. Emphasis centers on her problems, roles, experiences in America, her changing role in the workplace, church, professions, society and the current Black Feminist.

SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS, WESH, PLDI

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 180 - Health, Disease and Western History****Prerequisites:** Completion of RDG 001 and/or RDG 002.

Description: In all eras disease has been a shaper of human affairs. It has affected the life of empires and the outcome of wars, helped alter the economy and the structure of society, and evoked outbursts of mass unrest. It continues to challenge the development of civilization. The course examines the impact of disease on Western history; the efforts of Western society to deal with disease through magic, religion, and science; and the role of disease as the theme of art, literature and popular culture.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, WESH

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 190 - The History of Sports in America**

Description: This course examines the evolution of sports in the context of American history. From the colonial era to the present, sports have been a mirror of the larger history of the nation. The course traces the growth of sports, both amateur & professional with an emphasis on the refining rules & organization, the role of the media & the changes that have taken place within the sporting world.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Summer**Credit Hours:** 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 205 - The Ancient World****Prerequisites:** Completion of RDG 001 and/or RDG 002.

Description: The peoples of ancient Mediterranean, African, Near Eastern, Asian and Celtic worlds and pre-contact America are the subjects of this course. Each civilization, with an emphasis on their art and literature, manners and morals, scientific and technological inventions, political, military, and economic institutions, triumphs and failures, is considered first in its own context, and then with reference to how, when, and with what consequences ancient civilizations affected one another.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW

Offered: Summer**Credit Hours:** 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 206 - The Medieval World****Prerequisites:** Completion of RDG 001 and/or RDG 002.

Description: The course focuses on the new civilization which emerged from the ruins of the Greco-Roman world. The role of the Medieval church, feudalism, chivalry, and witchcraft in shaping this seminal period is explored together with the medieval world's contribution to the making of modern day political, economic and cultural traditions.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, WESH

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 207 - Renaissance and Reformation Europe****Prerequisites:** Completion of RDG 001 and/or RDG 002.

Description: This course covers the period in European history from 1500 to 1763, one in which the values, life-styles and power structure of the Middle Ages were consistently challenged by new forces which were ultimately victorious and laid the groundwork for the modern era. More than just a period of transition, the epoch includes some of the more creative and turbulent chapters in the history of European civilization.

SUNY GE-SSBS, SWHI; SUNY GEN ED-n/a; NCC GEN ED-SBS, WESH

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 209 - Twentieth-Century Europe**

Description: A study of Europe in the 20th century, beginning with the foundations in 1870 and continuing to the present. The course examines the former world dominance of Europe and traces developments leading to its present status in the world community. Topics studied intensively include the origins of World War I, the impact of the Russian Revolution, the rise of fascism, and World War II, as well as the significant cultural, social and intellectual trends that shaped this epoch in European history.

SUNY GE-SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, WESH

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 210 - The Modern Middle East**

Description: This course examines the multifaceted history of the Middle East, broadly construed as a geographic and cultural region, since the 18th century. Topics include religious and cultural traditions and varieties, gender issues, and the challenges and choices facing Middle Eastern states and societies in recent years. Regional conflicts, religious radicalism, and terrorism will be addressed.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, PLDI

Credit Hours: 3**Department:** His/PolSci/Geo/LatinAm Studies**HIS 212 - History of the Islamic World**

Description: This course examines the early and modern history of Islamic societies and of Muslims in local and global contexts, including Africa, Central and South Asia, the Pacific, and the West. The course addresses topics such as politics and statecraft; religious and cultural traditions and varieties; gender roles; and the challenges and choices that

Muslim societies and individuals have faced in medieval, early modern, and modern times. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 219 - The History of Latin America: The Ancient World to Independence

Description: A survey history of Colonial Latin America, from the Age of Discovery and Conquest to the Independence Movement. Emphasis centers on the development and formation of Colonial Latin America, its political institutions and social problems. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED- GSBS, GOWC; NCC GEN ED-SBS, GLNW, WESH, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 220 - The History of Latin America: Independence to the Present

Description: A history of Latin America in the 19th and 20th centuries dealing with the broad comparative features of the region's political, economic and social development. More specific analyses of national case studies are included together with a consideration of the frequent revolutions which have swept the nations of Latin America in the modern era. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, WESH, PLDI

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 221 - The Afro-Caribbean World

Description: (Dual Listed with AFR 203) An historical presentation of the African experience in the Caribbean nations of Cuba, Bahamas, Haiti, Dominican Republic, Jamaica, Puerto Rico, and the nations of the Lesser Antilles, Trinidad and Tobago. Emphasis centers on the impact and effects of African slavery in the Caribbean, African contributions to the region, its cultural roots in Caribbean society, and the contemporary problems in the Caribbean today.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, WESH, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 222 - Modern Mexico and Central America

Description: This course examines the history of Mexico and Central America from independence in the 1820s to the present. Attention will be paid to political events, such as the Wars of Independence, the Mexican Revolution and the Sandinista and FMLN movements, and to such long-term processes as the relationships among agrarian development, social movements and state-building.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW, WESH, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 228 - Modern China

Description: A survey of Chinese history & culture in the 20th Century. The course reviews the impact of the West on China in the modern era. Emphasis is placed on the Revolution of 1911, which ushered in the Republican era, the rise of Chinese Communism, & the present two-China situation.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED- GSBS, GOWC; NCC GEN ED-SBS, GLNW, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 230 - Modern Imperialism

Description: This course examines Western Empire building and the struggle of colonized societies to gain independence. It begins by exploring the roots of imperialism in the 16th through the 18th centuries and continues with analysis of European imperialism in Africa and Asia in the 19th century. Motivations for imperial conquest, methods of rule, effects on the colonized societies and the United States expansionism in the 19th and 20th centuries are considered. This course also analyzes gender, race and the anti-colonial movements of the 20th century. It concludes with analysis of neocolonialism in the aftermath of the Cold War.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, PLDI, WESH, GLNW

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 232 - The History of the Cold War

Description: The course deals with one of the most significant areas of contemporary international conflict and tension: the mutual relationships among the United States, Russia, and China. Students probe the origins and development of the Cold War and peace in the 20th century. SUNY GE-SDES, SSBS, SWHI;

SUNY GEN ED-GSBS; NCC GEN ED-SBS, WESH

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 234 - History of Ireland

Prerequisites: Completion of RDG 001.

Description: (Formerly HIS 170)

This course focuses on Celtic history, foreign invasions, early modern Ireland before emancipation, the great famine, land reform, home rule, the Easter uprising, the Irish Free State, the independent republic, Northern Ireland, the present discord and the Dublin-London-Belfast-American connection.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-SBS, WESH

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 235 - Russia Since Peter The Great

Description: This course tries to make Russia less puzzling by examining the cultural, social and political elements which have gone into the making of modern Russia. In the process certain broad themes are considered, including Russia's place in Western tradition and the relationship between contemporary society and Russia's pre-revolutionary past.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED- n/a

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 236 - History of Israel

Description: (Formerly HIS 135)

An interdisciplinary approach to the history of the modern state of Israel and the Jewish historical experience. Firsthand experiences and films are used in examination of the life and culture of modern Israel, including an in-depth study of the Arab-Jewish conflict. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 240 - Revolutions in the Modern World

Description: A comparative study of revolutionary movements and ideologies from the time of Cromwell to the present, with an emphasis on the modern era. It deals with the causes and consequences of revolutions in their historical contexts, and discusses alternatives to violent overthrows of government as well as counter-revolutionary movements, past and present. The English,

American, French, Russian, Chinese and Cuban revolutions are among those examined. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, WESH

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 250 - Era of the American Revolution

Description: An in-depth view of the American struggle for independence, removing much of the mythology that surrounds this classic confrontation between colonies and mother country. Beginning with the French and Indian War, the course examines the crises leading to revolution, the military aspects of the war itself, and ends with a look at the new nation in its infancy. Particular attention is focused on both British and Colonial views toward independence, the conspiratorial activities of the radical revolutionary minority, and the roles played by various individuals on all sides of the struggle in the War for Independence.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 255 - The Civil War and Reconstruction

Description: The era of the Civil War and Reconstruction was the most traumatic in American history. The nation underwent an orgy of bloodshed and hatred, the aftereffects of which can still be seen to this day. This course examines the events and personalities of that turbulent era during which the nation was forged.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-GSBS, GAMH; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 260 - Twentieth Century Genocide

Description: The subject matter of this course will be the history of ethnic/religious genocide during the 20th century. The topics covered will include the Armenian massacre of 1915-1918, the Jewish Holocaust (Final Solution) of World War II, as well as some contemporary examples of genocide, i.e. Bosnia, Rwanda, the Caucasus, etc. The prime emphasis will be on the Holocaust, with a focus on the lessons learned from this historical experience.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-SBS, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 270 - Racism in the Modern World

Description: This course examines the origins and development of the national forces and institutions that have shaped racial ideas and practices over the last 500 years. Through a variety of historical materials, students will explore the comparative aspects and dimensions of racism, from early European overseas conquests to contemporary struggles for national political power.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GWEH; NCC GEN ED-SBS, PLDI

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 280 - The Atlantic World 1450-1820

Prerequisites: Completion of RDG 001 and/or RDG 002

Description: The European navigations of the fifteenth century permanently connected four major continents and their distinct peoples many of whom before this time had no or only sporadic contact with one another. From 1450 onwards the Atlantic Oceans served as a "corridor" through which peoples, ideas, and things were exchanged and transformed. This course explores the Atlantic world created by this corridor by examining several themes: maritime exploration, European-Indian-African interactions, the rise of European imperialism in the Americas, the creation of Atlantic American communities in the Americas, the growth of an Atlantic economy, and rebellion and revolution in the Atlantic world.

SUNY GEN ED-n/a; NCC GEN ED-SBS, PLDI

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 290 - Religion in American History

Description: Religion has played an important role in the political, social, cultural, and intellectual history of America from the colonial era to the present. This course examines the diverse religions that have influenced and that have been influenced by the American past. Some of the belief systems considered are Protestant denominations, Roman Catholicism, Judaism, Islam, Buddhism, Hinduism, Mormonism, and African-American and Native-American religions.

SUNY GE-SDES, SSBS, S USC; SUNY GEN ED-n/a; NCC GEN ED-PLDI, SBS, WESH

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

HIS 295 - Independent Study-History

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly HIS 699. Students who have completed HIS 699 will not receive credit for HIS 295.

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

Health Information Technology

HIT

HIT 101 - Introduction to Health Information Technology

Description: This course examines the concept of using health data and presenting it as usable information. Verification of data, data timeliness, data accuracy and data appropriateness, various data sets and data sources are discussed. Governmental requirements for data reporting are reviewed. The basics of medical record administration, including format and documentation compliance are also discussed. Students review and analyze actual medical records. Laboratory fee applies. Students who received credit for HIT 250 Health Care Data Structure and Delivery Systems will not receive credit for HIT 101.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

HIT 151 - Medical Terminology

Description: This course will prepare students for careers in medical administration by reviewing the terminology associated with many areas of medicine such as cardiovascular, digestive, central nervous, genitourinary, respiratory systems, etc. Emphasis is placed on etymology of words. (Students receiving credit for OFT 151 will not receive credit for HIT 151.)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

HIT 154 - Computer Software Applications in Healthcare

Description: This course covers an overview of commonly available software tools used in health care, including introduction to encoding tools and computer assisted coding software used in health data processing. It includes an introduction to the electronic

health record (EHR) process and the various health information systems currently used in health care delivery in the US. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 156 - Medical Coding CPT

Description: Concurrent Requisite: (AHS 131 or AHS 225 or BIO 101) and HIT 151 (with a grade of C or better in both courses) or permission of the Chairperson. Cannot be in the same semester with HIT 170 and/or HIT 171.

This course provides instruction in the classification and coding of all ambulatory care and outpatient care encounters. The students will become familiarized with all aspects of CPT Coding and HCPCS Level II Coding. The course covers interpreting medical chart documentation and operative reports to accurately assign CPT codes for maximum physician reimbursement. Students will use popular coding software. Laboratory fee applies. (Students receiving credit for OFT 156 will not receive credit for HIT 156.)

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 157 - Medical Coding ICD-9

Prerequisites: HIT 151 (with a grade of C or better) or permission of the Chairperson.

Description: This course will familiarize students with all practices and conventions of ICD Coding. Students will learn to assign numeric codes for medical diagnoses and procedures carried out in medical offices, hospitals, ambulatory surgery centers and other types of health care facilities. Emphasis will be placed on accurate code selection following approved guidelines and coding conventions. Students will use popular coding software. Laboratory fee applies. (Students receiving credit for OFT 157 will not receive credit for HIT 157.)

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 158 - Reimbursement Methodologies

Prerequisites: HIT 156 (with a grade of C or better) or permission of the Chairperson.

Description: Concurrent Requisite: HIT 170 (with a grade of C or better) or permission of the Chairperson.

This course is designed to familiarize students with the basics of medical billing insurance reimbursement, and medical record documentation. The various types of prospective payment systems (PPS) used in health care reimbursement are discussed. Students complete billing, insurance and medical documentation forms, both manually and electronically. The course includes the study of the impact of federal legislation on health care reimbursement and an overview of the Federal Register. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 159 - ICD-10 Medical Coding

Prerequisites: HIT 151 and AHS131 or AHS225 or BIO101 (with a grade of C or better)

Description: Cannot be taken concurrently with HIT156.

This course will familiarize students with all practices and conventions of ICD-10-CM/PCS coding classification. Students will learn to assign alphanumeric codes for medical diagnoses and procedures carried out in medical offices, hospitals, ambulatory surgery centers, and other types of healthcare facilities. Emphasis will be placed on accurate code selection following approved guidelines and coding conventions. Students will learn to use the En-coder Pro software program.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 160 - Introduction to Healthcare Data Analytics

Description: This course introduces the role of healthcare data analyst and healthcare data analytics in the healthcare delivery system. The various healthcare data sources and how healthcare data is organized, processed, and analyzed are reviewed. The impact of healthcare data analytics to healthcare delivery, operations, and outcomes are discussed.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 161 - Excel and Data Management for Healthcare Data Analytics

Prerequisites: None.

Description: This course introduces students to the basics of data management by hands-on training utilizing popular healthcare data

analysis tools, spreadsheet templates, and database applications. Students will receive instruction on how to store, retrieve, and analyze healthcare data.

Credit Hours: 3

Department: Administrative Business Tech

HIT 162 - Advanced Excel and Data Management for Healthcare Data Analytics

Prerequisites: HIT 161 (with a grade of C or better in each course) or permission of the Chairperson.

Description: This course introduces students to the theory and practical application of healthcare data analytics. It provides students with the fundamental concepts of database management and healthcare data sources. The course also prepares students to store, retrieve, and analyze healthcare data and evaluate the effectiveness of healthcare treatment, services, and operations. Structured Query Language SQL will be introduced.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 166 - Healthcare Report Writing and Data Visualization

Description: This course prepares students to utilize database query syntax and popular healthcare data visualization software. Students will formally report clinical, administrative, and financial healthcare data through visual design and display.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 170 - ICD-10-CM Diagnostic Coding

Description: Prerequisite: AHS131 or AHS225 or BIO101 and HIT151 with a grade of C or better in both courses. Cannot be taken concurrently with HIT156.

This course will familiarize students with all practices and conventions of the ICD-10-CM coding classification. Students will learn to assign alphanumeric codes for medical offices, hospitals, ambulatory surgery centers, and other type of healthcare facilities. Emphasis will be placed on accurate code selection following approved guidelines and coding conventions.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 171 - ICD-10-PCS Procedural Coding

Description: Prerequisite: AHS 225 or AHS 131 or BIO 101 and HIT 151 with a grade of C or better in both courses.

Concurrent Requisite: HIT 170.

This course will familiarize students with structure and conventions of the ICD-10-PCS coding classification. Students will learn the process of building codes in the PCS system including review of anatomy and code structure by body part for each of the body systems and related sections of the PCS classification. Emphasis will be placed on accurate code selections following approved guidelines and coding conventions.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 175 - Study of Disease for HIM Professionals

Description: Prerequisite: AHS132 or BIO101 and HIT151 with a grade of C or better in both courses or permission of the Chairperson.

This course will provide students with the fundamental concepts of disease processes and their commonly used medications as documented by clinicians required for the accurate assignment of diagnostic and procedural coding. A working knowledge of the nature and cause of disease including the etiology, signs, symptoms, diagnostic evaluation, clinical treatment, and pharmacology management of disease processes necessary for a career in the health information management profession are presented. Students will define pharmacological terminology and identify the route of administration, indications, adverse effects and related laboratory studies for commonly used medications.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 248 - CCS Test Prep

Prerequisites: Permission of Department Chair

Description: This course prepares students to sit for the CCS national coding certification exams. Examination study strategies and resources are introduced. Students will review CPT and ICD coding strategies and techniques. Classification systems and secondary data sources are reviewed. Students will complete CCS case studies and mock exams.

Credit Hours: 1

Department: Administrative Business Tech

HIT 250 - Health Care Data Structure and Delivery Systems

Description: This course examines the concept of using health data and presenting it as usable information. Verification of data, data timeliness, data accuracy and data appropriateness, various data sets and data sources are discussed. Governmental requirements for data reporting are reviewed. The basics of medical record administration, including format and documentation compliance are also discussed. Students review and analyze actual medical records. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

HIT 256 - Advanced CPT Coding

Prerequisites: BIO101 or AHS132, BIO131, HIT 151, HIT 156, HIT 158 (with a grade of C or better in each course) or permission of the Chairperson.

Description: This course focuses on the advanced practice of the application of CPT coding. Students review and code advanced clinical and medical scenarios related to various body systems. Software coding packages and the use of CPT and HCPCS manuals to code for physician procedures and services are reviewed. Emphasis is placed on surgical coding. The students are introduced to procedure based payment systems including RBRVS, E&M codes and APC assignments. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 257 - Advanced ICD Coding

Prerequisites: HIT 151, HIT 156, HIT 157 (with a grade of C or better in each course) or permission of the Chairperson.

Description: This course focuses on the advanced practice of the application of ICD-9 coding. Students review and code advanced clinical and medical scenarios related to various body systems. Coding standards guidelines and regulatory requirements for each system are discussed. The students are introduced to diagnostic based prospective payment groupers including MS-DRG, APR-DRG and RUGS, as well as diagnostic coding systems including ICD-10 and the DSM-5. Course includes an introduction to Systemized Nomenclature of Medicine (SNOMED) and its role as a basis for the electronic health record (EHR). Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

HIT 258 - Medical Coding Internship

Prerequisites: HIT 101, HIT 154, HIT 158 and HIT 171 (with a grade of C or better in each course) or permission of the Chairperson.

Description: Concurrent Requisite: HIT 272 (with a grade of C or better in each course) or permission of the Chairperson. Cannot be taken in same semester with HIT 278.

This course is a supervised work experience that provides students with exposure to coding practices in a hospital, physician's office, clinic or other healthcare setting with directed projects common to the typical coding tasks of a clinical coding specialist. Students are introduced to health information technology and coding procedures through observation, study and work. Weekly seminars reinforce work experience. Students must be available to complete a 90-hour internship during normal business hours Monday through Friday 8 am to 5 pm.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Administrative Business Tech

HIT 259 - Advanced ICD-10 Coding

Prerequisites: BIO 101 or AHS132, BIO131, HIT 156, HIT 159 (with a grade of C or better in each course) or permission of the Chairperson.

Description: Pre or Concurrent Requisites: AHS 132, BIO 131 or permission of the Chairperson.

This course focuses on the advanced practices and conventions of ICD-10-CM/PCS coding. Students review and code advanced surgical and medical scenarios related to various body systems. Coding standards, guidelines and regulatory requirements for each system are discussed. Students are introduced to diagnostic based prospective payment groupers including DRG, APR-DRG and RUGS, as well as diagnostic coding systems including ICD-0 and the DSM-5. Course includes an introduction to Systemized Nomenclature of Medicine (SNOMED) and its role as a basis for the electronic health record (EHR).

Credit Hours: 3

Department: Administrative Business Tech

HIT 260 - Quality Management and Organizational Resources in HIM

Prerequisites: HIT 101 and HIT 154 (with a grade of C or better in each course) or permission of the Chairperson.

Description: This course covers quality assessment and improvement tools related to health information management. Regulations surrounding utilization management and risk management are discussed. Organizational functions of health information management systems are also discussed. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Administrative Business Tech

HIT 264 - Applied Healthcare Data Analytics

Prerequisites: HIT160, HIT 161, HIT 162, MAT 102 (with a grade of C or better in each course). **Corequisites:** HIT 156, HIT 166, HIT 170, HIT 171 (with a grade of C or better in each course).

Description: This course prepare students to work with a multidisciplinary team on a healthcare project. It reinforces data analytic skills developed using healthcare case studies. Students will learn key project management and performance improvement skills. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 265 - Health Data Statistics

Prerequisites: HIT 151, HIT 154, HIT 250, HIT 270 (with a grade of C or better in each course) or permission of the Chairperson. Open to HIT majors only.

Description: This course covers the application of basic hospital and vital statistics related to health information management. Correlations are made to explain how statistical information in the medical record is utilized within the health care facility and by outside governmental and private agencies. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Please contact Department for course offering

Credit Hours: 3

Department: Administrative Business Tech

HIT 270 - HIM Regulatory Issues in the Law

Prerequisites: HIT 101 (with a grade of C or better) or permission of the Chairperson

Description: This course introduces the students to legal issues surrounding the field of health information management. Health information/record laws and regulations are discussed including confidentiality, privacy, and security and usage of health

information. Ethics and court decisions that affect healthcare are discussed. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 272 - Advanced Medical Coding

Description: Prerequisite: (AHS 132 or BIO 101) and HIT 151, HIT 156, HIT 170, HIT 171 (with a grade of C or better in all courses) or permission of the Chairperson.

Concurrent Requisite: HIT 175 (with a grade of C or better) or permission of the Chairperson. This course focuses on the advanced practices and conventions of ICD-10-CM/PCS and HCPCS CPT coding. Students review and code intermediate and advanced surgical and medical scenarios related to various body systems. Coding standards, guidelines, and regulatory requirements for each system are discussed. Students are introduced to diagnostic and procedure based prospective payment systems including MS-DRGs, APR-DRGs, RUGs, APCS, RBRVS, and E&M coding, as well as diagnostic coding systems including ICD-O and the DSM-5. Course includes an introduction to Systemized Nomenclature of Medicine (SNOMED) and its role as a basis for the electronic health record (EHR). Students utilize popular encoder/grouper computer software. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

HIT 278 - Health Information Management Internship

Prerequisites: HIT 101 and HIT 154 (with a grade of C or better in each course) or permission of the Chairperson.

Description: Concurrent Requisite: HIT 260 and HIT 270 (with a grade of C or better) or permission of the Chairperson. Cannot be taken in the same semester with HIT 258. This course is supervised work experience that provides students with exposure to health information management practices in a hospital, physician's office, clinic or other healthcare setting with directed projects common to the typical responsibilities of a health information technologist/medical records specialist. Students are introduced to health information management and medical records procedures through observation, study and work. Weekly seminars reinforce work experience. Student must be available to complete a 90-hour internship during normal business hours Monday through Friday 8

am to 5 pm. (2 lecture, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Administrative Business Tech

Human Services

HMS

HMS 101 - Introduction to Human Services

Description: This course provides students with an understanding of the human services profession: its goals and objectives, theories and methods, and structures and organizations. Emphasis is placed on the role of the human service provider in working with youth, families, the aged and disadvantaged populations.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

HMS 102 - Interviewing in Human Service Practice

Description: This course teaches interview skills, cultural competency and assessment for beginning human service case managers. A variety of procedures for effective interviews in different areas of practice are studied and practiced along with the holistic case management process, which links vulnerable clients with appropriate services and supports. Skills of exploration listening and documentation are addressed. Traditional lectures, role playing and classroom experiential learning will be significant course components.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

HMS 117 - Introduction to Social Work

Description: This course focuses on roles helpers play and locations for social work practice. Topics include professional values, the knowledge base of the profession and introduction to case management. Interventions in individual and community life as well as policy formulation and implementation. Social welfare history is also presented and special attention is paid to working with populations at risk and the importance of cultural competency. Students begin to formulate a professional identity. SUNY GE-SDES, SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

HMS 200 - Human Service Skills

Prerequisites: HMS 117

Corequisites: HMS 117

Description: This course surveys the fundamentals of support services. It includes concepts and skills in counseling; interviewing techniques a review of case management, working with families and groups, cultural competency, research skills and bio-psychosocial assessments.

*This course includes an applied learning component. Students who have taken CSW 200 will not receive credit for HMS 200. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Economics and Finance

HMS 205 - Human Services Internship

Prerequisites: HMS 117 and permission of instructor.

Description: The course includes seventy-five field hours spread out across the semester, plus one and 1/4 seminar hours per week. Students are placed in an established human service agency under professional supervision. Class work focuses on the practical aspects of working in a human service agency, such as: professional responsibilities; supervisory and organizational skills; values and ethics and stress management. Special attention is paid to cultural competency and professionalism. SUNY GE-SDES, SSBS; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

Human Rights Studies

HRS

HRS 101 - Introduction to Human Rights Studies

Prerequisites: Completion of remedial courses in MAT, ENG and RDG.

Description: Introduction to Human Rights Studies uses an interdisciplinary approach incorporating sources from United Nations reports, human rights documents, legal documents, literature, film, art and media to encourage critical thinking in the study of international human rights. This course investigates what human rights are, how they

are monitored and defended by governments, international agencies and NGOs and what happens when human rights are violated. (Important case studies will be examined). SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

HRS 105 - Introduction to Peace Studies

Description: This interdisciplinary course examines theories of war and non-violence; literature of domestic and foreign peace movements; the gender-military/war/peace connection; and global, national, and local organizations committed to non-violent conflict resolution. With both domestic and global components, the course would satisfy credit requirements in both Global/Non-Western and Pluralism and Diversity categories. Writing is an integral component of the course, as is the use of other media, including art, music, and film.

SUNY GEN ED-N/A; NCC GEN ED-GLNW, PLDI

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

HRS 294 - Human Rights Studies Internship

Prerequisites: HRS 101 and permission of the department.

Description: Supervised placement in a Non-Governmental Organization (NGO), corporation or other setting relevant to the study of Human Rights and the student's area of interest in order for the student to gain "hands on" experience in the field of Human Rights Study as well as enrich the theoretical practices and concepts explored in the classroom. Expenses may be incurred as a result of travel to the work site.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

Hospitality

HTL

HTL 150 - Introduction to Tourism

Description: This course is designed to introduce students to basic concepts and the language and scope of the tourism industry. It includes the evolution, economic function and analysis of modes, organization, and arrangement of travel.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 155 - International Hospitality Industry

Description: A course providing students with techniques and international methods of tourism, culinary arts, hotel/restaurant management. It includes independent research, visits to hotels, restaurants, culinary arts schools and hotel universities. Special expenses for students: air fare to and from foreign countries, food, lodging, taxes, transfers, etc., for approximately two to three weeks.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Hospitality Business

HTL 161 - Hospitality Management

Description: Traces the growth and development of the lodging industry from early times to modern hotel and motel operations. Covers the application of marketing research to site location, customer demand and determination of operational needs. Includes design and layout, front office requirements, maintenance, equipment and housekeeping activities.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 162 - Hospitality Human Resources

Description: Advanced management techniques and problems confronting the hotel-motel industry. Emphasis on personnel and labor relations. Dimensions of personnel management and responsibilities, operational problems of seasonal arrangements and various aspects of employee development and career potential are covered. Current and future industry-wide trends and problems are also investigated.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

HTL 165 - Facilities Planning and Design

Description: The course of study concentrates on the hotel/restaurant complex, taking into consideration all phases of the enterprise, including coverage of topics in equipment selection, mechanical operations, traffic flow, hotel operations, and other ancillary functions

to prepare the innkeeper and his/her staff for effective decision making.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

HTL 171 - Food and Beverage Operations

Description: Prerequisite or Corequisite: HTL 174

An introduction to food and beverage management, including the elements of stewarding, staffing, budgeting, purchasing, ordering, receiving, storage and control. Topics include equipment layout and design, sanitation and analysis of the food and beverage operation in relation to the lodging facility.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 172 - Food Services Cost Analysis

Description: An intensive study of the 'control' aspects of the food and beverage industry that dictate profit or loss. Emphasis is placed on sales analysis, pricing, portion control, cost analysis, menu scoring and guideline percentage tests for all major expense components integral to food and beverage operations. Computer lab will be utilized.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 174 - Fundamentals of Food Production

Description: An introduction to food preparation emphasizing basic culinary skills, practices, and the complete sanitation program in food establishments. Chef Instructor demonstrates proper culinary methods and preparations. Students then perform learned skills. Students are required to produce foods and clean and sanitize the kitchen laboratory. Lifting required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

HTL 175 - Food and Beverage Merchandising

Description: Emphasis is placed on the presentation function including menu design & layout, wine & beverage selection, promotion, theme development, creating an atmosphere

for dining & marketing the "total product."

Students will learn how to cost-out menu items & how to develop a menu. Computer lab will be utilized.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 176 - Advanced Food Production Techniques

Prerequisites: HTL 174

Description: Commercial food preparation emphasizing quantity food production, the elements of baking, and the institutional approach to volume feeding. Chef Instructor also demonstrates more advanced techniques of food preparation. Students are required to produce foods and clean and sanitize the kitchen laboratory. Lifting required. Uniform required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 177 - Servsafe Sanitation

Description: Students learn the basic concepts of food safety that is needed to help protect consumers and businesses against foodborne illness outbreaks. The course demonstrates industry safety methods utilized in food handling, storage, and preparation. It prepares students for an exam sponsored by the National Restaurant Association and administered at the college. Servsafe is a nationally recognized certification.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Winter

Credit Hours: 1

Department: Hospitality Business

HTL 178 - Event Planning

Description: An opportunity for hands-on experience in the catering, banquet, convention and function business. Topics include banquet service, convention sales and packaging, catering menus, recipes, and food preparation. The student meets one class lecture per week and actually produces two catered special functions (approximately 17 hours per function) per semester. The student plans, costs-out, prepares and serves the special function for the advancement of the College community on dates established by the instructor.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 180 - Front Office Management

Description: The analysis of the coordination of all departments emphasizing the control function. Topics include front office procedure, cash control, credit and collections, record keeping, equipment management and the integration of business machines in posting and auditing procedures. Computer lab will be utilized.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

HTL 190 - International Wines and Beverages

Description: An introduction to the major wine-growing regions of the world and the factors necessary to create an acceptable final product. Topics will include growing and vinification techniques, law and labeling, geography. The course will include discussion on distilled spirits and an introduction to bartending. Students may receive AHMA "Serving Alcohol with Care" Certification. Fee required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 200 - Hotel Operations Research Seminar

Description: A comprehensive analysis of developments and problems in the hotel/motel industry utilizing contemporary developments. Emphasis is placed on the integration of the hotel/motel business with the hospitality industry and its present and future role. Students are involved in extensive case analysis. Some field trips required. Minimum 21 hotel/restaurant credits completed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 203 - Hospitality Operations Research Seminar

Description: Prerequisite: 15 credits in hotel/restaurant courses completed prior to registration.

This course is an analysis of contemporary developments and problems in the hospitality industry. All facets are explored including luxury to boutique hotels, institutional feeding, fast foods, and specialty restaurants from gourmet to catering. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 205 - Food and Beverage Operations Research Seminar

Description: An analysis of contemporary developments and problems in the food service industry. All facets are explored including institutional feeding, fast foods, and specialty restaurants from gourmet to catering. Some field trips required. Minimum 15 hotel/restaurant credits completed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

HTL 242 - Hospitality Internship

Description: Students work for appropriate business firms, institutions and/or agencies to enrich the theoretical concepts previously developed in the classroom. Students must complete 350 hours on-the-job training as assigned by the professor in conjunction with assigned papers and coursework. Some office visits are required by the assigned professor.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

HTL 295 - Independent Study-Hospitality Business

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly HTL 699. Students who have completed HTL 699 will not receive credit for HTL 295.

Credit Hours: 3

Department: Hospitality Business

Inter Global Studies

IGS

IGS 101 - Modern World Societies I

Description: This interdisciplinary social science course will chronologically explore the development of the modern world from 1500 to 1877. Course content will focus on such topics as scarcity, population dynamics, disease, industrialization, poverty, conflict, and international trade. Pertinent skills will be developed. This course will give students an awareness of the interdependence among past and present nations. Students will work with maps to gain an understanding of geography and the changing world order.

SUNY GEN ED-GOWC, GSBS; NCC GEN ED-WESH, PLDI, SBS GLNW

Offered: Fall

Credit Hours: 3

Department: Economics and Finance

IGS 102 - Modern World Societies II

Description: This interdisciplinary social science course will chronologically explore the development of the modern world from 1878 to the present. Course content will focus on such topics as scarcity, population dynamics, disease, industrialization, poverty, conflict, and international trade. Pertinent skills will be developed. This course will give students an awareness of the interdependence among past and present nations. Students will work with maps to gain an understanding of geography and the changing world order.

SUNY GEN ED-GOWC, GSBS; NCC GEN ED-WESH, PLDI, SBS, GLNW

Offered: Spring

Credit Hours: 3

Department: Economics and Finance

Interior Design

INT

INT 101 - Interior Design Studio I

Description: This course presents an overview of methods for designing residential, business and institutional interiors. Topics taught include the functions and responsibilities of the interior designer as distinguished from other practitioners in the field, space selection, analysis and planning, scale drawing, projections, furniture layouts.

Average Materials Cost: \$225.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 102 - History of Furnishings and Design

Description: This course is a comprehensive survey of the development of furnishings, architecture, decorative arts and interior design from Ancient times through the 21st century. Principle periods include: Classical, Medieval, Renaissance, Baroque, Rococo, Neo-Classical, Arts & Crafts, Art Nouveau, Art Deco, Modern and Post Modern. The development of styles is chronologically traced within the context of the prevailing social, historical, economic and political forces that affect design. Field trip required. Additional transportation fee and museum entrance fee required

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

INT 103 - Trends in Furniture and Lighting Design

Prerequisites: ENS 101 and INT 101.

Description: This course covers trends and influences on 20th-century furniture and lighting for the home, office and public interior spaces. The latest trends and technologies are examined through a study of the furniture design process. Crafts and art furniture, antiques and collectibles, are studied for their influences on trends. The wide range of available lighting materials is explored. Creation of dramatic and functional lighting effects and spatial interpretations are studied.

Average Materials Cost: \$50.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 104 - Color for Home Furnishings and Design

Description: This course familiarizes students with color language and technology as it applies to interior design. It focuses on the following areas: light and color, color systems, color schemes, special color effects, practical approaches to and the psychological impact of colors. In addition, students are taught to design a color schematic which is applied to a variety of room plans, and to solve common color problems. Average Materials Cost: \$150.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 105 - Resources and Materials

Prerequisites: INT 101.

Description: Emphasis is on the analysis, identification and application of materials for interiors. Wall and floor coverings, cabinetry, windows and upholstery are examined. Students learn to estimate cost and quantities of materials needed for design projects. Resources (vendors of furniture, fabrics, accessories, etc.) are explored. Field trips to suppliers, workrooms and "trade only" showrooms will be scheduled. There will be classroom lectures by manufacturers' representatives and other industry spokespeople. Average materials cost: \$50.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 107 - Professional Practices and Business Techniques**Prerequisites:** INT 201.

Description: This course is designed to prepare students to understand and execute business aspects of Interior Design. It teaches the concepts and skills necessary to start and to develop an Interior Design business. Sample topics covered include types of business formations, formulating contracts, project management, methods of determining and applying fees, securing financial and legal council, professional ethics, etc. Students are required to develop a prototype client job book - developing a full battery of working forms which are standard in the industry. Average Materials Cost: \$75.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring**Credit Hours:** 3**Department:** Marketing & Retailing**INT 108 - Final Thesis and Portfolio Development**

Prerequisites: INT 101, INT 105, INT 106, ART 111 and ENS 101 with a minimum grade of C in all prerequisites or permission of Department.

Description: This course develops and refines skills necessary to execute effective design presentations for submission to clients. It teaches concepts and techniques for compiling portfolios suitable to obtaining work in the profession. The student will submit an Exit Portfolio and present a final thesis with emphasis on universal design. Student must have a minimum of ten completed Interior Design Projects for Portfolio Development. Average Materials Cost: \$150.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3**Department:** Marketing & Retailing**INT 115 - Kitchen and Bath Design I****Prerequisites:** INT 101, ENS 101

Description: This course is intended to educate the professional residential interior kitchen and bath designer with the appropriate applications for kitchen and bath design in compliance with industry and manufacturers' standards. The student will learn local and state building codes, licensing, and legislative requirements that are necessary to perform all tasks associated with kitchen and bath design and installation standards. Student must be enrolled in Kitchen and Bath Design Certificate Program.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Please Contact Department**Credit Hours:** 3**Department:** Marketing & Retailing**INT 118 - Presentation Standards for Kitchen and Bath Design****Prerequisites:** INT 101, INT 103, INT 105, ENS 101, CET 101, CET 107.

Description: Student must be enrolled in the Kitchen and Bath Certificate Program. This course teaches students to read architectural drawings used in the design process of a kitchen or bathroom. Students learn to produce working documents according to NKBA (National Kitchen and Bath Association) Graphics and Presentation Standard Manual. Students will become competent in the following: proper use of equipment, architectural lettering, drawing of floor plans, elevations, mechanical, section and detail drawing. NKBA Standards are used in all drawings including perspective and isometrics.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Please Contact Department**Credit Hours:** 3**Department:** Marketing & Retailing**INT 142 - Field Training****Prerequisites:** INT 201

Description: Students work for appropriate business firms to enrich the theoretical concepts previously developed in the classroom. Enrollment limited to Interior Design students.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring, Summer**Credit Hours:** 3**Department:** Marketing & Retailing**INT 201 - Interior Design Studio II****Prerequisites:** INT 101.

Description: Students who have taken INT 106 will not get credit for INT 201. (Formerly INT 106). Presents a lesson in mechanical, studio drafting for interior design majors. Students will be required to draw layouts, elevations, reflective ceiling plans, matrix assessments, and perspective thumb-nail drawings. This will prepare each student for the full gamut of drawings that professional interior designers must necessitate. The presentations of these projects meet a criteria for portfolio development. Average Materials Cost: \$75.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring**Credit Hours:** 3**Department:** Marketing & Retailing**INT 203 - Presentation Techniques for Interior Designers****Corequisites:** INT 101.

Description: This course develops and perfects the rendering skills necessary to allow learners graphic expression of interior space. Client presentation technique, visual skills and scale modeling are emphasized as well as materials and coordination.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring**Credit Hours:** 3**Department:** Marketing & Retailing**INT 204 - Interior Lighting Design****Prerequisites:** INT 101

Description: This course presents an overview of methods for the design of interior lighting. Topics taught include: lamps, luminaires, lighting controls, color, psychology and brightness, as well as applications for residential and commercial interior lighting. Students will complete an interior lighting project including lighting plans and fixture specifications.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer**Credit Hours:** 3**Department:** Marketing & Retailing**INT 206 - Interior Design Working Drawings**

Prerequisites: INT 101, INT 102, INT 104, INT 201, ENS 101, ENS 105, ART 111, CET 101.

Corequisites: INT 103, INT 105, INT 107, CET 107.

Description: Must be an Interior Design Major. This course teaches the student to prepare a set of working drawings for use by a contractor and / or architect. Architectural drafting techniques, schedules, specifications of materials and finishes, principles of door window and cabinet detailing are included. The learner will survey architectural drawings and identify with the conventions employed by architects, engineers and building trades. Materials Fee. Enrollment limited to Interior Design students.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring**Credit Hours:** 3**Department:** Marketing & Retailing**INT 210 - Interior Studio Design III****Prerequisites:** INT 201.

Description: This studio course requires the student to focus on specific building types and user groups such as corporate, retail and institutional. Research methods and client requirements are introduced along with techniques in the diagramming and

programming of interior space to provide client needs. Design concept, image, color and finishes, graphics, building codes and universal as well as sustainable design are emphasized. Student presentations will be evaluated by professional interior designers. Material fee. SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 215 - Kitchen and Bath Design II

Prerequisites: INT 101, ENS 101, CET 101, INT 115, MKT 170.

Description: This course offers the Kitchen and Bath design professional a guide to be used in the planning of Kitchen and Bath at an advanced level. The focus of this course is to enforce the design elements of kitchen and bathroom design and learn the parameters for both universal and sustainable design as applies to kitchen and bath installations. This course enables the kitchen and bath professional to make the proper choices in planning and installing kitchens and baths. The learner will understand the value and techniques of designing universal and sustainable areas suitable to the needs of a client. Each student will learn to create and maintain a design portfolio of projects showing skill and ability to successfully prepare a design presentation. Student must be enrolled in the Kitchen and Bath Design Certificate Program.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Please Contact Department

Credit Hours: 3

Department: Marketing & Retailing

INT 220 - Interior Design Studio IV

Prerequisites: INT 210.

Description: Through research, design analysis, and problem solving students explore the wide variety of user groups and discover the challenges associated with the use of multi functional hospitality design. Emphasis on GREEN DESIGN lighting, materials, details color, finishes, barrier free design and building codes. Industry professionals will be available for critique of student projects. Materials Fee. SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

INT 295 - Independent Study-Interior Design

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly INT 699. Students who have

completed INT 699 will not receive credit for INT 295.

Credit Hours: 3

Department: Marketing & Retailing

Italian

ITA

ITA 101 - Beginning Italian I

Description: This is the first course in the ITA 101-ITA 102 sequence. Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. This course is not intended for students of Italian speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

ITA 102 - Beginning Italian II

Description: This is the second course in the ITA 101-ITA 102 sequence. Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

ITA 201 - Intermediate Italian I

Description: This is the first course in the ITA 201-ITA 202 sequence. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

ITA 202 - Intermediate Italian II

Description: This is the second course in the ITA 201-ITA 202 sequence. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

ITA 225 - Italian for Business

Prerequisites: ITA 102 or permission of the instructor.

Description: Using print, video, and electronic media this course offers students a practical knowledge of Italian business terminology and procedures. It will introduce students to such topics (in Italian) as commercial letter writing, telephone etiquette, filling out business forms, etc. Students will also learn how to deal with cultural aspects of the international business environment. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-GFOL; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

ITA 261 - Advanced Italian 1

Description: This is the first course in the ITA 261-ITA 262 sequence. More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in Italian. Formerly ITA 301.

Students who have completed ITA 301 will not receive credit for ITA 261

SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

ITA 262 - Advanced Italian 2

Description: This is the second course in the ITA 261-ITA 262 sequence. More complex grammar, enrichment of vocabulary, and improvement of proficiency in speaking, reading, writing and translation, combining traditional methodology with a multimedia approach to literature and/or civilization. Class conducted in Italian. Formerly ITA 302.

Students who have completed ITA 302 will not receive credit for ITA 262

SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

Information Technology

ITE

ITE 101 - Introduction to Information Technology

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting this course.

Description: Students will not receive credit for both ITE 101 and CMP 103. This course offers a broad-based introduction to the field of Information Technology (IT) including its evolution, current trends and future directions. Students will be introduced to the various aspects of IT along with an understanding of the technical support that is provided to employees and organizations. IT fundamentals, operating systems and hardware, web development, networking, and information and database systems will be covered.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 153 - Operating Systems Management

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting this course.

Description: This course examines the fundamental role of operating systems as it relates to the interaction of hardware and application software. Students will learn core operating system technologies including installing, configuring, and maintaining operating systems for client workstations in both networked and non-networked environments. Students will obtain a basic understanding of hardware components, desktop components and interfaces. They will learn how to use various system administration tools and utilities to manage an operating system. Emphasis is placed on creating a computing environment for users which will maximize productivity and minimize workstation problems. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ITE 154 - Web Programming I

Prerequisites: At least a C or better in both CSC 104 and ITE 101.

Description: This course is an introduction to the fundamentals of programming using a modern object-oriented scripting language such as JavaScript. Object-oriented and fundamental programming concepts are covered along with events, event handlers, both built in functions and user-defined functions, predefined and user-defined objects, web form validation and browser considerations. Projects and assignments will mirror real-world applications and usage. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 204 - Java Programming

Prerequisites: A grade of C or better in ITE 154.

Description: This course is an introduction to object-oriented programming using the Java programming language. Students will become familiar with the concepts of objects and classes, inheritance, polymorphism, and encapsulation. Topics include creating graphical user interfaces, servlets, networking, and exception handling. Optional topics include applets and multi-threading. Students who have completed CMP 218 will not receive credit for ITE 204. (4.5 lecture hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ITE 213 - Data Communications and the Internet

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: Students should have a basic knowledge of computer hardware and software and be able to navigate within an operating system environment. This course is designed to acquaint the student with the interface, hardware, software, and the communications protocols necessary to utilize various information systems of both local and global networks. Topics include: installation of communications hardware and software, Local Area Networks (LAN), Wide Area Networks (WAN) and the Internet, along with governance and structure of computer networks. Sites and domains, remote connections, file transfer protocols, electronic resources, navigation of remote domains and

networks, networking security, societal impact and related issues will be covered. Students who have completed CMP 110 will not get credit for ITE 213. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 215 - Topics in Data Communications and Enterprise Networks

Description: Pre or Concurrent Requisites: A grade of C or better in ITE 213.

This course discusses topics involving the interface, hardware, software, and communications protocols necessary to utilize various information systems of both local and global networks. Topics include: hands on installation of communications hardware and software, Local Area Networks (LAN), Wide Area Networks (WAN). Other topics are network operating systems, introductory hands on experience with router and switch configuration, navigation of remote domains and networks, and networking security. Students will use popular networking equipment that is widely used in industry. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 217 - Information Security

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting this course.

Description: Information security has risen to a prominent place in the ever expanding information technology field. This course will cover major topics associated with a balance of system access and system security. It will provide students with an overview of security challenges and strategies of counter measures in the information systems environment. Topics covered in this course include understanding information security terminology, identifying network security vulnerabilities and understanding how malicious attacks, threats, and vulnerabilities impact an IT infrastructure. Cryptography and its use in the field of information security will enable students to understand system architecture in security operations. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 223 - Network Management I

Prerequisites: A grade of C or better in ITE 153; concurrency with ITE 213 permitted.

Description: This course is designed to cover fundamental and advanced concepts in network theory and system administration. Use of the network operating system in planning and management of directory services and network file systems are stressed. Additional topics include: setting up and maintaining user accounts, protecting network data, network printing, management of devices, application software, workstation management, data communications and network security. This course contains knowledge units typically needed for professional certification. The lab portion of the course incorporates a widely used network operating system by Novell and/or Microsoft. Students who have completed CMP 208 will not receive credit for ITE 223. (4.5 lecture hours). Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Winterim, Spring, Summer
Credit Hours: 4

Department: Math/Computer Science/Info Tec

ITE 227 - Computer Forensics

Prerequisites: A grade of C or better in ITE 153, ITE 217 and ITE 223; concurrency with ITE 223 permitted.

Description: This course will introduce techniques and practices for gathering and analyzing evidence used to solve crimes involving computers. This is a hands-on approach to the tools and methodologies used in computer forensics. It will examine the fundamentals and best practices for incident response and data acquisition. Current tools and procedures will be surveyed, implemented, and studied using virtual machines and cloud services to reinforce the principles of forensic investigations. It will also examine report writing, testimony delivery, elicitation of experts and witnesses, and the ethics of investigations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ITE 237 - Hacking & Defensive Technology

Description: Prerequisite: ITE 217 with C or better grade.

This course introduces topics associated with investigating and combating the techniques utilized by hackers and cybercriminals. Students will learn different methodologies utilized by hackers including foot-printing, port scanning, and social engineering. In addition, the course will cover various defensive technologies and incident responses

used to tighten network security. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 252 - Database Management

Prerequisites: A grade of C or better in either CSC 104 or CSC 120.

Description: This course is an introduction to database processing for business applications. Emphasis is placed on the design, implementation and administration of a database as well as the use of Structured Query Language (SQL). Students will develop applications using a popular DBMS software package. Students who have completed CMP 252 will not receive credit for ITE 252. (4.5 lecture hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

ITE 253 - Network Management II

Prerequisites: A grade of C or better in ITE 223.

Description: This course is designed to cover advanced concepts in network configuration and implementation. Topics include methods of installation, and upgrading of server operating system software along with implementation, merging and integration techniques. Configuration and applications of multiple protocols including, Web server and File Transfer Protocol (FTP) services, will also be discussed. This course contains knowledge units typically needed for professional certification. This course will incorporate a widely used network operating system by Novell and/or Microsoft. Students who have taken CMP 209 will not receive credit for ITE 253. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 254 - Web Programming II

Prerequisites: A grade of C or better in ITE 154.

Description: This course offers students advanced instruction in web programming via server-side and client-side programming languages and database integration. Students develop interactive web pages to understand how web professionals build e-commerce and search sites in the job marketplace. Languages PHP, JSP, and CSS are used and integrated with MySQL. Various development tools are explored.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

ITE 255 - Routing and Switching Essentials

Prerequisites: A grade of C or better in ITE 213 and ITE 215.

Description: This course will cover the architecture, components, and operations of routers and switches installed on a computer network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with routing protocols such as RIPv1, RIPv2, and single-area and multi-area OSPF. In addition students will learn how to troubleshoot virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 6

Department: Math/Computer Science/Info Tec

ITE 264 - Applications Development

Prerequisites: A grade of C or better in ITE 252 and ITE 204 or CMP 219 or permission of the Department; concurrency with ITE 252 permitted.

Description: This course covers writing GUI business database applications in a modern high-level programming language using the three tiered business model. The course provides the concepts of event-driven programming, terms, rules, and programming components for database application development. Students who have completed CMP 214 will not get credit for ITE 264. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

International Field Training

IWS

IWS 142 - International Field Training

Prerequisites: Permission of Department Chairperson.

Description: During summer intersession. Students work for appropriate international business firms, institutions and/or agencies to enrich the theoretical concepts previously

developed in the classroom. Students work outside of the U.S.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

IWS 299 - Practicum Presentation

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 0

Department: Marketing & Retailing

Japanese

JPN

JPN 101 - Beginning Japanese I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening, comprehension, and simple conversational patterns. This course is not intended for students of Japanese speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW
Offered: Fall, Summer

Credit Hours: 3

Department: Foreign Languages

JPN 102 - Beginning Japanese II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

JPN 103 - Beginning Japanese III: Discover Japan

Prerequisites: JPN 101

Description: This course is a language immersion course, that covers fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. The highlight of which is a 2-week visit to Japan. The course also includes one week of preparatory classes prior to travel. Travel is designed to enhance opportunities for students to apply their knowledge and language skills among native speakers in a variety of situations in Japan. Students will also have a chance to deepen their cultural understanding as well as historical knowledge of Japan. Laboratory component required.

SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI, HUM

Offered: Summer

Credit Hours: 3

Department: Foreign Languages

Jewish Studies

JWS

JWS 101 - Introduction to World Jewish Studies

Description: This course introduces students to the multicultural diversity of the Jewish community. By reading, viewing, and discussing historical and contemporary material, students learn about Jewish traditions and cultures, including Mizrahi (Eastern, African), Sephardi (Iberian), Ashkenazi (non-Iberian European). Students explore the global spectrum of Jewish experience and identity.

SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Multidisciplinary Studies

JWS 102 - Jews in Biblical and Medieval Cultures

Description: This course examines Jewish life and culture, from the Biblical period in the Middle East through the Renaissance in Europe, including Mizrahic and Shephardic populations. We begin with Jewish origins and identities, noting how the earliest Jewish communities developed and changed. We consider specific challenges, such as the destruction of the temples and life in the diaspora, as Jews settled and struggled in foreign lands. With attention to an emerging global Jewish community, the course employs primary and secondary sources from multiple disciplines, including literature, music, and art.

SUNY GEN ED-n/a; NCC GEN ED-GLNW, HUM, PLDI, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

JWS 104 - Jews in the Modern World

Description: This course identifies Jewish responses to modernity from interdisciplinary and multicultural perspectives. We examine the impact of the Enlightenment on traditional communities, including the effects of the new conceptual frameworks such as Chassidism, Reform Judaism, Zionism, and Feminism. Using primary and secondary sources from a variety of disciplines, students learn how Jewish identity has been defined and redefined in evolving cultural contexts.

SUNY GEN ED-n/a; NCC GEN ED-GLNW, HUM, PLDI, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: English

Korean

KOR

KOR 101 - Beginning Korean 101

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Korean speaking background. Laboratory component required.

SUNY GE-SHUM, SWOL
Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

KOR 102 - Beginning Korean 102

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Korean speaking background. Laboratory component required.

SUNY GE-SHUM, SWOL
Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

Latin American Studies

LAS

LAS 101 - Introduction to Latin American Studies

Description: This course introduces students to the interdisciplinary study of the diverse nations, traditions, experiences, and concerns of the peoples in Latin America. Class, race, and ethnicity issues, gender, language, and identity will be explored through a variety of media. Sociological, political, literary, historical, and theoretical contexts will frame the examination of subjects such as family, religion, ideological perspectives, (neo) colonialism, labor, the state, the economy, the environment, and the arts.

SUNY GE-SDES, SHUM, SWHI; SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

LAS 105 - Introduction to Latino/a American Studies in the U.S.

Description: This course is an introduction to the interdisciplinary study of Latinas and Latinos in the U.S. Students will examine the integration of various groups such as Puerto Rican, Mexican-American, Cuban, and Central American into a large society; the diverse contributions made by and issues facing the communities: immigration, assimilation, racism, identity, bilingualism, generational differences, political representation, social and economic status, education, and forms of art; music and entertainment.

SUNY GE-SDES, SHUM, SUSC; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Spring

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

LAS 222 - Latin American Literature

Prerequisites: ENG 102 or ENG 109.

Description: (Dual Listed with ENG 222) This course introduces students to the range of traditions that comprise the literatures of Latin America. It will examine literary productions in specific cultural and historical contexts. Spanish, Portuguese, and Francophone literature, as well as indigenous works from such countries as Brazil, El Salvador, Argentina, Cuba, Puerto Rico, and Mexico will be studied in translation. Writing is an integral component of this course. This course may not be used for foreign language credit.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, LIT, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

Latin

LAT

LAT 101 - Beginning Latin I

Description: The essentials of Latin grammar and vocabulary. Selected readings from prose authors. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

LAT 102 - Beginning Latin II

Description: The essentials of Latin grammar and vocabulary. Selected readings from prose authors. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

Legal Studies

LAW

LAW 103 - Business Law I

Description: An overview of the Law and the American legal system and court structure; an extensive study of the basic principles of the law of contracts, sales, and security devices.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 104 - Business Law II

Prerequisites: LAW 103.

Description: The legal aspects of business including basic principles of real and personal property, bailments, wills and intestate succession. It will also cover business arrangements including partnerships, corporations, limited liability companies as well as commercial paper.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 105 - Introduction to Current Law

Description: The course explores the structure and function of our judicial system, focusing on basic areas of civil law including those dealing with employment, housing, marriage, contracts and banking. Legal transactions such as wills, mortgages and leases will be analyzed. The course prepares students for the myriad of real life situations they will encounter. For non-business majors only.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 106 - Sports and the Law

Description: Understanding the law in connection with the world of sports is important because the business of sports is a multibillion dollar industry that provides a variety of employment opportunities. Through the subject of sports, the course will cover topics in the law such agency, contracts, torts, crimes, discrimination towards women and persons with disabilities, international law,

antitrust and labor law, intellectual property and alternative dispute resolution.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 107 - Hotel Management Law

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Intermittently

Credit Hours: 3

Department: Accounting and Business Admin

LAW 108 - Disability Law & Social Policy

Description: This course will explore the evolution of US Disability Law focusing on the creation, implementation and interpretation of legislative enactments and administrative regulations that define disability and accommodations that are required. The impact of governmental policies on individual rights and societal needs will be examined.

Students will gain a conceptual and practical understanding of social responsibility, forms of discrimination, and current educational and employment rights and protections for those with disabilities.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 200 - Introduction to Law and the Legal System

Description: A study of the American legal system, including its historical development and judicial structure. The course will emphasize legal process, reasoning, and analysis. The student will also learn about the paralegal profession, including its ethical responsibilities. Formerly LAW 300. Students who have completed LAW 300 will not receive credit for LAW 200.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 201 - The Law: Current Issues in Society

Description: (Honors and non-Honors Sections) A study of the origins of law in the U.S.A. and its role in resolving societal issues and conflicts. Students will have the opportunity to explore various individual, societal issues and conflicts. Students will have the opportunity to explore various individual, societal and legal perspectives

on contemporary issues. This course was previously title The Nature and Functions of Law.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 202 - Partnerships & Corporations

Prerequisites: LAW 205.

Description: An in-depth study of the law of partnerships, corporations, and limited liability entities. An analysis will be made of the creation of the partnership as well as its termination. New York State corporate requirements will be analyzed with a view of the creation and termination of the corporation. The student will be required to prepare the various partnership and corporation agreements and documents. Formerly LAW 302. Students who have completed LAW 302 will not receive credit for LAW 202.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 203 - Environmental Law, Policy & Sustainability

Description: This course will explore the evolution of environmental law and policy focusing on the creation, implementation and interpretation of legislative enactments and administrative regulations. The impact of governmental policies on human needs and our natural resources will be examined. Students will gain familiarity with current issues and case law dealing with environmental disruption, sustainability and corporate social responsibility.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Intermittently

Credit Hours: 3

Department: Accounting and Business Admin

LAW 204 - Real Property

Prerequisites: LAW 205.

Description: A study of the various types of real property relationships and transactions. Such areas as contracts, deeds, mortgages, leases, and title searches will be reviewed. The student will be required to prepare the various real property documents, compute closing adjustments, and prepare closing statements. Formerly LAW 304. Students who have completed LAW 304 will not receive credit for LAW 204.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 205 - Legal Research & Writing

Prerequisites: LAW 200

Corequisites: LAW 200.

Description: The course will serve two functions: first, to teach the paralegal to use a library effectively in conducting legal research; and second, to prepare a written memorandum dealing with the results of this research. Formerly LAW 305. Students who have completed LAW 305 will not receive credit for LAW 205.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 206 - Practicum

Prerequisites: All LAW courses in Paralegal Program. Permission of instructor required.

Description: Supervised practical experience in a law firm or law-related institution. Formerly LAW 306. Students who have completed LAW 306 will not receive credit for LAW 206.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 207 - Torts and Personal Injury Law

Prerequisites: LAW 221 and LAW 205.

Description: An in-depth study of the Law of torts with emphasis on negligence. This course will familiarize students with the negligence litigation process and the practical aspects of assisting attorneys in the personal injury field. Formerly LAW 307. Students who have completed LAW 307 will not receive credit for LAW 207.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 208 - Family Law

Prerequisites: LAW 205.

Description: A study of the marriage relationship, legal problems with children, dissolution of marriage, custody, legitimacy, adoption, change of name, guardianship, support, court procedures and separation agreements. Formerly LAW 308. Students who have completed LAW 308 will not receive credit for LAW 208.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 209 - Law Office Management

Prerequisites: LAW 200

Corequisites: LAW 200.

Description: Introduction to basic concepts of Law office management for the Paralegal, including an examination of Law office structure, management principles, and legal ethics. In addition, the course will include an introduction to computer utilization in litigation support, legal research and case management. Students must be familiar with word processing or enroll in ABT 109 prior to taking this course. Formerly LAW 309. Students who have completed LAW 309 will not receive credit for LAW 209.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 210 - Bankruptcy/Debt/Credit Law

Prerequisites: LAW 205.

Description: Introduction to the basic concepts of bankruptcy Law, including the Paralegal's role in the preparation and filing of necessary documents for Chapters 7, 11, and 13 bankruptcy cases. In addition, the student will be instructed in the use of current computer software in bankruptcy practice. Formerly LAW 310. Students who have completed LAW 310 will not receive credit for LAW 210.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 211 - Legal Writing & Analysis

Prerequisites: LAW 200 and LAW 205.

Description: This course will emphasize the development of legal writing skills for the paralegal. The student will draft letters, briefs, memoranda, and other documents used in legal practice. The students will learn the mechanics of legal writing, stressing clear and concise expression, citation, and terminology. Formerly LAW 311. Students who have completed LAW 311 will not receive credit for LAW 211.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 212 - Elder Law

Prerequisites: LAW 200 and LAW 205.

Description: LAW 212, Elder Law, will provide the student with knowledge of the

basic concepts of elder law, including the paralegal's role in the preparation and filing of necessary legal documents such as power of attorney forms, health care proxies, living wills, advance directives and last wills and testaments. It will also focus on such topics as guardianships, health care decision making, Medicaid, long-term care housing options, various tax issues, social security and elder abuse. Formerly LAW 312. Students who have completed LAW 312 will not receive credit for LAW 212.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 213 - Immigration Law

Description: The course explores all significant aspects of the immigration and naturalization process in the United States and the social justice implications of immigration law. The course will focus on immigrants and the different categories of non-immigrants and the various laws that must be followed by diverse areas of the world to visit the U.S. from abroad or to gain permanent resident status. The subject areas covered include political asylum and refugee status; permanent resident alien status; non-immigrant temporary residents; temporary protected status; and legal procedures for admission, exclusion, and deportation.

SUNY GE-SDES

Credit Hours: 3

Department: Accounting and Business Admin

LAW 214 - Law and Ethics in Medicine & Medical Malpractice

Description: This course will provide a legal, conceptual, and practical understanding of health care law and policy, the laws relationship to medical ethics, and the procedural and substantive aspects of medical malpractice lawsuits. Students will be able to evaluate and understand how federal and state laws impact and affect people in the health care field. Ethical and societal issues relating to the rights of those seeking health care will be examined.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Accounting and Business Admin

LAW 215 - U.S. Judicial System

Prerequisites: Students must have completed all remedial courses, have a minimum GPA of 2.5 and completion of 15 college credits. Prospective students must be interviewed and recommended by the instructor. Special

expenses for students may include airfare or other forms of transportation to and from select destinations, lodging, transfers and special meals for approximately two weeks.

Description: This domestic study course will examine the role, challenges and inner workings of the United States Court System. Students will have an opportunity to view trials and oral arguments in state and federal courts throughout the country and will visit legislative bodies and offices of court administration. Students will develop an understanding of court procedures, protocols and various aspects of civil and criminal law and will be able to compare, contrast and differentiate trial and appellate courts on the state and federal level. Discussions with court personnel, judges and government officials are planned. This course may be offered during the winter and summer sessions only. Formerly LAW 315. Students who have completed LAW 315 will not receive credit for LAW 215. SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Intermittently

Credit Hours: 3

Department: Accounting and Business Admin

LAW 216 - International Legal Systems

Description: The travel/study course explores the roots of the American Legal System from its origins in English common law to its current role in international law. The workings of the English Courts of law, the European Parliament and the International Court of Justice will be studied. The course involves travel to some or all of the locations of the European legal system including the United Kingdom, Brussels, Belgium (home of the European Union) and the Hague in the Netherlands (site of the International Court of Justice), and Strasbourg, France depending on the Courts availability. Expenses include airfare, lodging, meals and transportation between locations. Formerly LAW 316. Students who have completed LAW 316 will not receive credit for LAW 216.

Offered: Spring (Second Half Session)

Attribute NCC GEN ED-WESH

Credit Hours: 3

Department: Accounting and Business Admin

LAW 221 - Litigation

Prerequisites: LAW 205.

Description: A study of the lawsuit with an emphasis on pleadings. The student will study and will be required to prepare such documents as the summons, complaint, answer, interrogatories, motions, orders to show cause, and orders. Some of the other topics to be covered are pretrial settlements, releases, and enforcement of judgments.

Formerly LAW 301. Students who have completed LAW 301 will not receive credit for LAW 221.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 223 - Estates & Administration

Prerequisites: LAW 205.

Description: The study of wills, intestacy, and administrative proceedings. The student will study basic aspects of estate planning, will preparation, probate, and administration. Formerly LAW 303. Students who have completed LAW 303 will not receive credit for LAW 223.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Accounting and Business Admin

LAW 295 - Independent Study-Legal Studies

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly LAW 699. Students who have completed LAW 699 will not receive credit for LAW 295.

Credit Hours: 3

Department: Accounting and Business Admin

Library

LIB

LIB 100 - Essential Research for College Success

Description: This course introduces students to the research process: the organization, location, evaluation and ethical use of information using print, non-print and electronic resources. Through hands-on active learning activities, students will gain an understanding of basic research and information literacy skills that will aid them in college-level work and lifelong learning. SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Library

LIB 101 - Introduction to Research

Description: Students develop information literacy through the selection, location, evaluation and ethical use of information sources and systems for college work and lifelong learning. Hands-on, active learning sessions familiarize students with print and digital resources, including books, periodicals,

audiovisual materials, online databases and the Internet. Critical thinking projects that provide in-depth exploration of the research process reinforce skills required for academic work and college-level research projects.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Library

LIB 295 - Independent Study-Library

Description: Formerly LIB 699. Students who have completed LIB 699 will not receive credit for LIB 295. SUNY GEN ED-n/a; NCC GEN ED-HUM

Credit Hours: 3

Department: Library

Logistics and Transportation Management

LOG

LOG 101 - Principles of Logistics and Management I

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Development of the modes of transportation; economic, social and political systems within which the various modes of transportation operate and the effect of these modes on the transportation of goods and passengers; analysis of present challenges and opportunities facing the railroads, airlines, motor carriers, water carriers, pipelines and third parties (forwarders, brokers, etc.); emerging concepts and technologies. The student is introduced to the concept of the systems approach to distribution and logistics management, including existing and emerging communications systems. Also reviewed is regulation and deregulation affecting national and international transportation.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 102 - Principles of Logistics and Management II

Prerequisites: LOG 101 or permission of the Department. Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Further analysis of the issues related to the shipper, carrier and consignee of goods; documentation; responsibility and liabilities of shippers, carriers and third parties; handling of claims; routing; types of regulation and deregulation and the regulatory agencies; procedures used in determining freight rates and services. The student is made aware of some of the more complicated issues associated with distribution and logistics management, including the planning and evaluation of its effectiveness. Simulations of these concepts are discussed at length.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 103 - Systems of Intermodal Transportation

Prerequisites: LOG 101 and LOG 102 and MAT 102. Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Overall description of various modes of transportation and logistics systems as they relate to statistical and mathematical models and computer simulations to determine optimum operating conditions and opportunities under which modal and intermodal transportation systems exhibit economically efficient performances. Includes game theory analysis of alternative situations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 104 - Railroad and Motor Carrier Transportation and Logistics

Prerequisites: LOG 101 or LOG 102 and MAT 102. Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Development of railroad and motor carrier transportation; importance of intermodalism and communications; types of services rendered; equipment utilized; rates; rules, regulations, and insurance; routing techniques and optimization; analysis of operations and current problems utilizing stochastic models, queuing theory and computer simulations; emerging concepts and technologies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 105 - Water and Airline Transportation and Logistics

Prerequisites: LOG 103. Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Development of water and air transportation; importance of intermodalism and communications; port and airport operations; services provided; equipment used; rate and service structures and formulation, rules, regulations, insurance, routing techniques and optimization; analysis of operations and competitive alternatives utilizing stochastic models, modal split models, queuing theory and computer simulations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 106 - Intermodal Transportation and Logistics in International Trade

Prerequisites: LOG 101 or LOG 102.

Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: Growing interdependence between domestic and international trade and business relationships; terminology of international trade, role of international corporations; documentation; financial procedures; communications; regulations; political issues.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

LOG 107 - Intermodalism and Transportation Regulations

Prerequisites: LOG 102. Students must have satisfied MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: International, Federal and state regulations; response to deregulation; regulatory agencies and penalties for violations; economic and constitutional background of transportation regulations; emerging policies and their impact on present and near term transportation and logistics operations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Medical Assistant

MAP

MAP 130 - Administrative Medical Office Procedures

Description: Concurrent Requisite: HIT 151 Medical Terminology with a grade of C or better

This course introduces students to medical office administrative procedures including introduction and development of basic keyboarding and beginning word processing skills. Emphasis will be placed on the creation of medical correspondence including letters, memos, reports, and policy/procedure manuals. Medical practice financial procedures including bookkeeping, processing payroll, banking, and creation of spreadsheets will be covered.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

MAP 132 - Clinical Documentation Procedures

Description: Prerequisite: AHS 131, HIT 151 with a grade of C or better in each course. Concurrent Requisite: AHS 132, MAP 134 with a grade of C or better in each course.

This course covers entry-level medical office clinical procedures including patient intake procedures and documentation of care. Patient education regarding wellness and preventative care are reviewed, as well as health literacy. The medical assistant's role in complying with federal regulations and public health rules is reviewed. The student is introduced to theory and practical application of medical ethics. Course includes instruction in use of outpatient electronic medical record software.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

MAP 134 - Medical Assistant Laboratory Procedures

Description: Prerequisites/Concurrent Requisite: AHS 132

Prerequisite: HIT 151 with a grade of C or better in each course.

Concurrent Requisite: HIT 175 with a grade of C or better.

This course includes instruction and practice in various clinical areas of private medical office and hospital based medical practices. Instruction includes patient care skills during examination and treatment. Students will learn and demonstrate through role-play procedures for preparing and maintaining the examination and treatment area before, during, and after patient care; sanitization; sterilization and autoclaving; infection control and safety procedures; obtaining patient medical history;

measuring and recording vital signs and anthropometric measurements; preparing the patient and assisting with examination and/or treatment. Student will learn and demonstrate the use of sterile technique. Basic principles for assisting with specialty exams will be taught.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring,

Credit Hours: 3

Department: Administrative Business Tech

MAP 138 - EKG & Phlebotomy Procedures

Description: This course prepares students to obtain employment as EKG technicians, phlebotomists, or medical assistants. Students are introduced to the basic principles of electrocardiography and will learn cardiac anatomy and physiology and electrophysiology. Students are taught to use and operate electrocardiogram (EKG) equipment and are trained in basic interpretation of the results. Students are instructed in all aspects of blood collection for adults and children and develop comprehensive skills to perform venipunctures for lab analysis. Students learn how to safely and effectively draw blood using both venipuncture and capillary puncture methods along with finger sticks and heel sticks. Non-blood specimen collection and infection control procedures will be reviewed. Classroom lecture and lab sessions provide hands-on practice allowing students to perform EKGs on other students as well as perform venipuncture on practice arms.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring,

Credit Hours: 4

Department: Administrative Business Tech

MAP 236 - Medical Assistant Administrative Internship

Description: Prerequisite: AHS 131, HIT 151, HIT 156, HIT 170, MAP 130 with a grade of C or better in each course

Concurrent Requisite: HIT 158, MAP 132 with a grade of C or better in each course.

This course is a supervised practical experience for development of fundamental skills in administrative medical assistant procedures through an internship placement in a physician's office, medical clinic, hospital, or other healthcare facility. Students will prepare a portfolio and practice interviewing skills. Students must be available to complete the administrative internship during normal business hours Monday through Friday 8 am to 5 pm

Offered: Fall, Spring

Credit Hours: 2

Department: Administrative Business Tech

MAP 238 - Medical Assistant Clinical Practicum

Description: Prerequisite: AHS 100, AHS 132, HIT 151, MAP 132, MAP 134 (with a grade of C or better in each course)

This course is a supervised practical experience for development of fundamental skills in clinical medical assistant procedures through an internship placement in a physician's office, medical clinic, hospital, or other healthcare facility. Students must be available to complete the clinical practicum during normal business hours Monday through Friday 8 am to 5 pm.

SUNY GEN ED: n/a NCC GEN ED: n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Administrative Business Tech

Mathematics

MAT

MAT 001 - College Preparatory Mathematics

Prerequisites: Students placed in math 001 or choosing to meet placement of Math 003 or 013 with the sequence of Math 001 and Math 002 or Math 012.

Description: A non-credit course required of students not meeting the entrance requirements in Mathematics. Topics include: Integers and rational numbers, fundamental operations with integers, fractions and decimals, ratio and proportion, percent, consumer and job related problems. Hand-held calculators will be used (3 lecture hours).

SUNY GE-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 002 - Introductory Algebra

Prerequisites: Satisfactory completion of MAT 001 or by college placement.

Description: A non-credit course that prepares students to take a credit-level liberal arts mathematics course or MAT 109 - College Algebra and Trigonometry. All students with a MAT 002 or MAT 012 placement are eligible to take this course. Topics include: fundamental processes of arithmetic and algebra, factoring, linear and fractional equations, exponents, radicals, quadratic equations and right triangle trigonometry. Hand-held scientific calculators will be used (4.5 lecture hours).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 003 - Integrated Arithmetic and Introductory Algebra

Description: A non-credit course that prepares students to take a credit-level liberal arts mathematics course or MAT 109 - College Algebra and Trigonometry. All students with MAT 001, MAT 013 or MAT 003 placement are eligible to take this course. Arithmetic and algebra will be integrated throughout the semester. Emphasis will be placed on fundamental operations of integers and rational numbers, ratio and proportion, percents, factoring, linear and fractional equations, exponents, radicals, quadratic equations, and right triangles. Various relationships will be explored both graphically and analytically. Hand-held scientific calculators will be used (6 lecture hours).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 009 - Support for College Algebra and Trigonometry

Prerequisites: MAT 100 placement or S in MAT 012 or MAT 013. Student must have satisfied ENG 001 and RDG 001 developmental requirements.

Description: Co-requisite: MAT 109 This course is intended for students who otherwise would have to take MAT 002 prior to enrolling in MAT 109. These are students who have a MAT 100 placement or who have satisfactorily completed MAT 012 or MAT 013. The course is designed to support students taking MAT 109, College Algebra and Trigonometry, by reviewing material recently covered in the course and strengthening students' skills in preparation for upcoming topics.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 012 - Quantitative Reasoning 1

Description: Prerequisite: Satisfactory completion of MAT 001 or by college placement; RDG 001 (may be taken concurrently).

A non-credit course that prepares students to take a credit-level general liberal arts course in mathematics. All non-STEM students with a MAT 002 or MAT 012 placement are eligible to take this course. Students who intend to take MAT 109 and/or major in a science, technology, engineering or mathematics related discipline should take MAT 002

instead of this course. This course integrates quantitative literacy with mathematical concepts such as fluency with numbers, proportional reasoning, data interpretation, algebraic reasoning, graphing lines, and modeling. Class discussions will be used to investigate mathematical concepts based on real-life examples. Some examples include: social justice; home repair; population growth and density; and consumer literacy. Students should be prepared to actively participate in class discussions during every class meeting. Hand-held scientific calculators will be used (4.5 lecture hours).

Students who intend to major in science, technology, engineering or mathematics should take MAT002 or MAT 003 instead of this course. Graded on an S-U basis.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 013 - Integrated Arithmetic and Quantitative Reasoning I

Description: Prerequisite: RGD 001 (may be taken concurrently).

A non-credit course that prepares students to take a credit-level general liberal arts course in mathematics. All non-STEM students with MAT 001, MAT 013 or MAT 003 placement are eligible to take this course. Students who intend to take MAT 109 and/or major in science, technology, engineering or mathematics related discipline should take MAT 003 instead of this course. This course integrates arithmetic and quantitative literacy with mathematical concepts such as fundamental operations of integers and rational numbers, ratio and proportion, percents, proportional reasoning, data interpretation, algebraic reasoning, graphing lines, and modeling. Class discussions will be used to investigate mathematical concepts based on real-life examples. Some examples include: social justice; home repair; population growth and density; and consumer literacy. Students should be prepared to actively participate in class discussions during every class meeting. Hand-held scientific calculators will be used (6 lecture hours.)

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: Math/Computer Science/Info Tec

MAT 100 - A Topical Approach to Mathematics

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: Fundamental Mathematics topics and their applications. Topics include: problem solving, number systems, geometry, consumer mathematics, mathematical modeling, probability, management science, and social choice and decision making. A scientific calculator is required. (4.5 lecture hours) (Students will not receive credit for both MAT 100 and MAT 114).

SUNY GE-SMAT; SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 101 - Concepts of Mathematics

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: Topics include: formal symbolic logic, arguments, methods of proof; basic concepts of sets, set operations and probability. Consideration of number systems and computers.

SUNY GE-SMAT; SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 102 - Introduction to Statistics

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: *See calculator note in catalog. Appropriate and inappropriate uses of statistics, measures of central tendency and variability, basic concepts of probability, the binomial, normal and 't' distributions, testing hypotheses, estimation, chi-square, linear regression, and correlation.

SUNY GE-SMAT; SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 103 - Applied Statistics

Prerequisites: Students are to be placed into MAT 103 by the following:

Description: At least a C in MAT 102.

A course for students concentrating in liberal arts, social science, humanities, and statistics. Through the use of computer software packages such as Excel, Lotus 1-2-3, Statistical Package for the Social Sciences (SPSS), and Minitab, the basic and more advanced ideas of descriptive and inferential statistics are studied.

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 109 - College Algebra and Trigonometry

Prerequisites: Students are to be placed into MAT 109 by the following:

Description: College Placement Test (For some students whose College Placement Test scores allow for MAT 109, MAT 002 might be recommended prior to taking MAT 109) Students must have satisfied MAT002 or MAT003, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

*See calculator note in catalog. This course considers fundamental ideas from algebra, trigonometry, and functions, including exponentials and logarithms. A problem solving approach is used. (4.5 lecture hours) SUNY GE-SMAT; SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 111 - Pre-Calculus

Prerequisites: Students are to be placed into MAT 111 by the following:

Description: College Placement Test or at least a 'C' in MAT 109 or MAT 116.

*See calculator note in catalog. A primer course for the study of Calculus. The function concept plays the unifying role in the study of polynomial, rational, exponential, logarithmic, and trigonometric functions. The modeling of elementary functions is stressed and topics are presented graphically, numerically, analytically, and verbally (following the Rule of Four). Technological support using a graphing calculator is integrated throughout the semester. In addition, appropriate computer software may also be available. (4.5 lecture hours)

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 112 - Calculus with Applications in Business and Social Sciences

Prerequisites: Students are to be placed into MAT 112 by the following:

Description: College Placement Test or at least a C in MAT 111 or MAT 117

*See calculator note in catalog. This course is not recommended for Math, Engineering,

Science or Computer Science students and it does not satisfy the prerequisite for MAT 123. This course is intended to introduce the fundamental concepts and techniques of calculus to the non-science student. Special emphasis is given to applications in Business and Social Sciences. Topics include functions and graphs; the derivative and differentiation techniques of algebraic, exponential and logarithmic functions of a single variable; the concept of margin in economics; elasticity of demand; differentials; related rates and optimization problems; growth and decay applications; integrals and integration techniques; application of integrals, including producer's and consumer's surplus; income streams, probability. (4.5 lecture hours) Students will not receive credit for both MAT 112 and MAT 122.

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 114 - Foundations of Mathematics for Educators

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course is intended for students who are interested in teaching at the elementary school level. Topics will include a development of binary algorithms, the real numbers, field properties of the real number system as applied to abstract mathematical systems, numerations systems, functions and equivalence relations, solving systems of algebraic equations and number theory including some algebraic proof. Applications, historical perspectives, problem solving, and use of the technology will be emphasized in all topics. Students will not receive credit for both MAT 100 and MAT 114. (3.0 lecture hours)

SUNY GEN ED-GMAT, NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 116 - Engineering Technical Math I

Prerequisites: Two years of Regents H.S. mathematics, with at least a 78% on Math A Regents; or at least a 75% average in two years of Regents H.S. mathematics, or satisfactory completion of MAT 002. Students must have satisfied MAT 002 or MAT 003, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: *See calculator note in catalog. Designed for students in Engineering Technology Programs. Operations with real numbers; exponents and scientific notation; equations and inequalities; functions and graphs; system of equations and determinants; triangle trigonometry and introduction to general trig definitions; algebraic products and factoring; solving equations by factoring and quadratic formula; fractional equations and operations with algebraic fractions.

Applications are considered from various scientific, technical, and practical areas. (4.5 lecture hours) Students will not receive credit for both MAT 109 and MAT 116, SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: On Occasion

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 117 - Engineering Technical Math II

Prerequisites: Three years of Regents H.S. mathematics, with at least a 78% on Math B Regents; or at least a 75% average in three years of Regents H.S. mathematics (including trigonometry - i.e. Sequential 3); or at least a C in MAT 109 or MAT 116.

Description: *See calculator note in catalog. Designed for students in Engineering Technology. Rational exponents and radicals; functions and their graphs; polynomial, exponential, logarithmic and trigonometric functions; conic sections; introduction to derivatives and integrals. Applications are considered from various scientific, technical and practical areas. (4.5 lecture hours) Students will not receive credit for both MAT 111 and MAT 117.

SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: On Occasion

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 118 - Finite Mathematics: Quantitative Analysis

Prerequisites: Students are to be placed into MAT 118 by the following:

Description: College Placement Test (for some students whose College Placement Test scores allow for MAT 118, MAT 002 might be recommended prior to taking MAT 118) Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course. This course covers applications of finite mathematical models, primarily to problems in business and management. Matrix operations, Markov analysis, Gauss-Jordan elimination,

input-output analysis, linear programming and the simplex method, game and decision theory will be addressed.

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 119 - Data Science/Analytics

Prerequisites: At least a C in MAT 102.

Students must have satisfied all MAT, ENG 001 and RDG 001 remediation requirements prior to starting the course.

Description: This course will teach how to extract knowledge or insights from data. The student will be introduced to data preparation (data cleaning, merging datasets, creating new variables), exploratory data analysis, correlation, linear regression, multiple linear regression, ANOVA, logistic regression, decision trees, cluster analysis, neural networks, and big data. Industry standard statistical software will be used extensively throughout the course. Lab fee applies. SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 122 - Calculus I

Prerequisites: Students are to be placed into MAT 122 by the following: College Placement Test or at least a C in MAT 111 or MAT 117.

Description: *See calculator note in catalog. Definitions of limit, continuity and derivative; rates of change, tangent to a curve, chain rule; derivatives of elementary functions, products, quotients; higher order, implicit and inverse differentiation; mean value theorem; maxima and minima; differentials; definition of the definite integral, Fundamental Theorem of Integral Calculus; applications; integration of elementary functions. (4.5 lecture hours) Students will not receive credit for both MAT 112 and MAT 122.

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 123 - Calculus II

Prerequisites: At least a C in MAT 122.

Description: *See calculator note in catalog. Methods of integration; improper integrals, applications of the definite integral including volume and surface area of solids of revolution; introduction to mathematical modeling using differential equations; Euler's

method; separation of variables; slope fields; introduction to infinite series. (4.5 lecture hours)

SUNY GE-SMAT; SUNY GEN ED-GMAT;
NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 131 - Probability with Statistical Inference

Prerequisites: At least a C in MAT 123

(Calculus II).

Description: *See calculator note in catalog. Probability as a mathematical system: sample spaces, probability axioms, simple theorems. Permutations, combinations, Bayes theorem. Random variables; discrete and continuous probability and distribution functions: binomial, hypergeometric, Poisson, and normal distributions. Methods of estimation and hypothesis testing.

SUNY GE-SMAT; SUNY GEN ED-n/a;
SUNY GEN ED-MATH

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 150 - Data Science/Analytics

Prerequisites: At least a C in MAT 102 or at least a C in MAT 131.

Description: This course will teach how to extract knowledge or insights from data. The student will be introduced to data preparation (data cleaning, merging datasets, creating new variables), exploratory data analysis, correlation, linear regression, multiple linear regression, ANOVA, logistic regression, decision trees, cluster analysis, neural networks, and big data. Industry standard statistical software will be used extensively throughout the course. Lab fee applies. Formerly MAT 119. Students who have completed MAT 119 will not receive credit for MAT 150.

SUNY GEN ED-GMAT; NCC GEN ED-MATH

Offered: On Occasion

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 200 - Foundations of Advanced Mathematics

Prerequisites: At least a C in MAT 123.

Description: This course introduces students to concepts requisite for advanced mathematical study. The main emphasis is on the development of sound mathematical reasoning and construction of solid mathematical proofs. Mathematical ideas and concepts from the foundations of the

number system, set theory, logic, algebra, calculus, number theory and other advanced fields are selected as illustrations. Students are challenged to develop their own conceptual understanding of mathematical proofs, and to defend their mathematical reasoning.

SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: Fall

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 225 - Multivariable Calculus

Prerequisites: At least a C in MAT 123.

Description: *See calculator note in catalog. Curves and surfaces in three dimensional space, partial derivatives, gradient, constrained and unconstrained optimization, vector fields, parametric curves and surfaces. Integration topics include multiple integrals, volume, area, mass, line and surface integrals, flux, divergence. (4.5 lecture hours)

SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 226 - Elementary Linear Algebra

Prerequisites: At least a C in MAT 123.

Description: *See calculator note in catalog. This course is an introduction to Elementary Linear Algebra. Topics to be covered include systems of linear equations, determinants, matrix algebra, vector algebra, vector spaces, linear transformations, eigenspaces, inner products, spectral theory, and linear differential equations.

SUNY GE-SMAT; SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

MAT 234 - Elementary Differential Equations

Prerequisites: At least a C in MAT 123.

Description: *See calculator note in catalog. Analysis and methods of solving first-order equations, including numerical methods; higher order equations including the Laplace transform method, the Taylor series solution, and boundary value problems; linear systems of equations; applications to physical, engineering and life sciences.

SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Math/Computer Science/Info Tec

MAT 235 - Algebraic Structures

Prerequisites: MAT 225.

Description: Groups, rings, integral domains, and fields with applications to the integers, rationals, and the real and complex number systems.

SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: *On Occasion*

Credit Hours: 3

Department: *Math/Computer Science/Info Tec*

MAT 241 - Discrete Mathematical Structures

Prerequisites: MAT 122.

Description: Basic concepts of discrete mathematics: logic and set theory, proof techniques, relations, functions, combinations, recurrence relations, introduction to analysis of algorithms, and graph theory. Laboratory fee applies.

SUNY GE-SMAT; SUNY GEN ED-n/a; NCC GEN ED-MATH

Offered: *Fall, Winterim, Spring, Summer*

Credit Hours: 3

Department: *Math/Computer Science/Info Tec*

MAT 295 - Independent Study-Math

Description: SUNY GEN ED-n/a; NCC GEN ED-MATH. Formerly MAT 699. Students who have completed MAT 699 will not receive credit for MAT 295.

Credit Hours: 3

Department: *Math/Computer Science/Info Tec*

Multi-Disciplinary Courses

MDC

MDC 101 - The Making of the Modern Mind I

Prerequisites: Completion of ENG 001 and RDG 001

Description: This course explores the foundations of 20th-century Western Modernism, powerful ideas that transformed human attitudes and brought revolutionary changes that still shape contemporary thought today. Topics include views of evolution, human nature, social conflict, and laws of the universe. The ideas of Darwin, Marx, Freud, Einstein and others are studied. (General Elective credit.)

SUNY GEN ED-GHUM, GWEH; NCC GEN ED-WESH

Offered: *Fall, Spring*

Credit Hours: 3

Department: *English*

MDC 102 - The Making of the Modern Mind II

Prerequisites: Completion of ENG 001 and RDG 001

Description: This course examines how modern ideas contributed to global awareness and provided insight into psychology and human nature. Study the works of modern artists, writers, musicians and filmmakers; understand the roots of feminism, existentialism, science fiction, and the power of mass media. (MDC 101 useful but not a prerequisite. Earns Humanities credit.)

SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: *Fall, Spring, Summer*

Credit Hours: 3

Department: *English*

MDC 110 - Studies in World Culture

Description: This course explores the diversity of human experience through case studies of Asian, Latin American, and Islamic cultures. A close look at the heritage of art, literature and religion in Egypt, Mexico and Japan illuminates issues that shape national identity and the position of these cultures in the world today. (General Elective credit.)

SUNY GEN ED-GOWC; NCC GEN ED-GLNW

Offered: *Fall, Spring*

Credit Hours: 3

Department: *English*

MDC 120 - Issues in Science Technology and Society

Description: This course introduces the student to the interrelationship of science, technology, and society through the study of selected issues, such as biodiversity, genetic engineering, and communications. The course examines how modern technology affects society and the environment, and also how social institutions shape the development and use of new science and technology. (General Elective credit.)

SUNY GEN ED-GHUM; NCC GEN ED-WESH

Offered: *Fall*

Credit Hours: 3

Department: *English*

MDC 130 - Major Ideas in the Post-Modern World

Prerequisites: Completion of ENG 001 and RDG 001

Description: This course follows the making of the modern mind into the 21st century, exploring post-modern thought in Western and non-Western societies. It examines the effects of diversity in the post-colonial and

post-Cold War world, the effects on language and personal communication, the media, the arts, science and disease, medical ethics, and implications for future life on the planet.

(MDC 101 and MDC 102 are helpful but not prerequisites. Earns Humanities credit.)

SUNY GEN ED-GHUM; NCC GEN ED-GLNW, HUM, PLDI

Offered: *Fall, Spring*

Credit Hours: 3

Department: *English*

Multi-Disciplinary Science Courses

MDS

MDS 101 - Connecting the Sciences - A Macroscopic Approach

Description: This course introduces basic concepts of biology, chemistry, physics, and geology in order to examine the evolution of life in the context of the evolution of the earth and the evolution of the universe. It develops an understanding of fundamental forces, conservation of energy, heat and temperature, light, stellar evolution, solar energy and photosynthesis, evolution of the earth and its atmosphere, and evolution of life. The many topics investigated include the existence of black holes, current theories of plate tectonics, and extinction of the dinosaurs. The course emphasizes hands-on laboratory investigations. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Credit Hours: 4

Department: *Math/Computer Science/Info Tec*

MDS 102 - Connecting the Sciences - A Microscopic Approach

Description: Note that MDS 101 is not a prerequisite for this course. This course integrates the study of the physical and life sciences in order to understand the organization of atoms into living and non-living structures-to explore the threshold between the animate and inanimate. The goal is to examine the physics chemistry and biology of a living cell and contrast these cells with inanimate crystals. Students will gain an understanding of atomic and molecular interactions, organic and inorganic molecules, crystals and crystal growth, cellular structure, nucleic acids, and genetic engineering. The course emphasizes hands-on laboratory investigations. (3 lecture, 3 laboratory hours) Laboratory fee applies.)

SUNY GEN ED-GLAB; NCC GEN ED-LSCI

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Meteorology

MET

MET 101 - Introduction to Meteorology/Weather

Description: To understand the daily and seasonal weather, students will be introduced to the basic weather elements such as temperature, atmospheric pressure, wind, humidity, precipitation and cloudiness. Real-time weather maps and forecast models from the internet are often used in class to enhance the study of particular topics. After a good foundation in the basic principles of meteorology, various atmospheric phenomena will be discussed, including the formation of rainbows, thunderstorms, lightning, tornadoes and hurricanes. Many of these phenomena are illustrated through video media. Laboratory exercises include the study of weather observations and radar images from the WSR-88D, analysis of surface maps, including the plotting the location of warm and cold fronts, upper-air maps, the analysis of soundings on Skew-T diagrams and weather forecasting. Hybrid-online sections of this course may be offered. For these hybrid-online sections, students will meet the professor on campus to take exams and perform the labs. Students will learn the lecture material using web-based learning activities posted by the professor to the Blackboard learning management system. Students enrolling in a hybrid section must have access to a computer, the internet and a printer in order to complete on-line assignments. (3 lecture, 3 laboratory hours) Lab fee applies. Formerly SCI 107. Students who have completed SCI 107 will not receive credit for MET 101.

SUNY GE-SSCI; SUNY GEN ED-GLAB;
NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Marketing

MKT

MKT 100 - Introduction to Marketing

Description: Principles and methods employed in all phases of the distribution of goods and services from the producer to consumer. Emphasis on marketing activities includes product planning, consumer behavior, advertising, and marketing research. An overview of the dynamics of marketing which acquaints the student with the general philosophies of the business world.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 101 - Business Mathematics

Description: May not be used for Mathematics requirement. The course encompasses the application of basic, standard and fundamental principles of mathematics to practical business situations. Typical problems and applications are drawn from business situations and practices.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 103 - Principles of Sales

Description: Techniques involved in retail, wholesale, and industrial level sales situations; personal requirements needed for success in the sales field; discussion of resume writing and job interview techniques; customer prospecting, product knowledge, handling objections, and closing strategies. Instructor and students evaluate actual sales presentations.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 105 - Sports Marketing

Description: This course will give the student a practical and wide ranging understanding of marketing principles as applied to today's rapidly growing field of sports marketing. An historical perspective of the industry will provide the necessary framework to gain insight into the present and future sports marketing environment. Topics include how colleges, individual athletes, pro and amateur teams, sports facilities, the Olympics and companies who manufacture sporting goods and related products successfully reach their target markets.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 106 - Principles of Advertising

Description: An introductory course covering history, functions, principles, and applications of advertising. Topics include copywriting, selection of media, budgeting, print and broadcast production, and the role of the advertising agency and research. Students will develop an advertising campaign.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Marketing & Retailing

MKT 107 - E-Sports Event Marketing

Prerequisites: MKT 105.

Description: In this course students apply their knowledge of E-sports marketing and relevant functional areas of business to plan and execute an E-sports event. Using case studies, students identify and apply best practices for planning and executing an E-sports event with special attention to marketing. Students are required to create and market an E-sports event prior to completion of the course.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring, Fall, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 108 - Direct and Interactive Response Marketing

Description: An introduction to the specialized field of direct response marketing, with a focus on digital. Topics include marketing plans, use of databases, media strategy, content development, creation of copy and graphics, case analysis and term project. Guest speakers from industry and/or field trips are scheduled.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Marketing & Retailing

MKT 112 - Small Business Marketing

Description: The success of the small business marketer is challenged by large multinational corporations. This course explores how to meet these challenges and overcome the obstacles presented in the current marketing environment. Particular emphasis is placed on the development of guerilla marketing techniques that small business enterprises can employ. Topics include: building a powerful marketing plan, using e-commerce, building a competitive advantage, recognizing cultural diversity, integrating marketing and pricing strategies, choosing the right location and layout, and using small business marketing plans for globalization.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 130 - Marketing Research

Prerequisites: MKT 100.

Description: Techniques of marketing research and other applications to practical

marketing problems; information gathering methods, questionnaire formulation, sampling, and report writing. Includes an actual research study, which will be conducted by students.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

MKT 134 - Sales Management

Prerequisites: MKT 103.

Description: Students investigate the dynamics of managing the selling function. Case analysis and role playing exercises are utilized to develop better understanding of the importance of planning, organizing, directing, and controlling the sales department.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Marketing & Retailing

MKT 136 - Marketing Management

Prerequisites: MKT 100.

Description: Management and coordination of marketing functions, with special attention to product planning and development, pricing, communications, physical distribution, and channels of distribution. Students participate in a computerized competitive marketing strategy simulation and/or analyze case studies.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

MKT 138 - Public Relations

Description: Essentials of public relations practice as related to business problems. Organization of public relations work, analysis of major sectors of the public and application of latest public relations techniques.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 142 - Field Training

Prerequisites: Permission of Department Course Coordinator.

Description: Students work for appropriate business firms, institutions and/or agencies to enrich the theoretical concepts previously developed in the classroom.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Marketing & Retailing

MKT 145 - Consumer Motivation and Buyer Behavior

Description: This course is an overview of the processes and procedures of consumer research, segmentation of the American market according to demographic and psychological data. A description of the consumer movement and its impact on the marketing of goods and services to the American consumer will be covered.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

MKT 155 - Introduction to International Marketing

Description: This course will introduce the student to the fundamentals of International/Multinational Marketing. The course of study includes: The International Environment, International Marketing Activities, Global Marketing Management. It covers the channels of international distribution and the financial and logistical aspects of International Marketing.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Marketing & Retailing

MKT 160 - Customer Service

Description: This survey course will prepare the student for advanced study in the area of customer service. An extensive vocabulary of customer service terms will be developed and students will understand the basics of customer service, credit, collection, authorization services and fraud control.
SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 3

Department: Marketing & Retailing

MKT 170 - Procedures and Salesmanship for Kitchen and Bath Designers

Prerequisites: INT 101, INT 104, INT 105, INT 115, ENS 101.

Description: Must be enrolled in the Kitchen and Bath Certificate Program. Completion of this course allows Kitchen and Bath Design students to demonstrate ethical knowledge of business practices including the NKBA Standards of Conduct in conjunction with common business contracts to be inclusive of NKBA business tools and forms. Students will develop an understanding of management policies including profit margin, business plans, human resource practices, marketing and advertising. Students will also learn

the key presenting and selling techniques required of successful designers and business professionals.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Please Contact Department

Credit Hours: 3

Department: Marketing & Retailing

MKT 295 - Independent Study-Marketing

Description: Formerly MKT 699. Students who have completed MKT 699 will not receive credit for MKT 295.

Credit Hours: 3

Department: Marketing & Retailing

Mortuary Science

MSC

MSC 111 - Funeral Orientation

Description: The survey and study of funeral practices from the year 4000 B.C. in Egypt to the present in America.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 112 - Public Health and Sanitation

Description: A survey of Public Health problems, organisms causing infectious diseases, agencies, etc.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 124 - Anatomy for Embalmers I

Description: The first of two semesters covering human anatomy and physiology. Discussions of cells, tissues, organs, organ systems, the integument and detailed examination of the skeletal system. The heart, lymph and blood vascular systems are introduced. (2 lecture hours, 2 laboratory hours) Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 3

Department: Mortuary Science

MSC 127 - Funeral Home Management

Description: A detailed study of management techniques and procedures used in the operation of a funeral home. This study will include an examination of broad-based goals and objectives required of a successful Funeral Home Manager. This course will then take a specific look at concepts and procedures

designed to maximize the profitability of the funeral home operation. Topics such as employee relations, professional associates and client family relationships will be examined. The procedures related to management of disaster planning and multiple funeral industry cooperative procedures will be investigated as they pertain to recent industry innovations. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 234 - Mortuary Law and Ethics

Description: A study of mortuary jurisprudence and business law. Application to professional and business aspects of funeral home operation. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 235 - Anatomy for Embalmers II

Prerequisites: MSC 124.

Description: Detailed continuation of angiology, splanchnology-digestive, excretory and respiratory systems, including selected regions of the muscular system. The nervous, endocrine and reproductive systems are discussed. (2 lecture hours, 2 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 236 - Embalming Theory I

Prerequisites: MSC 124.

Description: Lectures dealing with the basic principles and techniques of the embalming process. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 237 - Embalming Laboratory I

Prerequisites: MSC 112, MSC 124 and MSC 236.

Corequisites: MSC 236.

Description: Clinical experience in embalming processes taught at Bellevue Hospital in New York City. (4 laboratory hours) Approximate cost of supplies: \$95. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Summer

Credit Hours: 1.50

Department: Mortuary Science

MSC 238 - Pathology

Prerequisites: MSC 124.

Description: Discussion of pathological changes as related to disease process and the effects of physical as well as chemical trauma on the human body. Post-mortem visual materials are used to illustrate these processes. (2 lecture hours, 2 laboratory hours) SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 241 - Restorative Art

Prerequisites: MSC 124.

Description: The practical application of modeling technique and cosmetology to restore facial features damaged by trauma and disease. (2 lecture hours, 2 laboratory hours) Approximate cost of supplies: \$25. Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Mortuary Science

MSC 242 - Human Disposition: Burial and Cremation

Description: This course will discuss and explain the final disposition of human remains. This course will explore the preparation of remains for earth burial, cremation and shipping. The operation of a cemetery and crematory will be discussed as well as the legal and regulatory compliance of each. The course will emphasize the proper identification of human remains, required forms, and size of cremation containers and caskets. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall

Credit Hours: 3

Department: Mortuary Science

MSC 245 - Funeral Directing with Practicum

Prerequisites: MSC 237.

Description: A detailed study of management techniques and procedures used in the operation of a funeral home. A supervised practicum assignment at cooperating funeral homes is included. (3 lecture hours, 6 laboratory hours) Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Mortuary Science

MSC 247 - Embalming Theory II

Prerequisites: MSC 236.

Description: Lectures continuing with the principles, techniques, and practices of the embalming process. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 2

Department: Mortuary Science

MSC 248 - Embalming Laboratory II

Prerequisites: MSC 236.

Corequisites: MSC 247.

Description: Clinical experience continues in practical embalming processes taught at Bellevue Hospital in New York City. (4 laboratory hours) Laboratory fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring, Summer

Credit Hours: 1.50

Department: Mortuary Science

MSC 249 - Funeral Counseling and Psychology

Prerequisites: PSY 203.

Description: An introductory study of behavioral emotions and needs of an individual that has recently experienced a death in the family or of a close friend. Counseling techniques and recommendations are introduced and discussed through the use of study groups and role playing. Practical situations are portrayed and analyzed. Selected current readings are discussed. SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Mortuary Science

Music

MUS

MUS 000 - Applied Music Master Class

Description: A weekly performance class. Specifics of solo and ensemble performance practice are discussed. Studio performances by students, faculty and visiting artists and ensemble experiences (if appropriate) are given. (1 hour). SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring

Credit Hours: 0

Department: Music

MUS 037 - Preparatory Sight-Singing

Description: Required course for students who wish to major in music but do not meet the Department's requirements. Pitch matching, sight-singing of simple diatonic melodies, concentrated work on rhythm, beginning melodic and rhythmic dictation.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Music

MUS 100 - Listening to Music

Description: Basic concepts and development of listening perception. Compositions to be discussed include vocal and instrumental works of the 18th, 19th and 20th centuries selected to show the development of Western musical art. A requirement for the course is that students must attend concerts, one of which must be at a major concert hall in the metropolitan area, during the semester. This course cannot be applied to a degree in music. SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Music

MUS 101 - Rudiments of Music

Description: Notation, clefs, key signatures, major and minor scales, meter signatures, intervals. The course cannot be applied to a music degree. Required course for students who wish to major in music but do not meet the Department's entrance requirements. A grade of B or higher is required of prospective music majors.

SUNY GE-SART; SUNY GND-GART; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

MUS 102 - Beginning Piano

Description: A course designed for beginners only. Classes have a maximum of 12 students using electronic pianos. Areas covered include piano technique, music reading, playing by ear, improvisation and harmonization. Owning a piano is desirable but not essential, since the Music Department offers practice facilities. (Students may be required to trim fingernails.)

Students are required to provide headphones.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM, FAPA

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

MUS 103 - Beginning Guitar

Description: A course designed for beginners only. Classes have a maximum of 15 students. Obtaining an acoustic instrument is the student's responsibility, since the College does not provide guitars for student use. Areas covered include guitar technique, developing concepts of melody, harmony and rhythm particularly in providing accompaniments for folk singing. (Students may be required to trim fingernails.)

SUNY GE-SART; SUNY GEN ED-GART;
NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

MUS 104 - Introduction to Music Literature

Prerequisites: Successful completion of music placement examination.

Offered: Fall, Spring

Credit Hours: 3

Department: Music

MUS 109 - Orchestra I

Description: This is the first course in the MUS 109-MUS 110 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 110 - Orchestra II

Description: This is the second course in the MUS 109-MUS 110 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 111 - Freshman Chorus I

Description: This is the first course in the MUS 111-MUS 112 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 112 - Freshman Chorus II

Description: This is the second course in the MUS 111-MUS 112 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 113 - Band I

Description: This is the first course in the MUS 113-MUS 114 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 114 - Band II

Description: This is the second course in the MUS 113-MUS 114 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 115 - Jazz Ensemble I

Description: This is the first course in the MUS 115-MUS 116 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 116 - Jazz Ensemble II

Description: This is the second course in the MUS 115-MUS 116 sequence. Open to all students. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 117 - Elements of Music I

Prerequisites: MUS 101 - B or successful completion of Music Department placement.

Corequisites: MUS 127

Description: This is the first course in the MUS 117-MUS 118 sequence. Introduction to diatonic harmony and the concept of 4-part voice-leading using primary triads and inversions; non-harmonic tones.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 2

Department: Music

MUS 118 - Elements of Music II

Prerequisites: MUS 117 - Minimum grade of C or successful completion of advanced theory placement examination.

Corequisites: MUS 128.

Description: This is the second course in the MUS 117-MUS 118 sequence. Continuation of diatonic harmony and voice-leading; inclusion of secondary triads and inversions, sequential harmonic patterns. Greater emphasis on melodic-contrapuntal development.

Examination of basic principles of musical organization through analysis.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 2

Department: Music

MUS 123 - Chamber Music I

Description: This is the first course in the MUS 123-MUS 124 sequence. Rehearsal and performance of music for small instrument ensembles (duos, trios, quartets, etc.) Open to all students by audition. Contact Music Department. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 125 - Vocal Ensemble I

Description: This is the first course in the MUS 125-MUS 126 sequence. Open to all students by audition. Permission of instructor required. (3 hours)

AUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 126 - Vocal Ensemble II

Description: This is the second course in the MUS 125-MUS 126 sequence. Open to all students by audition. Permission of instructor required. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 127 - Keyboard Harmony I

Corequisites: MUS 117.

Description: This is the first course in the MUS 127-MUS 128 sequence. Parallels MUS 117 with emphasis on keyboard and sight-singing skills.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 2

Department: Music

MUS 128 - Keyboard Harmony II

Prerequisites: Completion of MUS 127.

Minimum grade of C is required.

Corequisites: MUS 118.

Description: This is the second course in the MUS 127-MUS 128 sequence. Parallels MUS 118 with emphasis on keyboard skills.

SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 2

Department: Music

MUS 129 - African American Ensemble I

Description: (Dual listed with AFR 150)

This is the first course in the MUS 129-MUS 130 sequence. Participation in the production, rehearsal and performance of the African American Choral Ensemble productions. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 130 - African American Choral Ensemble II

Description: (Dual listed with AFR 151)

This is the second course in the MUS 129-MUS 130 sequence. Participation in the production, rehearsal and performance of the African American Choral Ensemble productions. (3 hours)

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 1

Department: Music

MUS 132 - Music for Early Childhood Education

Prerequisites: Teacher Education Transfer Program students or permission of Chairperson.

Description: Previous music background unnecessary. Pitch notation, rhythmic and singing activities. Practical instruction on such instruments as autoharp, guitar, recorder, piano, melodic and rhythm instruments. Course cannot be applied to a degree in music. (3 hours)

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Music

MUS 133 - Intermediate Piano

Prerequisites: MUS 102 or permission of instructor.

Description: Course designed for the intermediate piano student. Continuation of MUS 102 with more advanced study of piano technique, selected repertoire, sight-reading, playing by ear, harmonization and improvisation. Owning a piano is desirable but not essential since the Music Department offers practice facilities.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Music

MUS 134 - Intermediate Guitar

Prerequisites: MUS 103 or permission of instructor.

Description: Guitar technique, transposition, finger picking, accompaniment styles. Obtaining an acoustic instrument is the student's responsibility.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Music

MUS 135 - Rock Music: Mirror of Change

Description: A study of cultural changes in American and English postwar society as expressed in the development of rock music. SUNY GE-SART, SDES, SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-PLDI, HUM, WESH

Nutrition

NTR

NTR 158 - Social and Cultural Aspects of Food

Description: This course is an exploration of the social, cultural and religious aspects of food in different countries and nationalities with emphasis on ethnic groups in the United States. The food habits of various groups, identification of ethnic foods and terminology, dietary rationales, and the economics of dietary intake will be investigated. The emphasis of this course is on developing cultural competency and sensitivity to various ethnic groups. It includes cultural foods taste testing and nutritional counseling of people from various cultures.

SUNY GE-SDES; SUNY GEN ED-n/a; NCC GEN ED-PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Hospitality Business

NTR 183 - Dietary Management

Description: This course fulfills the requirements for diet therapy and nutritional planning as designed by the Dietary Managers Association for certification as a Dietary Manager. It includes one hundred and fifty hours of field experience in a clinical/ institutional setting. Topics include: concepts of diet therapy, medical terminology, institutional protocol, nutritional planning in a health care setting and the Dietary Manager's role in nutritional assessment and management.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Hospitality Business

NTR 184 - Dietary Management Field Experience

Description: Students work in selected healthcare facilities (hospitals / nursing homes) to gain experience and expertise in the field of dietary management by implementing concepts and practices acquired in the classroom. Students must complete a one hundred and fifty hour internship to be eligible to sit for the Dietary Managers Certification Exam. Coursework includes written and oral assignments and exams.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Hospitality Business

NTR 192 - Principles of Food Science

Description: This course is designed to give students a fundamental understanding of the composition of foods, their nutritional impact and the chemical, physical and biological interactions that occur during production and processing of food products. The impact of ingredient interactions, substitutions, formulation and storage will be evaluated using sensory, physical and scientific methodology to determine quantitative and qualitative attributes.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Hospitality Business

NTR 195 - Nutrition through the Life Cycle

Description: This course stresses the practical application of nutritional concepts from pregnancy and birth through old age. Strategies for handling nutrition related problems, including infant feeding, introduction of solid foods, picky eaters, obesity issues, eating disorders, the use of nutritional supplements, sports nutrition, food guides and standards and label reading are among the subjects investigated.

SUNY GEN ED-n/a; NCC GEN ED-n/a

NUR 135 - Advanced Nursing Skills

Prerequisites: NUR 105 or NUR 125 or permission of the Chairperson.

Description: This course offers the student the opportunity to learn or reinforce current knowledge of technical Nursing skills. Opportunities are provided for both demonstration and practice of learned skills. Skills and theoretical background are taught in a six-week module of two hours per week. This module consists of content representing an advanced level of complexity. This course is not intended as preparation for employment in a critical care setting. It is open to registered nurses and students enrolled in the NCC Nursing Program. This course is not part of the required nursing curriculum. Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 1

Department: Nursing

NUR 203 - Comprehensive Nursing Care II

Prerequisites: NUR 101 and NUR 105 with a C+ or better grade, AHS 131, AHS 132, ENG 100 or ENG 101 or ENG 108, MAT 102, PSY 203.

Description: Pre or Concurrent Requisites: AHS 202

Pre or Concurrent Requisites Courses with SUNY Empire: HIS 3345, SOCI 3010, NURS 3010, NUR 3015.

This course is concerned with the student's continued growth of knowledge in identifying health problems across the life span. Use of the nursing process and core competencies as critical thinking tools is applied to more complex patient situations. The student will integrate theory and skills learned in previous semesters to provide nursing care to pediatric populations. Sociocultural theory related to the family and community as well as group processes are explored. Evidence-based practice is emphasized in planning nursing care for individuals and groups of patients. Educational and practical technological skills are enhanced in the on-campus laboratory

and in the clinical agencies. Experiences are provided in the on-campus laboratory and a variety of pediatric and medical/surgical care, community settings and Service Learning Activities. This course will consist of: 3.5 credit hours of lecture (1:1) 2.0 credit hours of lab (1:3) 2.5 credit hours clinical (1:3) = 8 credits for NUR203 Laboratory fee applies. Description: Formerly PED 233/403. Students who have completed PED 233 and/or PED 403 will not receive credit for PED 235. Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-PED

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 253 - Tennis I Coed

Description: Formerly PED 502. Students who have completed PED 502 will not receive credit for PED 253. Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 254 - Tennis II Coed

Prerequisites: PED 253/502 or PED 214/322 or PED 228/422

Description: Formerly PED 524. Students who have completed PED 524 will not receive credit for PED 254. Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 255 - Golf I Coed

Description: Lab fee applies. Formerly PED 512. Students who have completed PED 512 will not receive credit for PED 255. SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 256 - Golf II Coed

Description: Lab fee applies. Formerly PED 514. Students who have completed PED 514 will not receive credit for PED 256.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 257 - Jogging Coed

Description: Lab fee applies. Formerly PED 523. Students who have completed PED 523 will not receive credit for PED 257.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 258 - Bowling I Coed

Description: SUNY GEN ED-n/a; NCC GEN ED-PED

Formerly PED 539. Students who have completed PED 539 will not receive credit for PED 258. *Offered: Fall, Spring, Summer*

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 259 - Bowling II Coed

Prerequisites: PED 258/539

Description: Lab fee applies. Formerly PED 540. Students who have completed PED 540 will not receive credit for PED 259.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 260 - Racquetball Coed

Description: Formerly PED 520. Students who have completed PED 520 will not receive credit for PED 260. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 261 - Yoga Coed

Description: Lab fee applies. Formerly PED 551. Students who have completed PED 551 will not receive credit for PED 261.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 262 - Fundamentals of Spinning Coed

Description: This course offers the participant an individual indoor activity that has no age or fitness limitations. The use of special stationary bicycles provides the participant a fun, controlled method of developing anaerobic and aerobic strength, total body fitness as well as rhythmic coordination and balance. Formerly PED 521. Students who have completed PED 521 will not receive credit for PED 262.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 263 - Self Defense Coed

Description: Lab fee applies. Formerly PED 519. Students who have completed PED 519 will not receive credit for PED 263.

SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 264 - Karate I Coed

Description: The purpose of this course is to provide a basic understanding of Aiki-Jujutsu, a classical Japanese martial art. Our main focus of training will be the physical application of this art. Aspects of Aiki-Jujutsu including history, philosophies, and principles will be covered throughout the semester. No prior martial arts experience is necessary as this class is tailored for the beginner student. Lab fee applies. Formerly PED 657. SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 273 - Basic Swimming I Coed

Description: Swimming and water safety instruction for the beginner and non-swimmer. This course open only to students who cannot

swim 20 yards (one pool length). Basic locomotion in water and survival. (4 hours) Lab fee applies. Formerly PED 665. Students who have completed PED 665 will not receive credit for PED 273.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 274 - Basic Swimming II Coed

Description: Swimming and water safety instruction on a more advanced level. Emphasis on form and the development of the four basic strokes. (4 hours) Lab fee applies. Formerly PED 666. Students who have completed PED 666 will not receive credit for PED 274.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 275 - Water Safety Instructor Coed

Description: The purpose of this course is to train instructor candidates to successfully complete and teach American Red Cross Swimming classes - Levels 1 through 8. There will be a pretest for all prospective students, which will enable them to demonstrate their proficiency in water safety and aquatic skills. Upon successful completion of the course, all students will receive teaching Certification in water safety instruction. Lab fee applies. Formerly PED 668. Students who have completed PED 668 will not receive credit for PED 275.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Spring

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 276 - Lifeguard Training

Description: The objective of this course will be to focus attention on the basic skills and knowledge required by good swimmers to properly assume the responsibilities of lifeguards and managers at swimming pools or at protected (non-surf) open water beaches. All people interested in becoming a lifeguard must possess a lifeguard training Certificate. Upon successful completion of this course the student will receive all necessary certifications for employment as a lifeguard. These Certificates include Lifeguard Training, BLS for the professional rescuer and standard first aid. (Satisfactory completion of this course will provide the student with 1 credit toward the 2 credit Physical Education requirement.) Lab fee applies. Formerly PED 670. Students who have completed PED 670 will not receive credit for PED 276.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring

Credit Hours: 4

Department: Health/Physical Ed/Recreation

PED 277 - Circus Arts Coed

Description: This course is designed to introduce the student to the basic skills of the circus. Physical Education Majors will increase their repertoire of skills in terms of eye-hand coordination, balance and learning skill hierarchy. Lab fee applies. Formerly PED 622. Students who have completed PED 622 will not receive credit for PED 277.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 278 - Sailing Coed

Description: Lab fee applies. Formerly PED 501. Students who have completed PED 501 will not receive credit for PED 278.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Winterim, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 279 - Adapted I Coed

Description: For students who have medical limitations. All students registering for this course must have prior approval of College nurse. (3 hours) Lab fee applies. Formerly PED 601. Students who have completed PED 601 will not receive credit for PED 279.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 280 - Adapted II Coed

Description: For students who have medical limitations. All students registering for this course must have prior approval from the College nurse. Formerly PED 602. Students who have completed PED 602 will not receive credit for PED 280. (3 hours) Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 281 - Social Dance

Description: Lab fee applies. Students who have completed PED 527 will not receive credit for PED 281.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring

Credit Hours: 0.50

Department: Health/Physical Ed/Recreation

PED 282 - Outdoor Living: Wilderness, Canoeing and Camping

Description: This course is designed to provide students with practical experiences leading to an expanded appreciation of the outdoors. A two-night stay field trip experience and student fees are required.

Students who have completed PED 634 will not receive credit for PED 282
SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 283 - Social Dance/Latin Rhythms

Description: Formerly PED 281/527. Students who have completed PED 281 and/or PED 527 will not receive credit for PED 283.

Lab fee applies. SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 284 - Cardio & The Core Coed

Description: The purpose of this course is to provide education and instruction on the concepts and components of fitness. Demonstrations of correct form, equipment set up, and safe and appropriate techniques will be implemented. Materials on current topics including, nutrition, body composition, heart rate training zones and risk factors heart disease will be provided. Lab fee applies. Formerly PED 401/232. Students who have completed PED 401 or PED 232 will not receive credit for PED 284.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 285 - Yoga

Description: The purpose of this course is to provide education and instruction on the basic principles and practices of Yoga. The course is designed to introduce Yoga on a beginner level and offer opportunities to expand knowledge and applications of skills to students. The emphasis of the class will be connecting mind and body through Asanas (postures), Vinyasa (flows), and Pranayama (breathing techniques). This class will help increase flexibility, and improve health relaxation. Lab fee applies.

Students who have completed PED 551 or PED 261 will not receive credit for PED 285.
SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 286 - Fundamentals of Spinning

Description: This course offers the participant an individual indoor activity that has no age or fitness limitations. The use of special stationary bicycles provides the participant a fun, controlled method of developing anaerobic and aerobic strength, total body fitness as well as rhythmic coordination and balance. Formerly PED 521/262. Students who have completed PED 521 and PED 262 will not receive credit for PED 286.

SUNY GEN ED-n/a; NCC GEN ED-PED
Offered: Fall, Winter, Spring, Summer
Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 288 - TRX Suspension Training

Description: TRX Suspension Training uses body weight exercises to develop strength, balance, flexibility, and core stability simultaneously. It requires the use of TRX Suspension Trainer, a performance training tool that leverages gravity and the user's body weight to complete the exercises. This course is designed to provide education and instruction on the concepts and components of suspension training. Students will use the suspension system to apply foundational movement based training techniques.

Demonstration of correct form, equipment set up and use safe appropriate techniques will be implemented. Materials on current topics including, nutrition, body composition, heart rate training zones, and risk factors of heart disease will be provided. SUNY GEN ED-n/a; NCC GEN ED-PED

Offered: Fall, Spring, Winter, Summer
Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 290 - CPR Basic Life Support Coed

Description: (Dual listed with AHS 100) This course is designed to teach Cardiopulmonary Resuscitation (CPR) and Basic Life Support to individuals entering the various service professions (Police, Fire), health professions and professions who are activity-oriented (recreation, lifeguards), etc. Basic procedures are covered in full, including techniques of advanced life support. Successful completion of the course meets all requirements for the American Red Cross and Heart Association Certification. It cannot be used to fulfill Physical Education course requirement for graduation. Formerly PED 640. Students who have completed PED 640 will not receive credit for PED 290.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 1

Department: Health/Physical Ed/Recreation

PED 291 - Personal Health for Physical Education and Health Majors

Description: Identification and evaluation of sound health principles, personally and professionally. The design of this course provides examination and exploration of health issues for daily living, as well as pedagogical techniques for future health and Physical Education teachers.

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Spring

Credit Hours: 3

Department: Health/Physical Ed/Recreation

PED 292 - Safety and First Aid

Description: An analysis of problems related to safety and first aid, with special emphasis on their application to Physical Education. A study of the immediate care of injuries and their prevention. The student will be required to participate in practical examination of skills, including a pool session which involves neck and back spinal immobilization. Successful completion of this course will certify the student in the American Red Cross - Responding to Emergencies and Adult CPR. It cannot be used to fulfill Physical Education course requirement for graduation

SUNY GEN ED-n/a; NCC GEN ED-n/a
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Health/Physical Ed/Recreation

Philosophy

PHI

PHI 100 - Streaming Philosophy: Philosophy Through Popular Culture

Description: This course serves to introduce students to the field of philosophy. Through an exploration of readings, television, movies, and other media, students will survey a range of philosophical topics. In particular, the course pairs contemporary readings on philosophical topics such as the nature of morality, justice, freedom, existence, truth, knowledge, and meaning with television shows, movies, and other media that illustrate core philosophical views on those topics. In addition, the course investigates a number of philosophical questions raised by our interactions with popular media.

SUNY GE-SDES, SHUM; SUNY GEN ED n/a
 NCC GEN ED-HUM and WESH

Credit Hours: 3

Department: Philosophy

PHI 101 - Introduction to Philosophy

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course.

Description: This course serves to introduce students to the field of philosophy. Through an exploration of classic and contemporary texts, students will survey a range of philosophical topics. These topics include the nature of morality, justice, freedom, existence, truth, knowledge, meaning, and the mind.

SUNY GE-SHUM; SUNY GEN ED-GHUM;
 NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Philosophy

PHI 102 - Contemporary Philosophy

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course introduces students to philosophy through contemporary texts that explore analytic and continental philosophy. Topics include the nature of meaning, language, identity, the self, social consciousness, and political action. Philosophers studied include Sartre, Wittgenstein, Arendt, Cassirer, Dewey, Russell and others.

SUNY GE-SHUM; SUNY GEN ED-GHUM;
 NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 103 - Critical Thinking

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course introduces students to the elements of logical reasoning and aims to develop students' analytical and critical thinking abilities. Students will develop reasoning skills to rigorously analyze, identify, and evaluate different types of arguments found in ordinary language. Basic concepts include deduction, induction, soundness, validity, invalidity, formal and informal fallacies, clarifying meaning, assumption identification, and causal inferences.

SUNY GE-SHUM; SUNY GEN ED-GHUM;
 NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Philosophy

PHI 104 - Ancient and Medieval Philosophy

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course explores major philosophers from the ancient and medieval world. It begins with the transition from a mythological consciousness to philosophical reasoning in the thought of the Presocratics, and then moves on to Socrates, Plato, and Aristotle. Topics include the nature of morality, justice, freedom, existence, truth, belief, and knowledge. The tension between reason and faith in the Medieval period is examined in the works of representative thinkers of the three major monotheistic traditions.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 105 - Renaissance and Modern Philosophy

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course explores central philosophical views during the Renaissance and the period following the Scientific Revolution. Topics discussed include Renaissance Humanism, the Enlightenment, God, the rise of modern science, skepticism, human rights, and the place of human beings in the universe. Representative philosophers studied are Bacon, Galileo, Descartes, Princess Elisabeth of Bohemia, Locke, Cavendish, Hume, and Kant.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 106 - Introduction to Ethics

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course introduces students to problems in moral philosophy. The class focuses on the theoretical foundations for judgments about right and wrong, good and evil, and justice and injustice. Philosophers studied will include Plato, Aristotle, Immanuel Kant, John Stuart Mill and others. Special attention will be paid to how philosophy can help us to address issues such as free

speech, affirmative action, poverty, the use of technology, and environmental concerns.

SUNY GE-SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 107 - The Philosophy of Sex & Gender

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: (Dual listed with WST 107) Many people distinguish males and females along two different dimensions: biological endowment and social role. The first dimension is labeled 'sex', the second 'gender'. This course examines the nature and development of the sex-gender distinction, its application to issues surrounding sexual equality, as well as contemporary challenges to the distinction that arise within conversations regarding intersexuality and transgender identity. The course also explores the possible connections between sex, gender, and sexual desire.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, PLDI

Offered: Fall and Spring

Credit Hours: 3

Department: Philosophy

PHI 108 - Black Social Philosophy

Prerequisites: Students must have satisfied all ENG and RDG remediation requirements prior to starting the course.

Description: (Dual listed with AFR 170). An examination of the social philosophy of thinkers such as Du Bois, Garvey, King and Fanon. Particular attention is paid to oppression and the struggle for self-identity. The ideals of freedom, equality, justice and community are carefully considered.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, PLDI

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Philosophy

PHI 110 - Biomedical Ethics

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course examines ethical issues that arise in the field of medicine and related areas of biomedical research. Several traditional ethical theories are introduced, theories which establish the

foundations needed for later thoughtful analysis and evaluation of specific issues. Issues analyzed typically include: truth-telling, informed consent, research on human subjects, euthanasia, disability and healthcare policy. SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Philosophy

PHI 111 - Business Ethics in the Digital Age

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: This course explores the ethical challenges that the digital revolution poses for businesses and the larger society, as well as ethical issues related to business in general. Attention will be given to the ways in which technological advances, especially in computing and information technology, have reshaped the relationships between businesses, workers, customers, regulators, and citizens. Some of the issues studied include: the nature of property ownership, the tension between consumer convenience, public security, and individual privacy; the potential for the pursuit of profit to undermine social and environmental well-being; the adverse effects of targeted advertising; the concern that programmers unwittingly encode discriminatory social practices; the social, political, and moral dimensions of the internet of things and 'share'/'gig' economy; the nature of corporate agency; the moral implications of corporate mergers; the moral problems with insider trading.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Philosophy

PHI 201 - Ethics and Law Enforcement

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: Recommended for all students, and especially pertinent for pre-Law and Criminal Justice students, the course examines our legal tradition. Emphasis is placed upon the analysis of key concepts of legal and philosophical importance such as justice, freedom, civil disobedience, equality, rights, duties, and property. The relation of law to questions of race and gender will also be examined. The course readings draw from the

Constitution and Supreme Court decisions as well as classical and contemporary works. SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH
Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 203 - Philosophy of Art

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: A philosophical examination of the nature and value of the visual, musical and literary arts. Taking as examples primarily works from the contemporary period, we explore the intersections between art and related notions such as craft, decoration, beauty, entertainment, self-expression, pictorial representation and politics.

SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 204 - Philosophy of Religion

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: A critical examination of the nature of religion and of religious doctrine. Topics discussed include the concept of religion, various arguments for the existence of God, the problem of evil, the rationality of faith, the nature of religious experience, and the compatibility of religion and science. Readings are drawn from philosophical, scientific, and theological sources.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

PHI 208 - Asian Philosophy and Religion

Prerequisites: Students must have satisfied all ENG and RDG developmental requirements prior to starting the course. Please note that PHI 101 is not a prerequisite.

Description: Recommended for all students interested in non-Western philosophical traditions. The course examines central themes in classical Indian and Chinese systems of thought (Daoism, Confucianism, and Buddhism) as developed in texts such as The Upanishads, The Bhagavad-Gita, the Buddhist scriptures, the Analects of Confucius, and the

Daodejing. Topics to be discussed include: the nature of virtue, the reality of the self, and the possibility of enlightenment.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-GLNW, HUM, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: Philosophy

Physics

PHY

PHY 101 - General Physics I

Prerequisites: MAT 109. Successful completion of all remedial English and remedial Reading requirements.

Description: An introductory study of Physics designed to acquaint the student with the fundamentals of kinematics, Newton's Laws of motion, circular motion and gravitation, work and energy, impulse and momentum, simple harmonic motion, temperature, heat, and thermodynamics. The topics will be developed analytically and experimentally. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 102 - General Physics II

Prerequisites: PHY 101

Description: A continuation of the introductory study of Physics designed to acquaint the student with the fundamentals of wave motion and sound, electricity and magnetism, geometrical and physical (wave) optics, and selected topics in modern physics. The topics will be developed analytically and experimentally. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 110 - Physics for Electronic Technology

Description: Pre-requisites: MAT 117

The course emphasizes an overview of the physical laws underlying selected topics in mechanics, thermodynamics, electromagnetism and optics, and modern physics. The laboratory component involves exercises that are illustrative of physical principles in these areas as well as methods of observation, measurement and data analysis.

Laptop computer required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 120 - Physics for Educators

Prerequisites: Students must have satisfied all MAT, ENG 001 and RDG 001 developmental course requirements prior to starting the course.

Description: This course studies natural phenomena and everyday life. Covering the fundamental laws and principles of mechanics, electricity, magnetism, sound and light, it provides a basic knowledge of the evolution of physical laws and the underlying concepts that are rapidly changing the way we live. The course material is developed descriptively and demonstrated experimentally. It includes student investigations in recitation and in lab to emphasize the experimental nature of science. Investigations will also be performed using computer software and the internet. The course will also include preparation of lesson plans, grading practices and hands-on experience in the presentation of materials.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 122 - Engineering Physics I

Description: Prerequisite or Corequisite: MAT 122

Designed for students in Engineering, Physics, Mathematics, and the Sciences.

An introduction to mechanics: fundamental laws of statics, dynamics, kinematics, work, energy, power and momentum. Applied problems are an integral part of the course. (5 lecture, 3 laboratory hours) Lab fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 123 - Engineering Physics II

Prerequisites: PHY 122, MAT 123.

Description: An introduction to the topics of rotational kinematics and dynamics, elasticity, hydrostatics, hydrodynamics, harmonic motion, waves, sound, and thermodynamics. Applied problems are an integral part of this course. (5 lecture, 3 laboratory hours) Laboratory fees apply. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI, ASC

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 151 - Physics Science and Math I

Description: Pre or Concurrent Requisites: MAT 122.

The first semester of a two-term survey course for students who intend to study Science, Mathematics or Computer Science at four-year institutions that require a calculus-based approach to physics. The topics covered during the first term are mechanics and thermodynamics. (3 lecture, 3 laboratory hours) Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 152 - Physics Science and Math II

Prerequisites: MAT 122 and PHY 151

Description: The second half of a calculus-based physics survey course. The topics covered are wave phenomena, electricity, magnetism, light and modern physics. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 222 - Electricity and Magnetism

Prerequisites: PHY 123.

Description: An introduction to the basic theory of electric and magnetic forces and energy associated with electric charge; electric and magnetic properties of matter, electromagnetic waves, geometric and wave properties of light. Emphasis is given to a rigorous mathematical formulation of physical principles, solution of problems, and practical applications of electric circuits in the laboratory. (5 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSC.

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

PHY 223 - Introduction to Modern Physics

Prerequisites: MAT 225.

Description: A survey of 20th-century theories of the atom, the nucleus, relativity, quantum properties of waves and particles, wave mechanics, spectra of hydrogen and other atoms, x-rays, the uncertainty principle, radioactive decay, conservation laws in radioactivity, transmutations. Stress is placed on basic principles rather than on applications. (5 lecture hours)

SUNY GEN ED-GLAB; NCC GEN ED-LSC.

Offered: Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

PHY 295 - Independent Study-Physics

Description: SUNY GEN ED-n/a; NCC GEN ED-ASC, LSCI

. Formerly PHY 699. Students who have completed PHY 699 will not receive credit for PHY 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Political Science

POL

POL 101 - Government and Politics in the Modern World

Description: This course compares and contrasts the major forms of government found in the contemporary world: democratic, authoritarian, and totalitarian. Illustrations and examples will be drawn from both Western and non-Western countries. A basic theme of the course will be the comparative advantages of democratic forms of government over the various alternatives found around the globe today.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS, GOWC; NCC GEN ED-SBS, GLNW

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 111 - Nassau County: History and Government

Description: (Dual listed with HIS 140). A review of the development of what is now Nassau County from pre-Colonial times to the present day. Emphasis is placed upon the governmental-administrative structure of the county and the major problems facing urban-suburban communities. Field trips and guest

speakers are utilized to complement class work.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 205 - Introduction to American Politics

Description: An exploration of some of the significant areas and issues of contemporary American government and politics. Among the topics included are the scope of government activity in the United States today, the Constitution of the United States, and the evolution and operation of such political institutions as the Presidency, Congress, the Supreme Court and the political parties.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 206 - State and Local Government

Description: An introduction to the essential principles of American state and local government, with special emphasis on New York State, New York City and its suburbs. Among the specific topics covered are Federal-state relations, state constitutions and government structures, and the key issues of contemporary state, city and county politics. SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 208 - Introduction to Public Policy

Description: An examination of the substantive issues of public policy such as taxation, welfare and poverty, military spending, energy, the environment, federalism, criminal justice, health care, education, and civil liberties. The background to each subject, the evolution of the present day governmental policy, and alternatives to present policy are presented along with evaluations of present policies. While the primary focus is on the national level, the state and local level is examined. A secondary focus is on methods, models, and the legal aspects of the policy making process.

SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 209 - The U.S. Presidency

Description: A comprehensive multidimensional study of the Institution

of the Presidency, its evolution politically, administratively, and legally. The causes, effects, and dilemmas of the growth and power of the executive branch and the tension between an enhanced President and the Congress constitute a key perspective. Presidential politics in its electoral and policy foundation aspects will be highlighted. The President's role in the economy and as a mass media communicator will be explored. SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 210 - The U.S. Congress

Description: The course will describe the legal structure, Constitutional powers, internal work rules and procedures, and the political dynamics of the Congress within the context of the American Federal political scheme. Special emphasis will be placed upon Congressional interactions with the coordinate branches of government as well as with external factors, such as interest groups and public opinion. SUNY GE-SDES, SSBS, SUSC; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 260 - International Relations

Description: Basic themes of the course are the causes of war and the prospects for peace in the modern world. Among the topics covered are the nature of modern warfare and the impact of nuclear weapons, the East-West struggle, the Third World, diplomacy and espionage as instruments of foreign policy, and the search for world order through international law and the United Nations. SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; GOWC; NCC GEN ED-SBS, GLNW

Offered: Summer

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 261 - Modern Political Ideologies

Description: A survey of the major political ideologies of the world today-fascism, communism, socialism and democracy. Selected readings from the works of Marx, Lenin, Stalin, Mao, Hitler, Mussolini, Jefferson and Locke are used to supplement class lectures. The course offers students an understanding of the political ideas that have shaped the 20th century.

SUNY GE-SDES, SSBS, SWHI; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

POL 295 - Independent Study-Political Science

Description: SUNY GEN ED-n/a; NCC GEN ED-SBS. Formerly POL 699. Students who have completed POL 699 will not receive credit for POL 295.

Credit Hours: 3

Department: His/PolSci/Geo/LatinAm Studies

Portuguese

POR

POR 101 - Beginning Portuguese I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Portuguese speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

POR 102 - Beginning Portuguese II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

POR 295 - Independent Study-Portuguese

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly POR 699. Students who have completed POR 699 will not receive credit for POR 295.

Credit Hours: 3

Security Administration

PSA

PSA 111 - Introduction to Security

Description: The historic, philosophical, practical and legal bases of Security. The role of Security and the security individual in modern society, the concept of professionalism, and the relationship to

public law enforcement are reviewed. A survey is made of the personnel, physical and administrative aspects of the Security field. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 121 - Internal Security

Description: Internal theft control, investigation methods including undercover, interrogation, polygraph uses, and internal developments-their causes and consequences-are explored along with major tactics, strategies and techniques used to deter and control internal theft.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 211 - Administration and Control of Private Security Force

Description: The course explores the difference between public and private policing to identify what constitutes Private Security, including the role and functions, the selection of personnel, training of personnel, ethics and conduct of security personnel. The Hallcrest Report, the first comprehensive look at Private Security in more than a decade, is used to examine the resources, contributions and deficiencies of Private Security. The possible relationships with law enforcement agencies and the prospects for forging a partnership to combat crime are reviewed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 224 - Security and the Law

Description: Course focuses on the various legal components applicable to Security personnel. Available sources of authority, powers, and legal restrictions are analyzed in-depth. Probable cause, the single biggest issue affecting false arrest, is thoroughly reviewed. Arrest, search and seizure, detention, interrogation and the use of force are thoroughly discussed. Special emphasis is placed on criminal and civil sanctions that can be invoked against Security personnel who abuse their authority. Ramifications of tort liability will be examined.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 225 - Introduction to Emergency Management

Description: A study of emergency management, this course provides an overview of the Department of Homeland

Security's National Incident Management System (NIMS). This course examines the United States Government Interagency Domestic Terrorism Concept of Operations (CONPLAN). It emphasizes the roles of Federal, State, and Local Agencies working effectively and efficiently together to prepare for, prevent, respond to, and recover from domestic incidents, regardless of cause, size, or complexity.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Criminal Justice

PSA 231 - Arson Investigation Safety Management OSHA (Federal and State)

Description: A study of arson, its prevention, detection, investigation and control.

The course examines occupational and environmental hazards, injuries and diseases, including toxic materials, radiation exposure, pollution and occupational diseases. OSHA, the safety enforcement agency, is reviewed, both at the Federal and state level. Its purpose and effectiveness is thoroughly analyzed. The course emphasizes the need for safety management in both the public sector and the work place. The genesis of workers' compensation law, its effectiveness, and present day status is assessed.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 241 - Research Problems in Security

Prerequisites: At least nine credits of Criminal Justice and/or Private Security Administration.

Description: (Dual listed with CRJ 212). This seminar type course offers the student an opportunity to examine specific issues, conflicts or controversies in one or more of the following discipline areas: law enforcement, loss prevention, courts, and corrections. An interdisciplinary approach is stressed for a broader understanding. Each student is required to complete a research project under the direction of the instructor in the student's chosen area of examination.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Criminal Justice

PSA 295 - Independent Study-Security Administration

Description: Formerly PSA 699. Students who have completed PSA 699 will not receive credit for PSA 295.

Credit Hours: 3

Department: Criminal Justice

Psychology

PSY

PSY 203 - General Psychology I

Description: Designed to familiarize the student with the science of human behavior and mental states; the methods employed by psychologists; the experimental findings and applications of research; and the important contributions from the behaviorist, psychoanalytic, neuroscientific, and cognitive schools of thought. This course includes the study of learning, perception, cognition, intelligence, social influences, psychological disorders, physiological changes and developmental stages.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 204 - General Psychology II: Research and Methods

Prerequisites: PSY 203.

Description: This course focuses on research and scientific inquiry in the field of psychology. The course will cover the logic of scientific inquiry, ethical considerations, common research designs used in psychological research, basic measurement concepts, and hypothesis testing. Students will learn to read and interpret psychological research literature, actively participate in demonstrations and original research, and learn how to present their findings in an APA-style paper.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 206 - Educational Psychology

Prerequisites: PSY 203.

Description: (Dual listed with EDU 206). Students who have taken PSY 206 will not receive credit for EDU 206. This course is intended to provide knowledge and understanding of the major theories and findings of the science of Educational Psychology. The course includes a consideration of such topics as: research methods in educational psychology; the cognitive, personal, social and moral development of students; the impact of student diversity on teaching and learning; the principles and processes of learning;

motivational concerns in education; classroom management; techniques of teaching; and methods of assessing student learning.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 207 - Industrial Psychology

Prerequisites: PSY 203.

Description: An examination of aspects of behavior that relate to work organizations. Areas covered include pertinent general psychological processes such as learning and motivation; individual difference dimensions such as personality, aptitudes, and attitudes; and characteristics of group and organizational environments.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring

Credit Hours: 3

Department: Economics and Finance

PSY 212 - Adolescent Psychology

Prerequisites: PSY 203.

Description: Problems of adolescence as related to childhood and maturity. Physical, emotional, social, intellectual, moral, and religious development; theories of adolescent personality development, the importance of home and community relationships.

Observations required.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 213 - Child Development

Prerequisites: PSY 203.

Description: Development and analysis of infant and child behavior, motor development, emotional development, motivation, language, thinking, work and play. Problems and methods of child study; application of research; effects of heredity and environment on the individual; individual differences and theories of personality development.

Observations required.

SUNY GE-SSBS; SUNY GEN ED-GSBS;

NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 214 - Adult Development

Prerequisites: PSY 203.

Description: This course examines theories and research concerning psychological development in adulthood and old age. Among the topics studied are: theories of adult development, motivation, language, thinking, work and play. Problems and methods of child study; application of research; effects of heredity and environment on the individual; individual differences and theories of personality development. Observations required.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Spring

Credit Hours: 3

Department: Economics and Finance

PSY 215 - Abnormal Psychology

Prerequisites: PSY 203.

Description: An introduction to the scientific study of psychological disorders. Considers the historical approaches, current theoretical models, and assessment of behavioral abnormality. A wide range of psychological disorders is considered with a focus on symptoms, theories of causation, and approaches to treatment.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 216 - Lifespan Human Development

Prerequisites: PSY 203.

Description: This course will examine major theories and findings on human development. Development is viewed across the life span from prenatal development through advanced old age. The course integrates theoretical perspectives and serves as a foundation for careers in the behavioral sciences, health, and human services.

SUNY GE-SSBS; SUNY GEN ED-n/a; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 219 - Psychology of Art

Prerequisites: PSY 203.

Description: Issues, theories, and methodology in the psychology of visual art. Theories of creativity and profile of the creative individual and thought process. Motivation to view art, pictorial perception, visual preference, sensitivity to style, and aesthetic judgment. Developmental trends in normal, autistic, gifted children's drawings, chimp art and pathological art.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Spring

Credit Hours: 3

Department: Economics and Finance

PSY 220 - Brain and Behavior

Prerequisites: PSY 203.

Description: A course examining the structure and functioning of the nervous system on all levels, from the microanatomy and physiology of the neuron to a general description of the cerebral processes which underlie all behavior. Emphasis is placed on a general understanding of the organization of the brain and how this organization relates to both simple and complex behaviors.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 235 - Psychology of the Exceptional Child

Prerequisites: PSY 203 and PSY 212 or PSY 213.

Description: Students who have taken EDU 235 will not receive credit for PSY 235. This course examines the psychological, learning and behavioral characteristics of each category of exceptionality. Students will be introduced to special education laws and their implications for identification, delivery systems, transition plans, and placement procedures. Field experience in a special education setting is required.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 240 - Psychology of Human Adjustment

Prerequisites: PSY 203.

Description: The personality development of the individual, personal awareness and personal growth, adaptive and maladaptive modes of adjustment to social and psychological stresses, including a survey of major issues of current concern and a discussion of the community resources available to the individual with emotional difficulties.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Credit Hours: 3

Department: Economics and Finance

PSY 241 - Social Psychology

Prerequisites: PSY 203.

Description: The behavioral characteristics of individuals, of small and of large groups: their interrelationships, methods of measuring and assessing interactions between the individual and his environment. Motives, attitudes and opinion, social norms and roles, individual personality, group structures and processes, leadership and communication.

SUNY GE-SSBS; SUNY GEN ED-GSBS;
NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 242 - The Psychology of People of African Descent

Description: Prerequisite: PSY 203 with a minimum grade of C

The course provides a comprehensive of the social psychological development and function of African descent people (e.g. African American, Afro-Caribbean, Afro-Latino) with and emphasis on the emergence of patterns, thoughts, feelings and behavior shape by the complex social-cultural landscape in the United States. Particular attention will be given to the protective role of neighborhoods, churches and other environments in fostering healthy developments, including positive identity interconnected cultural beliefs, prosocial behaviors, and elaborate familial and extended supportive networks. Social and cultural variables.(e.g., racial socialization) and historical context that have contributed to the resiliency, adaptability and healthy functioning of people of African descent will also be discussed.

SUNY GE-SDES, SSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 243 - Cross-Cultural Psychology

Description: Prerequisite: PSY 203

Culture shapes human cognition in a multitude of ways. Through the lens of psychological science, we explore how "intangible" forces of our cultural environment (e.g., gender, race, ethnicity, socioeconomics, etc.) influence our self-concept as well as what, when, why, and how we think, perceive and behave. Students will discover the interplay in how culture shapes the brain and how the brain changes culture. Cross-culture differences and multicultural issues are discussed, incorporating empirical research to explore the experiences of living in a diverse and global society. SUNY GE-SDES, SSBS; SUNY GEN ED; NCC GEN ED-SBS, PLDI

Offered: Fall, Spring, Summer, Winter

Credit Hours: 3

Department: Economics and Finance

PSY 244 - Forensic Psychology

Prerequisites: PSY 203.

Description: This is an introductory course to the field of forensic psychology which focuses on the application and practice of psychology as it pertains to the legal system. The course examines both the practice of clinical psychology, and the application of psychological sciences (e.g., cognition, social, developmental), in areas such as, but not limited to, forensic assessment and expert testimony in civil and criminal proceedings, understanding and treatment of violent behavior and criminal offenders, and similarities and differences between assessment of adult and juvenile offenders. The course will examine these topics and others through readings and discussions of scientific literature, the text, and landmark legal cases relevant to psychology.

NCC GEN ED-SBS

Offered: Fall, Winter, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

PSY 294 - Cooperative Education Internship

Prerequisites: PSY 203 and permission of the Instructor and/or Chairperson and approval by the agency offering the internship.

Description: Supervised placement of the student in professional Psychological and Psychology-related settings to enable the student to gain insight into the Psychology field as well as interactive and practical work experience to enhance the formal academic concepts received in the classroom. Students are required to attend five on-campus seminars. Formerly PSY 490. Students who have completed PSY 490 will not receive credit for PSY 294.

SUNY GEN ED-n/a; NCC GEN ED-SBS

Credit Hours: 4

Department: Economics and Finance

PSY 295 - Independent Study-Psychology

Description: SUNY GEN ED-n/a; NCC GEN ED-SBS. Formerly PSY 699. Students who completed PSY 699 will not receive credit for PSY 295.

Credit Hours: 3

Department: Economics and Finance

Critical Reading & Academic Advisement

RDG

RDG 000 - RDG 000 Academic Reading for Beginner ESL Students (ESL RDG Beginner)

Prerequisites: Placement into course.

Description: RDG 000 is for English language learners at a beginner level whose goal is to be successful in credit-bearing courses at NCC. This course is for non-native English speakers to develop academic reading skills at a beginner level. Students will focus on developing comprehension, vocabulary, and critical thinking skills. Proficiency in these skills will prepare the student for entrance into RDG 010. (3hrs lecture) Entrance exams are required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 001 - Individualized Reading and Study Improvement

Prerequisites: Satisfactory completion of BEP 090, if required.

Description: A required course for students who demonstrate a strong need for developmental Reading coursework according to the College Placement Test. Instruction will include recognition of main ideas and details, critical reading skills, and vocabulary strategies. Students will develop techniques for annotating, outlining, mapping and summarizing a variety of genres of text. Students learn to build upon their strengths as readers as well as to address their individual study needs through ongoing assessments. Reading laboratory is required weekly for guided, individualized exploration of text. (3 lecture hours, 1 laboratory hour) Students assigned to this course must pass it before proceeding to ENG 101.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 002 - Reading and Studying College Texts

Prerequisites: Satisfactory completion of BEP 090 or RDG 001, if required.

Description: A required course for students who demonstrate the need for support in developing the strategies and techniques required to meet the demands of college reading across the disciplines. Instruction will include the application of more advanced reading strategies using content reading from college texts. All strategies will foster the reading/responding connection. The techniques students learn and practice through this course will be applied directly to academic course work. Supplemental support and practice in reading and studying strategies will be available in a Reading Help Center.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 003 - Individualized Reading and Reading/Studying College Texts

Description: Prerequisite: Placement into no more than two remedial courses, one of which is RDG 001, or those students who have passed BEP RDG 090 and exhibit strong mastery of concepts and behaviors integral to that course; eligibility for outgoing BEP students is determined by Department only. This course, which is non-credit, is a one-semester option to replace the two-semester sequence of RDG 001 and RDG 002.

Instruction will incorporate pre-reading and active reading strategies including brainstorming, previewing, annotating, outlining, summarizing, paraphrasing, determining main ideas as well as major and minor details, improving general and discipline-specific vocabulary, inferencing, synthesizing information and ideas, and adapting critical reading strategies to a variety of college texts. Students will be encouraged to read, analyze, evaluate and respond to academic text both orally and in writing. Emphasis will be placed on researching, reading and responding to information gleaned from online and print sources. Supplemental practice in reading and study strategies will be available in a Reading Help Center. This course cannot be repeated. Students assigned to this course must pass it in order to proceed to ENG 101.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 0

Department: English

RDG 010 - RDG 010 Academic Reading for Low Intermediate ESL students

Prerequisites: Successful completion of ENG 000 or placement into the course.

Description: RDG 010 is for English language learners at a low intermediate level whose goal

is to be successful in credit-bearing courses at NCC. This course is for non-native English speakers to develop academic reading skills at an intermediate level. Students will focus on developing comprehension, vocabulary, and critical thinking skills. Proficiency in these skills will prepare the student for entrance into RDG 020. (3hrs lecture) Entrance exams are required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 020 - RDG020 - Academic Reading for Intermediate ESL Students

Prerequisites: Successful completion of ENG 010 or placement into the course.

Description: RDG 020 is for English language learners at a low intermediate level whose goal is to be successful in credit-bearing courses at NCC. This course is for non-native English speakers to develop academic reading skills at an intermediate level. Students will focus on developing comprehension, vocabulary, and critical thinking skills. Proficiency in these skills will prepare the student for entrance into RDG 030. (3hrs lecture) Entrance exams are required.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 030 - Rdg ESL 3 - Reading and Study for the Foreign Student

Prerequisites: Completion of ELI (English Language Institute) or placement by department.

Description: This is a required course for students who speak English as a second language and who demonstrate a need to develop mastery of college-level reading and study skills. Emphasis will be in the areas of inferential and critical reading, textbook study strategies, library research, vocabulary enrichment and the development of reading fluency. Students are required to attend a supervised reading laboratory session weekly for individualized supplemental instruction. Completion of RDG 030 will enable students to take a credited reading class. (3 lecture hours, 1 laboratory hour).

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 0

Department: English

RDG 101 - Effective College Reading

Prerequisites: Satisfaction of all non-credit Reading requirements.

Description: This is an advanced Reading course focusing on the critical reading of expository and narrative text from a variety of print and digital sources. Students will develop critical reading strategies to be used in the context of reading about issues facing them as members of society and as candidates for further study or for the world of work. There will be an emphasis on information literacy and on writing, in response to reading.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

RDG 102 - Speed Reading

Prerequisites: RDG 101 placement.

Description: This is a concentrated course designed to present the theories of speed reading and to provide students with extensive practice in developing a greater range in their efficient reading rate. Ability to adjust one's reading skills, especially rate and meaning making, to the genre and sophistication of the text under exploration are the main concern.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: English

RDG 103 - Reading the New Media

Prerequisites: Satisfaction of all non-credit Reading requirements.

Description: This course invites students to apply the tools of critical reading to the new media. Using advanced literacy and comprehension skills, students will analyze, interpret, assess and synthesize information pertaining to news, contemporary issues, the arts and entertainment coming to them from a variety of on-line and textual sources, including, but not limited to, blogs, on-line newspapers and magazines, wikis, social networking and video sharing sites.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: English

RDG 104 - News on the Net

Prerequisites: Satisfaction of all non-credit Reading requirements

Description: This course is designed to teach students to become more discriminating news consumers as we are flooded by information and disinformation through the digital technology. The course helps students apply critical reading skills in the identification of propaganda, bias, fairness, assertion,

verification, evidence and implication in the presentation of news. The ramifications of culture, business and government on news delivery and reception by the public will be studied.

SUNY GE-SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: English

Retail Business Management

RET

RET 107 - Principles of Retailing

Description: A survey of the retail industry.

The economic importance and structure of retail organizations are studied for their function and interrelationships, operations and human resources.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Summer

Credit Hours: 3

Department: Marketing & Retailing

RET 109 - Visual Merchandising

Description: Visual merchandising of retailing goods; effective window and interior display; appropriate equipment and materials; color, lighting, and general arrangements. A hands-on and digital approach is utilized whereby students design and construct exterior and interior displays. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 111 - Retail Merchandising

Description: This course covers the fundamentals of merchandising, markup and markdown, stock turnover, stock-sales ratio, retail method of inventory, open-to-buy, unit stock control, the merchandise plan, merchandising and the computer.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 115 - Textiles

Description: Identification of fibers and fabrics, and analysis of construction of cloth to determine strength, durability and usefulness are included in this course. Methods and effects of finishing cloth. In addition, laws relating to the labeling and advertising of textiles and textile products are discussed. Geared to the needs of students who plan

careers in apparel design, interior design, retailing, fashion marketing, and consumerism. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 119 - Retail Buying

Description: The buying function in department stores, specialty stores, discount chain stores, independent stores and non-store retail formats will be studied. The buying activity and how it is affected by store organization, merchandise offered and store's dollar volume are examined in order to forecast and satisfy consumer needs. The buyer's role in merchandise planning and control, sourcing domestic and foreign supply chains are also explored in order to understand channels of distribution in relationship to retail image.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 127 - Foreign Buying

Prerequisites: Completion of all remedial courses needed prior to application, a minimum of 2.5 grade point average and completion of 15 or more credits. Permission of instructor required.

Description: This course provides qualified students an opportunity to learn selected methods and techniques involved in foreign buying. Independent research, a buying plan, and visits to major international cities are included. Special expenses for students' airfare, food, lodging, taxes, transfers, etc.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 135 - Contemporary Retailing

Description: This course provides students of retail business management with an analysis of the manager's function from the perspective of the first line operations manager. Lecture, case analysis using specific research techniques and field trips as appropriate, will be utilized to develop insight and problem solving skills for today's retail manager. Field trips to retail stores will concentrate on human resource and merchandising functions, customer service techniques and financial control. Additional transportation expenses may be required. SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 142 - Field Training

Prerequisites: Permission of Department Chairperson and/or Course Instructor.

Description: Students work for appropriate retail business firms to enrich the theoretical concepts previously developed in the classroom.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Marketing & Retailing

RET 295 - Independent Study-Retailing

Description: Formerly 699. Students who have completed RET 699 will not receive credit for RET 295.

Credit Hours: 3

Department: Marketing & Retailing

Russian

RUS

RUS 101 - Beginning Russian I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Russian speaking background. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Fall, Spring

Credit Hours: 3

Department: Foreign Languages

RUS 102 - Beginning Russian II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Fall, Spring

Credit Hours: 3

Department: Foreign Languages

RUS 201 - Intermediate Russian I

Description: Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

RUS 202 - Intermediate Russian II

Description: Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, GLNW

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

RUS 295 - Independent Study-Russian

Description: SUNY GE-SHUM, SWOL; SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly RUS 699. Students who have completed RUS 699 will not receive credit for RUS 295.

Credit Hours: 3

Department: Foreign Languages

Physical Sciences

SCI

SCI 101 - Exploring Basic Concepts in Science

Description: This is an introductory course designed to involve the non-science oriented student in an investigation of some of the basic concepts and processes of science. There will be an introduction to measurement and information gathering techniques used by scientists, along with an examination of basic principles of phenomena such as motion, gravity, energy, and heat. Laboratory experiments will enable the students to investigate scientific principles as they apply to the world. (3 lecture, 3 laboratory hours)

Laboratory fee applies. SUNY GE-SSCI; SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

SCI 102 - Material Science

Description: The course is designed to continue the investigation of physical science principles with a focus on chemical aspects. Such topics as electricity, atomic structure, chemical nature and behavior, ionization, reactions, and compound formation will highlight the study. Laboratory experiments will enable the students to investigate scientific principles as they apply to the world. (3 lecture, 3 laboratory hours) Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

SCI 103 - Physical Geology

Description: This course presents principles of the study of the earth outlining how the science began in the late 1700s from natural curiosity progressing to our present knowledge of the earth as a dynamic entity. Students will study its surface features and processes and then can appreciate how patterns observed have allowed for interpretations of what is going on within the interior. Such aspects include but are not limited to earthquakes, volcanism, origin and deformation of mountain belts and ocean basins, the work of running water, glaciers and wind. In lab, students are provided a hands-on approach to the study of minerals, igneous, sedimentary and metamorphic rocks and will learn how to use a topographic map. A one-day field trip may be offered to illustrate and reinforce the concepts introduced. (3 lecture, 3 laboratory hours) Lab fee applies. Special sections of Physical Geology may be offered which cover most of the topics above but which present the popular field of gemology, allowing the students to work with professional instruments to identify a large suite of gems, both natural and synthetic. Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 104 - Historical Geology

Description: This is a problem-oriented approach to the study of the geologic history of the planet earth. Laboratory methods are emphasized in conjunction with the fundamental tools of geology. The origins and evolution of the continents and ocean basins are examined both from a classical perspective, and through the utilization of the theories of continental drift and plate tectonics. The histories of select areas will be examined with an emphasis placed on the techniques used in the interpretation of the ancient environments in which the rock record was formed. A one-day field trip may be offered to illustrate and reinforce the concepts introduced. (3 lecture, 3 laboratory hours) Laboratory fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Physical Sciences

SCI 105 - Solar System Astronomy

Description: The historical development of the physical laws and theories basic to the study of the solar system is studied. Physical characteristics of the earth, moon, planets and sun are discussed including findings of unmanned planetary exploration. Students are required to attend at least two evening

observation sessions during the semester.

Students gain a working knowledge of the operation of a telescope. (3 lecture, 3 laboratory hours) Lab fee applies. Note: A special Hybrid section of Solar System Astronomy may be offered each semester.

This distance-learning course uses the internet, computers and other electronic media to complete the course assignments. Therefore, students must have access to a computer.

Students will occasionally meet with the instructor on campus to perform laboratory experiments and take exams. Lab fee applies. SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 106 - Stellar and Galactic Astronomy

Description: The student is introduced to the historical development of theories basic to understanding the concepts of the universe beyond the solar system and studies the evolution of stars and galaxies in terms of observations. Included are discussions of quasars, pulsars, black holes and the Big Bang Theory. Students are required to attend at least two evening observation sessions during the semester. (3 lecture, 3 laboratory hours) Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 107 - Meteorology

Description: To understand the daily and seasonal weather, students will be introduced to basic weather elements such as temperature, pressure, and humidity. Real-time weather maps from the Internet are often used in class to enhance the study of particular topics. After a good foundation in the basic principles of meteorology, various atmospheric phenomena will be discussed, including the formation of rainbows, thunderstorms, lightning, tornadoes and hurricanes. Many of these phenomena are illustrated on videotape. Laboratory exercises include the study of weather instruments, analysis of surface and upper air maps, analysis of soundings on Skew-T diagrams, and weather forecasting. A special section of meteorology may be offered each semester as a hybrid online course. This distance-learning course uses real-time weather data to study the principles of meteorology. Students must have access to a computer and the internet in order to download or print the weekly lessons. Communication between the instructor and student is through the course website. Students will occasionally meet with the instructor

on campus to do laboratory experiments that require equipment and to take exams. Formerly SCI 107. Students who have completed SCI 107 will not receive credit for MET 101. (3 lecture, 3 laboratory hours) Lab fee applies. SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 108 - Climatology

Description: Meteorological elements such as temperature, precipitation, pressure, and wind will be studied to provide an understanding of the different climates around the world. Students will learn how climate can influence agriculture, clothing, housing, and transportation in different parts of the world. The interdisciplinary nature of this course is evident in the study of how scientists have used biology, meteorology, geology, astronomy, physics, chemistry, oceanography and computer modeling to determine the climates of the past and predict the climates of the future. The study of climate change will include astronomical theories, the ocean conveyor belt, ozone depletion, global warming and El Nino and La Nina. (3 lecture, 3 laboratory hours) Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-GLNW, LSCI.

Offered: Fall, Spring

Credit Hours: 4

Department: Physical Sciences

SCI 109 - Environmental Science

Description: Some Saturday field trips may be required of evening students. This course offers an introduction to the basic principles of ecology, population and food production problems. The course also examines the basic principles concerning air and water pollution. Laboratory exercises are designed to measure the local air and water quality. The modes of detection and prevention of environmental pollution will be investigated and discussed. Field trips and laboratory exercises are a required part of the course. Students must provide their own transportation to and from the field trip sites. (3 lecture, 3 laboratory hours) Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 110 - Environmental Resources

Prerequisites: SCI 109 is recommended but not required.

Description: The course involves the investigation of current problems in our

environment. The areas which will be discussed will be the problems of solid waste and various methods of its disposal; the effects of pollutants from present and future energy sources; noise pollution and the effects of radiation on people and the environment. Field trips and laboratory exercises are a required part of the course. Students must provide their own transportation to and from the field trip sites. (3 lecture, 3 laboratory hours) Lab fee applies.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Physical Sciences

SCI 115 - Beaches and Coasts

Description: This course introduces the study of beach and coastal processes and environments. It examines coastal morphology such as barrier islands, spits, dunes and marshes and introduces the effects of plate tectonics, glaciers, and rivers on beaches and coasts. It also examines tidal currents, wave action, longshore currents and transport, and estuarine circulation. Human activities and the effects of man-made (anthropogenic) structures will also be emphasized. Students will also study the various methods used for study of coastal environments. Field trip(s) required.

SUNY GEN ED-n/a; NCC GEN ED-ASC, NSCI

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Physical Sciences

SCI 116 - The Universe

Description: This course introduces the study of the Universe through cosmology. It examines theories of the history of the universe, the nature of dark matter and dark energy, and the origin of elementary particles and ordinary matter on the large-scale structure. Emphasis will be placed on space and time as basic concepts in physical science and how modern measurements and discoveries allow us to determine the size, age, and future fate of the universe. Other topics include theories of parallel universes and time travel.

SUNY GEN ED-n/a; NCC GEN ED-ASC, NSCI

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Physical Sciences

SCI 119 - Oceanology

Description: (Dual listed with BIO 119). This is a three-credit course and does not fulfill the laboratory science requirement needed for graduation. There will be no waivers issued

under any circumstances. One field laboratory during the term. The course is designed as an overview of the structure, origin, and evolution of the world's oceans. Investigations will include analysis of abiotic factors such as sediments, coastlines, water properties, and movement. Students will take a close look at general water circulation, tides, currents, waves, and the effects of weather and climate. Further investigations will focus on biotic factors such as marine organisms, food chains, resources, and man's relationship to the sea. (3 lecture hours)

SUNY GEN ED-GLAB; NCC GEN ED-NSCI.

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Physical Sciences

SCI 120 - Environmental Issues of Metropolitan New York

Prerequisites: Permission of Instructor.

Description: This is a limited enrollment course that runs during select intersessions for a period of 10 days. Special fees for transportation are required. This course is an intensive investigation of the current environmental problems facing society using the greater metropolitan area of New York as the focal point. Students will receive firsthand experience with current environmental problems through field trip observations and surveys. Problems dealing with the physical treatment of oil spills, the scientific formulation of environmental impact statements, and the effects of heavy industry on air quality will be some of the issues under consideration. The field trips and laboratory activities will be designed to reinforce the topics discussed during lecture.

SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: May Special

Credit Hours: 4

Department: Physical Sciences

SCI 141 - Metascience

Prerequisites: Student must be either currently enrolled in and/or have taken and passed ENG 100 or ENG 101.

Description: This course presents a study of enigmatic phenomena, both historic and contemporary, which have aroused popular interest and which present a paradox to modern science. Topics covered in the course are extraterrestrial intelligence, ancient "super cultures" (including Atlantis), the Bermuda Triangle phenomenon, the U.F.O. phenomenon, psychic phenomena (including "spirits" vs. "ghosts") and cryptozoological phenomena (from Loch Ness to Bigfoot). Emphasis is placed upon the critical evaluation

of available data (written articles and videotapes) using the scientific method. SUNY GE-SSCI; SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 3

Department: Math/Computer Science/Info Tec

SCI 150 - Environmental Mapping GPS/ GIS

Description: This beginning level course is designed to introduce non-science as well as science oriented students, to the latest concepts and technologies in mapping science. The course covers the theories and concepts of Global Positioning Systems (GPS) and Geographic Information Systems (GIS). Students acquire a fundamental hands-on understanding of the technologies and systems used in the GIS field. The course will include problem solving activities through laboratory and field work. Off-campus field trips are required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-LSCI

Offered: Fall, Winterim, Spring

Credit Hours: 4

Department: Physical Sciences

SCI 200 - Experimental Research Methods

Prerequisites: Completion of all English, reading, math remediation courses and a Natural or Physical Science sequence: AHS131 and AHS132 or, BIO109 and BIO110 or, CHE151 and CHE152 or, PHY101 and PHY102 or, PHY151 and PHY 152.

Description: (Dual listed with BIO 200) This course introduces processes involved in completing the scientific method during experimentation and presentation of related research findings. Students will review theories and facts using prior works and identify literature which leads to further questioning and modification of original ideas. Students will explore the fundamentals of planning research experimentation including time management, theoretical frameworks, and logic of inquiry. Students will learn scientific thinking and writing skills necessary to communicate research findings. The course will also examine effective measures for presenting learned information (either via literature review or experimentation) including abstract writing, verbal presentations and written representations of works as a publishable work, thesis, or dissertation. It will also examine safety guidelines and ethical standards. Laboratory work will include explorations into the scientific method, experimental design and data collection. With an emphasis on applied learning, students will conduct research in the area of their choosing.

NCC GEN ED-LSCI.

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: Math/Computer Science/Info Tec

SCI 203 - Field Laboratory Geology

Description: This is a limited enrollment course that runs during select intersessions for a period of 10 days. Special fees for transportation are required. This is an activity-oriented approach to the study of some of the regionally accessible geologic features: their processes, history and beauty. The participants in this course will be introduced to a varied curriculum of the regional physical, historical, economic and environmental geologic phenomena. A brief sampling of some topics open to investigation are: post glacial features, coastal barrier beach problems/dynamics, the identification of major rock outcrop features, mining operations, and mineral and fossil collecting. Laboratory and field equipment will be used for the gathering of specimens and data to help develop an understanding of the gross geologic aspects of a particular location. A portion of the time needed to accomplish these goals will be spent as preparation and review on campus in the laboratory/lecture room. Field sites will be reached primarily through the use of chartered transportation. SUNY GEN ED-GLAB; NCC GEN ED-LSCI.

Offered: May Special

Credit Hours: 4

Department: Physical Sciences

SCI 209 - Fundamentals of Environmental Safety and Health

Description: This course is designed for anyone interested in understanding what constitutes a safe and healthy environment. The course first discusses the methodologies that enable one to understand why and how exposure to various hazards, to which persons may be exposed to at home, outside and in the work environment, are dangerous. Along with a general understanding of the hazards, the course presents basic concepts and methods used to recognize, evaluate, control and mitigate these hazards. Some of the hazards that will be explored are food safety, herbicides, radiation, indoor/outdoor air pollution (including carbon monoxide and cleaning products), noise pollution, transportation, water quality, pesticides, dangers facing children along with both solid and hazardous waste. The concept of sustainability is introduced and becomes a central theme is discussing the mitigation of various hazards. Some of the regulations promulgated by authorities will be considered including how one can use MSDS (Safety Data Sheets) documentation to learn about

the dangers presented by various materials we use in everyday life. Some of the basic course concepts as well as the fundamental skills of critical thinking and problem solving will be taught using active learning exercises. Additionally the course provides students with an opportunity to research topics of special interest to them.

SUNY GEN ED-n/a; NCC GEN ED-ASC, NSCI.

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Physical Sciences

SCI 295 - Independent Study-Science

Description: SUNY GEN ED-n/a; NCC GEN ED-ASC, LSCI

. Formerly 699. Students who have completed SCI 699 will not receive credit for SCI 295.

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Sociology

SOC

SOC 201 - Introduction to Sociology

Description: Major theories, methodology and research findings of Sociology. The nature, organization and development of modern society. Sociological examination of varied forms of group life, including small groups, families, bureaucracies, formal organizations, social classes and ethnic groups. Analysis of social process and social change.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 202 - American Society

Prerequisites: SOC 201 or ANT 203.

Description: American society and its peoples: their class, ethnic and racial characteristics, their attitudes and behavior patterns. Exploration of family, educational, industrial, political and recreational institutions in American communities. Analysis of the effects of urbanization, industrialization and bureaucratization of American life.

SUNY GEN ED-GSBS; NCC GEN ED-SBS, PLDI

Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

SOC 207 - Sociology of Religion

Prerequisites: SOC 201 or ANT 203.

Description: The relationship between religion and society. Religion and social class. Religious groups as minority groups. Religious prejudice and discrimination. Contemporary American religious movements. Religion and social change.

SUNY GEN ED-GSBS; NCC GEN ED-SBS, PLDI

Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

SOC 209 - Race, Class, Ethnicity

Description: This course explores racial, ethnic, and class diversity, identity, and inequality. It examines social relations between and among racial and ethnic groups in the United States, and relevant comparisons to other western and non-western societies. It examines the role of discrimination, prejudice, and stereotyping in intergroup relations. Also, it investigates how class privileges and disadvantages shape patterns of social mobility. The course pays particular attention to immigration to the United States and its effects on American society, in light of current research and theory.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 210 - Criminology

Prerequisites: SOC 201 or ANT 203.

Description: The nature, significance and causes of crime: statistics of crime and delinquency; historical development of criminological theory; modern explanations of crime, criminal laws and courts; police and prisons.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 211 - Independent Study-Sociology

Description: Develop an understanding of race, class, and gender differences in American society and comparative materials on other societies. Sociological explanations of inequalities and interrelationships between race, class and gender. Sociological analysis of stereotyping, prejudice, and discrimination; class, privilege, and disadvantage. Class, ethnic and racial cultures, intergroup conflict and reduction of intergroup tensions.

Credit Hours: 3

Department: Sociology/Anthropology/SociWrk

SOC 212 - Social Problems

Description: Application of sociological principles to problems of social disorganization and deviant behavior in industrial societies. Analysis of such problems as family disorganization, race conflict, poverty, mental illness, suicide, aging, crime and delinquency, drug and alcohol addiction, overpopulation and the ecological crisis. SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 214 - African American Culture

Description: (Dual listed with AFR 185). A comprehensive survey of the various aspects of the lives, life-styles, values, art forms and social impact of the African American. The course includes varying lifestyles at different socioeconomic levels; speech patterns; the role of the church as a religious, historical, political and recreational institution; African American cultural patterns; and the influence of Africa. SUNY GE-SART; SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 215 - Social Change

Prerequisites: SOC 201 or ANT 203 or permission of Instructor.

Description: This course analyzes social change and its impact in western and non-western societies. Focusing on classical and contemporary sociological theories, topics addressed include: the effects of changes in technology, population, the environment and economy; organized movements for social change and social justice. SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

SOC 216 - Aging, Society and Culture

Prerequisites: SOC 201 or ANT 203.

Description: Students will explore the diverse aspects of aging through field research and a survey of the literature. Topics will include theories on aging, cross-cultural material, family and kinship relations, friendship patterns, voluntary associations, political participation, and financial, health, legal and other social problems. Career opportunities in gerontology will be explored. SUNY GEN ED-GSBS; NCC GEN ED-SBS, PLDI

Offered: On Occasion

Credit Hours: 3

Department: Economics and Finance

SOC 219 - The African American Family

Prerequisites: SOC 201 or ANT 203 or permission of Instructor.

Description: (Dual listed with AFR 186). Sociological approaches to the African American family. Topics include interactions with public and social institutions, male/female relationships, state of the extended family, identity as a socialization agent, courtship, sex patterns and roles, health and economic issues, alternative life styles, the Black male as an "endangered species", and the effects of public policy on the Black family. SUNY GEN ED-GSBS; NCC GEN ED-PLDI, SBS

Offered: Fall, Spring

Credit Hours: 3

Department: Economics and Finance

SOC 220 - Sociology of the Family

Description: The family as a social institution and the roles of men, women and children in different societies. Types of families; how they develop and change. The social characteristics of the American family, its relation to the economy, government, religion and law. Problems of the family in modern industrial societies; conflict, divorce, mobility and mental illness.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Economics and Finance

SOC 222 - Sociology of Gender

Prerequisites: SOC 201 or ANT 203.

Description: This course introduces students to sociological perspectives on gender and sexuality. It focuses on the social construction of gender and sexuality in the American and European contexts, from interaction and socialization to inequality and social movements. Topics include power and inequality, gender diversity (including transgenderism), sexuality and heterosexism, representations of women and men in the mass media, and gender and social change.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: Economics and Finance

SOC 225 - Sociology of Health Care

Prerequisites: SOC 201 or ANT 203 or permission of Instructor.

Description: Health and illness in American society and in cross-cultural perspective. Hospitals as organizations with complex staffs, needs and goals. Community and hospital in interaction. Health care delivery in a changing society.

SUNY GE-SDES, SSBS; SUNY GEN ED-GSBS; NCC GEN ED-SBS

Offered: Fall

Credit Hours: 3

Department: Economics and Finance

SOC 295 - Independent Study-Sociology

Description: SUNY GEN ED-n/a; NCC GEN ED-SBS. Formerly 699. Students who have completed SOC 699 will not receive credit for SOC 295.

Credit Hours: 3

Department: Economics and Finance

Spanish

SPA

SPA 101 - Beginning Spanish I

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension and simple conversational patterns. This course is not intended for students of Spanish speaking background. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

SPA 102 - Beginning Spanish II

Description: Fundamentals of grammar, pronunciation, culture and conversation. Reading, writing, listening comprehension, and simple conversational patterns. Laboratory fee applies. Laboratory component required. SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

SPA 110 - Spanish for Hotel Restaurant Technology

Description: Fundamentals of specifically focused grammar geared for the acquisition of a limited but working knowledge of Spanish as needed and found in the hotel restaurant environment. Emphasis on aural comprehension and oral proficiency determined by various task-oriented exercises

involving pair and group work. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

SPA 121 - Spanish for Law Enforcement

Description: A conversational course for students in law enforcement areas who wish to communicate effectively with Spanish-speaking people. Presentation and practice of basic vocabulary appropriate for use in typical law enforcement situations. Emphasis on oral proficiency and listening comprehension. Laboratory fee applies. Laboratory component required.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

SPA 151 - Practical Spanish for Medical Personnel I

Description: This is the first course in the SPA 151 - SPA 152 sequence. A course for students in medical areas who wish to communicate effectively with Spanish-speaking people. It includes a systematic presentation of health-related terminology, and practice in using culturally appropriate Spanish in typical medical and hospital situations. Laboratory fee applies. Laboratory component required. Students who took SPA 251 will not receive credit for SPA 151.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Foreign Languages

SPA 152 - Practical Spanish for Medical Personnel II

Description: This is the second course in the SPA 151 - SPA 152 sequence. A course for students in medical areas who wish to communicate effectively with Spanish-speaking people. It includes a systematic presentation of health-related terminology, and practice in using Spanish in typical medical and hospital situations. Laboratory fee applies. Laboratory component required. Students who took SPA 252 will not receive credit for SPA 152.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Foreign Languages

SPA 201 - Intermediate Spanish I

Description: This is the first course in the SPA 201-SPA 202 sequence.

Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

SPA 202 - Intermediate Spanish II

Description: This is the second course in the SPA 201-SPA 202 sequence. Development of listening, speaking, reading and writing skills. Conversation and writing practice stimulated through a wide variety of cultural materials. Laboratory fee applies. Laboratory component required.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Foreign Languages

SPA 205 - Intermediate Spanish for Bilingual Speakers I

Description: This course is part of a non-sequential pair of courses for heritage learners. This course requires a native knowledge of Spanish. These courses offer students who are "native" or bilingual speakers, (who have some knowledge of the spoken language, but who have had little or no formal training) an opportunity to correct and improve effective expression in written and spoken Spanish as well as exposure to the cultural production (literature, film, art) of the Spanish-speaking world.

SUNY GE-SHUM, SWOL; SUNY GEN ED-GFOL; NCC GEN ED-HUM, WESH

Offered: Fall, Spring

Student Personnel Services

SPS

SPS 093 - BEP Seminar

Description: (Dual listed with BEP 093). SPS Seminar is a required course of the Basic Education Program. The seminar focuses on values clarification, identification and

applications of individual learning styles, critical thinking, problem solving, career exploration and understanding College policies. Students will be expected to demonstrate the understanding of these concepts and skills in the other courses of the college preparatory program and in making plans for the next semester of their education.
SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 0

Department: Student Personnel Services

SPS 101 - Career Orientation

Description: This is a transitional introductory career awareness course that assists the individual to learn from self-appraisal activities and career information gathering. Topics to be covered include: understanding one's interests, skills, work values and personality style as well as an investigation of career fields.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winterim, Spring, Summer

Credit Hours: 1

Department: Student Personnel Services

SPS 102 - Career Development and Exploration

Description: The course examines individual behavior in the social contexts of personal, family, work, and group backgrounds. Using extensive career development and psychological theories from a wide range of research, the course assists the individual to determine successful methods of self-assessment and exploration, resulting in the achievement of a broad perspective of the world of work. Social factors such as job market volatility, industry trends and environmental and technological needs are reviewed for successful career exploration and decision making.

SUNY GEN ED-GSBS; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Student Personnel Services

SPS 103 - Academic Success

Prerequisites: Course restricted to students on Academic Warning status, Academic Probation status and students returning after Academic Dismissal.

Description: Academic Success is a course designed to help at-risk students assess and apply the life skills and the academic strategies they need in order to improve their academic performance. Students will explore the factors that contributed to their academic difficulty and learn how to develop a comprehensive plan for academic

success. Topics to be covered include: organizational techniques, effective planning, self-assessment, motivation, and self-management.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Winter, Spring, Summer

Credit Hours: 1

Department: Student Personnel Services

SPS 111 - Understanding Substance Use, Abuse and Addiction

Description: The course will address the nature of chemical dependency, recovery and treatment. Students will have an opportunity to analyze their own assumptions and attitudes toward chemicals and chemically dependent persons and develop an understanding of the biopsychosocial disease model of addiction. The course will also provide students with an understanding of drugs and drug abuse in American culture. The history of various drugs, their effects on society and human behavior will be examined.

SUNY GE-SDES; SUNY GEN ED-GSBS; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Student Personnel Services

SPS 201 - Perspectives on People with Disabilities

Description: The course enables the understanding of the social and personal experiences of people with disabilities. Emphasis is placed on how different cultures view and interact with this population.

SUNY GE-SDES; SUNY GEN ED-GSBS; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Student Personnel Services

SPS 202 - Career Management

Description: This course is intended for students who have already engaged in the career exploration process. Topics to be covered include: self-awareness, world of work and survey of career fields, employer research, employment organizational structures, effective networking, targeted resume and cover letter development, interviewing skills, professional etiquette, experiential learning, motivational theory and development, and self marketing strategies. This is a hands-on learning experience emphasizing the development of lifelong career management skills and tools.

SUNY GEN ED-GSBS; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Student Personnel Services

Studio Recording Technology

SRT

SRT 101 - Music Business I

Corequisites: SRT 103 and SRT 105.

Description: Survey of music business practices and music industry markets. Topics include publishing, copyright, sample clearance, performance licensing and management. Limited to Studio Recording Technology Certificate students.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 102 - Music Business II

Prerequisites: Minimum grade of C in SRT 101.

Corequisites: SRT 104 and SRT 106.

Description: Survey of music business practices focusing on recording contracts and career planning. Limited to Studio Recording Technology Certificate students.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 103 - Music Theory I

Corequisites: SRT 101 and SRT 105.

Description: Survey of music theory practices and applications. Rudiments of music, including notation, rhythm, scales, intervals and triads. Limited to Studio Recording Technology Certificate students. SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 104 - Music Theory II

Prerequisites: Minimum grade of C in SRT 103.

Corequisites: SRT 102 and SRT 106.

Description: Survey of music theory practices and commercial music applications. Specific study of commercial music formats and language. Limited to Studio Recording Technology Certificate students.

SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 105 - Basic Studio Techniques

Corequisites: SRT 101 and SRT 103.

Description: Survey of equipment and procedures in sound recording. Basic electronic and acoustical principles, system signal flow, mixing consoles, equalizers, compressors/limiters and microphone design and application. Limited to Studio Recording Technology students. Classes meet both on campus and at an off campus professional studio. Students must provide their own transportation.

SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring, Summer

Credit Hours: 6

Department: Music

SRT 106 - Advanced Studio Techniques

Prerequisites: Minimum grade of C in SRT 105.

Corequisites: SRT 102 and SRT 104.

Description: Continuation of the study of studio procedures, with emphasis on digital audio workstations (ProTools), virtual instruments, analog/digital signal processors, automated mixing techniques for stereo and surround formats. Limited to Studio Recording Technology students. Classes meet both on campus and at an off campus professional studio. Students must provide their own transportation.

SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring, Summer

Credit Hours: 6

Department: Music

SRT 107 - Studio Internship

Prerequisites: Minimum grade of C in SRT 106.

Description: Field experience internship program where students are placed as apprentice technicians in professional recording studios. Faculty field supervision at off-campus location. Students must provide their own transportation.

SUNY GEN ED-n/a; NCC GEN ED-FAPA

Offered: Fall, Spring, Summer

Credit Hours: 6

Department: Music

SRT 115 - Recording Session Techniques

Description: Students will participate in live music-recording sessions. Each session will focus on a new specific skill set while continuing to rehearse basic setups and procedures. In addition to "hands-on" participation during the studio sessions, the students will be required to mix multi-track audio files from these sessions and

deliver them electronically. Limited to Sound Recording Technology students.
FAPA; NCC GEN ED-HUM
Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 205 - Sound Recording Techniques III

Description: An advanced survey of equipment and procedures in sound recording. Advanced microphone placement, equalization, and compression techniques and application, audio and MIDI editing in a digital audio workstation, plug-in/hardware application, synthesizers and drum machines. Limited to Sound Recording Technology students.

FAPA; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 206 - Sound Recording Techniques IV

Description: Continuation of the study of studio procedures, with emphasis on mixing and mastering techniques and application. Limited to Sound Recording Technology students.

FAPA; HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 207 - Sound Reinforcement

Description: An overview of live sound production including the basic principles of live sound reinforcement, the design and functions of a live-audio system, mixing techniques, and acoustics as they pertain to the live sound environment. Limited to Sound Recording Technology students.

FAPA; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Music

SRT 295 - Independent Study-Studio Recording Technology

Description: SUNY GEN ED-n/a; NCC GEN ED-n/a. Formerly 699. Students who have completed SRT 699 will not receive credit for SRT 295.

Credit Hours: 3

Department: Music

Statistics

STA

STA 110 - Introduction to Statistical Research Design

Prerequisites: MAT 102.

Description: General elective course for Liberal Arts, Business, Social Sciences, Humanities, and Statistics students. Introduces the components of research design and research report writing. Different school research designs are included.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 3

Department: Math/Computer Science/Info Tec

Telecommunications Technology

TCT

TCT 141 - Telecommunications Circuits

Description: This course will train students in the application of Ohm's law, Kirchhoff's laws, analysis of DC and AC passive circuits (including RLC circuits), impedances, power supplies, semiconductors, resonance, and transformers. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TCT 144 - Digital Electronics for Telecommunications I

Prerequisites: MAT by advisement, CMP 103, TCT 141 and ENG 100 or ENG 101.

Description: This course will prepare students in digital electronics with topics related to number systems and codes, logic functions, and Boolean algebra. IC building blocks are used in applications ranging from logic gates to flip-flops, counters, registers, and arithmetic circuits. Algebraic reduction and mapping are used to minimize Boolean expressions and combinational logic circuits. Computer stimulation of digital circuits will be used to verify actual hardware setups. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TCT 151 - Telecommunications I Voice

Description: An introduction to the techniques, principles, and terminology of voice telecommunications will be presented. Public and private telecommunication networks will be examined. Telecommunication equipment, switching and transmission technology will be demonstrated.

The frequency spectrum, modulation schemes and multiplexing techniques will be explored. Lectures, interactive learning, demonstrations will be employed. Laboratory exercises will be required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TCT 252 - Telecommunications II - Data

Prerequisites: TCT 144.

Description: An introduction to the techniques, principles, and terminology of Data Communications will be presented. Public and private networks will be examined. Data communication equipment, multiplexing, and interactive learning demonstrations will be employed. Laboratory exercises will be required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TCT 253 - Telecommunications III - LAS

Description: Prerequisites or Corequisite: TCT 144 and Concurrency Allowed: CRT202 An introduction to the technology and terminology of Local Area Networks (LANs) will be presented. The topologies, transmission media, network interfaces, and the access methods will be examined. Shared resources and interconnecting of LANs will be explored. Lectures, interactive learning and demonstrations will be employed. Laboratory exercises will be required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TCT 254 - Telecommunications IV

Prerequisites: TCT 253.

Description: A survey of current and emerging technologies in telecommunications will be presented. Lectures, interactive learning, demonstrations, and site visits will be employed. Laboratory exercises will be required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Spring

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Theatre

THR

THR 100 - Theatre Appreciation

Prerequisites: Satisfactory completion of remedial reading.

Description: A survey of the aesthetic and technical factors involved in the emergence of written drama as a produced work of theatre art. For students whose curricular emphasis is not theatre. Attendance at theatrical productions required.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-WESH, FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Theatre & Dance

THR 101 - Introduction to Theatre History I

Prerequisites: Satisfactory completion of remedial reading.

Description: An introduction to the arts of the theatre with special emphasis on (1) the evolution and historical development of the play and the physical theatre and (2) the function and interdependence of the various artists and craftsmen in the theatre from primitive times through the Renaissance. Attendance at theatrical productions required. (See THR 201)

SUNY GE-SART, SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-WESH, FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

THR 102 - Introduction to Black Theatre in America

Description: (Dual listed with AFR 190) An introduction to the literature and artists of the contemporary African American theatre. The course includes representative playwrights, actors and technicians as speakers in the class and field trips to theatre productions. Students have the opportunity to work in at least one production per semester, selected from contemporary African American drama which may, whenever possible, be performed in the community.

SUNY GE-SART; SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Theatre & Dance

THR 103 - Acting I

Prerequisites: Satisfactory completion of remedial reading.

Description: Fundamental training of the actor as a theatrical instrument. Physicalization, characterization and interpretation are applied

to improvisations, monologues and scenes. Actor's script analysis, psychological and emotional preparation are emphasized in scene and monologue study.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: Theatre & Dance

THR 104 - Acting II

Prerequisites: Minimum Grade of C in THR 103.

Description: Fundamental training of the actor as a theatrical instrument. Physicalization, characterization and interpretation are applied to improvisations, monologues and scenes. Actor's script analysis, psychological and emotional preparation are emphasized in scene and monologue study.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Theatre & Dance

THR 107 - Stagecraft

Prerequisites: Satisfactory completion of remedial reading.

Description: Introduction to the principles and techniques of technical theatre production, including scene design, construction, stage lighting, and costuming. Practical emphasis will be placed on scenery construction and the use of hand and power tools. Course requirements include an assignment to a theatre production.

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

THR 108 - Technical Production

Prerequisites: Minimum grade of C in THR 107.

Description: Intermediate study of the techniques and principles of stage construction and technical production.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

THR 110 - Movement for Stage I

Prerequisites: for Acting A.A. degree majors only or permission of Chairperson.

Description: Training in movement to prepare the body as a dramatic instrument. Emphasis on flexibility so the actor may

express physically a wide range of attitudes, traits and emotions. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Fall Only

Credit Hours: 1

Department: Theatre & Dance

THR 113 - Summer Theatre Workshop I

Prerequisites: Permission of the Chairperson required.

Description: Intensive training in the production, rehearsal and performance of plays.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Summer

Credit Hours: 3

Department: Theatre & Dance

THR 115 - Production and Performance

Description: This is the first course in the THR 115-THR 116 sequence. Participation in the production, rehearsal and performance of major College theatre productions. Assignments include constructing and painting scenery, hanging lighting instruments, stage management, running crew, etc. Students who are cast in productions (by audition only) are also required to participate in technical production tasks. Open to Theatre and Acting degree students; others by Department permission only.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

THR 116 - Production and Performance

Description: This is the second course in the THR 115-THR 116 sequence. Participation in the production, rehearsal and performance of major College theatre productions. Assignments include constructing and painting scenery, hanging lighting instruments, stage management, running crew, etc. Students who are cast in productions (by audition only) are also required to participate in technical production tasks. Open to Theatre and Acting degree students; others by Department permission only.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

THR 117 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 191). This is the first course in the THR 117-THR 118 sequence. Participation in the production, rehearsal and performance of the African American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM
Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

THR 118 - African American Theatre Ensemble, Rehearsal and Performance

Prerequisites: THR 117.

Description: (Dual listed with AFR 192)

This course is the second half of the THR 117-THR 118 sequence. Participation in the production, rehearsal and performance of the African-American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

THR 119 - Stage Movement and Combat

Description: Prerequisite: for Acting A.A. degree majors only or permission of the Department.

This course introduces actors to the technique of stage combat. Students will be trained in the safe use and execution of unarmed, or sword techniques for the stage. Emphasis on safety, partnering, discipline, and theatrical movement will be applied to create dynamic storytelling. Students can expect to gain the basic physical vocabulary and technique of stage combat.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

THR 120 - Voice for Stage

Prerequisites: for Acting A.A. degree majors only or permission of Chairperson.

Description: Practice in the development of voice for the stage; concentrated practice in developing more effective voice and diction habits for the individual actor. (3 hours)

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

THR 201 - Introduction to Theatre History II

Prerequisites: Satisfactory completion of remedial reading.

Description: A continuation of THR 101 surveying the developments of theatre from the Renaissance through the present. Emphasis on major movements in theatre and drama through representative dramatists, and an outline of contemporary and European theatre practice. Attendance at theatrical productions required. (See THR 101)

SUNY GE-SART, SHUM; SUNY GEN ED-GHUM, GART; NCC GEN ED-FAPA, HUM, WESH

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

THR 202 - Lighting Fundamentals

Prerequisites: Minimum Grade of C in THR 108.

Description: A program of instruction in the principles of theatrical lighting design, consisting of lab sessions, and lectures on equipment, color, optics, and lighting techniques. Students are to make light plots for analysis in class and advanced design problems are discussed.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 3

Department: Theatre & Dance

THR 203 - Design Fundamentals

Prerequisites: Minimum Grade of C in THR 202.

Description: A program of instruction in the theory and practice of scene design, consisting of demonstrations, lectures, and critiques of student work. Students are to make scene sketches, models, and working drawings for assigned projects, and move on to more advanced design problems.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

THR 207 - Acting III

Prerequisites: Minimum Grade of C in THR 104.

Description: This is the first course in the THR 207-THR 208 sequence. Designed especially for the third semester student in acting. Classroom study and coaching with emphasis on advanced monologues and scene study.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Theatre & Dance

THR 208 - Acting IV

Prerequisites: Minimum Grade of C in THR 207.

Description: This is the second course in the THR 207-THR 208 sequence. Designed especially for the fourth semester student in acting. Classroom study and coaching with

emphasis on advanced monologues and scene study.

SUNY GE-SART; SUNY GEN ED-GART; NCC GEN ED-HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Theatre & Dance

THR 215 - Production and Performance

Prerequisites: for Acting A.A. and Technical Theatre A.A. degree students or permission of the Department.

Description: This is the first course in the THR 215-THR 216 sequence. Participation in the production, rehearsal and performance of major college theatre productions.

Assignments include construction and painting scenery, hanging lighting instruments, stage management, running crew, etc. Students who are cast in productions (by audition only) are also required to participate in technical production tasks.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

THR 216 - Production and Performance

Prerequisites: for Acting A.A. and Technical Theatre A.A. degree students or permission of the Department.

Description: This is the second course in the THR 215-THR 216 sequence. Participation in the production, rehearsal and performance of major college theatre productions.

Assignments include construction and painting scenery, hanging lighting instruments, stage management, running crew, etc. Students who are cast in productions (by audition only) are also required to participate in technical production tasks.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

THR 217 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 193).

This is the first course in the THR 217 - THR 218 sequence. Participation in the production, rehearsal and performance of the African-American Theatre Ensemble productions.

SUNY GEN ED-n/a; NCC GEN ED-HUM

Offered: Fall

Credit Hours: 1

Department: Theatre & Dance

THR 218 - African American Theatre Ensemble, Rehearsal and Performance

Description: (Dual listed with AFR 194).

This is the second course in the THR 217 - THR 218 sequence. Participation in the production, rehearsal and performance of the African-American Theatre Ensemble productions.
SUNY GEN ED-n/a; NCC GEN ED-HUM
Offered: Spring

Credit Hours: 1

Department: Theatre & Dance

THR 252 - Shakespeare: Stage/Page

Prerequisites: ENG 102 or ENG 109.

Description: (Dual listed with ENG 252) This interdisciplinary course, team-taught by members of the English and Theatre Departments, offers a performance-oriented view of Shakespeare's plays. Students see recorded performances as well as perform segments of the plays in class. Writing is an integral component of the course. Formerly THR 300. Students who have completed THR 300 will not receive credit for THR 252.
SUNY GEN ED-GHUM; NCC GED-HUM, LIT, WESH

Offered: Spring

Credit Hours: 3

Department: Theatre & Dance

THR 295 - Independent Study-Theatre

Description: SUNY GEN ED-n/a; NCC GEN ED-HUM. Formerly THR 699. Students who have completed THR 699 will not receive credit for THR 295.

Credit Hours: 3

Department: Theatre & Dance

Telecommunications

TNY

TNY 171 - Telecommunications Circuits

Prerequisites: CMP 101, MAT 117.

Description: This course will train students in the application of Ohm's Law, Kirchhoff's laws, Thevenin's and Norton's theorem, and superposition to the analysis of DC and AC passive circuits, including R-L-C circuits, impedances, phase angles, resonance, and transformers. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 173 - Telecommunications Electronics I

Prerequisites: PHY 110, TNY 171.

Corequisites: TNY 181.

Description: This course will train students in the physical principles underlying the analysis and application of electronic circuits as applied to the telecommunications industry. Topics include concepts of amplification; frequency response of one and two stage amplifiers; op-amps; filters; troubleshooting; and analysis by computer simulation. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Lab fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 174 - Telecommunications Digital Electronics I

Description: This course will prepare students in digital electronics with topics related to number systems and codes, logic functions, and Boolean algebra. IC building blocks are used in applications ranging from logic gates to flip-flops, counters, registers, and arithmetic circuits. Algebraic reduction and mapping are used to minimize Boolean expressions and combinational logic circuits. Computer simulation of digital circuits will be used to verify actual hardware setups. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 181 - Telecommunications I -Voice

Prerequisites: TNY 171

Corequisites: TNY 173

Description: An introduction to the techniques, principles, and terminology of Voice telecommunications will be presented. Public and private telecommunication networks will be examined. Telecommunication equipment, switching and transmission technology will be demonstrated. The frequency spectrum, modulation schemes and multiplexing techniques will be explored. Lectures, interactive learning and demonstrations will be employed. Laboratory exercises will be required. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 273 - Telecommunications Electronics II

Prerequisites: TNY 173.

Corequisites: TNY 282.

Description: This course is designed to train students in the analysis and application of advanced electronic circuits as applied to the Telecommunications industry. Topics include gain in decibels, Bode plots, filters, frequency modulation, transmission lines, fiber optics and analysis by computer simulation. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 275 - Telecommunications Digital Electronics II

Description: This course is designed to train students in the organization, architecture, and hardware aspects of digital microcomputer systems. Topics include an introduction to microprocessors, types and characteristics of different chips, motherboards, bus structures, memory, I/O interface devices, disk drives, video displays, and printers. Serial and parallel buses are discussed. Applications include the interfacing of peripherals, data communications between computers, and team project. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 282 - Telecommunications II

Prerequisites: TNY 181 and CRT 202.

Corequisites: TNY 273.

Description: An introduction to the techniques, principles, and terminology of Data Communications will be presented, stressing the basics of Voice over Internet Protocol (VoIP) systems, interactive learning, and demonstrations will be employed. Laboratory exercises will be required. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TNY 283 - Telecommunications III

Prerequisites: TNY 282

Description: An introduction to the technology and terminology of Networks will be presented, including the organization, architecture, setup, hardware and software aspects of networked video delivery systems. Lectures, interactive learning, and demonstrations will be employed. This course

makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

TONY 284 - Telecommunications IV

Prerequisites: TNY 283

Description: A survey of current and emerging technologies in telecommunications will be presented. Lectures, interactive learning, demonstrations, and site visits will be employed. Laboratory exercises will be required. This course makes extensive use of computer simulations and communications both in and out of the classroom; use of a laptop computer is required. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Credit Hours: 4

Department: Math/Computer Science/Info Tec

Women's Studies

UXI

UXI 101 - UX Design I

Description: Students will be introduced to user experience (UX) design, including the key stages of the design process, design ethics, and the methods and tools used in each stage of design. Students will conduct formative research on customers, users, contexts of use, and tasks. Students will gain experience and learn about user research methods to create intermediate design tools. Students will develop and submit a draft proposal for a selected project. Average cost of supplies: \$100. Laboratory fee applies.

SUNY GEN ED-n/a; NCC GEN ED-FAPA, HUM

Offered: Fall, Spring

Credit Hours: 3

Department: Art

Critical Reading and Academic Advancement

WRT

WRT 001 - Foundations of Writing

Prerequisites: NCC Placement Test of Reading 001. This course is designed to help students strengthen their basic writing skills

in preparation for the demands of college-level writing. Students create essays through the process of prewriting, drafting, revising and editing their work with the help of peer and instructor feedback to develop a sense of purpose and audience. Students learn to incorporate ideas gleaned through reading expository text into their essays to strengthen their arguments and develop appropriate techniques for writing in timed and untimed settings. The class meets three times a week and provides an intensive, active educational experience within the framework of classroom and learning center support. Students assigned to this course must pass it before proceeding to ENG 100 or ENG 101. (4 class hours)

Description: Formerly BEP 091. Students who have completed BEP 091 will not receive credit for WRT 001.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring

Credit Hours: 4

Department: English

WRT 020 - WRT 020: ESL College Preparatory Course

Description: WRT 020 is an intensive college writing prep course for English language learners at an intermediate level whose goal is to be successful in credit-bearing courses at NCC. This course prepares students for ENG 030 or higher. It focuses on the development of English grammar, vocabulary, sentence structure and basic composition. Students should also read and analyze extensive passages. By the end of the semester, students are expected to write well-developed essays and improve them through editing strategies. Students will be assessed through numerous measures including written responses to intermediate texts. The primary means of passing WRT 020 with a score of "Satisfactory" is through the successful completion of a timed departmental exit exam (i.e., argumentative essay) in accordance with the ESL English Department rubrics.

SUNY GEN ED-n/a; NCC GEN ED-n/a

Offered: Fall, Spring, Summer

Credit Hours: 4

Department: English

Women's Studies

WST

WST 101 - Introduction to Women's Studies

Description: Focusing on the roles of women in a cross-cultural context, this course introduces the student to the discipline of Women's Studies and serves as a basis for

more specialized courses. It treats such issues as women in the family, workplace, and community; images of women in the arts, professions and popular culture; and women's contributions in a variety of fields.

SUNY GE-SDES, SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, PLDI, WESH

Offered: Fall, Spring, Summer

Credit Hours: 3

Department: English

WST 105 - Gender in Popular Culture

Description: Popular culture portrays a range of femininities and masculinities which influence our sense of who we are as men and women. In this course we will look at material from a wide range of gender constructions-in texts; in Hollywood, independent, and foreign films; in television shows and commercials; in cartoons, graphic art and video games; in music videos; and/or on the Internet in social networking sites like Facebook and Twitter. Using a variety of critical and theoretical approaches, we will examine how pop culture representations of gender reflect social conditions, how they construct social possibilities, and how they change over time.

SUNY GE-SDES, SHUM; SUNY GEN ED-n/a; NCC GEN ED-HUM, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: English

WST 107 - The Philosophy of Sex & Gender

Prerequisites: ENG and RDG Remedials completed.

Description: (Dual listed with PHI 107) Many people distinguish males and females along two different dimensions: biological endowment and social role. The first dimension is labeled 'sex', the second 'gender'. This course examines the nature and development of the sex-gender distinction, its application to issues surrounding sexual equality, as well as contemporary challenges to the distinction that arise within conversations regarding intersexuality and transgenderism. The course also explores the intersection between sex, gender, and sexual desire. SUNY GE-SDES, SHUM; SUNY GEN ED-GHUM; NCC GEN ED-HUM, PLDI

Offered: Fall and Spring

Credit Hours: 3

Department: English

WST 110 - The Goddess in World Religions

Description: This course will explore the images of the Goddess in world religions such as Judaism, Christianity, Islam, Hinduism,

Buddhism, Taoism, traditional African religions, and Native American traditions. It will look at both iconography and literary texts to examine how the Goddess as a representation of the Divine affects women's spirituality and the larger culture.

SUNY GE-SDES, SHUM; SUNY GEN ED-n/a; NCC GEN ED-GLNW, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: English

WST 201 - Women's Issues in Global Context

Description: This course explores some of the major issues that affect women around the world. It focuses on the global labor force, reproductive rights, gay and lesbian politics, sexual identity, and education in Asia, Africa, Latin America, Europe, and the United States. Students will learn how women's experiences affect law and politics and how local conditions (here and elsewhere) intersect with global concerns and movements. Particular emphasis will be placed on goals and accomplishments of women's grassroots activism in many cultures.

SUNY GE-SDES, SHUM; SUNY GEN ED-GOWC; NCC GEN ED-GLNW, PLDI

Offered: Fall, Spring

Credit Hours: 3

Department: English
